STATUTORY REPORTING REQUIREMENTS

Section 51005 of the Health and Safety Code requires that the Agency provide certain information under the fifteen categories specified in Section 51005(b) as part of the Annual Report due under Section 51005(a).

Section 51005(a): the report shall...include a statement of accomplishment during the previous year with respect to the agency's progress, priorities, and affirmative action efforts. The agency shall specifically include in its report on affirmative action goals, statistical data on the numbers and percentages of minority sponsors, developers, contractors, subcontractors, suppliers, architects, engineers, attorneys, mortgage bankers or other lenders, insurance agents, and managing agents.

Pursuant to Proposition 209 (also referenced as Article 1, Section 31 of the California Constitution), the California Housing Finance Agency (CalHFA) does not give preferences in awarding contracts based upon race or gender.

Pursuant to federal and state law, the Agency requires affirmative marketing for all housing developments to assure that housing opportunities generated by CalHFA provide attractive housing options in diverse locations for low income, disabled and senior households, and are open to all regardless of race, sex, sexual orientation, marital status, religion, national origin, ancestry, familial status or disability.

The following information is submitted in narrative form as it relates to the requirement of the referenced code sections [paragraph numbers correspond to the subparagraphs of Section 51005(b)]:

- (1) The primary purpose of the agency in meeting the housing needs of persons and families of low or moderate income pursuant to Section 50950.

The Agency meets the housing needs of persons and families of low or moderate income to the extent that it satisfies its specific objectives as outlined in Section 50952:

- (a) Acquisition of the maximum amount of funds available for subsidies for the benefit of persons and families of low or moderate income occupying units financed pursuant to the statute.

Multifamily - CalHFA has acquired the maximum amount of funds available to it under the federal rental housing subsidy (Section 8) contract authority. CalHFA also requires the sponsors request and accept renewals on all rental housing subsidy contracts that are part of the approved financing on any given multifamily development. In addition, the Agency has combined its financing with participation and contributions from governmental entities utilizing federal, state, county and local resources such as FHA insurance, Low Income Housing Tax Credits (LIHTC), California Debt Limit Allocation Committee (CDLAC), Community Development Block Grant (CDBG), Home Investment Partnership (HOME), tax increment and other redevelopment agency funds, State Department of Housing and Community Development funds, and local resources.

Homeownership - Utilizing tax exempt authority available from the California Debt Limit Allocation Committee, the Agency created a Mortgage Credit Certificate (MCC) program. The program was offered in areas of the State not covered by locality MCC programs, or if the locality depleted their authority. Further assisting new first time homebuyers in their purchases was financial assistance in the form of deferred payment second mortgages at low simple interest rates through the California Homebuyer's Downpayment Assistance Program (CHDAP), and grants through the School Facility Fee Down Payment Assistance Program (SFF).

- (b) Housing developments providing a socially harmonious environment by meeting the housing needs of both very low income households and other persons and families of low or moderate income and by avoidance of concentration of very low income households that may lead to deterioration of a development.

Multifamily - The present multifamily rental programs of the Agency integrate very low and low income housing opportunities with market rate rentals whenever possible. All of CalHFA's housing developments are planned and designed to visually and physically integrate all elements of a complex into a socially harmonious environment. There are no visual or physical differences between units to be occupied by the very low income, low income or market rate tenants. The Agency requires that asset management personnel maintain high quality rental units. Housing developments are required to distribute low or very low income units throughout the development.

Homeownership - The Agency's loan programs are designed to distribute funds, as market conditions permit, to meet housing needs throughout the state. The programs are designed to provide financing to low and moderate income first time homebuyers purchasing homes in all counties. Through the Agency's "over-the-counter" single family loan reservation system, Lender Access System (LAS), lenders can reserve a loan without the housing development being pre-approved, or designated as low-income housing. This encourages widespread utilization of funds and minimizes concentrations in any one area.

- (c) Emphasis on housing developments of superior design, appropriate scale and amenities, and on sites convenient to areas of employment, shopping, and public facilities.

Multifamily - CalHFA developments and amenities are visually (architecturally) reflective of comparable market projects within a locale, being indistinguishable as a low income project. In addition, local participation typically includes architectural design requirements that keep the design comparable to others apartment buildings in the neighborhood. Whenever market conditions allow, CalHFA has encouraged the development of larger units to accommodate larger low income and other families. Within a development, a proportionate share of all unit types is reserved for low income families.

