#### 3. Chairperson/Executive Director comments

#### Chairperson comments:

 Acting Chair Sotelo opened by welcoming member Russell back to the Board as an appointee of the Senate Rules Committee. She thanked former member Eileen Gallagher, who retired from the Board last month, for her dedicated service. She also announced that Joe Stephenshaw has been appointed as the new Director at the Department of Finance.

#### **Executive Director comments:**

- Executive Director Tiena Johnson Hall shared information about two recent CalHFA-financed project celebrations that occurred in San Diego and San Jose and thanked member Avila Farias for representing CalHFA at one of the events.
- She announced that Oksana Glushchenko has been named as the Agency's new Comptroller and that member Fred White has recently earned his doctorate degree.
- She participated in a panel discussion at the National Housing and Rehabilitation Association's Summer Institute in San Diego.
- CalHFA has been tasked with designing and implementing the California Dream for All program that was allocated \$500 million as part of this year's state budget.
- 4. <u>Discussion, recommendation, and possible action to adopt a Board Member</u> Code of Conduct – Resolution No. 22-16

Presented by Claire Tauriainen

**Resolution No. 22-16** was immediately tabled by Executive Director Johnson Hall and will be placed on the agenda of a future meeting. No action was taken.

5. <u>Discussion, recommendation, and possible action regarding an adjustment to National Mortgage Settlement (NMS) Counseling Program funds-Resolution No. 22-19</u>

Presented by Claire Tauriainen and Kathy Phillips

On a motion by Prince, the Board approved staff recommendation for **Resolution No. 22-19**. The votes were as follows:

#### 7. CalVET Overview and Program Update

Presented by Dr. Vito Imbasciani, Secretary, California Department of Veteran Affairs

CalVET Secretary and Board member Imbasciani provided the Board with an overview of programs and services provided by the California Department of Veteran Affairs for California's veteran population.

#### 8. Update on California Mortgage Relief Program

Acting Chair Sotelo moved this item from #8 to #9

Presented by Rebecca Franklin, with guest speaker, Geo Shannon

Franklin and Shannon provided the Board with an update on the CA Mortgage Relief Program. They outlined recent changes made to the program including expanding the income limits for applicants and adding property tax assistance as a service of the program.

## 9. <u>Update on Legislative Activity and State Budget with presentation on Shared Appreciation model</u>

Acting Chair Sotelo moved this item from #9 to #8

Presented by Francesc Martí and Ellen Martin

Martí provided the Board with a legislative update, including recently enacted state budget legislation and the California Dream for All program. Martin then followed with brief overview of the shared appreciation loan, a key feature of the California Dream for All program, and how the program design process for the program is unfolding.

#### 10. Informational reports

Acting Chair Sotelo asked if there were any questions about the informational reports. There were none.

#### 11. Other Board matters

Acting Chair Sotelo asked if there were any other Board matters and there were none.

#### 12. Public comment

Acting Chair Sotelo asked if there were any members of the public who wanted to provide a comment and there were none.

#### 13. Adjournment

As there was no further business to be conducted, Acting Chair adjourned the meeting at 1:19 pm.

#### **BOARD MEMBERS' CONDUCT AND REPRESENTATION OF CALHFA**

CalHFA Board Members are charged with the oversight and administration of CalHFA (Health & Saf. Code, § 50901)—and as such bear primary responsibility for implementing the Statewide Housing Plan (Health & Saf. Code, § 50952, subd. (n)). Because housing is of vital statewide importance to the health, safety, and welfare of all Californians (Health & Saf. Code, § 50001), Board Members must appreciate the seriousness of the work CalHFA does and discharge their duties as Board Members in a manner befitting the gravity of the responsibilities of the offices they hold. This guide, therefore, sets out the *minimum* standards by which CalHFA Board Members should conduct themselves.

