1 BE IT REMEMBERED that on Thursday, September  
2 10, 2015, commencing at the hour of 10:00 a.m., at the  
3 Burbank Airport Marriott Hotel & Convention Center, 2500  
4 Hollywood Way, Burbank Room, Burbank, California, before  
5 me, YVONNE K. FENNER, CSR #10909, RPR, the following  
6 proceedings were held:

7 --o0o--

8 CHAIRMAN JACOBS: All right. It's 10:00 o'clock.  
9 Let's get started, calling to order this meeting of the  
10 California Housing Finance Agency Board of Directors.

11 JoJo is passing around parking validations and  
12 other such things. But -- is it working?

13 --o0o--

14 **Item 1. Roll Call**

15 CHAIRMAN JACOBS: All right, let's do a roll  
16 call. JoJo, I can help you call roll, if need be.

17 Tim Schaefer.

18 MR. SCHAEFER: Present.

19 CHAIRMAN JACOBS: AnaMarie Avila Farias.

20 MS. AVILA FARIAS: Present.

21 CHAIRMAN JACOBS: Tiena Johnson-Hall is not here  
22 but will be joining us later.

23 Jonathan Hunter.

24 MR. HUNTER: Here.

25 CHAIRMAN JACOBS: Dalila.

1 MS. SOTELO: Here.  
2 CHAIRMAN JACOBS: Secretary Caballero.  
3 MS. CABALLERO: Here.  
4 CHAIRMAN JACOBS: Matthew Jacobs, here.  
5 Tia Boatman Patterson.  
6 MS. BOATMAN PATTERSON: Here.  
7 CHAIRMAN JACOBS: Michael Gunning.  
8 MR. GUNNING: Here.  
9 CHAIRMAN JACOBS: Janet Falk.  
10 MS. FALK: Here.  
11 CHAIRMAN JACOBS: Preston Prince.  
12 MR. PRINCE: Here.  
13 CHAIRMAN JACOBS: Theresa Gunn.  
14 MS. GUNN: Here.  
15 CHAIRMAN JACOBS: Laura Whittall-Scherfee.  
16 MS. WHITTALL-SCHERFEE: Here.  
17 CHAIRMAN JACOBS: Great. We got everybody --  
18 we've got a quorum.

19 --o0o--

20 **Item 2. Approval of the minutes of the July 14, 2015**

21 **Board of Directors meeting**

22 CHAIRMAN JACOBS: Let's go through to the minutes  
23 from July 14th. Did anyone have any edits on the  
24 minutes? Any items?

25 Do we have a motion to approve the minutes?

1 MR. PRINCE: I'll move.  
2 CHAIRMAN JACOBS: So moved.  
3 MS. CABALLERO: Second.  
4 CHAIRMAN JACOBS: Second, okay.  
5 (Reporter interrupted for clarification.)  
6 CHAIRMAN JACOBS: All right. Let's do a roll  
7 call.  
8 MS. OJIMA: Ms. Caballero.  
9 MS. CABALLERO: Aye.  
10 MS. OJIMA: Mr. Schaefer.  
11 MR. SCHAEFER: Aye.  
12 MS. OJIMA: Ms. Gunn.  
13 MS. GUNN: Aye.  
14 MS. OJIMA: Ms. Falk.  
15 MS. FALK: Aye.  
16 MS. OJIMA: Ms. Avila Farias.  
17 MS. AVILA FARIAS: Aye.  
18 MS. OJIMA: Mr. Gunning.  
19 MR. GUNNING: Aye.  
20 MS. OJIMA: Ms. Johnson-Hall is not here.  
21 CHAIRMAN JACOBS: Right.  
22 MS. OJIMA: Thank you.  
23 Mr. Hunter.  
24 MR. HUNTER: Aye.  
25 MS. OJIMA: Mr. Prince.

1 MR. PRINCE: Yes.

2 MS. OJIMA: Ms. Whittall-Scherfee.

3 MS. WHITTALL-SCHERFEE: Abstain.

4 MS. OJIMA: Thank you.

5 Ms. Sotelo.

6 MS. SOTELO: Aye.

7 MS. OJIMA: Mr. Jacobs.

8 CHAIRMAN JACOBS: Aye.

9 MS. OJIMA: The minutes have been approved.

10 CHAIRMAN JACOBS: Great. Thanks, JoJo.

11 --o0o--

12 **Item 9. Discussion of CalHFA financing in support of the**  
13 **Department of Transportation's Affordable Sales**  
14 **Program (postponed)**

15 CHAIRMAN JACOBS: Before I jump into comments and  
16 executive director comments, just there was an item on  
17 the agenda that is going to be pushed off to the next  
18 meeting, just so we can have further chance for  
19 discussion, so if there are any members of the public  
20 here for the discussion of the 710 freeway and the  
21 housing in the -- the Caltrans housing and the  
22 right-of-way for the freeway, it's going to be discussed  
23 at our next meeting. If anyone wants to speak on that  
24 item now, please give us a speaker card. If not, we'll  
25 move on to the agenda.

1 Spanish, so to be safe: Good morning, CalHFA Board  
2 Members, Executive Director Boatman. I would like to  
3 thank you for this opportunity to give you a boots on the  
4 ground update on HomeStrong USA's efforts with the Keep  
5 Your Home California program, which is and continues to  
6 be a great program. I was going to say it was as good as  
7 sliced bread, but I didn't look up to see who would have  
8 associated with that, but the point is it's a great  
9 program, and thank you for that.

10 I was given an opportunity to attend a Keep Your  
11 Home California board meeting in January, and I was  
12 informed by Steve Gallagher -- he is the person in charge  
13 of marketing and external affairs -- some information  
14 that he shared at the board meeting that I'd like to  
15 share with you. In 2014, HomeStrong USA did 3,894  
16 counseling sessions resulting in a 97 percent success  
17 rate of, in essence, people saying this is my situation  
18 and being able to prove it. The 3 percent that didn't  
19 weren't true to the program and didn't supply sufficient  
20 information based on their situation, which is a good  
21 thing.

22 To the chase, the total funding for Keep Your  
23 Home California program agencies was 44 -- I'm not seeing  
24 that number -- 44,000 -- no, \$44,290,439. In essence,  
25 Keep Your Home California through HomeStrong USA has

1 supplied 51 percent of the business to date and  
2 assistance to families -- not to date, but as of 2014.  
3 Year to date today, we have supplied 1,374 families with  
4 assistance to the program.

5 So am I tooting my own horn? Maybe. But in  
6 reality, I passed out the folders, I passed out the  
7 information because I want you to know that HomeStrong  
8 USA is here for the next thing. Whatever you guys want  
9 to do that involves housing, HUD-approved counseling  
10 agencies, you can confirm with Di Richardson and  
11 Ms. Boatman that we're serious about what we do, and  
12 that's helping people and doing the right things for the  
13 right reasons.

14 How's that for not being ready?

15 CHAIRMAN JACOBS: Pretty good.

16 MR. SERBANTES: Any questions?

17 Did I have enough folders? Because if not, I can  
18 send more out. I apologize for that.

19 CHAIRMAN JACOBS: And we can always ask Di.

20 MR. SERBANTES: Absolutely. Thank you again.

21 CHAIRMAN JACOBS: Great to hear and keep up the  
22 collaboration and keep up the good work.

23 MR. SERBANTES: Thank you, sir.

24 --oOo--

25 **Item 3. Chairman/Executive Director comments**

1           CHAIRMAN JACOBS: All right. Before jumping into  
2 the meeting, I just want to thank everybody. This is my  
3 last meeting. My term is ending in a few weeks. And I  
4 really -- it's been an honor to serve this Agency and the  
5 see this Agency get back to health and back in the  
6 business of lending. And you're a great Board. It's  
7 been great getting to know all of you, and I hope to keep  
8 up the work on my end.

9           Tia, comments.

10          MS. BOATMAN PATTERSON: Matt, as the chair of the  
11 Board, has been with us over the last three years. And  
12 he and I both started together on the Board. And I told  
13 him even though he may be leaving the particular -- the  
14 Board, that he's still going to be an adviser and that  
15 we'll still be keeping in touch with him because I think  
16 he's added a lot of value to our Board.

17          And so we will miss you, but we will still be in  
18 touch.

19          CHAIRMAN JACOBS: Thank you.

20          MR. PRINCE: I would like to at least acknowledge  
21 you and thank you, so thank you very much.

22          (Applause.)

23          MR. PRINCE: We're about to move on; I wanted to  
24 jump in.

25          MS. BOATMAN PATTERSON: He's really going to take

1 care of that beautiful little boy.

2 CHAIRMAN JACOBS: And I got to say the staff at  
3 CalHFA has really come through in a pinch and just done  
4 financing and just getting the house in order and just  
5 the lending programs. It's really good to see. And just  
6 the whole analysis top to bottom I think was essential  
7 to establish the future of what this Agency is going to  
8 be, and it's really good work. It's important work and  
9 keep it going.

10 On our agenda we've got a closed session item,  
11 and we've also got -- I think we've got the Woodglen  
12 Vista Apartments loan and then some other various policy  
13 matters. Do we have -- I'm just wondering, would people  
14 be okay if we jumped into the loans early? Would staff  
15 be ready to present now?

16 MS. BOATMAN PATTERSON: If you don't mind, let me  
17 do a quick this, and then we could jump to that, and we  
18 can take that at 11:30. That way it will be a time  
19 certain.

20 CHAIRMAN JACOBS: Perfect, okay. So we're going  
21 to hold the closed session until 11:30 and just keep  
22 going with the public agenda.

23 Director comments, please.

24 MS. BOATMAN PATTERSON: I just wanted to provide  
25 you with an update and take a few minutes to tell you

1 about the Mental Health Services Act Housing Program.

2 The program, as you all know, was created in 2008  
3 and implemented with a memorandum of understanding  
4 between the California Housing Finance Agency and the  
5 former Department of Mental Health and an original  
6 allocation of the Prop 63 funds in the amount of \$400  
7 million. I know this has been a program that has been  
8 near and dear to Board Member Hunter's heart, and so we  
9 wanted to take an opportunity to give you this update.

10 That particular MOU, which we used to implement  
11 that program, expires in May of 2016. And the original  
12 allocation of 400 million is almost completely obligated.  
13 We've got a lot of positive feedback, and so CalHFA began  
14 stakeholder meetings last May to prepare for the  
15 expiration of that MOU and to determine if Mental Health  
16 Services Act partnership with counties could result in a  
17 new program or the continuation of Mental Health Services  
18 Act financing for permanent supportive housing for those  
19 who were at risk of homelessness or homeless with mental  
20 health issues.

21 We anticipate a new MHSA funding from three  
22 counties -- Los Angeles, San Diego and Orange County --  
23 and in the first year, they have come given us a soft  
24 commitment or a commitment of \$32 million. Additional  
25 funding from at least nine other counties will come from

1 transferring or recycling MHSA funds, and we've  
2 determined that the proposed fees generated from the  
3 proposed counties' MHSA housing loan program, that's what  
4 we would be calling MHSA 2.0, would be the county MHSA  
5 housing loan program because it would be a partnership  
6 with the counties as opposed to a partnership with the  
7 State of California because those Prop 63 dollars are  
8 being allocated directly to the counties now.

9 We have restructured some of our fee proposals so  
10 that we could actually pay for that program. As some of  
11 you will recall when we initially took on that program,  
12 it was a loss. We lost money. It was not a -- it was  
13 not adequate enough funding to pay for the staff to run  
14 that program. And so we restructured that, and we've  
15 determined that the proposed fees generated under the new  
16 program would be adequate to cover the agency  
17 administrative costs.

18 We have commenced internal working groups and are  
19 meeting between divisions to continue to work out some of  
20 the implementation of that. The multi-family program and  
21 legal staff are working with the counties to update a  
22 term sheet and have drafted a county participation  
23 agreement.

24 We have initiated discussions with the state  
25 Department of Healthcare Services to determine the

1 process for returning the unencumbered county MHSAs funds  
2 or rolling them over into a new program once the current  
3 MHSAs program ends in May of 2016.

4 We anticipate circulating the term sheet and  
5 participation agreement to the 12 interested counties in  
6 late October and with a request that the counties respond  
7 with a commitment of new MHSAs dollars and agreements to  
8 participate by mid-December.

9 And so I believe we're on track. It looks like  
10 we will be able to continue that program, although a  
11 smaller size, that we'll still be able to offer that  
12 service and those financing options for those counties  
13 that agree to partner with us.

14 So I just wanted to provide you with that update.

15 CHAIRMAN JACOBS: Fantastic. Thank you.

16 Jonathan.

17 MR. HUNTER: Thank you for that report. As you  
18 said, I was actually involved in the development of that  
19 program from the start, and I shared a little bit with  
20 some of the staff last night that it was actually a  
21 really interesting exercise in public policy, when you  
22 have a commitment of funding and you try to put together  
23 a program that will work equally well in Los Angeles  
24 County with 11 million people and Alpine County that only  
25 had 2500 people at the time. And it was an exercise in

1 some frustration.

2 And I think to its credit -- one of the things I  
3 would say is that, to its credit, California Housing  
4 Finance Agency lost money on the deal partly because they  
5 were willing to be so flexible in changing the design to  
6 meet the needs of some of the smaller counties. So we  
7 ended up doing a lot higher percentage of shared housing  
8 deals than typical affordable housing, supportive housing  
9 deals, and that required a lot more time and staff time  
10 and energy. And I just really appreciate the fact that  
11 California Housing Finance Agency was willing to work  
12 actively with the counties going along to try to make it  
13 work as best as possible.