Homeownership - The Homeownership Division purchases CalHFA down payment assistance subordinate loans from authorized lenders throughout the State. This continually provides additional funds to assist in financing the purchase of new and existing homes. It also ensures that affordable financing is available to assist low and moderate income households to enjoy the amenities and benefits of home ownership in developments located close to employment, shopping and public facilities. All properties must be in good condition, meet State Health & Safety Codes, and satisfy any requirements dictated by a HUD approved appraiser.

- (d) Increasing the range of housing choices for minorities in lower income households and other lower income households, rather than maintaining or increasing the impact of low income areas, and cooperation in implementation of local and areawide housing allocation plans adopted by cities, counties, and joint powers entities made up of counties and cities.

Multifamily - In compliance with applicable laws, the Agency requires affirmative marketing and adequate placement for all projects to assure that housing opportunities assisted by CalHFA and other financing mechanisms provide attractive housing options in diverse locations for low income families, disabled, and senior households.

- (e) Reducing the cost of mortgage financing for rental and cooperative housing to provide lower rent for persons and families of low or moderate income.

Multifamily - Through the sale of tax-exempt bonds, voter initiatives and other financing mechanisms, the Agency delivers low-cost mortgages to developers who then pass along this benefit to lower income tenants through reduced rents. .

- (f) Reducing the cost of mortgage financing for home purchase, in order to make homeownership feasible for persons and families of low or moderate income.

Homeownership - The Agency provides first time homebuyers down payment and/or closing cost assistance through various programs such as the Affordable Housing Partnership Program (AHPP) with localities and nonprofits, the School Facility Fee Down Payment Assistance Program (SFF), and the California Homebuyer's Downpayment Assistance Program (CHDAP). These programs compliment the first mortgage lending programs offered by lenders throughout the State.

CalHFA's Housing Enabled by Local Partnerships (HELP) Program facilitated local government agency programs by making funds available for local subordinate loan programs to assist low and moderate income families. Local governments borrowed the funds for such a purpose at 3 to 3.5% interest for up to ten years.

- (g) Identification of areas of low vacancy rates where construction is needed, of areas of substandard housing where rehabilitation is needed, and of areas of credit shortage where financing is needed for transfer of existing housing, so as to maximize the impact of financing activities on employment, reduction of housing costs, and maintenance of local economic activity.

Multifamily - Within every multifamily development the Agency ensures there are benefits derived from building the project, i.e., construction and related employment, etc. As part of its underwriting considerations, the Agency examines critical factors including vacancy rates, market demand and cost feasibility.

Homeownership - The Agency has identified federally-designated targeted areas in need of mortgage credit, new housing construction or rehabilitation and community revitalization. CalHFA identifies these areas by comparing jobs with housing to help create balance and to maximize the impact of financing activities sponsored by

CalHFA's Homeownership Programs. Under federal tax laws, CalHFA is required to commit 20% of any new bond issue to federally-designated targeted areas for 12 months.

A number of local governments and nonprofits also partner with CalHFA by assisting low-income borrowers in such areas through the Affordable Housing Partnership Program (AHPP).

The Agency also operated the Residential Development Loan Program (RDLP); project-specific funding that provided a 3% interest rate loan with a maximum term of five years to local government agencies for site acquisition, predevelopment and construction of affordable infill, owner-occupied housing developments that served low to moderate income households. The Program also directly linked RDLP-financed developments to CalHFA's California Homebuyer's Downpayment Assistance Program to assist with both down payment and, as necessary, closing costs by providing subordinate loans to first-time homebuyers.

- (h) A balance between urban metropolitan, nonmetropolitan, and rural metropolitan housing developments, and between family housing and housing for the elderly and handicapped, in general proportion to the needs identified in the California Statewide Housing Plan.

Multifamily – The Agency is required by statute to utilize the Statewide Housing Plan for the allocation of Agency funds. Please see pages 18 through 22 of this Supplement for detailed data on the Agency's accomplishments in furtherance of the Plan.

Homeownership - CalHFA attempts to meet the housing needs of first time homebuyers on a continuous basis by making financing available for the purchase of newly constructed and existing homes in every county of the state. Through the Homeownership Program, CalHFA develops loan programs and strategies to ensure the equitable distribution of funds throughout California.

- (i) Minimization of fees and profit allowances of housing sponsors so far as consistent with acceptable performance, in order to maximize the benefit to persons and families of low or moderate income occupying units financed by the Agency.

Multifamily - We review development fees and verify that the fees charged comply with the limitations of other state funding sources.