#### **General Rules of Conduct**

All Board Members shall act in accordance with their oath of office, and shall conduct themselves in a courteous, professional, and ethical manner always. The Board shall conduct its business in an open manner, so that the public shall be both informed and involved, consistent with the provisions of the Bagley Keene Open Meeting Act, the California Public Records Act, and all other governmental and civil codes applicable to similar boards within the State of California. Accordingly, Board Members shall:

- 1. Comply with all provisions of the Bagley-Keene Open Meeting Act;
- 2. Not speak or act for the Board, or CalHFA, without proper (i.e., formal) authorization from a majority of the Board;
- 3. When serving in a board capacity, members of the board shall demonstrate loyalty to the interests of the Agency. This supersedes any conflicting loyalty such as that to advocacy or interest groups and membership on other boards or staffs. It also supersedes the personal interest of any board member acting as a consumer of the organization's activities.;
- 4. As required by law, members will respect the confidentiality appropriate to issues regarding personnel, proprietary matters, and attorney-client privileged communications.;
- 5. Never accept gifts from those having business before the Board or CalHFA while serving on the Board;
- 6. Comply with all applicable incompatible activities statements they serve under;
- 7. Recognize the equal role and responsibilities of all Board Members;
- 8. Act fairly, and be nonpartisan, impartial, and unbiased in their roles;
- 9. Treat all individuals in a fair, professional, courteous, and impartial manner; and
- 10. Not use their positions on the Board for personal, familial, or financial gain.

A Board Member's failure to observe these general rules of conduct could subject them to censure by the board. (See Health & Saf. Code, § 50906.)

#### **Conduct of Board Meetings**

In addition to any rules of conduct formally adopted by the Board from time to time, Board members should strive to conform their conduct during meetings to the following guidelines.

#### **Governing Style**

The Board is responsible for creating and maintaining an atmosphere that encourages frank and collegial discussions both at the Board and committee level and as between the Board and management. The Board strives to achieve a governing style that emphasizes:

- 1. Strategic leadership;
- 2. Outward vision;
- 3. Focus on the future;
- 4. Proactivity:
- 5. Encouragement of collegiality, including the creation of an environment which supports CalHFA's Mission;

- 6. Civility and courtesy, to both those with whom the Board members interact and between Board members;
- 7. Governance by consensus;
- 8. A dedicated working relationship with CalHFA management; and
- 9. Ethical conduct of Board business to avoid even the appearance of impropriety.

#### **Board Member Competencies**

To be more effective members of the CalHFA Board, Board members are expected to develop an understanding of the following:

- 1) Governance Competencies:
  - a) The role and responsibilities of Board members;
  - b) The Board committees and their purposes;
  - c) CalHFA's purpose (Health & Saf. Code, § 50950), as well as applicable principles of public administration and public policymaking;
  - d) Fiduciary responsibilities and duties, conflicts of interest and ethics;
  - e) The CalHFA organizational structure and the roles of executive staff and key service providers, including Board consultants, and external auditors and attorneys;
  - f) The role of CalHFA as a state agency; and
  - g) The proper conduct of Board and Committee Meetings in accordance with rules adopted by the Board.
- 2) Communication Competencies:
  - a) Active and attentive engagement in meetings;
  - b) CalHFA's objectives and approach with respect to communications with the media and stakeholders;
  - c) The ethical and appropriate use of current forms of electronic communication tools; and
  - d) How to express opinions and ask questions in a constructive manner that encourages critical thinking and analysis and improves decision making.

#### **Communications With Third Parties**

Generally, Board members have no obligation to meet with or communicate with advisors, managers, consultants, contractors, or vendors. Any contacts and communications between individual Board members and advisors, managers, consultants, contractors, and vendors to CalHFA will be within the judgment of each Board member. Any such contacts and communications will be in the Board member's capacity as an individual Board member with the understanding that the individual Board members do not represent CalHFA or the Board, and have no authority to bind CalHFA to any agreements, unless specifically authorized to do so by the Board.

#### Communications Regarding CalHFA-Financed Projects

Except for communications during staff briefings of Board members in preparation for an upcoming Board meeting, and communications by committee chairs in carrying out their responsibilities as chair, individual Board members should direct any proposals, questions, or communications regarding a prospective or existing CalHFA-Financed Project only to staff or developer-representatives present at a Board meeting where the Project is on the agenda.

#### Views Expressed Disclaimer

When speaking in a public setting where it is clear that the Board member is speaking because of the member's position on the Board, Board members should preface their remarks with the following disclaimer: "The views I express here are my own and do not necessarily reflect the views of the CalHFA Board of Directors, my fellow Board members or CalHFA staff." As used in this subsection, "public setting" includes the use of social media and/or other forms of electronic communication.

#### **Civility and Courtesy**

Each Board member should commit to conduct him/herself at all times with civility and courtesy, to both those with whom the Board interacts and to his/her colleagues. Individual Board members should also endeavor to correct fellow Board members, should any of their conduct fall below this standard.