14 I think part of what we learned in that exercise  
15 is that to design a program that works equally well in  
16 Alpine and Los Angeles is an exercise in futility. It's  
17 not going to be that way. And -- but I also know that  
18 they're -- the counties that you've mentioned, part of  
19 what they've learned is this is such an incredible tool  
20 in addressing the needs of some of the most vulnerable  
21 Californians who have been on the street for years and  
22 years and years. And I've had the privilege of meeting  
23 many of the tenants of the MHSA units that are now in  
24 safe and secure homes and getting the services that they  
25 need. And I'm just really glad that we're able to

1 continue the program with counties for whom the  
2 instrument works well.

3 Thank you.

4 MS. BOATMAN PATTERSON: And just as a quick  
5 summary, I think the goal of the original program was to  
6 create at least 2500 Mental Health Services Act units and  
7 leverage it to create an additional 10,000 affordable  
8 housing units, and I can say that we've pretty much met  
9 that goal.

10 CHAIRMAN JACOBS: Fantastic. And the most  
11 important work.

12 --oOo--

13 **Item 6. Report and discussion on CalHFA's policy using**  
14 **Agency-controlled subsidy funds for Multifamily**  
15 **Programs**

16 CHAIRMAN JACOBS: Okay. Let's go to agenda item  
17 number 6 because we're putting 4 and 5 off till 11:30.

18 Tony?

19 MR. SERTICH: Good morning, Mr. Chairman. Good  
20 morning, Board. Thank you for having us here today. We  
21 wanted to give a quick update on our multi-family subsidy  
22 funds policy, which we presented at the last meeting for  
23 comment. And we've finalized it, and we're ready to roll  
24 it out. We just wanted to bring it by the Board and show  
25 you what we have done and the small changes we have made.

1           As we presented last time, we have about \$105  
2 million of subsidy funds waiting to be used. We have  
3 used them on some projects, but we really want to make  
4 this more of a formal policy, and so that is what we have  
5 done. We've tried to take -- we have solicited comments  
6 not only from the Board, but we have gone to our sister  
7 state agencies TCAC and HCD, run it by them. We've also  
8 solicited comments from external stakeholders including  
9 developers and some financial consultant partners that  
10 they work with.

11           So the policy changes that we've made from the  
12 one that you saw in July, we increased the per unit and  
13 total loan -- or total subsidy limits in high cost areas.  
14 Before, it was \$25,000 per unit across the state. We  
15 realized that the needs in the high cost coastal areas  
16 are much different than they would be in some more rural  
17 areas for gap funding.

18           We revised how we've -- the requirement that  
19 we've based on the developers in terms of deferring their  
20 fees to utilize this money. Before we were requiring  
21 just a 50 percent deferral of developer fees. Now we're  
22 requiring a dollar for dollar match up to 50 percent.

23           And we've also added some language on the  
24 required repayment of residual receipt loans into the  
25 policy.

1           Quickly, the -- just a recap of how we're  
2 allocating funds. We're expecting these funds to last at  
3 least three to five years prior to the use of recycled  
4 money coming back into the funds. The -- as I said  
5 before, we actually reduced the limit up to \$20,000 per  
6 unit from \$25,000 per unit in non-high-cost areas, but we  
7 increased them from \$25,000 to \$40,000 a unit in  
8 high-cost areas.

9           How we arrived at these numbers, we did a lot of  
10 analysis, and this is sort of foreshadowing a report that  
11 we'll present to you in November that we had a Ph.D.  
12 student do for us this summer, who worked with us on  
13 taking TCAC data and really analyzing it and seeing what  
14 the gaps needs were across the state on multi-family  
15 projects.

16           So we found that around the state the average gap  
17 needs is about 85-, \$86,000 a unit, but that varies  
18 tremendously by county and region. So in the Bay Area it  
19 was well over a hundred thousand dollars in most  
20 counties. In some more rural areas, foothills outside of  
21 Sacramento and down in the Valley, it's, you know,  
22 \$30,000 a unit.

23           Our money, we don't expect to fill that whole  
24 gap. We expect the locals to come in with some money.  
25 And so we were targeting about -- our money to cover a

1 third to half of the gap needs across the state with the  
2 resources that we have.

3 We also noted that across the state different  
4 counties were providing different levels of support --  
5 I'm sorry, did you have a question?

6 CHAIRMAN JACOBS: Just walk us through sort of  
7 the gaps and how much is based on incomes and how much is  
8 based on just cost of executing the project.

9 MR. SERTICH: So what we looked at, you know --  
10 since we took TCAC data, this is all affordable housing,  
11 rental housing, stock. Looking at -- so there's three  
12 main places of funding for affordable housing projects.  
13 We have the first lien loans. You know, CalHFA provides  
14 those. There are plenty of other banks that provide  
15 first lien loans. Those are based on the amount the  
16 project can sustain in debt service. So that is based on  
17 the rent restrictions that TCAC or others place on the  
18 projects and the interest rates at the time. So we're  
19 able to sort of control for that variable based on the  
20 rent levels of different projects.

21 MS. BOATMAN PATTERSON: Let me interrupt. I  
22 think what he's getting at is if you identify the gap at  
23 what income level. So if you had market rate and then  
24 this gap was coming in, it would get you down to what  
25 income level?

1 MR. SERTICH: I think that's very dependent on  
2 the area, and that's what we're seeing here, because the  
3 other piece that comes in is tax credits. So the income  
4 level -- and that's what we're seeing here, if you go  
5 back a slide, Carr. In San Francisco, the median income  
6 or the market rents are based on, you know, 150 percent  
7 of median income, whereas in some of these other  
8 counties, Kings and Tulare County, the market rents may  
9 be based off of 60 to 70 percent of income. So the  
10 difference, the gap, to get from 70 percent of income to  
11 the tax credit limits of 50 or 60 percent of average  
12 median -- area median income is much less than it would  
13 be in San Francisco where you have to bridge between 50  
14 percent area median income and 150 percent of area median  
15 income.

16 CHAIRMAN JACOBS: Enough variables that we  
17 understand why the Ph.D. was useful.

18 MR. SERTICH: Yeah, that's why we had the Ph.D.,  
19 because it's not quite that simple. But, no, he was very  
20 helpful to us in doing the research, and he did -- there  
21 was a lot of statistical analysis, and he's putting  
22 together a more formal report that we'll present at least  
23 as a report in November that has a lot more detailed  
24 information about the methodology and how this was all  
25 come up with.

1 MS. SOTELO: Well, the analysis of the gap is  
2 also around costs, right, and the cost --

3 MR. SERTICH: Correct.

4 MS. SOTELO: -- of a project in, you know, San  
5 Francisco is very different from El Dorado.

6 MR. SERTICH: Correct. I mean, there's many  
7 variables.

8 So when we present -- so one other thing that we  
9 noted was that these gaps that are present in affordable  
10 housing financing are picked up by counties in very  
11 different ways. There are certain counties, surprisingly  
12 Sacramento -- I shouldn't say surprisingly, but  
13 surprising to us, I guess, was that Sacramento County  
14 actually was funding more of these gaps, a higher  
15 percentage of these gaps, out of local funding than any  
16 other counties statewide. We know that there's certain  
17 counties in the Bay Area that put a lot of money in, but  
18 with the higher costs, it's not as high a percentage.

19 And there's some counties that put no money in,  
20 have put no money into the affordable housing over the  
21 last -- I think this is based on five years of data, TCAC  
22 data. So we were cognizant of that, and we don't  
23 necessarily want to -- we don't want to reward the  
24 counties who don't put money in by coming in and filling  
25 their gaps for that. We want to make sure that this is a

1 collaborative effort, that the locals are involved as  
2 well.

3           Some of the other restrictions that are going to  
4 be placed on the gap, the subsidy money that we put in,  
5 is that we're still requiring it to be tied to a CalHFA  
6 first loan. We've had some pushback on that, but for  
7 cost purposes and for asset management purposes, it's  
8 much cleaner for us if it's tied to a first loan. As  
9 this program moves forward, we may decide to change that,  
10 but for now that's where we're keeping it.

11           The subsidies aren't just going to be publicly  
12 available. They're going to have to come to us, and as  
13 part of the underwriting process we'll determine if the  
14 subsidies are needed for the project.

15           And I know this is a question that we had last  
16 time, but for now we're sticking to the construction of  
17 substantial rehabilitation of projects getting the  
18 subsidies because it's the whole tax credit process and  
19 how that works, it really streamlines the process for us  
20 to make that happen.

21           There are some financial restrictions that we're  
22 placing on the subsidy funds. We're making it so that  
23 equity can't be taken out of the projects prior to  
24 providing the subsidy. We don't want to just be  
25 replacing money that was just taken out of the project.

1 We're going to, as I said before, limit or make  
2 developers defer a portion of their fees equal to the  
3 amount of subsidy that's being provided so that they have  
4 an equal stake in the project as well.

5 And we've added, as I said before, some  
6 documentation of how we want these loans to be repaid as  
7 part of the residual receipts process and cost savings  
8 process.

9 If there's any more questions, I'm more than  
10 available.

11 CHAIRMAN JACOBS: Ms. Sotelo.

12 MS. SOTELO: I apologize I wasn't here for your  
13 presentation in July. I just had a couple of questions.

14 First, I think it's an excellent plan to tie the  
15 subsidy to a first lien from CalHFA. I think that while  
16 it's a nice program and a good amount, the reality is  
17 that it's not enough, and so we might as well prioritize  
18 the use of our product with the subsidy that we make  
19 available, so I think that's very good.

20 I had a few other questions, two other questions,  
21 but on the underwriting process, do you tie that to the  
22 TCAC underwriting process and the HCD guidelines or --

23 MR. SERTICH: No, we --

24 MS. SOTELO: -- are these CalHFA --

25 MR. SERTICH: It's CalHFA's underwriting

1 guidelines, which at this point with our risk share  
2 program is -- is our risk share underwriting guidelines  
3 that we have agreed to with HUD.

4 MS. SOTELO: Okay. And have you done just a  
5 quick analysis of how it compares to HCD or TCAC?

6 MR. SERTICH: Yeah, I know that we're in -- both  
7 HCD and TCAC are in the process of redoing their regs,  
8 and we've been in discussions with them and are working  
9 closely with them to make sure that our program is not  
10 out of line with what they have.

11 MS. SOTELO: Yeah, I would just recommend that we  
12 continue to kind of align some fundamentals because the  
13 subsidy that's being provided here is likely not enough,  
14 and they'll have to seek other kinds of funding.

15 And then with regard to the developer fee, I  
16 guess I have two questions. Is there an exception for  
17 nonprofit-owned properties versus for-profit-owned  
18 properties? And then can you tell me a little bit about  
19 why the dollar for dollar match of the 2.5 and the 3.5  
20 million dollars?

21 MR. SERTICH: Sure.

22 MS. SOTELO: What was the logic of doing that?

23 MR. SERTICH: Sure. The answer to your first  
24 question is no, there's not -- we're treating for profits  
25 and nonprofits the same currently.

1           The idea between the dollar for dollar match is  
2 we thought if there was a -- let's just say there was a  
3 \$2 million gap in funding. After the locals came in,  
4 everything, we have \$2 million left. We would want the  
5 developer to put -- we've talked on the single-family  
6 side of having skin in the game. It's not -- they always  
7 have skin in the game, but we thought if we would require  
8 them to put a million dollars in and we would come in  
9 with a million dollars, that that was reasonable. On the  
10 waterfall that we have put together, we do put the  
11 deferred developer fee on top of the residual receipts  
12 waterfall above us for the most part, so we fully expect  
13 them to get paid back.

14           As part of the underwriting process if there was  
15 a place where they may not get paid back, we would have  
16 to look at that much more closely and see how that would  
17 work. And we would have the ability to make exceptions  
18 if necessary, but that was the thinking behind it.

19           MS. SOTELO: So this may be a little bit too in  
20 the weeds, and I'm happy to talk to staff afterwards,  
21 but, you know, there's a very real correlation between  
22 the amount of basis you can generate from putting in a  
23 developer fee and what's real versus not real.

24           MR. SERTICH: We understand.

25           MS. SOTELO: And so, you know, what you don't

1 want to do is you don't want to encourage people to do  
2 the not-real calculation. You want to --

3 MR. SERTICH: No, of course.

4 MS. SOTELO: -- do a real analysis of how much  
5 developer fee can and should be earned on a transaction  
6 like this. And I would just argue that with nonprofits,  
7 it's important to sustain nonprofits. And oftentimes  
8 nonprofits are only -- they're only able to sustain and  
9 grow as an organization if they use their assets to, you  
10 know, recapitalize their assets and kind of move forward.  
11 So I would like to -- it's too late to do this right now  
12 because this program is final, but I would ask that staff  
13 take a look at maybe making an exception for nonprofits  
14 who actually need to pay staff and to survive as an  
15 organization, and these projects are really one of the  
16 only vehicles for them to actually be able to do that.

17 MR. SERTICH: No, thank you. You're not the only  
18 member who has --

19 CHAIRMAN JACOBS: MS. Falk.

20 MS. FALK: Yeah, thank you, Dalila, for bringing  
21 that up. We had a -- I raised that at the last meeting,  
22 and I was very concerned about the 50 percent fee,  
23 particularly for nonprofits. And I think that by -- you  
24 know, you've tried to change it. I don't think you've  
25 really changed it. Because, you know, if we look at, as

1 an example, the two projects that are before us today,  
2 their developer fee was in one case two million, in the  
3 other case two and a half million. So that means that if  
4 they take more than a million dollars from this program,  
5 they're 50 percent of their fee. And we were talking at  
6 the last time trying to make it if they have -- if we are  
7 going to require that, which I'm not totally comfortable  
8 that, it should be something less than 50 percent.