Homeownership – In early 2011, the Homeownership program reintroduced to nonprofit developers a block of funds available for their use. This typical below market rate financing is for both spot reservations and new construction forward commitments, available for 9, 10 or 11 months. Fees collected by lenders from borrowers are restricted by CalHFA to maximize the benefit to homebuyers.

- (j) Full utilization of federal subsidy assistance for the benefit of persons and families of low or moderate income.

Multifamily - See (a) on page 1.

- (k) Full cooperation and coordination with the local public entities of the state in meeting the housing needs of cities, counties, and Indian reservations and rancherias on a level of government that is as close as possible to the people it serves.

Multifamily and Homeownership - The Agency markets its programs in a manner which seeks out development projects and individual loan commitments that provide funds for the purchase of homes sponsored by local public entities and nonprofit or for-profit developers working with cities and/or counties. The Agency has provided incentives for these developments. In addition, the Agency also works with local governmental entities, State agencies and nonprofits that provide other sources of subsidy or financing to help make affordable housing available to low income families. CalHFA outreaches directly to cities and counties in an effort to acquaint relevant officials with programs offered by the Agency. The Agency may offer a special interest rate reduction for first mortgages when local governments provide down payment assistance to low income, first time homebuyers through the Affordable Housing Partnership Program (AHPP). As of June 30, 2012, more than 292 local government entities and nonprofit housing organizations offering 539 programs that have been approved to provide financial assistance to first-time homebuyers securing Agency first mortgages.

- (l) Promoting the recovery and growth of economically depressed business located in areas of minority concentration and in mortgage-deficient areas.

Multifamily - CalHFA works in cooperation with local public entities, such as housing authorities and redevelopment agencies, to coordinate financing to meet local housing needs and promote the revitalization of urban areas.

Homeownership - The Homeownership program promotes the growth and recovery of business by assisting permanent mortgage financing in all areas of the State and in particular to federally designated targeted areas. CalHFA attempts to distribute their first mortgage products on an equitable basis throughout the State, creating marketing plans to increase lending activity in underserved areas.

- (m) Revitalization of deteriorating and deteriorated urban areas by attracting a full range of income groups to central city areas to provide economic integration with persons and families of low or moderate income in those areas.

Multifamily - Development of CalHFA projects in or adjacent to redevelopment areas has resulted in the replacement and our rehabilitation of substandard housing while increasing or preserving of the supply of housing units available. CalHFA projects have assisted with the revitalization of urban areas by providing visual activity of constructive neighborhood improvement, resulting in a wider range of housing opportunities and choices within depressed areas of the city and discouraging migration outside the inner city neighborhoods. This development has increased the quality of housing units available, provided the type of mixed income and market rate projects that have attracted a diversity of groups for a more dynamic economic integration and transformed vacant and/or blighted lots into useful housing infrastructure.

Homeownership - The Agency distributes to CalHFA lenders throughout the State the special Federal income and sales price limits established for federally designated targeted areas in order to encourage a range of income groups to buy homes. Lower interest rates and the availability of CalHFA down payment assistance programs also contribute by improving affordability for low/moderate income buyers in these areas. All of the above contribute to the revitalization of these targeted areas.

- (n) Implementation of the goals, policies, and objectives of the California Statewide Housing Plan.

Multifamily and Homeownership – The above-referenced programs, through program design and marketing, are designed to meet the goals of the Plan.

- (o) Location of housing in public transit corridors with high levels of service.

Multifamily – Some new construction and resale housing commitment bids are for housing developments in public transit corridors that have high levels of service. Rehabilitation sites are typically in areas which enjoy public transportation opportunities.

Homeownership – Effective January 1, 2005, state legislation has increased the amount of downpayment assistance offered under the CHDAP; from 3% to 5% of the purchase price or the appraised value (whichever is less) for borrowers purchasing a newly constructed home in specific Transit Village Development Districts, Transit Oriented Development Plan Area or Infill Opportunity Zone, (eligible areas).

- (p) Reducing the cost of mortgage financing for rental housing development in order to attract private and pension fund investment in such developments.

The Agency's low interest rate mortgage financing for rental housing developments attracts private equity investment, especially in those circumstances where the federal low income housing tax credit is available. Pension funds have not yet been equity investors in any Agency-financed rental housing developments.

- (q) Reducing the cost of mortgage financing for second unit rental housing, as defined by Section 65852.2 of the Government Code, in order to make rental housing more affordable for elderly persons and persons and families of low or moderate income.

