Homeownership Retention

Total All Programs:	Retention	
Foreclosure Sale		881
Deed in Lieu		6
Short Sale		618
Traditional Sale	Yes	5,433
Borrower Stills Owns Home	Yes	<u>63,000</u>
Total		69,938
Homeownership Retention		68,433
%		97.85%

The Homeownership Retention table contain the outcomes of HHF homeowners for all programs within two years of their exit from the program. There are five homeowner categories, including: • Foreclosure Sale • Deed in Lieu • Short Sale • Traditional Sale • Borrower Still Owns Home

This data is reported on a cumulative level as well as by individual program. All programs are included *except* for the transition assistance program, as the intent of transition assistance is to help homeowners exit their homes, not retain them.

Please note there are a total of 9,897 households who received HHF assistance but are not included in the retention tables. This is because it has not been two years since they exited the program and do not meet Treasury's reporting guidelines.

When taking into account all non-reported homeowners overall retention increased from **97.85%** to **98.11%**.