9 So I'm still really -- so it wouldn't take very  
10 much of a subsidy from CalHFA to require the 50 percent  
11 of the developer fee. And as Dalila said, the  
12 developers, particularly the nonprofits, really depend on  
13 that money to sustain themselves. They have no other  
14 source of funding. So I'm not comfortable with this.

15 CHAIRMAN JACOBS: Ms. Johnson-Hall. By the way,  
16 let the minutes reflect that Ms. Johnson-Hall has joined  
17 the meeting.

18 MS. OJIMA: Thank you.

19 MS. JOHNSON-HALL: I have to underline and  
20 highlight this particular element, which is the developer  
21 fee. Coming from the nonprofit world, I know how  
22 critical these developer fees are, and I agree with both  
23 of the Board members who have spoken up that this is a  
24 critical -- I think we need to revisit this. I just  
25 absolutely cannot support this without us really taking a

1 look at this and understanding the realities of what  
2 developers -- nonprofit developers have to deal with  
3 versus other types of developers. That is a real  
4 reality.

5 And as I think about it, most of the transactions  
6 that I have reviewed since I've been on the Board have  
7 come from nonprofit developers, with maybe one or two  
8 exceptions. So we just need to understand who our  
9 customer is a little better and recognize that this is  
10 important to them; therefore, it's important to us.

11 I also want to -- I know you had mentioned that  
12 this program is focused on substantial rehab and new  
13 construction. Can you just -- are there other programs  
14 available to address more moderate rehab?

15 MR. SERTICH: Yeah, we've actually just in the  
16 last couple months released a new program that will deal  
17 with non-substantial rehab that's going to be -- it's our  
18 program that we have in conjunction with HUD and the U.S.  
19 Treasury that is going to provide low interest rate loans  
20 on non-substantial rehab projects.

21 In general, part of the reason -- I should get in  
22 a little deeper -- that we're not providing -- this  
23 subsidy is not available to them currently, not only it's  
24 a limited pot for sure, but in general most of the gap  
25 needs come from the rehab itself or the new construction,

1 the costs, if the project's already been built and  
2 doesn't need substantial rehab, either has some subsidy  
3 in place or it doesn't have the added costs of the rehab  
4 usually. Now, the exception for that in here would be is  
5 if we have a portfolio project that needs some help on a  
6 workout, something happened, it ran through its  
7 replacement reserves or something, then we could -- we  
8 would be able to subsidize it with these subsidy funds.

9 But for outside deals that don't need substantial  
10 rehab, we're not going to bring them into the portfolio  
11 with -- the plan is not to bring them into the portfolio  
12 and use subsidy funds to work through that, but we do  
13 have a program that will be -- we think -- we're very  
14 excited about that will provide low cost funding for  
15 non-substantial rehab, non-tax-credit deals.

16 MS. JOHNSON-HALL: Thank you.

17 CHAIRMAN JACOBS: Tia?

18 Oh, go ahead.

19 MR. HUNTER: Yeah, I have a question about the  
20 developer fees. My understanding is that they're not --  
21 they don't go away. They're deferred. So how is it that  
22 they're captured over time, and do they have priority in  
23 the residual receipts?

24 MR. SERTICH: Yes.

25 MR. HUNTER: So I guess a couple of things. One

1 is that it seems to me that softens somewhat the impact  
2 on any organization because if they -- it requires them  
3 to carefully underwrite the deal to make sure that they  
4 have sufficient cash flow, operating income, to recapture  
5 that fee that's deferred.

6 MS. JOHNSON-HALL: I'm sorry, I'm not sure if  
7 they always have priority. This is Tiena Johnson-Hall  
8 again. If you bring on a conventional lender, they're  
9 going to automatically drop in the waterfall. And a lot  
10 of these deals will need conventional debt in order to  
11 have sufficient dollars to get through.

12 MR. SERTICH: Well, it will be our debt and maybe  
13 other local debt, is the goal here. In general, most of  
14 our deals don't have conventional debt if we're the first  
15 lender on them.

16 MR. PRINCE: We're the first lender.

17 MS. JOHNSON-HALL: We're the first lender.

18 MR. PRINCE: Yeah.

19 MS. JOHNSON-HALL: Okay. So I guess this gives  
20 them some level of protection.

21 MS. FALK: But if there are substantial other  
22 sources of money in there like city, county, they're  
23 going to want to be --

24 MS. JOHNSON-HALL: Priority.

25 MS. FALK: -- paid back, at least pro rata. And

1 it's a dribble what comes back as the developer fee, or  
2 it's 10, 12 years out before they get it.

3 MS. JOHNSON-HALL: And you have to demonstrate  
4 that --

5 MS. FALK: Yeah.

6 MS. JOHNSON-HALL: -- you can actually get it  
7 paid from cash flow --

8 MS. FALK: But it's still over a fairly long  
9 period of time when, you know, the nonprofit has put up  
10 all their costs of developing the -- doing the rehab and  
11 everything, you know, right at the time that it occurs.

12 MS. BOATMAN PATTERSON: We have been sitting on  
13 these funds for a long time. And to come up with a  
14 program that is going to work well with our money in  
15 first position and to roll out and to do the data to show  
16 what are the gaps in California, it's a demonstration.  
17 And I think we as staff will be open to continuing to  
18 look at those, but I think what we wanted to do is we  
19 wanted to get the program up and running. We wanted to  
20 have some demonstration, some measures as to is this  
21 working, is this not working. We want to be able to have  
22 the flexibility to go back and look at that. But I think  
23 what staff has done by moving the deferred fee in front  
24 and so that the developer would get paid, I think it's  
25 kind of a moderate step.

1           And so I believe what we want to do is we want to  
2 see how this is working. And we do commit to coming back  
3 to you all, because we understand. We've heard you very  
4 loud and clear that the developer fee is important to  
5 certain organizations, to make sure that they are able to  
6 continue to stay in business and sustain themselves. And  
7 we're not in any way -- we view the developers as our  
8 partners. We're not in any way trying to limit their  
9 ability to sustain themselves, but we do want to make  
10 sure that we're keeping as much money as we can into  
11 affordable housing and that we're stretching these  
12 dollars and being as efficient as we can with these  
13 dollars.

14           So we commit to come back and continue to report  
15 on that. And if some modifications need to be made,  
16 we're willing to look at that.

17           MS. SOTELO: I would be happy to support the  
18 program with a modification and a motion that would read  
19 that for nonprofit partners and developers, the deferred  
20 fee not be 50 percent, that it be, rather, 25 percent and  
21 then have you look at that and test that and figure out  
22 whether that creates an issue.

23           MR. SERTICH: Yeah, just to be clear, it's not a  
24 50 percent --

25           CHAIRMAN JACOBS: We don't have an item.

1 MR. SERTICH: -- dollar solution. It's up to 50  
2 percent.

3 (Reporter interrupts for clarification.)

4 CHAIRMAN JACOBS: We don't have a resolution  
5 before us today, but --

6 MR. SERTICH: I just -- it's up to 50 percent, so  
7 we expect for the most part a lot of gap loans to be  
8 less, less than a million dollars, so it would be under  
9 50 percent deferred, but in some cases it could be up to  
10 50 percent --

11 MS. SOTELO: So then --

12 MR. SERTICH: -- if the gap loan's pretty large.

13 MS. SOTELO: Then the mechanism that you would  
14 modify is not the 50 percent; then you say it's a dollar  
15 for dollar match. What you would do is -- again, there's  
16 no resolution so I can't make a motion, but what I would  
17 recommend in the program is that you look at eliminating  
18 the dollar for dollar match requirement for nonprofit  
19 organizations, and that way you have a little bit more  
20 discretion in terms of how much fee is deferred versus  
21 how much loan is provided.

22 CHAIRMAN JACOBS: Let's maybe have an offline  
23 discussion with the working group of the nonprofit  
24 developers and bring this back.

25 MR. SERTICH: We can definitely do that. We'll

1 continue this discussion.

2 CHAIRMAN JACOBS: One final comment.

3 MR. HUNTER: And I would just -- yeah, the final  
4 comment was just going to be it would be really helpful  
5 to see a deal, to see the numbers in a deal --

6 MS. SOTELO: Get the money out.

7 MR. HUNTER: -- and really look at how they work.

8 MR. SERTICH: And we've been doing that  
9 internally, but we can definitely bring that to the  
10 larger group as well.

11 CHAIRMAN JACOBS: All right. Gentlemen, thank  
12 you.

13 MR. SERTICH: Thank you. Thank you for all your  
14 comments.

15 --o0o--

16 **Item 7. Discussion, recommendation and possible action**  
17 **adopting a resolution to amend and restate**  
18 **Resolution 94-10 modifying multifamily loan**  
19 **processing procedures (Resolution 15-16)**

20 CHAIRMAN JACOBS: All right. The next item we've  
21 got, this is a streamlining item, I think. Item No. 7 is  
22 a resolution. Who is -- oh, you're staying up here.

23 MR. SERTICH: Yeah.

24 CHAIRMAN JACOBS: Okay.

25 MR. SERTICH: So as the chairman said, this is

1 more of a streamlining resolution. A little background,  
2 in the past -- we have two resolutions that we work with  
3 in terms of providing commitments to borrowers, one --  
4 they were both passed out to you I think separately  
5 outside of the Board package. One is Resolution 94-10,  
6 which provided constraints on the Agency's initial  
7 commitments, which would be well before we come to the  
8 Board. It's really when we take the loan to CDLAC, what  
9 restraints -- what constraints we had on those loans.

10 One of the major constraints that we were -- that  
11 Resolution 94-10 called for was a maximum loan amount of  
12 25 million for the loan not being -- having to come to  
13 the Board prior to initial commitment.

14 The other resolution that we are constrained by  
15 is -- I shouldn't say "constrained," but that we live  
16 under is Resolution 01-37, which gives authority for  
17 staff to -- or for the executive director to approve  
18 loans under \$4 million. Any loan over \$4 million has to  
19 come to the Board for approval, as we will see under the  
20 next Board item with two loans coming to you for  
21 approval.

22 The issue before us is really about Resolution  
23 94-10 on the initial commitment, this \$25 million limit  
24 for initial commitment. We thought -- well, two reasons.  
25 One, we think that that is very -- it slows up -- if we

1 had to come to you for every loan over \$25 million, it  
2 would really slow down the process. We'd have to come to  
3 you before CDLAC and then for final approval as well.  
4 And, honestly, we have done -- this resolution got lost  
5 in everyone's minds. I'm not sure what happened, but we  
6 have not been coming to you for approval for loans over  
7 \$25 million before initial commitment.

8 MS. BOATMAN PATTERSON: This is cleanup.

9 MR. SERTICH: So we wanted to present a new  
10 resolution to you replacing 94-10, saying that for  
11 initial commitment the executive director has authority  
12 to approve loans as long as the loan terms and  
13 requirements are those of a prudent lender. Any loan  
14 over \$4 million will continue to be brought to the Board  
15 for final approval before final commitment. This really  
16 just streamlines the CDLAC approval, the CDLAC process,  
17 the initial commitment process and lets us move forward  
18 with loans without bringing them to Board.

19 CHAIRMAN JACOBS: Any thoughts or questions?

20 MS. SOTELO: So -- this is Dalila -- the Board  
21 would still have final approval rights.

22 MR. SERTICH: Correct.

23 MS. SOTELO: But just not before it goes in for  
24 CDLAC application.

25 MS. BOATMAN PATTERSON: This is really cleanup.

1 Pattern and practice is I've been approving initial  
2 loans, initial commitments, going to CDLAC and then  
3 coming to you for final approval. This is just cleanup  
4 of pattern and practice and making sure that we're doing  
5 what we're supposed to do. So it would allow me to do  
6 initial commitments and then still come to you for final  
7 approval. And so this is just literally legitimizing our  
8 pattern and practice that we've already been doing.

9 CHAIRMAN JACOBS: Would it be helpful if you had  
10 a two-person or a three-person committee of the Board to  
11 review initial loan applications quickly? No?

12 MS. BOATMAN PATTERSON: No.

13 CHAIRMAN JACOBS: Okay.

14 MS. SOTELO: It would slow it down.

15 CHAIRMAN JACOBS: Slow it down too much?

16 Mr. Hunter.

17 MR. HUNTER: I would move adoption of Resolution  
18 15-16.

19 CHAIRMAN JACOBS: Do we have a second?

20 MS. SOTELO: I'll second it.

21 CHAIRMAN JACOBS: JoJo.

22 MS. OJIMA: Thank you.

23 Ms. Caballero.

24 MS. CABALLERO: Aye.

25 MS. OJIMA: Mr. Schaefer.

1 MR. SCHAEFER: Aye.  
2 MS. OJIMA: Ms. Gunn.  
3 MS. GUNN: Aye.  
4 MS. OJIMA: Ms. Falk.  
5 MS. FALK: Aye.  
6 MS. OJIMA: Ms. Avila Farias.  
7 MS. AVILA FARIAS: Aye.  
8 MS. OJIMA: Mr. Gunning.  
9 MR. GUNNING: Aye.  
10 MS. OJIMA: Ms. Johnson-Hall.  
11 MS. JOHNSON-HALL: Aye.  
12 MS. OJIMA: Mr. Hunter.  
13 MR. HUNTER: Aye.  
14 MS. OJIMA: Mr. Prince.  
15 MR. PRINCE: Yes.  
16 MS. OJIMA: Ms. Whittall-Scherfee.  
17 MS. WHITTALL-SCHERFEE: Aye.  
18 MS. OJIMA: Ms. Sotelo.  
19 MS. SOTELO: Aye.  
20 MS. OJIMA: Mr. Jacobs.  
21 CHAIRMAN JACOBS: Aye.  
22 MS. OJIMA: Resolution 15-16 has been approved.  
23 CHAIRMAN JACOBS: Great. Thank you.  
24 MR. SERTICH: Thank you.  
25 CHAIRMAN JACOBS: Thanks, Toni.