As outlined in the Agency's June 23, 1993 Report to the Legislature, the Agency does not have a loan program for second units. Prior attempts to market such a program were not successful.

- (2) The occupancy requirements for very low income households established pursuant to Sections 50951 and 51226.

Sections 50951, 51226 and 51226.5 contain various priority requirements for housing development financing. If adequate subsidies are available, certain percentages (which vary depending upon the type of financing and type of developments, and whether they are federally insured) of the total units financed must be made available to very low income households

This information is provided in Tables IV-2 and IV-3 on pages 45 and 46.

- (3) The elderly and orthopedic disability occupancy requirements established pursuant to Section 51230.

Section 51230. Percentage of units allocated for occupancy by elderly persons.

This information is provided in Table III-4 on page 21 and in Table III-5 on page 22.

Subsequent to Section 51230's enactment, the number of laws governing handicapped accessibility for multifamily rental housing have greatly increased. The Agency requires that the design of all newly constructed units comply with the applicable accessibility requirements.

(4) The use of surplus moneys pursuant to Section 51007.

Section 51007. Subject to any agreements with holders of particular bonds, all moneys available for carrying out the purposes of this part and declared by the agency to be surplus moneys which are not required to service or retire bonds issued on behalf of the agency, pay administrative expenses of the agency, accumulate necessary operating or loss reserves, or repay loans to the agency from the General Fund shall be used by the agency, with respect to existing housing developments, to provide special interest reduction programs, financial assistance for housing developments or subsidies for occupants or owners thereof, or counseling programs, as authorized by this division.

As of June 30, 2013, there were no funds derived from the issuance of bonds by the Agency, which can be declared surplus moneys. All moneys available to the Agency are, subject to agreement with the bondholders, required to service or retire bonds issued on behalf of the Agency, repay loans, pay administrative expenses of the Agency, and accumulate necessary operating or loss reserves.

(5) The metropolitan, nonmetropolitan, and rural goals established pursuant to subdivision (h) of Section 50952.

This information is provided in the tables on pages 13, 14, 15, 19, 20 and paragraph (h) on page 4.

(6) The California Statewide Housing Plan, as provided by Section 50154.

See paragraph (h) on page 4. In general, CalHFA programs seek to implement the goals, policies and objectives of the Plan and attempt to meet the housing needs outlined in the Plan.

(7) The statistical and other information developed and maintained pursuant to Section 51610.

The California Housing Loan Insurance Fund (Fund) insures loans made by the Agency and other lenders which finance the acquisition of residential units in California. The Fund has withdrawn from both Standard and Poor's and Moody's rating agencies.

For 2012-2013, the Fund insured no new mortgages. At fiscal yearend, there were 4,772 active mortgage certificates for \$1.3 billion.

During this fiscal year, the Fund paid 764 claims totaling \$75.5 million. Claims are paid through a risk share reinsurance arrangement with Genworth Mortgage Insurance Inc. The Fund schedules its share of claim payments from premium funds as they are received.

At fiscal yearend, there were 588 insured loans reported delinquent 120+ days totaling \$170.0 million.

(8) The number of manufactured housing units assisted by the agency.

Within the Home Mortgage Purchase program, the Agency has provided financing for 1,052 manufactured housing units since 1983. While the Agency periodically explores new innovations in the area of manufactured housing, seeking to apply this product type to CalHFA programs, the Agency purchased no loans for manufactured housing properties in Fiscal Year 2012-13.

- (9) Information with respect to the proceeds derived from the issuance of bonds or securities and any interest or other increment derived from the investment of bonds or securities, and the uses for which those proceeds or increments are being made as provided for in Section 51365, including the amount by which each fund balance exceeds indenture requirements.

All proceeds from the issuance of the Agency's bonds have been applied to the housing programs identified in the Agency's Business Plan and its Annual Report, to service the bonds and swaps and to pay administrative expenses, to establish required reserves and to repay Agency loans. Over the past two fiscal years all available reserves derived from the proceeds of bonds are being used for loan losses and additional costs related to bonds and swaps. There are no excess fund balances that exceed indenture requirements.

The Agency's financial statements are prepared in accordance with Generally Accepted Accounting Principles (GAAP) and follow the Standards of Governmental Accounting and Financial reporting as promulgated by the Governmental Accounting Standards Board ("GASB"). All net assets of the Housing Finance Fund, whether or not currently held under the liens of bond indentures, are properly reported as "restricted" in accordance with GASB Statement No. 34 and State statutes.

