Re: Quarterly Performance Data Report to U.S. Treasury, for period ending March 31, 2014

Attached please find a copy of the Quarterly Performance Data Report, for the period ending March 31, 2014. This report reflects the homeowner characteristics, results and outcomes for the Keep Your Home California (KYHC) Hardest Hit Fund (HHF) program.

The report describes several important milestones and accomplishments for the KYHC-HHF Program.

The Principal Reduction Program (PRP) showed a marked improvement in the following key areas:

- The PRP transaction pipeline continues to show steady improvement. Servicer participation has grown 25% in the last year with the addition of 52 new registered servicers since Q1 2013. The most popular utility continues to be the Recast, which enables a homeowner to obtain an affordable payment and reduce the total debt associated with their first mortgage without use of a loan modification.
  - Of the 591 approved PRP transactions for the quarter, 383 were loan recast transactions comprising 65% of the total approved PRP transactions for the quarter.
- For the quarter, approved PRP transactions (includes Recast, Modification and Curtailment utilities) resulted in the reduction of the median property loan-to-value from 150% to 114%. The median monthly payment was reduced \$308 per month, from \$1,527 to \$1,254; an almost 20% reduction. The median homeowner debt-to-income ratio was also reduced from 38% to 31%.
- PRP Curtailment volume grew this quarter with 40 approved transactions; 12 units in January and 14 units in February and March, respectively. This compares favorably to the five (5) approved transactions in December 2013. The PRP Curtailment utility is designed to help homeowners with investor and/or loan restrictions that prevent a loan recast or modification. The PRP Curtailment enables the homeowner to reduce what they owe on their first mortgage loan to an appropriate level of debt.

The following chart contains specific pre and post assistance metrics for each of the three PRP utilities – Recast, Modification and Curtailment for Q1 of calendar year 2014. Because the three PRP utilities are subsets of the total PRP transactions reported in the Quarterly Performance Report, the per-utility details provided here differ from the total PRP production.

**Principal Reduction Program (PRP) Q1 2014**

	Recast			Curtailment			Modification (2)		
	Pre Assistance	Post Assistance (3)	Change	Pre Assistance	Post Assistance (3)	Change	Pre Assistance	Post Assistance (3)	Change
Median Principal Balance (1)	\$276,233	\$205,626	-\$70,607	\$269,592	\$170,429	-\$99,163	\$297,256	\$237,219	-\$60,037
Median Monthly Payment	\$1,514	\$1,234	-18%	\$1,363	\$1,363	0%	\$1,749	\$1,328	-24%

Homeowners Approved	383			40			168		
Homeowners Approved	65%			7%			28%		

(1) Median Principal Balance Change includes the impact of KYHC assistance and investor forbearance.

(2) Post Assistance Principal Balance involving a loan modification includes impact of investor match and/or forbearance in addition to KYHC assistance. Median assistance reflects only KYHC’s PRP contribution.

(3) Post assistance results for each PRP utility are acquired from servicer reports that are provided to KYHC on a flow basis. As a result, post-assistance results may not capture the entire population of the pre-assistance data reported for all approved homeowners.

One hundred thirteen (113) of the one hundred sixty eight (168) PRP modification transactions approved this quarter (i.e., 67% of the total) combined PRP with HAMP loan modifications.

Additional areas of interest:

- Program administration expenses, as a percentage of benefit assistance dollars provided for the quarter and from program inception, were 6.9% and 12.3% respectively. The program administration expense ratio is expected to continue to decrease (improve) over time because the majority of the costs associated to build the program have been invested and the amount of benefit assistance dollars provided will continue to increase. CalHFA MAC’s overall, targeted administrative budget for the program is 7.5%.
- Unique homeowners receiving assistance in the quarter and from program inception were 3,933 and 37,275, respectively. The total number of homeowners projected to receive assistance

from KYHC programs is expected to remain stable or grow (based on program) in future calendar 2014 quarter results. As a result of improvement in California’s unemployment rate (9.2% in March 31, 2013 compared to 8.1% in March 31, 2014) KYHC anticipates a small decline in the total number of homeowners who receive assistance from the Unemployment Mortgage Assistance program. This modest reduction will be offset by continued growth in the Principal Reduction and Mortgage Reinstatement Programs.

The following charts contain comparisons of the quarterly production of Q1 2014 versus Q4 2013 and Q1 2014 versus Q1 2013. This data illustrates the steady growth in production achieved.

- UMA approved applicants for the quarter and from program inception were 3,027 and 30,342, respectively. Program to date, twenty two (22) percent of UMA homeowners ended their assistance as a result of becoming re-employed.
  - The percentage of homeowners who ended their UMA assistance as a result of becoming re-employed for the quarter increased to 37.0%. Almost eleven percent (10.5%) of the homeowners who became re-employed this quarter did so between the ninth and twelfth months of unemployment.
- MRAP approved applicants for the quarter and from program inception were 736 and 5,542, respectively. Ninety three (93) percent of all MRAP approved applicants received assistance as a pure reinstatement. Seven (7%) percent received assistance in conjunction with a loan

modification that helped reduce or eliminate arrearages and loan expenses that would have been capitalized (added) to the unpaid principal balance before the loan was modified to achieve an affordable payment.