#### BOARD MEMBERS' CONDUCT AND REPRESENTATION OF CALHFA

CalHFA Board Members are charged with the oversight and administration of CalHFA (Health & Saf. Code, § 50901)—and as such bear primary responsibility for implementing the Statewide Housing Plan (Health & Saf. Code, § 50952, subd. (n)). ### MEMORANDUM

To: CalHFA Board of Directors Date: September 22, 2022

From: Ellen Martin

CALIFORNIA HOUSING FINANCE AGENCY

Subject: California Dream for All Shared Appreciation Loan Program

#### INTRODUCTION AND OVERVIEW

The 2022-23 State Budget (Assembly Bill 197, Section 1 of the 2021-22 State Budget Trailer Bill) established the California Dream for All Program (Dream for All or Program), a revolving, shared appreciation loan program designed to increase access to home ownership for low- and moderate-income Californians. The shared appreciation loans will provide funding to assist with down payments and closing costs.

#### **Overview of Shared Appreciation Loans**

A shared appreciation loan is a loan that is repayable via a share in the increased value of the home over time. For example, if the Program offered down payment assistance amounting to 20 percent of the home sale price, upon repayment, the borrower would pay back the original loan amount plus 20 percent of the increase in home value at the point of sale. In this example, we assume that the appreciation is shared on a pro rata (1:1) basis – the fund provides 20 percent down payment and shares in 20 percent of the home price appreciation. Note that the share of appreciation is dependent on the loan terms and that amount could be greater or less than the original share of the purchase price.

A shared appreciation loan is typically structured as a second mortgage, subordinate to the first mortgage lien – the same as CalHFA's existing down payment assistance programs. The homebuyer does not make any payments on the loan until they sell, refinance, or transfer the property, at which time they would owe the original loan amount plus the designated share of appreciation. In a shared appreciation loan with a pro rata (1:1) appreciation share (i.e., the appreciation share is equal to percentage of the original investment relative to the original purchase price) and the effective interest rate on the loan is equal to the average annual

appreciation in the home's value. Over the long term, the average annual home price appreciation in California has approximated 5 percent, but varies widely on a year to year basis. For example, in 2008, real estate values plunged by 35 percent. Conversely, real estate values spiked nearly 40 percent between 2020 and 2021.

#### California Dream for All Program

The 2022-23 State Budget established the Dream for All Program, allocated \$500 million to the Program over two years, and designated the California Housing Finance Agency (CalHFA) as the administrator of the Program. The authorizing statute sets broad parameters for the California Dream for All Program, offering the following specific requirements:

- The Dream for All Program must include a shared appreciation loan feature.
- The Program's objective is to expand access to homeownership by helping low and moderate-income homebuyers purchasing owner occupied homes.
- The design of the loan product should not unreasonably impede wealth creation through homeownership for participating homebuyers.
- The Program should maximize the number of households assisted over time, ensuring that funds used to help one homeowner are then recycled upon repayment to help future homeowners. As part of that, CalHFA will explore selling the shared appreciation loans on the secondary market.
- The shared appreciation loan must be paired with a CalHFA first mortgage.
- Because shared appreciation loans are a complex financial product, the Program
  design must include adequate consumer protections and disclosures to ensure that the
  consumer understands their loan.

#### INITIAL PROGRAM DESIGN RECOMMENDATIONS

Since the 2022-23 California State Budget was approved, CalHFA staff have been working to stand up the California Dream for All program in accordance with the statutory framework outlined above. These efforts were informed by a report prepared for the California State Treasurer's Office by California Forward entitled "California Dream for All: A Proposed Shared Appreciation Loan Investment Fund for the State of California" (California Forward Report). The California Forward Report discusses the need for the California Dream for All program and offers a series of recommendations regarding the structure of a shared appreciation loan program designed to increase access to homeownership for low and moderate income Californians.

CalHFA staff provided technical assistance and advice to California Forward in the production of the California Forward Report, but we did not sign off or endorse the report conclusions and recommendations prior to publication.