The Agency's bond issues are structured to comply with bondholder agreements and the requirements of credit rating agencies, bond insurers and other financial institutions providing credit enhancement or security in support of the issuance of the Agency's bonds. In addition, some of the Agency's financings and all of the swap agreements are guaranteed by the pledge of the Agency's general obligation, which was rated A3 by Moody's Investors Service and A- by Standard & Poor's. Under State statutes, all assets of the Housing Finance Fund, whether or not held under the liens of bond indentures, are continuously appropriated in support of the Agency's financial obligations. This appropriation comprises the support for the Agency's rated general obligation. As of June 30, 2013, the Agency's general obligation was pledged to \$686 million of its bonds and to its entire \$2.1 billion of interest rate swaps.

The Agency has used a significant amount of reserves accumulated over many years during this economic cycle and real estate market downturn. The Agency reported operating losses in the Housing Finance Fund over the past two fiscal years totaling more than \$175 million. Contributing to this operating loss were loan related losses of \$119 million associated with single family first mortgages.

The Agency's interest rate swap portfolio is comprised of 96 swaps with 11 different financial institutions acting as counterparties. The estimated net market value of these swaps as of June 30, 2013 was a negative \$248 million. The swap portfolio has a negative value because of interest rate changes since the date the swaps were obtained. This negative value represents the payments the Agency would owe to its counterparties in the event the swaps had to be terminated. One event that would cause a mandatory termination and an immediate obligation of the Agency to pay the termination value of its swaps would be a loss or severe reduction of the Agency's general obligation credit ratings.

- (10) Any recommendations described in subdivision (d).

Section 51005(d). The agency shall assess any obstacles or problems that it has encountered in meeting its mandate to serve nonmetropolitan and rural metropolitan areas, and...include...a quantification and evaluation of its progress in meeting the housing needs of communities of various sizes in rural areas.

The Agency implemented the USDA Rural Development Leveraging/Participation Program and the USDA Rural Housing Guaranteed Loan Program, to provide another available source of financing in rural areas. The California Homebuyer's Downpayment Assistance Program (CHDAP) provides down payment assistance and is available in rural areas throughout California.

Additional information is provided in the tables on pages 13, 14, 15, 19, 20.

- (11) Section 51227. At the close of each fiscal year, the agency must ascertain that not less than 25 percent of the total units financed by mortgage loans during the preceding 12 months were made available to very low income households. In addition, at the close of each fiscal year the agency must ascertain that not less than 25 percent of all units financed by mortgage loans are occupied or available to very low income households.

This information is provided in Tables IV-2 and IV-3 on pages 45 and 46.

- (12) The revenue bonding authority plan adopted pursuant to Section 51004.5.

This information is provided in Table VI-4 on page 53.

- (13) The statistical and other information required to be provided pursuant to Section 50156.

The California Housing Finance Agency shall provide to the Legislature and the Legislative Analyst, in each annual report required by Section 51005, information concerning all units produced, assisted, or insured using agency funds. This information shall include, but shall not be limited to, the sales prices of these units, the number of units within various price ranges or price classifications, the rents being charged for the units, the number of rental units within each price range, the number of households by income level purchasing the units, and the number by household income occupying the rental units.

This information is provided in Tables I-1 on page 11 and II-1 through IV-3 on pages 12 through 56.

- (14) An analysis of the agency's compliance with the targeting requirements of subsection (d) of Section 142 of the Internal Revenue Code of 1986 (26 U.S.C. Sec. 142) with respect to any issue of bonds subject to those requirements under Section 103 of the Internal Revenue Code of 1986 (26 U.S.C. Sec. 103), including the numbers of rental units subject to this reporting requirement by categories based on the number of bedrooms per unit.

This information is provided in Table III-6 on page 23.

- (15) The statistical and other information relating to congregate housing for the elderly pursuant to Section 51218.

At the close of each fiscal year, commencing with the fiscal year ending June 30, 1988, the agency shall, as part of its annual report required to be prepared pursuant to Section 51005, report on its progress in implementing this article. The report shall contain a discussion of the affirmative steps the agency has taken to ensure that congregate housing for the elderly is developed. The report also shall contain recommendations for legislation or other action that would assist the agency in implementing this article.

Although the Agency continues to finance rental properties for seniors under other authority, no bonds or projects have been financed specifically as a result of Article 5.7. CalHFA continues to evaluate the financial viability of affordable assisted living projects.