1 report. The dollar amount for the permanent financing is  
2 listed as \$25,265,000. That should be read \$25,940,000.  
3 That is what's in your Board report, and that's what  
4 should be on the resolution.

5 Thank you, Ms. Scherfee.

6 And so that said, Ruth will begin her  
7 presentation commencing with Woodglen Vista.

8 MS. VAKILI: Good morning.

9 Woodglen Vista is a project that is a hundred  
10 percent affordable family project, and it was built in  
11 1978. It's located in Santee, which is a bedroom  
12 community in San Diego County.

13 Can everybody hear me well enough? No? Okay.

14 The project is 188 units, family housing with  
15 mixes of one-, two- and three-bedroom units, so you have  
16 a mix of large family, some seniors, just a general mix  
17 of population in this project.

18 You can see from the slides and the previous one  
19 that it's a rather large site and fairly well spread out.  
20 It's a lot of grass. It's got a nice pool, community  
21 room, a gazebo, play area, a laundry room.

22 The project was built in '78, and it was acquired  
23 by an affiliate of Jamboree Housing in 2004. So at this  
24 point the project requires some upgrades. And as you can  
25 see from the typical kitchen, it's a little bit outdated.

1 The interior upgrades will include new paint, window  
2 blinds, replacement of appliances, countertops, cabinets  
3 and replacement of the bath elements, new HVAC systems  
4 and community room upgrades.

5 The exteriors will include replacing roofs,  
6 stucco repair, duct repairs as necessary and exterior  
7 paint.

8 In addition, there's a great deal of improvement  
9 to be done to the landscaping, which will take out all of  
10 this beautiful golf course lawn and replace it with the  
11 drought tolerant landscaping plan, water efficient  
12 irrigation. And with the efforts that they're putting  
13 in, it will lead to 65 percent savings in the water  
14 usage.

15 The rehab budget for the project is nearly \$8  
16 million, which is just over 42,000 per unit, which is  
17 substantial. The budget has contingency for hard cost  
18 changes of 18 percent. So going into the project, we  
19 have good coverage and a decent budget to cover any  
20 potential unknowns.

21 While the work is being done, most tenants will  
22 be temporarily relocated for a period of five to six  
23 days. There are currently nine tenants who are over  
24 income, and they have been offered permanent relocation  
25 benefits. The budget for relocation total is 574,000,

1 and that's sufficient to cover the temporary relocation  
2 needs and permanent relocation benefits.

3 The rents for this project are low. They're  
4 at -- averaging 52 to 65 percent of average for the  
5 market area.

6 Today we're requesting approval of a rehab loan  
7 of \$31 million. The term is for 18 months. We're  
8 currently underwriting the interest rate for the rehab  
9 period at 4.9 percent, which gives us about a  
10 25-basis-point cushion in our underwriting. And the  
11 permanent loan request is for 25,940,000 for a 35-year  
12 fully amortized loan, underwriting at 5.35 percent, which  
13 is also about a 25-basis-point cushion.

14 We acknowledge that the interest rate will adjust  
15 potentially until we lock 30 days prior to closing.  
16 We're anticipating a closing for this project  
17 mid-December.

18 The project will be restricted to -- CalHFA  
19 restrictions, I'm sorry, will be 20 percent of the units  
20 at 50 percent AMI, and the balance of the units will be  
21 at 60 percent AMI. This project is a hundred percent  
22 Section 8, and the rents will be supported by a new mark  
23 up to market contract.

24 Presently we are underwriting and approaching the  
25 project with incomes assumed at current HAP rents,

1 assuming no increases and assuming the current operating  
2 budget. So we do anticipate a rehab period rent  
3 increase, and then prior to conversion we anticipate the  
4 HAP approval, which is already in hand, a HAP contract at  
5 conversion for the new rents.

6 Jamboree is the sponsor for the project, and they  
7 have a vast experience in affordable housing, and their  
8 housing includes a great deal of service-enriched  
9 programs. They have developed an array of high quality  
10 affordable housing projects. And in CalHFA's portfolio,  
11 there are seven Jamboree projects.

12 This project -- when I went out to the site, I  
13 noticed that there are a lot of families. There are a  
14 lot of seniors. The community room was very well-used  
15 with senior lunch programs, learning programs for the  
16 children. So Jamboree is very active in serving their  
17 communities.

18 With that, I'll take questions.

19 CHAIRMAN JACOBS: Janet.

20 MS. FALK: Yeah, I have two questions. The first  
21 is you said there would be a rent increase during rehab,  
22 and then they'll get the Section 8 so the rent will go up  
23 and then go on down. How is that going to be managed for  
24 tenants who can't afford the rent increase, if they're  
25 all Section 8?

1 MS. VAKILI: The rent increase is to the HAP  
2 contract. The developer is in the process -- they've  
3 already received approval for new HAP rents at  
4 conversion.

5 MS. FALK: So the HAP contract would be in place  
6 at the start of construction?

7 MS. VAKILI: Yes. We have an existing HAP  
8 contract. They've requested an interim increase in the  
9 rents during rehab for Section 8, and then at conversion  
10 they'd get the final increase, which is all impacting the  
11 HAP contract.

12 MS. FALK: Okay.

13 CHAIRMAN JACOBS: So 20-year contract?

14 MS. VAKILI: Yes.

15 MS. FALK: My other question just is sort of  
16 informational since there were two projects that were  
17 very close together and easy to kind of compare them, it  
18 seemed like this one, the equity that's being raised from  
19 the investor is a substantially lower rate than the other  
20 project, and I was just wondering whether you looked at  
21 that or are they getting really top market for what --

22 MS. VAKILI: We went in with a fairly  
23 conservative estimate, and I'm anticipating that as we  
24 get closer to closing, we will finalize the numbers. But  
25 at this point, the approach is to be conservative. There

1 is a differential between the two projects. The  
2 Maplewood project already has all of their negotiations  
3 firmed up, so we feel validly expecting a higher rate.  
4 For Woodglen, I expect that the LP actually will increase  
5 before we close.

6 MS. FALK: And where will that -- what would be  
7 the decrease? What else -- what will decrease if the  
8 equity goes up? Will the loan amount go down?

9 MS. VAKILI: It potentially will go down. I  
10 think the developer has a wish list of a few things that  
11 they would like to add if they could. And so these are  
12 negotiations that we work through as we get closer to  
13 closing. The scope of work is comprehensive, but there  
14 are some things that they have intentions, if they can,  
15 to do.

16 MS. FALK: Okay, thank you.

17 CHAIRMAN JACOBS: Any other questions on this  
18 item?

19 Dalila.

20 MS. SOTELO: So we can speak offline about the  
21 format of the report, but vast improvements. I really  
22 appreciate it. Love it, like it, you know, it's a vast  
23 improvement, so I appreciate it.

24 It does point out a couple of discrepancies in  
25 the project itself, so that's what staff reports are

1 really supposed to call out. And I just have a question  
2 with regard to section 39, about the net cash-out to  
3 seller. It's showing net cash-out of \$9.9 million to the  
4 seller, which I assume is the limited partnership. And  
5 it's going to be put into a new limited partnership. Can  
6 you just tell me about that cash-out number and what that  
7 represents?

8 MS. VAKILI: Well, the cash-out represents  
9 when -- we just finished a conversation about sustaining  
10 nonprofits. This is one of the ways that Jamboree is  
11 able to utilize cash-out proceeds in order to provide  
12 services on an ongoing basis for their additional  
13 projects, services that they provide in the community,  
14 predevelopment acquisition funds, funds to shore up  
15 reserves on other projects that are all a part of  
16 Jamboree's mission. And the intention for the cash-out  
17 is to utilize it solely for these purposes.

18 MS. SOTELO: So I just -- from a Board  
19 perspective, the \$9.9 million is a rich number, and so  
20 how that correlates to our loan amount and to, you know,  
21 what the project needs are and the level of rehab, to me  
22 it's critical. So has staff looked at the scope of work  
23 that's being done on the project, and do you feel  
24 satisfied that 42,000 per unit will really get you there  
25 rather than like the 50,000 number or something higher?

1 MS. VAKILI: We have gone through the P and A.  
2 It's been completed. We've also inspected the property  
3 twice, and it has been in our portfolio for some time, so  
4 we have ongoing inspections and feel that between what  
5 our senior inspector reviewed, what our asset manager  
6 inspector reviewed, that the scope is comprehensive.

7 Again, there are always elements that you could  
8 add that would benefit the tenants and benefit the  
9 project, so if -- as the bidding process is finalized, if  
10 there's cost savings, that would be utilized.

11 And also we have a 20-percent hard cost  
12 contingency, so the budget is still being firmed up as we  
13 get closer to closing.

14 MR. PRINCE: I think the dilemma is that they  
15 could sell the property, right, and the financing could  
16 happen, and they could realize \$10 million of net sale  
17 proceeds, right? So -- and then someone else could  
18 provide the financing. So if the deal was just done on  
19 its own, you know, to a for-profit buyer or to another  
20 nonprofit, they would realize that. So -- but it still  
21 shocked me, you know.

22 And I thought back to Santa Barbara Housing  
23 Authority did a development under the Rental Assistance  
24 Demonstration, and I think that they realized something  
25 like 10 million on the sale proceeds. They did come up

1 with a plan that they shared with the community about how  
2 that money was going to be spent. So I don't know if we  
3 could ask for that. Because, again, if it was a  
4 different environment, they would just be able to sell  
5 the property and realize the proceeds, so I'm kind of  
6 curious how far we can go. So I think at some level  
7 there's a transparency issue here, right, that I think  
8 somehow we need to talk about how someone's getting 10  
9 million plus the developer fee.

10 MS. SOTELO: Yeah, and I think that for me it all  
11 lays within the project and the strength of the project.  
12 So when I look at section 12 that only has, you know, a  
13 seven-month transition reserve in case the HAP contract  
14 goes away, what I'd like to see is maybe an 18-month  
15 reserve so that there's a real protection on the tenants'  
16 side that if the HAP contract disappears or there's a  
17 freeze on Section 8, that the proceeds from the project  
18 can actually be invested into that operating transitional  
19 reserve and that if you don't need it in 10 years, that  
20 then that gets released back to the developer, you know,  
21 and burns off.

22 So I just want to be mindful. Again, I do not --  
23 I'm a big proponent of nonprofits taking stock in their  
24 assets and using those assets to leverage, you know,  
25 dollars for their organization and the well-being of

1 their organization, but that cannot be at the sacrifice  
2 of the tenants living in the development or in the  
3 project itself. So the three mechanisms that I would say  
4 when we look at strong proceeds like this, not  
5 necessarily community benefits package, but really are we  
6 doing all that we can from a rehab standpoint and in the  
7 physical asset itself.

8 Second is on the operating side, do we have  
9 enough of an operating reserve to make it comfortable so  
10 that tenants are not penalized if, you know, HUD doesn't  
11 renew their contract.

12 And for me third is from a social service  
13 standpoint. If this is a nonprofit and Jamboree is an  
14 excellent nonprofit and commits to social services, can  
15 we set up social service programs with their proceeds for  
16 this project specifically. And, you know, can we -- as a  
17 lender can we help partner and encourage that. We can't  
18 mandate it, but we can certainly encourage.

19 CHAIRMAN JACOBS: Jonathan.

20 MR. HUNTER: So I had some similar questions or  
21 concerns, well, a couple of things. First of all, it's  
22 really delightful to see a couple projects in San Diego  
23 County.

24 Secondly, I really admire both of the developers  
25 involved in these projects. They do excellent stuff.

1           But now to some of the details: One of the  
2 things that was striking to me, so what are they using  
3 the \$9 million for. And when I look at the operating  
4 costs, it's striking to me that they only budget \$31,000  
5 out of their operating costs for social services on-site.  
6 I recognize this is not a supportive housing project, but  
7 188 units and you've got -- you don't even have a staff  
8 position. So it's really interesting what that is.

9           The other thing that's really striking to me is  
10 that this project throws off a lot of cash flow to the  
11 Section 8 subsidies. And I would much rather have seen  
12 some of that cash flow invested in additional services  
13 for families and children, particularly children, on-site  
14 and particularly in that neighborhood, which, you know,  
15 has some, you know, infrastructure around it, but for  
16 those children to thrive, for Jamboree to be investing  
17 some of that money in additional services.

18           Now, my guess is, knowing Jamboree, that indeed  
19 out of that \$9 million, they're probably going to be  
20 providing a lot more services on-site than are valued in  
21 that \$31,000, but it would be nice to see that somewhere  
22 so that we really know that kind of investment was being  
23 made. I don't know that -- again, if they were a  
24 for-profit developer, certainly we would be limited in  
25 what we could require to be done, but it would just be

1 nice to see that investment. And I would certainly --  
2 rather than having all this cash flow coming out of the  
3 project in years 15 through 20, would like to see  
4 additional investment in services to the families  
5 on-site.