With that background information and framework in mind, CalHFA staff began to establish initial program design recommendations framed by the following policy and program objectives established by statute, early stakeholder input, and the outcomes of the California Forward work:

- Increase access to home ownership for low and moderate income Californians
- Provide opportunities for wealth accumulation through home ownership, including social
  equity features that offer additional benefits to communities that have historically been
  underserved by the mortgage market
- Minimize financial risk to the consumer, State, and Agency
- Encourage recyclability of funds so that more Californians can receive assistance
- Embed significant consumer education and outreach
- Promote long term operational and administrative viability

It is important to note that the program design efforts will require careful attention to and the balancing of key trade-offs. For example, while the Program seeks to increase access to home ownership, we must also be attentive to minimizing financial risk to the consumer and the State. We therefore need to use care to ensure that while expanding access to home ownership, we do not create a loan product with higher credit and default risk.

Similarly, a key program tenet is to provide opportunities for wealth accumulation through home ownership, namely home equity. Certain provisions that would increase the homeowner's share of home equity (e.g., a lower share of appreciation for the Program), however, could impact our ability to recycle funds and help future homeowners and could limit our ability to sell those loans on the secondary market. These and other trade-offs will need to be balanced throughout the program design and implementation process.

#### **Initial Program Design Parameters**

CalHFA established a multidivisional internal Program design committee consisting of representatives from our Executive, Enterprise Risk, Legislation and Policy, Marketing, Legal, Financing and Single Family divisions. This internal committee was tasked with identifying the

constituent components of the Dream for All program, evaluating the ability for our existing lender infrastructure to deliver shared appreciation loans, and assessing various program design features and alternatives to develop initial recommendations for Program design that meet Program objectives and can be operationalized.

These initial recommendations for key Program design features are enumerated below for Board consideration.

- 1. Program Governance. The Dream for All Program should be administered by the CalHFA Single Family Division and overseen by the CalHFA Board. An external working group composed of key members of the mortgage industry, real estate profession, housing advocacy groups, and housing policy groups should be formed to offer input on key Program design elements and to offer on-the-ground feedback as the Program is implemented so that staff can identify needed refinements and calibrations. More detail regarding the role of this advisory Working Group is offered below.
- 2. Homebuyer Eligibility. Prospective first time homeowners earning up to the CalHFA income limits (~150% Area Median Income [AMI]) would be eligible to receive a Dream for All Shared Appreciation Loan. This income level allows the Dream for All Program to help low- and moderate-income households across California, also ensuring that prospective buyers in high cost areas can benefit. Because it is also consistent with CalHFA's existing MyHome program, these income limits will be easily integrated into our existing lending infrastructure and will avoid creating additional complexity for our lending community, which is a key consideration for a successful program.

A separate eligibility track conferring additional benefits for communities that have historically been underserved by the mortgage market may be may be established as part of the Program – see "Social Equity Features" discussion below.

- 3. **Eligible Costs.** Dream for All Shared Appreciation loans may be used to fund down payments and non-recurring closing costs, including interest rate buydowns.
- 4. Level of Assistance. The Program will provide Shared Appreciation Loans up to 20 percent of the home sale price. Home price appreciation would be distributed between the homeowner and the Program on a pro rata (1:1) basis, subject to the caps on the Program's share of appreciation described below. In other words, if the Dream for All program funds a Shared Appreciation Loan of 20 percent, when the homeowner sells,

- refinances, or transfers the home, they will owe the original amount borrowed plus 20 percent of the increase in the home's value.
- 5. Cap on Program Share of Appreciation. In an effort to provide increased certainty and clarity to consumers regarding how much they will owe and to ensure that a homeowner's ability to accumulate wealth through home equity gains is not unduly impeded, CalHFA staff recommend that the Program's share of appreciation be capped. However, because the long term sustainability of the Program depends upon ensuring that repayments generate sufficient revenue to fund an equal level of assistance to the next homebuyer, staff also recommend that the cap be sized in a manner that will minimize impacts on funding recyclability.
  - Staff therefore recommend that the Program's share of appreciation be capped at a multiple of 2.5 times the original loan amount. This is roughly equivalent to how much appreciation the Program would earn over the course of a 30-year loan with home values appreciating an average of 5 percent annually.
- 6. Social Equity Features. The Dream for All Program could include additional features that are designed to confer additional benefits to communities that have historically been underserved by the mortgage market and have lower rates of homeownership. CalHFA staff recommend establishing preliminary social equity benefits and utilizing the expertise of the advisory Working Group to expand or otherwise right-size those benefits to balance the policy objective of providing additional aid to disadvantaged groups and the program goal of ensuring that Program revenues are sufficient to help future homebuyers. With those considerations in mind, CalHFA staff recommend the following initial social equity features:
  - a. Prospective homebuyers earning up to 80 percent AMI would receive a larger share of appreciation relative to the Program's investment. The Program's share of appreciation would be set at 75 percent of the Program's investment in the original purchase price of the home. For example, if the Program provides a 20 percent Shared Appreciation Loan, the homeowner would owe the original amount of the loan plus 15 percent of the home price appreciation.
  - b. As an initial design feature, this benefit should be capped at 10 percent of the available program funds.

