Preserving Affordable Housing in San Bernardino

Sacramento, September 22, 2005 – An existing affordable housing complex in San Bernardino will soon receive funding for acquisition and renovations to help preserve rental housing for 80 low to moderate income families. The California Housing Finance Agency (CalHFA) Board of Directors approved \$4.575 million in loans to Sterling Village Affordable, L.P., whose managing general partners are Sterling Village Residential, LLC and Las Palmas Foundation, a California nonprofit corporation, to purchase and rehabilitate the existing apartment complex. The renovations are scheduled to begin by January 2006 and will take place over a 10-month period.

Built in 1982, Sterling Village Apartments is located in the eastern area of the city. Located on 5.11 acres, the property consists of 12 two-story buildings containing 80 units, with one, two or three bedrooms. The common areas of the property include a community room, laundry facilities, and children's playgrounds. Sterling Village Apartments will receive improvements to building exteriors and common areas, mechanical systems and residential units. Upon completion of the work, families with incomes at or below 60 percent of the county area median income will be eligible for the affordable units.

CalHFA will provide acquisition and rehabilitation financing of \$4.01 million with a variable interest rate for 24 months and a second mortgage loan of \$500,000 for an eight-year period. Upon completion, a permanent tax-exempt 30-year loan of slightly more than \$4.075 million will be provided at a 5.30 percent fixed interest rate.

Chartered in 1975 as the state's affordable housing bank, the California Housing Finance Agency is celebrating 30 years of providing affordable housing in California. Last year, CalHFA's Multifamily Division financed over \$255 million for the construction and permanent financing of new developments and special needs projects, and the preservation of existing affordable rental housing.