6 MS. BOATMAN PATTERSON: When we look at these  
7 projects, we're looking at the property manager, and  
8 we're having an understanding of the experience of the  
9 property manager -- this is me asking staff -- that's  
10 correct?

11 MS. VAKILI: Yes, that's correct.

12 MS. BOATMAN PATTERSON: Are we asking for a  
13 resident services plan or any community -- what the  
14 developer or the property manager, what services they  
15 intend to provide the tenants? Are we asking for that at  
16 all?

17 MS. VAKILI: Yes, we do.

18 MS. BOATMAN PATTERSON: Okay. And is that -- do  
19 we have any of the information about the resident  
20 services plan or the cost of the services that they're  
21 going to provide? Do we include any of that in our  
22 write-up?

23 MS. VAKILI: No, not in this write-up format we  
24 didn't. In the concept meeting, that's something that we  
25 talk about. And when we were there at the site, it's

1 obvious how much of services are provided. In fact, Hugh  
2 Martinez just gave me what he gave me at the concept  
3 meeting, which is the plan for their services.

4 MS. BOATMAN PATTERSON: I think that's the  
5 missing piece that we might, as staff, need to go back  
6 and take a look at. All the Board members are seeing is  
7 that \$9 million is coming out of the project, but there's  
8 a lot of back-end work that's going on that isn't getting  
9 presented in the staff report, and so that's one of the  
10 things that we as staff will commit to making sure.

11 And you might -- if the developer is here, if you  
12 want to take a few minutes to come up and talk about some  
13 of the services that you intend to provide on-site, might  
14 be helpful.

15 MR. MARTINEZ: Hi, my name is Hugh Martinez. I'm  
16 the project manager for Woodglen Vista, would like to add  
17 to some -- or would like to clarify some of the concerns  
18 that I believe it was Mr. Hunter had regarding the amount  
19 of social services. Our budget is up to about a hundred  
20 thousand now, and that's sort of what we've committed to.

21  
22 We're looking to do more than that. And what I  
23 handed to Ruth was preliminary findings. We hired  
24 Dr. Rivas to do a community needs assessment to actually  
25 profile the community, because what we found on the

1 supportive services side, at least when it comes to  
2 development, is that a lot of programs are pushed through  
3 without really having any connection to the actual needs  
4 of the residents. And typically it's check a box. What  
5 does TCAC want? What's the minimum that you need? How  
6 much does it cost? How do we do a dog and pony show?

7         So with this survey, we actually looked at the  
8 needs of the residents. And being in Santee, at first  
9 glance you would think, well, being a family development  
10 that there would be a need for ESL and that -- maybe ESL  
11 and expect a high Spanish-speaking population, but what  
12 we found is that the population tends to be primarily  
13 Coptic, Coptic and Chaldean, so a lot of Iraqi refugees.

14         We found a need for employment training, and we found  
15 that the community's fairly cognizant of their healthcare  
16 and fairly health conscious, so we're tailoring the  
17 programs and our supportive services around that.

18         We have lunch programs and breakfast programs for  
19 the children that are school aged during the summer, so  
20 we provide -- we have a collaborative, and we provide  
21 meals free of charge on-site.

22         We have senior meetings. The community doesn't  
23 have a senior center, so we allow the community to  
24 utilize our community center for social events for the  
25 senior community in Santee.

1           We have a collaborative with United Way, and this  
2           is our -- this is one of the projects we will start to  
3           benchmark progress, so we're going to have annual surveys  
4           to really measure the outcomes and measure the benefit  
5           and effect of the supportive services. So we're looking  
6           at doing a family, deploying it portfolio-wide to track  
7           the progress of well-being, economic, and educational  
8           attainment of the residents. So there's a lot more to  
9           this that's being rolled out. And we do want this to be  
10          a landmark development.

11           CHAIRMAN JACOBS: Ms. Johnson-Hall.

12           MS. JOHNSON-HALL: Thank you, Mr. Martinez. I  
13           really do like this project, and I'm glad that the staff  
14           is bringing this forward.

15           My question actually centers around sort of going  
16           back to the net cash-out. I actually in concept do not  
17           have a problem with that at all, but I think that it  
18           could be a very gray area that we might want to revisit  
19           in the form of maybe putting some policies around that.  
20           The reason being is as you bring in -- I mean Janet  
21           talked about bringing in a higher equity, for example.  
22           There may be some additional cost savings, too, as they  
23           do this. And so what you don't want to do is have the  
24           Agency look like we're over-enriching the project so that  
25           these folks will have more money for a net cash-out.

1 It's a very slippery slope.

2 And so that's just my thoughts around it's sort  
3 of a bigger question that I'd like the staff to think  
4 about going forward.

5 CHAIRMAN JACOBS: Any other comments?

6 Mr. Gunning.

7 MR. GUNNING: Ruth, I noticed you list the  
8 congressional and legislative districts as part of the  
9 format here. Is there any outreach to the local  
10 Congress, Assembly or Senators, about the project to sort  
11 of let them know the good work we're doing in their  
12 district?

13 MS. VAKILI: No, we don't as a part of our  
14 underwriting and processing reach out, but I believe as a  
15 part of the Board and -- I'm kind of reaching on this  
16 one.

17 MR. GUNNING: Okay.

18 MR. PRINCE: I bet Jamboree has done that.

19 MR. GUNNING: Are you talking to Senator Anderson  
20 about this good project?

21 MS. RICHARDSON: I'm sorry, this is Di  
22 Richardson, and I'm the legislative director, and  
23 generally -- we haven't done one of these in a while, so  
24 I think Ruth may not be aware, but generally when the  
25 Board does approve a loan packet, we do send a letter to

1 the members letting them know that the Board has approved  
2 a project in their district.

3 MR. GUNNING: I guess to show that we're a  
4 living, breathing, thriving organization, I think more  
5 than a letter should be done. I think we should let them  
6 know and maybe do something when the final deal is closed  
7 to let them know the work we're doing.

8 MS. RICHARDSON: We've talked about that in the  
9 past, and, you know, I'm certainly in favor of that.  
10 When there's been -- when there are openings, you know,  
11 when the project's opened or whatever, I think that  
12 normally that's been the responsibility of the sponsors,  
13 and we have not insisted on, you know, inviting people,  
14 but the sponsors generally do a very good job of inviting  
15 the elected officials in the area and letting them know.

16 Happy to talk to you, Mr. Gunning, about other  
17 ideas. We try to -- our letters aren't exactly form  
18 letters. They are -- I try to make sure that they  
19 understand the project and what it looks like and who  
20 it's serving so they have a little bit more information,  
21 but I do think that that outreach is really important.

22 MR. GUNNING: I would certainly be glad to help.

23 MS. RICHARDSON: I will accept your offer.

24 CHAIRMAN JACOBS: Just one thought for Jim and  
25 Ruth, just on future loans it might be good -- I mean,

1 it's great having Mr. Martinez here to explain and we  
2 know Jamboree, but just to have a quick statement or a  
3 letter from the borrower explaining what we're going to  
4 do here and why we're doing this. It would probably help  
5 just the Board in general.

6 Janet.

7 MS. FALK: Yeah, I have just one comment on a  
8 consistency question. In the second project that we're  
9 going to see, you had a condition of approval that they  
10 get TCAC and CDLAC approval, and I was curious as to why  
11 that wasn't a condition of approval on this one.

12 MS. VAKILI: We already have TCAC approval on  
13 this one. CDLAC is the 16th, so for consistency  
14 purposes, you're right. But it's the case for both  
15 projects, CDLAC.

16 MS. FALK: Thank you.

17 CHAIRMAN JACOBS: Dalila.

18 MS. SOTELO: So, Mr. Chairman, I just have a  
19 point of clarification. The resolution we would be  
20 adopting for this project allows that the executive  
21 director can modify the terms and conditions of the loan.  
22 I strongly believe that we should require additional  
23 transitional reserves on the project to, you know, meet a  
24 longer period of transition in case the HAP contract does  
25 not get renewed, even though factually it has been

1 renewed in the past. Just a point of order, is that  
2 something that I would introduce as a motion?

3 CHAIRMAN JACOBS: Yes.

4 MS. SOTELO: Or is that something that could be  
5 added at the discretion of the executive director?

6 CHAIRMAN JACOBS: We could do it either way. It  
7 would probably make sense to include it in the motion.

8 MS. SOTELO: I do trust staff, and I trust staff  
9 that they are looking at these issues, and the input that  
10 I have is, you know, more around the underwriting. I  
11 don't want to set policy at the Board level around the  
12 underwriting, so if, you know, it's easier to have  
13 Ms. Boatman have the discretion to do it, then we don't  
14 have to direct her to do it.

15 MS. BOATMAN PATTERSON: Right. I think that  
16 would be preference, to be able to go back and work with  
17 the lender and to go back and see, but understanding and  
18 taking into account what the Board has said that they'd  
19 like to see a higher transitional reserve to protect  
20 those tenants in case the HAP contract -- we're pretty  
21 confident about the HAP contract, but we all know with  
22 the federal government that there are contingencies, so  
23 we make that commitment, that we will go back and take a  
24 look at that.

25 MR. MORGAN: So Ms. Sotelo, is this a transition

1 operating reserve over and above the operating expense  
2 reserve as a separate transition, or is it just an  
3 increase in the existing operating expense reserve?

4 MS. SOTELO: You have a 683,000 what I assume is  
5 a transitional reserve that was stated. I'm just saying  
6 instead of looking at only seven months, take a look at  
7 it for 12 months or 18 months, something a little bit  
8 more robust.

9 MR. MORGAN: Okay.

10 MS. SOTELO: And that would come from proceeds or  
11 from additional tax credit or another source.

12 And then I think the social service component is  
13 also a critical one that Board Member Hunter pointed out,  
14 so.

15 CHAIRMAN JACOBS: With that -- oh, Ms. Avila  
16 Farias.

17 MS. AVILA FARIAS: I just wanted to piggy-back on  
18 Tia's comment as well on item number 12 in regard to the  
19 project that you have on there. There was no real detail  
20 on there, but what is the financial stability? Because  
21 it does -- although it states it's a 20-year term, but  
22 then it's based on the annual renewal, which is pretty  
23 traditional, but what is the background? I mean there's  
24 some stuff that wasn't shared with us. You know, it is  
25 dependent on the federal funding, and what's the risk

1 factor there? Is it pretty protected for the 20 years or  
2 not? What's the relationship, and what's the financial  
3 stability of the Agency to be able to sustain that  
4 20-year?

5 MS. VAKILI: The risk factor, as you already  
6 mentioned, would be the annual appropriations by the  
7 federal government and the purpose of an operating  
8 reserve that Dalila is talking about beefing up to offset  
9 that kind of a potential.

10 The project, since its operation, has of course  
11 had a HAP contract. That doesn't mean that something  
12 couldn't happen in the future. But to bolster the  
13 reserves would give the project a year or so in order to  
14 respond to any measures that they would have to take to  
15 adjust. And typically that would be the offset, and that  
16 would be the way to mitigate the risk.

17 MS. AVILA FARIAS: Right. I understand the risk  
18 and the offsetting of it, but I guess the more -- even  
19 more in-depth on the kind of things you can kind of  
20 project on the housing agency of how they're spending or  
21 allocating other project base that's going to get credit.  
22 And what makes me nervous is that annual renewal which is  
23 obviously the annual compliance of, you know, basic HQS  
24 that you're adhering to the regulatory rules of those  
25 projects. That's one factor, but also funding

1 availability, so -- I mean, you may not know that. I  
2 mean it's more the housing agency that's providing to  
3 project base, but I'm curious if you had any back  
4 discussion on that or more detail or -- other than this  
5 is just where we're at and we're just mitigating with the  
6 reserve there.

7 MS. BOATMAN PATTERSON: Let me -- is this a  
8 traditional -- is this a HAP contract like the old HAP  
9 contracts, or is this project based Section 8 like the  
10 new?

11 MR. MORGAN: This is project based Section 8.

12 MS. BOATMAN PATTERSON: And there's been  
13 projects --

14 MR. MORGAN: It has an existing HAP that is  
15 being -- and existing HAP exists --

16 MS. BOATMAN PATTERSON: A HAP --

17 MR. MORGAN: -- and currently getting renewed, a  
18 project based Section 8 HAP contract getting renewed for  
19 another 20 years.

20 MS. BOATMAN PATTERSON: And who's administering  
21 the HAP contract? Is that the Agency administered HAP  
22 contract, or is that the local housing authority  
23 administered?

24 MR. PRINCE: It's a multi-family program, so it  
25 would be the ones that have a COLA through their

1 nonprofit does the administration, right?

2 MS. BOATMAN PATTERSON: That's what I'm asking  
3 staff.

4 MR. MORGAN: Yeah, I know that CalHFA administers  
5 certain HAP contracts.

6 MS. BOATMAN PATTERSON: Is that this, or is this  
7 the one that's administered by the locals?

8 MS. VAKILI: This contract is administered by the  
9 locals.

10 MS. BOATMAN PATTERSON: Okay. And it's a 20-year  
11 contract now. And so that's what Ms. Avila Farias -- I  
12 want to make sure that I'm saying this right. Say it  
13 again.