c. CalHFA staff should seek Working Group input to refine and calibrate the social equity features. Refinements could include adding additional geographic considerations, specifying different benefits or a different level of benefit, refining the total funds dedicated to this benefit, or other adjustments. These refinements may occur after the initial program goes live.

#### STAKEHOLDER ENGAGEMENT

Input from industry experts, policy professionals, consumers, advocates and other stakeholders will be important to ensuring that the Dream for All Program design and implementation process is grounded in a full understanding of key issues and concerns. CalHFA staff plan a two-pronged approach to stakeholder engagement:

- 1. Stakeholder Listening Sessions, which offer an opportunity for unstructured public comment on any Dream for All related issue from a wide variety of stakeholders; and
- 2. An advisory Working Group, a curated group of industry experts and professionals that may be called upon to advise regarding specific and discrete program design and implementation topics.

#### **Stakeholder Listening Sessions**

In September, CalHFA will convene a series of three virtual Dream for All listening sessions to facilitate public engagement, modeled after the successful sessions held for the California Mortgage Relief Program. The intent of these listening sessions is to receive early feedback from the stakeholder community to ensure that our program design efforts factor in all pertinent considerations.

The listening sessions will offer a general overview of the program parameters, share key requirements & goals and then will open the floor to allow the public, stakeholders and housing advocates to make comments & recommendations for us to consider as we further design and deploy the program.

Invitations were distributed to nearly 1,500 local jurisdictions, housing authorities, community based organizations, housing advocates, real estate professionals, lenders, and other interested parties. CalHFA staff also provided an email address and survey tool via which stakeholders could also provide feedback.

The results of the listening sessions will be memorialized in a Findings Report that CalHFA staff and Board members can reference throughout the design and deployment of the program.

#### **Working Group Input**

In the coming months, CalHFA will convene a series of meetings with industry professionals to seek advice and input regarding the Dream for All Program. The working groups will explore key program design elements, with a particular focus on how to balance policy objectives and trade-offs, evaluating how Dream for All fits into the current mortgage infrastructure and ecosystem, ensuring program operational sustainability and funding recyclability, and protecting consumer interests.

The working group will comprise a representative cross section of policy, advocacy, and industry leaders representing important perspectives throughout the ecosystem, including representatives from the following groups:

- Bankers
- Loan Officers
- Homebuilders
- Real Estate Professionals
- Advocates, Foundations and Community-Based Organizations
- Loan Servicing
- Secondary Markets
- Housing Policy

CalHFA currently plans three sessions with the Working Group as we finalize the key elements of program design:

- Meeting #1 CalHFA and DFA Overview. Review CalHFA business model, DFA statutory requirements and implications for program design and delivery - Early October.
- Meeting #2 Social Equity Features and Funding Recyclability Objectives. Review the
  initial social equity design features described above and discuss options for refining the
  social equity benefits in terms of the communities served, the additional benefits
  conferred, and balancing wealth generation and funding recyclability objectives Mid/Late October.

Meeting #3 - Consumer Education, Outreach and Ongoing Disclosure. Discuss how to
ensure that consumers understand the complexities of a shared appreciation loan
financial product - both as part of the loan process and on an ongoing basis November.

Additional meetings may be convened to address other items that arise based on discussions with the Board, other stakeholders and the Working Group.

#### TIMELINE

Pending Board direction and input regarding the initial program parameters and approach to social equity features outlined above, CalHFA staff believe that the Dream for All program can be operationalized and delivered to the market by early 2023. Once the initial program parameters are established, CalHFA staff need approximately 10 weeks to develop the necessary legal, technology, and program infrastructure to deliver the program. Any delays in finalizing the initial Program design parameters will result in commensurate shifts in this timeline.