- Overall, ninety nine (99) percent, ninety eight (98) percent and ninety one (91) percent of the homeowners still own their homes 6, 12 and 24 months after receiving KYHC assistance, respectively. Of the five hundred ninety (590) homeowners that no longer own their homes 24 months after receipt of KYHC assistance, one hundred (100) were due to a sale, one hundred thirty eight (138) were due to a short sale and seventeen (17) were due to foreclosure. KYHC recovered \$2,156,539.26 or 29% of total assistance provided to the homeowners that no longer remained in their home 24 months after receiving assistance.
- Seventy six (76) percent of homeowners who received KYHC benefits since program inception are below eighty (80) percent of the area median income (AMI) for their county of residence.

As of the date of this report, the following chart provides year-over-year information on total and by-program servicer participation levels and growth from March 2013.

The following tables provide summaries of the statistical reporting data for U.S. Treasury including explanations of trends and program results.

**Homeowners Assisted by Program**

Through March 31, 2014, thirty seven thousand two hundred seventy five (37,275) unique homeowners have received assistance from KYHC. Two thousand six hundred fifty five (2,655) homeowners have received secondary assistance from KYHC including one thousand seven hundred five (1,705) homeowners that received UMA program assistance more than once, three (3) homeowners received additional MRAP program assistance, one (1) homeowner received additional PRP program assistance and nine hundred forty (940) homeowners who received assistance from a unique, second KYHC program. A breakdown by program of homeowners assisted, assistance provided to date and remaining assistance committed is illustrated in the following chart.

<b>Program</b>	<b>Homeowners</b>	<b>Assistance Provided To Date</b>	<b>Remaining Commitment*</b>
Unemployment Mortgage Assistance (UMA)	30,342	\$360,855,285	\$85,858,921
Mortgage Reinstatement Assistance Program (MRAP)	5,542	\$72,782,719	\$0
Principal Reduction Program (PRP)	3,450	\$196,974,631	\$0
Transition Assistance Program (TAP)	563	\$2,109,090	\$0
Community Second Mortgage Principal Reduction Program	33	\$539,210	\$0
<b>Total</b>	<b>39,930</b>	<b>\$633,260,934</b>	<b>\$85,858,921</b>
* Remaining Commitment consists of scheduled assistance to homeowners contingent on homeowner remaining unemployed.			

Included in the amounts shown above, are approved homeowner transactions whose assistance was temporarily suspended by KYHC. An example of an approved but temporarily suspended transaction is a loan that is service transferred before the assistance has been paid to the original servicer. These transactions require special review and handling while the new servicer information is obtained. As of March 31, 2014, forty one (41) homeowners had their assistance temporarily suspended; thirty nine (39) were for the UMA program, one (1) for the MRAP program and one (1) for the PRP program for a grand total of \$408,987.51 in suspended assistance.

**Withdrawn Applications (1)**

As of March 31, 2014, forty two thousand thirty eight (42,038) homeowners were reported as withdrawn.

<b>Program</b>	<b>Count</b>
Unemployment Mortgage Assistance (UMA)	15,094
Mortgage Reinstatement Assistance Program (MRAP)	17,541
Principal Reduction Program (PRP)	9,011
Transition Assistance Program (TAP)	392
Community Second Mortgage Principal Reduction Program	0
<b>Total</b>	<b>42,038</b>

(1) There are two types of withdrawn applications; active and passive. An active withdrawal is when a homeowner or servicer formally requests a withdrawal from program assistance or the homeowner refuses to sign CalHFA MAC or servicer’s required documents. A passive withdrawal is when the homeowner fails to provide CalHFA MAC with some or all of the required documents within the allowed timeframe and is non-responsive to our attempts to collect the required documents.

**In Process Homeowners**

As of March 31, 2014, a total of 6,403 homeowners were in the active pipeline, pending program eligibility determination, for one of the four KYHC programs. A breakdown by program of homeowners “In Process” is provided in the following chart.

<b>Program</b>	<b>Count</b>	<b>% of Pipeline</b>
Unemployment Mortgage Assistance (UMA)	1,653	25.8%
Mortgage Reinstatement Assistance Program (MRAP)	2,767	43.2%
Principal Reduction Program (PRP)	1,875	29.3%
Transition Assistance Program (TAP)	107	1.7%
Community Second Mortgage Principal Reduction Program	1	0.0%
<b>Total</b>	<b>6,403</b>	<b>100.0%</b>

**Transaction Processing Time**

The chart below reflects the quarter ending March 31, 2014 and program-to-date transaction processing times (in days) for each program. The median processing time increased from the prior quarter for all programs as a result of a CalHFA MAC policy change which extended the number of days homeowners are provided to return required documents. Note the median days to process MRAP and PRP transactions are extended greatly when assistance is combined with a loan modification. These transactions require the homeowner to complete a trial payment plan which increases the time to approve and fund a transaction by an additional three to four months.

CalHFA MAC continually monitors processing time performance to ensure that homeowners obtain the assistance they need in a timely and efficient manner.

<b>Program</b>	<b>Current Quarter</b>	<b>Program To Date</b>
Unemployment Mortgage Assistance (UMA)	37	38
Mortgage Reinstatement Assistance Program (MRAP)	83	69
Principal Reduction Program (PRP)	76	105
Transition Assistance Program (TAP)	67	56
Community Second Mortgage Principal Reduction Program	114	108
<b>Weighted Average Median Processing Time</b>	<b>50</b>	<b>48</b>
* MRAP and PRP transactions when combined with a formal loan modification have an elongated processing timeframe. KYHC funds are disbursed to the servicer after the homeowner has successfully completed their trial payment plan and are ready to convert to their permanent modification.

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to Bank of New York Mellon. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to Bank of New York Mellon must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 15th of the month following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.