14 MS. AVILA FARIAS: Avila Farias.

15 MS. BOATMAN PATTERSON: -- Avila Farias is  
16 asking, the history of the housing authority that is  
17 administering --

18 MS. AVILA FARIAS: Right.

19 MS. BOATMAN PATTERSON: -- this HAP contract.  
20 They have for 20 years administered it.

21 MR. PRINCE: This isn't Section 8 new  
22 construction, so this is through the multi-family, not  
23 the public and Indian housing --

24 MS. BOATMAN PATTERSON: Okay.

25 MR. PRINCE: -- HUD, so it is a direct contract

1 with the property.

2 MS. BOATMAN PATTERSON: And they're pretty  
3 stable.

4 MR. PRINCE: They are.

5 MS. FALK: They're pretty stable in the 20 years  
6 and then --

7 MS. AVILA FARIAS: No, it's not in the document.  
8 I wouldn't know that --

9 MS. BOATMAN PATTERSON: Exactly.

10 MS. AVILA FARIAS: -- who the entity is if it's  
11 not in the report.

12 MR. PRINCE: I'm making that assumption, so  
13 you're totally right that that should be clear rather  
14 than --

15 MS. AVILA FARIAS: Right.

16 MR. MORGAN: Because of the --

17 MS. AVILA FARIAS: It defines the risk factor,  
18 you know, where it's come from. I couldn't tell from  
19 the --

20 MR. PRINCE: The multi-family program has  
21 historically received better funding than the public and  
22 Indian housing program, so, Dalila, I totally agree with  
23 your questions and concerns about the transition.  
24 You also threw out that idea of that it gets released  
25 after a period of time.

1           So going back into the 1990s, the investors and  
2 lenders used to require a separate Section 8 transition  
3 fund, right? We, particularly us on the housing  
4 authority side, fought to get rid of that. The 2008  
5 crash brought it back. We're starting to see it being  
6 relieved, but I would imagine the investor is going to  
7 require some kind of transition plan as well.

8           So I would hate for us to add more burden to it,  
9 but at the same time I totally agree with you there has  
10 to be something of concern. And with a development like  
11 this that appears to be healthy, that if there's clauses  
12 that allows the money to be released back to the sponsor  
13 within a certain period of time, it seems reasonable to  
14 me. Those are the kind of things that we've been  
15 agreeing to to release the funds.

16           MS. BOATMAN PATTERSON: So I think I mentioned  
17 this to staff before, but there's a difference of project  
18 based Section 8 that administered by a local housing  
19 authority and project based Section 8 that is  
20 administered by multi-family. And when we don't explain  
21 that, folks from the local housing authority are trying  
22 to figure out, well, what does this mean and how is this  
23 administered. So we need to be a little more clear as to  
24 where that additional financing or rental subsidy is  
25 coming from.

1 MR. MORGAN: We'll include that on future  
2 reports, who's administering the Section 8 contract,  
3 because there are cases where CalHFA is administering  
4 that Section 8 contract, so we will delineate.

5 MS. AVILA FARIAS: Thank you.

6 CHAIRMAN JACOBS: Do we have a motion to put this  
7 up with guidance to staff to tighten it and --

8 MS. SOTELO: I move to approve this project  
9 pursuant to our discussion.

10 MR. PRINCE: Second.

11 CHAIRMAN JACOBS: All right, JoJo, do a vote.

12 MR. JAMES: Point of information, the resolution  
13 is to move as amended at page 2, item 15, correcting the  
14 dollar amount to 25 million?

15 CHAIRMAN JACOBS: Correct the dollar amount  
16 and --

17 MS. SOTELO: I'll amend to reflect the 24 --  
18 25,940,000.

19 MR. JAMES: Thank you.

20 MS. SOTELO: I thought you meant the other one.

21 CHAIRMAN JACOBS: JoJo.

22 MS. OJIMA: Ms. Caballero.

23 MS. CABALLERO: Aye.

24 MS. OJIMA: Thank you.

25 Mr. Schaefer.

MR. SCHAEFER: Aye.

MS. OJIMA: Ms. Gunn.

MS. GUNN: Aye.

MS. OJIMA: Ms. Falk.

MS. FALK: Aye.

MS. OJIMA: Ms. Avila Farias.

MS. AVILA FARIAS: Aye.

MS. OJIMA: Mr. Gunning.

MR. GUNNING: Aye.

MS. OJIMA: Ms. Johnson-Hall.

MS. JOHNSON-HALL: Aye.

MS. OJIMA: Mr. Hunter.

MR. HUNTER: Aye.

MS. OJIMA: Mr. Prince.

MR. PRINCE: Yes.

MS. OJIMA: Ms. Whittall-Scherfee.

MS. WHITTALL-SCHERFEE: Yes.

MS. OJIMA: Ms. Sotelo.

MS. SOTELO: Yes.

MS. OJIMA: Mr. Jacobs.

CHAIRMAN JACOBS: Yes.

MS. OJIMA: Resolution 15-17 has been approved  
with the changes.

--o0o--

**Item 8. Discussion, recommendation and possible action**

1                   **regarding final loan commitment for the**  
2                   **following projects: B. Maplewood Apartments**  
3                   **(Resolution 15-18)**

4                   CHAIRMAN JACOBS: We're going to just go down the  
5 road a little bit and --

6                   MS. SOTELO: May I suggest that -- do we need a  
7 staff presentation of this item, or do folks feel  
8 comfortable that they understand the second project  
9 because we have kind of --

10                  CHAIRMAN JACOBS: Pretty similar, yeah. Does  
11 anyone have any specific question on the Maplewood  
12 project?

13                  MR. PRINCE: If you make a motion, I'll second  
14 it.

15                  MS. SOTELO: I'd like to make a motion to adopt  
16 Resolution 15-18 approving the Maplewood Apartments.

17                  MR. PRINCE: Second.

18                  CHAIRMAN JACOBS: There we go. JoJo.

19                  MS. OJIMA: Thank you, Mr. Prince.

20                  Ms. Caballero.

21                  MS. CABALLERO: Aye.

22                  CHAIRMAN JACOBS: Saved you guys a presentation.

23                  MS. OJIMA: Mr. Schaefer.

24                  MR. SCHAEFER: Aye.

25                  MS. OJIMA: Ms. Gunn.

1 MS. GUNN: Yes.

2 MS. OJIMA: Ms. Falk.

3 MS. FALK: Aye.

4 MS. OJIMA: Ms. Avila Farias.

5 MS. AVILA FARIAS: Aye.

6 MS. OJIMA: Mr. Gunning.

7 MR. GUNNING: Aye.

8 MS. OJIMA: Ms. Johnson-Hall.

9 MS. JOHNSON-HALL: Aye.

10 MS. OJIMA: Mr. Hunter.

11 MR. HUNTER: Aye.

12 MS. OJIMA: Mr. Prince.

13 MR. PRINCE: Yes.

14 MS. OJIMA: Thank you.

15 Ms. Whittall-Scherfee.

16 MS. WHITTALL-SCHERFEE: Yes.

17 MS. OJIMA: Ms. Sotelo.

18 MS. SOTELO: Aye.

19 MS. OJIMA: Mr. Jacobs.

20 CHAIRMAN JACOBS: And an aye.

21 MS. OJIMA: Thank you.

22 MR. PRINCE: And I want to be clear, it wasn't

23 just to save time. I mean, I think that the staff report

24 was fantastic. I think it is getting better, so I think

25 we were prepared -- and the questions and conversation

1 before.

2 CHAIRMAN JACOBS: The format is a lot easier to  
3 follow.

4 MS. OJIMA: Resolution 15-18 has been approved.

5 MS. VAKILI: Thank you.

6 CHAIRMAN JACOBS: Thank you.

7 Item 9 is continued to our next Board meeting.

8 --o0o--

9 **Item 10. Discussion, recommendation and possible action**  
10 **adopting a resolution to revise CalHFA's**  
11 **downpayment assistance programs**

12 CHAIRMAN JACOBS: Item 10, about the downpayment,  
13 who is presenting?

14 MS. BOATMAN PATTERSON: Ken.

15 CHAIRMAN JACOBS: Ken is presenting. Here we go.

16 To save time, I think we're not going to do a  
17 break, if some people need to excuse themselves and run  
18 out -- raise your hand if -- do we need a five-minute  
19 break?

20 MS. BOATMAN PATTERSON: Let's get through this  
21 last one, and then we'll take five.

22 CHAIRMAN JACOBS: Let's get through this, and  
23 then we'll take one.

24 MS. TAURIAINEN: Good morning. I'm Claire  
25 Tauriainen, staff attorney at CalHFA.

1 MR. GIEBEL: And I'm Ken Giebel, the director of  
2 single-family lending.

3 So in the Board package staff put a proposal  
4 together. It includes a recommendation that now that our  
5 CHDAP and HPA money, bond moneys, have been exhausted and  
6 we are operating off of recycled funds, we are suggesting  
7 that we take those recycled funds and that we combine  
8 them together and put a new DPA product together called  
9 My Home Assistance Program. It will be a 5-percent DPA  
10 subordinate loan, 30 year. Most of all of the CHDAP  
11 underwriting requirements stay in place with the  
12 exception of this loan will now only be able to go with a  
13 CalHFA first mortgage. Now, I know we outlined the  
14 rationale for that. I'll run it through it very quickly  
15 for you because I think there's some things that we need  
16 to explain.

17 The first is and this is probably the most  
18 important is that on what we call standalones, when the  
19 CHDAPs were not with our first mortgage, we had  
20 absolutely no ability to look at those first mortgage  
21 loans. And since we've reinstated the CHDAP program in  
22 2009, 90 percent of our loans are CHDAP standalones.  
23 That percent had probably dropped a little in the last  
24 four months.

25 So let's just say we had a market turn or some of

1 these loans went delinquent and started moving towards  
2 foreclosure. We didn't find out about that until the  
3 loan was gone and we lost the DPA money. In the 80s -- I  
4 mean in 2008, a lot of it went away. Okay. That's --  
5 and we will have the ability to step in with a  
6 modification, offer a modification, either with Keep Your  
7 Home or our own modification product, because we will  
8 have access to that first and see how it's performing.

9 The second issue is the CFPB, which is the new  
10 consumer protection operation out of D.C., has got --  
11 instituted Dodd-Frank laws, and the last one they're  
12 instituting that takes effect October 3rd is called TRID.

13 We do not have the staff right now to do what TRID  
14 requires at the closing table. So what we're going to do  
15 effective the 5th -- because this goes in -- the 3rd is a  
16 Saturday, we are going to insist with -- now that they  
17 have to use our DPA with the first, that they close those  
18 loans in their name. So when they do the first, they  
19 will put the DPA loan in their name, and we will  
20 reimburse them. That's streamlining everyone's -- all  
21 the HFAs are going in that direction.

22 Needless to say, it will extend the use of these  
23 downpayment funds for about 12 to 14 months.  
24 Additionally, it will give us a little bit more control  
25 to make sure that the borrower's needs are being met and

1 this somehow isn't being used to really benefit the  
2 lender more than the borrower. Because in our loans, we  
3 look at that, how those moneys are being used either for  
4 downpayment assistance, closing costs, or even to pay for  
5 the MI up-front or to get them to 95 on the conventional,  
6 gives them a lower MI payment.

7 Also, it will permit us to streamline. Some  
8 documents will go away. One of the issues lenders all  
9 have is the documentation CalHFA requires, so that will  
10 permit us to streamline.

11 So that's basically the rationale, and we would  
12 be happy to answer any questions.

13 CHAIRMAN JACOBS: Thanks, Ken.

14 Any questions?

15 All right. We have a resolution, I believe.

16 Anyone want to put the resolution up?

17 MS. FALK: I'll move.

18 CHAIRMAN JACOBS: So moved. Do we have a second?

19 MR. HUNTER: Second.

20 CHAIRMAN JACOBS: Great. JoJo.

21 MS. OJIMA: Thank you.

22 Ms. Caballero.

23 MS. CABALLERO: Aye.

24 MS. OJIMA: Mr. Schaefer.

25 MR. SCHAEFER: Aye.

1 MS. OJIMA: Ms. Gunn.  
2 MS. GUNN: Yes.  
3 MS. OJIMA: Ms. Falk.  
4 MS. FALK: Yes.  
5 MS. OJIMA: Ms. Avila Farias.  
6 MS. AVILA FARIAS: Aye.  
7 MS. OJIMA: Mr. Gunning.  
8 MR. GUNNING: Aye.  
9 MS. OJIMA: Ms. Johnson-Hall.  
10 MS. JOHNSON-HALL: Aye.  
11 MS. OJIMA: Mr. Hunter.  
12 MR. HUNTER: Aye.  
13 MS. OJIMA: Mr. Prince.  
14 MR. PRINCE: Yes.  
15 MS. OJIMA: Ms. Whittall-Scherfee.  
16 MS. WHITTALL-SCHERFEE: Yes.  
17 MS. OJIMA: Ms. Sotelo.  
18 MS. SOTELO: Abstain.  
19 MS. OJIMA: Thank you.  
20 MR. GIEBEL: I have one last thing that has  
21 nothing to do with the resolution when you're finished  
22 there.  
23 MS. OJIMA: Mr. Jacobs.  
24 CHAIRMAN JACOBS: Aye.  
25 MR. GIEBEL: Sorry.

1 MS. OJIMA: Resolution 15-19 has been approved.

2 CHAIRMAN JACOBS: Ken.

3 MR. GIEBEL: Last thing, this month U.S. Bank has  
4 finally relented, and we will start accepting mortgage  
5 broker business.