This timeline assumes the Stakeholder Engagement and Working Group processes outlined above. Input from the Working Group may result in refinements after the initial program goes live. Like our other programs, we expect refinements and calibrations to occur over the life of Dream for All implementation in response to market conditions, program uptake, and ongoing stakeholder input.

Note that after the Program is operationalized and delivered to the market, our lending community may then require 30-45 days to build out their systems and begin offering the Shared Appreciation Loans in conjunction with a CalHFA first mortgage. Loan reservations would begin to follow 30-60 days later.

#### REQUESTED BOARD ACTIONS

CalHFA staff respectfully request the following Board actions:

- Approve Resolution 22-21 establishing the Dream for All Program and directing staff to develop the necessary guidelines, term sheets, documentation, and the technological capabilities to implement the Program and to report back to the Board.
- Provide policy direction regarding the initial program design parameters outlined above.

 Provide input and direction regarding the proposed timeline with respect to the recommended initial design parameters and timing of stakeholder engagement and Working Group input.

#### RESOLUTION NO. 22-21

### RESOLUTION AUTHORIZING DREAM FOR ALL PROGRAM, AND AUTHORIZING USE OF FUNDS IN THE DREAM FOR ALL FUND

WHEREAS, on June 30, 2022, Senate Bill No. 197 came into effect and, among other things, added a new Chapter 12 (commencing with Section 51520) to Part 3 of Division 31 of the Health and Safety Code, which created the California Dream for All Program (the "Program") and also established the California Dream for All Fund (the "Fund"),

WHEREAS, Assembly Bill No. 178 amended the Budget Act of 2022 and appropriated \$500,000,000 to the Fund to be used by the California Housing Finance Agency ("Agency") to implement the Program,

WHEREAS, Health and Safety Code Section 51004 provides that the Agency may utilize moneys which may be appropriated from time to time by the Legislature for effectuating its purposes; and

WHEREAS, Agency staff has determined that it is in the public interest for the Agency to accept and use the funds allocated pursuant to the Budget Act of 2022, as amended by Assembly Bill No. 178, for the purposes stated therein, and to formally establish the Program and begin making necessary preparations for its implementation.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the California Housing Finance Agency, in consideration of the above, as follows:

Section 1. Use of Funds. The Agency hereby acknowledges receipt of the funds allocated pursuant to the Budget Act of 2022, as amended by Assembly Bill No. 178, and authorizes that such funds be used in accordance with the purposes stated therein, pursuant to Chapter 12 of Part 3 of Division 31 of the Health and Safety Code, and to carry out this Resolution's section 2, 3, and 4.

Section 2. Creation of Dream for All Fund. The Agency hereby establishes the Dream for All Program and directs staff to begin to develop the necessary guidelines, term sheets, documentation, and the technological capabilities to implement the Program.

<u>Section 3. Presentation of Staff Report</u>. Agency staff is hereby directed to create a Staff Report that summarizes the Program's proposed guidelines, term sheets, documentation, and any anticipated challenges to implementing the Program with all deliberate speed and to present such staff report to the Board at a duly called and noticed meeting as soon as practicable.

<u>Section 4. Authorization of Related Actions and Agreements</u>. The Executive Director of the Agency is hereby authorized and directed, to do any and all things and to execute and deliver any and all agreements and documents which they may deem necessary or advisable to effectuate the purposes of this resolution.

#### SECRETARY'S CERTIFICATE

I, Claire Tauriainen, the undersigned, do hereby certify that I am the duly authorized Secretary of the Board of Directors of the California Housing Finance Agency, and hereby further certify that the foregoing is a full, true, and correct copy of Resolution No. 22-21 duly adopted at a regular meeting of the Board of Directors of the California Housing Finance Agency duly called and held on the 22nd day of September, 2022, at which meeting all said directors had due notice, a quorum was present and that at said meeting said resolution was adopted by the following vote:

Non-displacement <u>and</u> No Net Loss: To the extent feasible, it is the Agency's priority to mitigate the overall effects upon affordable housing availability that may arise from multifamily developments that may result in permanent displacement of existing affordable housing residents and/or net loss of existing affordable housing units. The Project is a new construction project, with no related demolition of existing affordable housing, hence no existing affordable housing units will be lost nor will existing residential households be displaced as a result of this development.