6 MS. BOATMAN PATTERSON: That's a big deal.

7 MR. GIEBEL: So we'll be serving that -- we'll be  
8 serving that HUD FHA market with this new downpayment  
9 assistance program.

10 Thank you.

11 CHAIRMAN JACOBS: The next item, I think there  
12 was a memo from Tim Hsu about letter of credit or line of  
13 credit. Is there anything you need to tell us?

14 MS. BOATMAN PATTERSON: I think she wants to take  
15 a break.

16 CHAIRMAN JACOBS: Let's take a break. Okay. So  
17 let's take a break before jumping into this next item.  
18 Five-minute break and then, Tim, you're up.

19 (Recess taken from 11:27 to 11:36 a.m.)

20 --oOo--

21 **Item 4. Closed session under Government Code Section**  
22 **11126(a)(1) to evaluate the performance of a**  
23 **public employee**

24 CHAIRMAN JACOBS: Actually we're going to go into  
25 closed session because the lunches are here, so I think

1 just the Board and I guess because of the subject matter,  
2 let's -- the Board secretary. The lunches are here so  
3 we're just going to go into closed session now.

4 Tim, we'll get back to you as soon as we're done  
5 with this discussion, sorry.

6 (Board met in closed session from 11:37 a.m. to  
7 12:20 p.m.)

8 CHAIRMAN JACOBS: We're back on in open session.  
9 Some people have got to catch a plane.

10 --o0o--

11 **Item 5. Discussion and possible action to adjust the**  
12 **salary of the Executive Director**

13 CHAIRMAN JACOBS: We've had a closed session  
14 discussion of the executive director. The Executive  
15 Evaluation Committee will be compiling a report just  
16 based on the discussion that we've had. Individual  
17 members will write up their own thoughts.

18 And the salary discussion, if you don't mind,  
19 based on our talk, does anyone have a motion?

20 MR. GUNNING: Yeah, Mr. Chairman, I move that we  
21 increase the executive director salary 10 percent.

22 MS. FALK: I'll second that.

23 CHAIRMAN JACOBS: All right. Let's do a roll  
24 call. While JoJo gets back, I'll call the roll.

25 MS. BOATMAN PATTERSON: Did you announce the item

1 number that we're on?

2 CHAIRMAN JACOBS: It was item number 5,  
3 Resolution --

4 UNIDENTIFIED SPEAKER: Sorry, can we wait for our  
5 cameraman to come back?

6 CHAIRMAN JACOBS: People will miss the flight.  
7 The Secretary will miss the flight.

8 JoJo, let's call the roll.

9 MR. PRINCE: Secretary.

10 MS. CABALLERO: Aye.

11 CHAIRMAN JACOBS: So run for the plane.

12 MS. CABALLERO: Thank you.

13 MS. OJIMA: Where are we?

14 CHAIRMAN JACOBS: 15-15.

15 MS. OJIMA: Was there a motion?

16 CHAIRMAN JACOBS: Motion and a second.

17 MR. GUNNING: Motion and a second by Falk.

18 MS. OJIMA: You made the motion.

19 MR. GUNNING: Yes.

20 MS. OJIMA: And second by Falk.

21 Secretary Caballero.

22 CHAIRMAN JACOBS: She voted aye on the way out.

23 MS. OJIMA: Mr. Schaefer.

24 MR. SCHAEFER: I will abstain.

25 (Reporter interrupts for clarification.)

1 MR. SCHAEFER: I will abstain, but that shouldn't  
2 signal any lack of support for the executive director's  
3 competencies.

4 MS. OJIMA: Thank you.

5 Ms. Gunn.

6 MS. GUNN: Aye.

7 MS. OJIMA: Ms. Falk.

8 MS. FALK: Aye.

9 MS. OJIMA: Ms. Avila Farias.

10 MS. AVILA FARIAS: I will be abstaining and also  
11 not because of a lack of support for the executive  
12 director.

13 MS. OJIMA: Thank you.

14 Mr. Gunning.

15 MR. GUNNING: Aye.

16 MS. OJIMA: Ms. Johnson-Hall.

17 MS. JOHNSON-HALL: Aye.

18 MS. OJIMA: Mr. Hunter.

19 MR. HUNTER: Aye.

20 MS. OJIMA: Mr. Prince.

21 MR. PRINCE: Aye.

22 MS. OJIMA: Thank you.

23 MR. PRINCE: I made you turn your head.

24 MS. OJIMA: Ms. Whittall-Scherfee.

25 MS. WHITTALL-SCHERFEE: Aye.

1 MS. OJIMA: Ms. Sotelo.

2 CHAIRMAN JACOBS: She had to run for the plane.

3 MS. OJIMA: Mr. Jacobs.

4 CHAIRMAN JACOBS: Aye.

5 MS. OJIMA: Resolution 15-15 has been approved.

6 MR. JAMES: Point of information, Mr. Chair. The  
7 resolution reads the Board of Directors hereby adjusts  
8 the salary of the executive director to increase her  
9 present salary by 10 percent?

10 CHAIRMAN JACOBS: Yes.

11 And the Executive Evaluation Committee will be  
12 meeting with the executive director to discuss some of  
13 our discussion and goals for the coming year, specific  
14 points.

15 MR. GUNNING: Can I just ask who is on the  
16 Executive Evaluation Committee? Do you have that handy?

17 MS. OJIMA: I looked for that.

18 MR. GUNNING: We couldn't figure out the third  
19 one.

20 MS. OJIMA: Mr. Gunning.

21 CHAIRMAN JACOBS: Mr. Gunning, Secretary  
22 Caballero --

23 MS. OJIMA: Ms. Caballero.

24 MR. GUNNING: Make it Falk.

25 MR. JAMES: It was Ms. Falk.

1 CHAIRMAN JACOBS: Yeah.

2 MR. JAMES: It is Ms. Falk.

3 MR. PRINCE: Do you -- are you comfortable with  
4 the 10 percent, or do you want the number that we think  
5 it is? I'm --

6 MR. JAMES: Well, staff can compute the 10  
7 percent.

8 MR. PRINCE: Okay.

9 MR. JAMES: And that's consistent with -- we can  
10 do that.

11 MR. PRINCE: Okay. I just want to make sure.

12 CHAIRMAN JACOBS: Great, thank you.

13 --o0o--

14 **Item 11. Report and discussion on CalHFA's efforts to**  
15 **secure a Letter of Credit**

16 CHAIRMAN JACOBS: Let's go on to Tim Hsu, item  
17 number 11. There was a brief report --

18 MR. PRINCE: I pass for the adoption -- I'm  
19 sorry.

20 CHAIRMAN JACOBS: We'd like some understanding of  
21 the line of credit. Just walk us through the importance  
22 of this.

23 MR. HSU: I think this is a great Board meeting  
24 that suggests that the Agency really has turned the  
25 corner, from talking about many of the things that we

1 talked about five or six years ago to talking about  
2 mostly lending at this Board meeting.

3 We have a couple of multi-family projects, and  
4 this particular item is -- it has to do with supporting  
5 single-family lending. As we -- as you saw from the  
6 earlier discussion regarding the use of the subsidy  
7 funds, those subsidy funds could actually be used to  
8 warehouse multi-family loans. So there's not a  
9 particular pressing need to get a warehouse line for  
10 multi-family, but for single-family there is.

11 So why do we need a warehouse line? First of  
12 all, part of what we do in lending is that we need to  
13 borrow to lend. It's something that is not for everyone  
14 to do for their personal finance, but something that we  
15 have to do.

16 What would this allow us to do if we had a  
17 warehouse line? It could allow us to hedge internally,  
18 and this is something we talked about last year.  
19 About -- I think about the first quarter of last year, we  
20 actually got the Board to approve our ability to hedge  
21 internally. And this -- this -- if we were to transition  
22 to hedging internally, this would definitely lower our  
23 costs of our transactions, which it could also  
24 potentially increase our profit margin up-front.

25 And lastly, we had emphasized in those previous

1 discussions that in hedging internally we could also  
2 create an annuity going forward, which is an important  
3 component of a governmental entity like ourselves to  
4 ensure a future feasibility of income to support the  
5 Agency, because, as you know, the Agency is a self-funded  
6 agency. And that piece is really important, and that's a  
7 piece that we're not doing right now when we're  
8 delivering our production into this TBA market.

9 And the second thing, which is also very  
10 important, is that having a warehouse line could also  
11 help us transition into issuing tax-exempt bonds again  
12 for the single-family production, which, again, we're not  
13 using -- we're not using single-family volume cap right  
14 now to fund our single-family lending, and that's sort of  
15 an important piece, that that could potentially lower our  
16 cost of funds as well.

17 And, again, by issuing bonds, it could also allow  
18 us to create a residual future that the Agency has  
19 traditionally relied on.

20 CHAIRMAN JACOBS: So, Tim, this is an outcropping  
21 of the reorg plan and just trying to assess the business  
22 model? I mean, this is a tool that you need?

23 MR. HSU: Yes. Although I did go back to look at  
24 the business plan. It was specifically in there.  
25 Because this is almost like a stepping stone to some of

1 the things that are in the business plan.

2 CHAIRMAN JACOBS: Right.

3 MR. HSU: So moving along, historically we have  
4 had warehouse lines from a couple institutions. We've  
5 had one from the State, from their Pooled Money  
6 Investment Account. And at some point it had actually  
7 reached quite a large number. I put down 300 here, but I  
8 think at some point it went up as high as \$350 million --  
9 oh. I appreciate the correction -- and we paid this off  
10 in March of 2012 in the midst of many of the things that  
11 was happening.

12 And then we had also had a line of credit from  
13 Bank of America for a hundred million dollars. And for  
14 those of you who have been with us, that was sort of a  
15 line that we used to warehouse some of our Bay Area  
16 housing loans. Anyway, we paid that off in February of  
17 2011.

18 So that's sort of just the brief history of what  
19 we've done.

20 And lastly is that there are three ongoing  
21 discussions right now for a warehouse line for  
22 single-family. The first one is that we have requested  
23 for a warehouse line with the Pooled Money Investment  
24 Account again, otherwise known as PMIA, and we have  
25 submitted that request to the Treasurer's Office. And I

1 think that -- I sequence this in one, two and three, and  
2 this is our most sort of prized and -- this is the line  
3 of credit or the warehouse line that we like the most.  
4 It's the most cost-effective, and it's operationally the  
5 easiest one to use.

6 And we also currently have an offer from a  
7 private bank that helped us replace HMRB's TCLP for a  
8 warehouse line of credit. And this one, the way it was  
9 offered to us actually is backed by our general  
10 obligation, so it's not a strict warehouse line as such  
11 because a strict warehouse line sometimes could be sort  
12 of -- sort of involve the line -- involve the loans and  
13 the collaterals and whatnot. So this one is backed by  
14 our GO, and we have a term sheet from them, but that's  
15 sort of our plan B.

16 And then lastly we have been working with Federal  
17 Home Loan Bank for quite some time for getting a  
18 warehouse line from them. And this discussion has been  
19 going for quite some time. And they have some credit  
20 exposure to us. They do have some bonds they have  
21 purchased from us in our single-family indenture that has  
22 dwindled quite a bit and recently have reached out to us  
23 on ways that it can partner with us on affordable  
24 housing. And -- but for a number of years now, I would  
25 say for two years now, they have been a little bit bogged

1 down by a couple issues. They are still going through  
2 some credit approval. And also they have expressed some  
3 concerns -- they did this last year, and they also did  
4 this recently -- about, you know, this noise, if you  
5 will, regarding the consolidation with HCD.

6 I want to emphasize, too, though, the Federal  
7 Home loan Bank line of credit, it's not as preferred by  
8 us because while they have this line of business with  
9 many of their members, the way they go about this line of  
10 business, they need to perfect a security in the line,  
11 and that process could be a little bit more operationally  
12 than we desire.

13 So anyway, I kind of sequenced this in the order  
14 we prefer, but the Federal Home Loan Bank is definitely  
15 one that has been sort of pressing us a little bit on  
16 some of these issues that we have talked to the Board  
17 about, and I think that Tia is going to talk to the Board  
18 about that in a little bit as well.

19 So I'll take any questions if you have them.

20 MR. GUNNING: So that is the order of preference.  
21 So the Federal Home Loan Bank, because of the security  
22 requirement, is not as attractive?

23 MR. HSU: Yeah, so they -- they want to perfect  
24 their security -- we are trying to -- we have a couple  
25 hurdles with them. One is that we have to clear their

1 credit to give us some allowance of how much credit  
2 exposure they can have to ask. And then after that,  
3 we'll work with them on whether or not they need to  
4 perfect their security like they would with any other  
5 lines that they offer. And that process, I heard through  
6 someone that they actually want you to send all the notes  
7 to them while their warehouse line is being drawn upon,  
8 and that -- that's the kind of stuff that we want to try  
9 to avoid in order to facilitate the number of days that  
10 these loans are out there for before funding, so.

11 MR. GUNNING: Okay.

12 MS. JOHNSON-HALL: I can confirm that that is  
13 true.

14 MR. GUNNING: They were looking for a statutory  
15 change to make it easier for insurance companies to  
16 access this. I know what you're talking about.

17 MR. SCHAEFER: One of the things that I would  
18 just caution the Board to think about without signaling a  
19 decision here, because there's still a lot of ground that  
20 we have to cover to get there with a rational decision  
21 about the use of the pooled money account, but there are  
22 more actors in play in the pooled money account today  
23 than there were the last time the HFA went to there.  
24 Principal among them is the statewide implementation of  
25 FI\$Cal, the financial management system for the State,

1 which is generally expected will likely result in a  
2 speeding up of certain payables in order to take  
3 advantage of dynamic discounting from vendors.

4 The second part of that is that following the  
5 horrible financial challenges that the State faced in  
6 2009, there was a very exhaustive scrubbing of the 1100  
7 or so special funds, the majority of which are invested  
8 in the pooled money account, to determine which were  
9 vulnerable and which were not. The result now is that as  
10 the State's budgetary situation has gotten better, A, its  
11 liquidity has returned -- that's a good thing -- but, B,  
12 some of the mechanics between the special funds and the  
13 pooled money account have become more complicated as a  
14 result of the actions that were taken between 2009 and  
15 2011. That's why this is not an easy discussion to have.

16  
17 And then the last thing I would say -- and this  
18 is not to throw a wet blanket on anything, but the State  
19 Treasurer's responsibility as custodian of those funds is  
20 in order safety, liquidity and yield a very distant  
21 third. Liquidity is a challenge with any warehouse line.  
22 We'll work through that, and we'll come to some kind of a  
23 rational understanding, but just to make sure that the  
24 Board understands that that's a process, not an event,  
25 that we'll have to go through.

1 MR. GUNNING: Well said.

2 CHAIRMAN JACOBS: I think we know who to ask if  
3 we have questions.

4 MS. HSU: More than we ever wanted to know,  
5 probably. I appreciate your comments very much, Tim.

6 When I put in the request -- maybe this is a bit  
7 too much. When I put in a request, I thought it was a  
8 kamikaze. I really thought it was, because I know that  
9 back in 2012 when we paid it off, the signal to us was  
10 that this is not something that will come up again in the  
11 future. So I thought I was going for the kill, but I  
12 didn't, so I really appreciate the Treasurer's Office's  
13 willingness to look at this again.

14 Thank you.

15 CHAIRMAN JACOBS: Thanks, Tim.

16 --oOo--

17 **Item 12. Update on Governor's Reorganization Plan II**  
18 **related to Housing**

19 CHAIRMAN JACOBS: All right, Tia. So tell us,  
20 now that Tim has introduced us again to this notion of  
21 why we -- where is the reorg headed; what's the future  
22 looking like for us?

23 MS. BOATMAN PATTERSON: So in March I met with  
24 Mel Watt, who is the federal -- director of the federal  
25 home finance administration. And he was discussing how

1 he would really like to see the HFAs nationwide and their  
2 federal home loan banks play more of an active role and  
3 that those partnerships be increased. And as a result of  
4 that, we started engaging in the Federal Home Loan Bank  
5 on some of those issues. And the issue of the  
6 reorganization came up, and then it occurred to me that  
7 you all - *I know that's kind of disturbing.*

8 *CHAIRMAN JACOBS: It's a light show. [referring to blinking lights from equipment]*

9 MS. BOATMAN PATTERSON: -- that it had been a  
10 while since you all had been updated on the Governor's  
11 reorganization, so I did want to take an opportunity this  
12 afternoon to provide you with an update on the Governor's  
13 Reorganization Plan.

14 First, by way of background, the Governor's  
15 Reorganization Plan, or GRP, was to give you -- take you  
16 through the steps that we have taken to try to implement  
17 that. It was first announced in May of 2012. The  
18 Governor's Reorganization Plan No. 2's primary purpose  
19 and focus was on an increased efficiency and  
20 effectiveness in state government. The GRP transferred  
21 CalHFA and HCD, the Housing and Community Development  
22 department, up from the former Business, Transportation  
23 and Housing Agency and put them together within the newly  
24 established Business, Consumer Services and Housing  
25 Agency.

1           Within the Business, Consumer Services, Housing  
2           organizational structure, HCD reports directly to  
3           Business, Consumer Services, Housing Agency while CalHFA  
4           is reported and displayed as a program within HCD. This  
5           restructuring was intended to improve the housing program  
6           policy development and enable a higher level of  
7           programmatic coordination and collaboration between  
8           CalHFA and HCD.

9           During the 2012/2013 fiscal years, both agencies  
10          conducted a joint assessment of their organization. The  
11          assessment included an analysis of workload and  
12          functions, business processes and risks, and included  
13          numerous meetings with our stakeholders and business  
14          partners. Once the assessment was complete, the agencies  
15          outlined the level of effort, time, funding and risk of  
16          various collaboration scenarios.

17          Over the next several months, CalHFA and HCD  
18          worked with the Administration to implement the  
19          reorganization, which took effect on July 1st, 2013.

20          The Board was last updated on the reorganization  
21          on April 23rd, 2013. There were a number of challenges  
22          with the reorganization, but the primary challenge was  
23          ensuring the ability of CalHFA to meet its obligations to  
24          its financial partners, including both bondholders, and  
25          understanding that our creditors are sensitive to any

1 structural changes to CalHFA that would impact CalHFA's  
2 independence as a banking institution. Tim just  
3 articulated some of these sensitivities during his  
4 previous discussion on obtaining the line of credit.  
5 Creditors need a complete understanding of the  
6 relationship between Business, Consumer Services, Housing  
7 Agency; HCD; and California Housing Finance Agency to  
8 alleviate concerns related to the organizational  
9 structure that could present a credit risk.

10 The current status is that as of June of 2014 it  
11 was determined that the two departments would remain  
12 separate, and CalHFA would establish a more formal  
13 collaborative relationship with HCD. CalHFA updated its  
14 MOU with HCD. It meets regularly with HCD and TCAC and  
15 CDLAC, our two other housing entities on joint housing  
16 policy sessions. Although CalHFA is displayed in the  
17 state budget as a program within HCD, this is for  
18 budgetary reporting purposes only.

19 To ensure CalHFA's continued financial  
20 independence, Department of Finance created a  
21 suborganization code in the state budget. The  
22 collaborative model allows CalHFA independence while  
23 ensuring a more deliberate and focused collaboration will  
24 be pursued to increase the effectiveness and efficiencies  
25 of affordable housing services.

1           To date HCD and CalHFA collaborative activities  
2 include completion of a new interagency operating  
3 agreement between CalHFA and HCD, emphasizing an expanded  
4 approach to collaboration; consolidation of the  
5 legislative analysis units under one manager and joint  
6 approaches to legislative analysis and research; a formal  
7 collaboration between CalHFA marketing division and HCD  
8 communication division, resulting in a robust marketing  
9 and communication effort; and formation of an interagency  
10 working group between CalHFA, HCD and CalVet to implement  
11 the California Veterans and Homeless Act, Prop 41. While  
12 CalHFA is grouped together with HCD, it remains  
13 administratively and operationally independent.

14           Looking ahead, we know that there are ongoing  
15 challenges and the process of working to implement -- but  
16 the process to implement reorganization has assisted the  
17 two organizations to grow a healthy, collaborative  
18 relationship as long -- as well as with other state  
19 partners and the two housing entities, TCAC and CDLAC.  
20 All four housing organizations -- HCD, CalHFA, TCAC and  
21 CDLAC, tax credit allocation committee and the -- help me  
22 here, Tim -- California Debt Limit Allocation  
23 Committee -- meet regularly for joint policy meetings.  
24 Both HCD and CalHFA both sit on both of those boards as  
25 ex officio members as well.

1 MS. FALK: I just want to correct the record in  
2 terms of what was handed out and when people's board  
3 terms are. The one for me is incorrect in terms of the  
4 date. I didn't start until 2013, so -- I think the  
5 amount of time I've served is correct, but the date is  
6 completely incorrect.

7 MS. BOATMAN PATTERSON: It says 2009 instead of  
8 2013. I think it's typo.

9 MR. PRINCE: The amount of time served is one day  
10 shorter -- one day longer than Dalila and me, so I think  
11 the time served isn't right either. Because I think it's  
12 seven or eight months longer. But my motion is still the  
13 same.

14 MS. FALK: It's still the correct order.

15 MR. JAMES: Mr. Chair, I'll review this and  
16 correct the dates and circulate it to the members.

17 CHAIRMAN JACOBS: Fantastic.

18 Okay, let's do a roll call.

19 MS. OJIMA: Ms. Caballero.

20 CHAIRMAN JACOBS: In the air.

21 MS. OJIMA: In the air.

22 Mr. Schaefer.

23 MR. SCHAEFER: Aye.

24 MS. OJIMA: Ms. Gunn.

25 MS. GUNN: Yes.

1 MS. OJIMA: Ms. Falk.

2 MS. FALK: Yes.

3 MS. OJIMA: Ms. Avila Farias.

4 MS. AVILA FARIAS: Aye.

5 MS. OJIMA: Mr. Gunning.

6 MR. GUNNING: Aye.

7 MS. OJIMA: Ms. Johnson-Hall.

8 MS. JOHNSON-HALL: Aye.

9 I'm happy to be here. It's my first year  
10 anniversary today on the Board.

11 MS. OJIMA: Mr. Hunter.

12 MR. HUNTER: Aye.

13 MS. OJIMA: Mr. Prince?

14 MR. PRINCE: Yes.

15 MS. OJIMA: Ms. Whittall-Scherfee.

16 MS. WHITTALL-SCHERFEE: Yes.

17 MS. OJIMA: Ms. Sotelo is not here.

18 Mr. Jacobs.

19 CHAIRMAN JACOBS: Aye.

20 MS. OJIMA: Resolution 15-20 has been approved.

21 CHAIRMAN JACOBS: Great.

22 MS. BOATMAN PATTERSON: Just -- this resolution  
23 is really a backup in case we don't have a new chair  
24 appointed by the next Board meeting. And we didn't have  
25 a process in place to have a chair, and so this really is

1 kind of a backup.

2 CHAIRMAN JACOBS: There were several years --

3 MS. BOATMAN PATTERSON: Yes.

4 CHAIRMAN JACOBS: -- in which we did not have a  
5 chair.

6 MS. BOATMAN PATTERSON: Yes.

7 --o0o--

8 **Item 14. Reports**

9 CHAIRMAN JACOBS: We have various reports. Did  
10 anyone have any questions on any of these items for  
11 staff?

12 No? Okay, great.

13 --o0o--

14 **Item 15. Discussion of other Board matters**

15 CHAIRMAN JACOBS: Any other matters people wish  
16 to bring up for the whole Board?

17 Mr. Hunter.

18 MR. HUNTER: I just think we ought to say in open  
19 session, our conversation with our executive director was  
20 very positive. And we're going to present you with major  
21 challenges going forward because we think you're up to  
22 this. And thank you very much for your service.

23 MS. BOATMAN PATTERSON: Thank you.

24 CHAIRMAN JACOBS: Absolutely.

25 MR. PRINCE: Yeah, I want to second that. One of

1 the things I heard was a really strong desire for that  
2 challenge to happen, and so whether that's through a  
3 retreat process or something, and then really making the  
4 Board meetings an opportunity for that to happen as well,  
5 so we could talk about policy at this level, and so  
6 trying to look at either consent agenda items or  
7 something that allows us then to have the deeper  
8 conversations that we want to have with you and your  
9 staff.

10 MS. BOATMAN PATTERSON: Okay. And one of the  
11 things that Dalila and I had talked about kind of briefly  
12 was perhaps calling a special meeting on policy  
13 considerations where we just -- I know there are a couple  
14 of things going on in the state of California that are of  
15 critical importance to housing policy and the way we are  
16 going forward. One of those are Laura's taking the lead  
17 with HCD on the UMRs. Mark Stivers, the executive  
18 director of the Tax Credit Allocation Committee, is  
19 taking lead on modifying the regulations for TCAC. And  
20 then with our policies, we want to make sure that  
21 those -- that really is what we're talking about,  
22 aligning programs and policies going forward. So I think  
23 it would be appropriate that we perhaps have a policy  
24 discussion and so perhaps a special meeting in October.

25 MR. PRINCE: Or a retreat, whatever you want to

1 call it.

2 MS. BOATMAN PATTERSON: Okay. So that is  
3 something that we -- I want to look at with engaging with  
4 the Board on.

5 CHAIRMAN JACOBS: And in fact, one of the items  
6 discussed was take advantage of this Board. You've got  
7 some very successful people sitting --

8 MS. BOATMAN PATTERSON: Very good.

9 CHAIRMAN JACOBS: -- to my left and to my  
10 right --

11 MS. BOATMAN PATTERSON: Yes.

12 CHAIRMAN JACOBS: -- who know what they're doing,  
13 and they'd love to serve.

14 MS. BOATMAN PATTERSON: Okay.

15 CHAIRMAN JACOBS: Great.

16 MS. FALK: I want to thank Matt again for his  
17 term as chair and doing a great job.

18 (Applause.)

19 --o0o--

20 **Item 16. Public testimony: Discussion only of other**  
21 **matters to be brought to the Board's attention**

22 CHAIRMAN JACOBS: Any members of the public wish  
23 to speak?

24 --o0o--

25 **Item 17. Adjournment**

1  
2  
3  
4  
5  
6  
7  
8  
9  
10  
11  
12  
13  
14  
15  
16  
17  
18  
19  
20  
21  
22  
23  
24  
25

CHAIRMAN JACOBS: Seeing none, we're going to  
adjourn. Thank you.

(The meeting concluded at 12:57 p.m.)

--o0o--

**REPORTER'S CERTIFICATE**

I hereby certify the foregoing proceedings were reported by me at the time and place therein named; that the proceedings were reported by me, a duly certified shorthand reporter and a disinterested person, and was thereafter transcribed into typewriting by computer.

In witness whereof, I have hereunto set my hand this 28th day of September 2015.

---