Commercial and/or Other (i.e., Parking) Space: The Project does not include commercial space. The Project includes approximately 94,953 (s.f.) of parking structure. There are 225 covered spaces in the parking structure. The project cost associated with these parking spaces is approximately \$4,949,276, which is anticipated to be funded by taxable construction loan and/or tax credit equity. No CalHFA funds will be used to finance the parking structure. The parking lot will be reserved for exclusive use by the residents for a fee and onsite staff (up to 3 parking spaces). Parking income is not included in the project's underwriting as this income source is not supported by the appraisal. Per the developer, parking is required by city code and is part of the project's entitlements.

SLC Final Staff Report for: Serra Apartments
CalHFA Project Number: 22-016 A/X/N

At the time of CalHFA's initial commitment (March of 2022), the developer estimated the total development cost (TDC) to be \$89,508,258 or \$500,046/unit. CalHFA issued an initial commitment based on these initial costs estimates for developer to use to apply to CDLAC for tax exempt bond cap and to CTCAC for both federal and state

tax credits. On June 15, 2022 the Borrower received the related allocations from CDLAC and CTCAC.

Generally, the project's total costs changed from March through July as cost savings related predominantly to value engineering led to reductions to final Hard Cost, Hard Cost Contingency, Developer Fee and other line items by a total of \$4,464,761. The developer was also successful in achieving a 1.5% increase to the Equity Investor Contribution for \$616,941. Additionally, the CalHFA perm loan was re-sized due to loss of parking structure income for the supportable debt and also increase in financing costs related to higher interest rates. Increases to interest rates from the Construction Lender also resulted in a \$1,893,949 increase to costs related to construction period debt service and loan fees.

The Borrower has requested a \$2,173,471 increase to the MIP Subsidy Loan in an effort to offset cost increases and loan reductions outlined above and below. The summary of changes in sources and uses between initial commitment vs. current proposed are outlined below:

Summary of changes in Sources/Uses since the Initial Commitment approval

Hard Cost/Soft Cost changes: The developer is a vertically integrated organization and owns the general contractor entity, Hurley Construction, Inc. To mitigate market disruptions, the Borrower met with their design team and general contractor to evaluate the original construction hard cost budget. As a result, they were able to reduce construction hard cost budget by approximately \$3.6 million. As reflected on the above chart, the Borrower reduced other budget line items slightly, except for a slight increase in local impact fees and the construction loan costs, due to the increase in construction loan interest reserve driven by the current interest rate market.

Deferred Developer Fee: The current budget also reflects a decrease of the total developer's fee by \$610k, and the current deferred developer's fee (DDF) is approximately \$310k higher than the original budget (original developer fee \$9,460,000 with \$6,665,717 deferred/current developer fee \$8,850,000 with \$6,975,762 deferred). Through the project's final underwriting prior to construction and permanent loan conversion, efforts shall be made to mitigate a

portion of the financing gap through restructuring of the Developer fee or direct equity contribution by the Developer.

Perm Loan Reduction & Equity Contribution Adjustment: The equity contribution adjustment is anticipated to be approximately \$616,941. During final underwriting, the original CalHFA permanent loan of \$32.7 million was reduced by \$6.38 million to \$26.19 million. This was partially attributed to the elimination of parking income revenue of \$456,929 (which was originally considered as part of NOI), given that it was not supported by the final appraisal report. This elimination resulted in an approximately \$1,870,000 reduction to the original loan amount. Further reduction to the perm loan of \$4,510,000 was attributed by increases in perm loan financing costs related to macroeconomic factors, such as inflation. Furthermore, to assist the Borrower with maximizing the perm loan amount, CalHFA is allowing the removal of the 25-bps underwriting cushion and granting a rate lock at time of final commitment. This resulted in a permanent loan increase of \$989,522, to \$27.18 million, which reduced the overall funding gap to \$2,173,471 as shown above.

The estimated funding gap after exhausting all resources available to the project totals approximately \$2.17 million. The Borrower has requested an increase to the MIP Subsidy Loan of \$2,173,471. Pursuant to the TCAC/CDLAC requirements this project must begin construction by December 2022. A \$2.18 million increase in the MIP supplemental subsidy (\$12,142/unit) results in an overall MIP Regulated Unit amount of \$57,477 per restricted unit. The original MIP and Supplemental MIP total \$10,173,471.

#### **Subsidy Efficiency:**

The Initial MIP commitment for this Project was \$8,000,000 (\$45,198 per MIP restricted units). The Current proposed MIP commitment is \$10,173,471 (\$57,477 per MIP restricted units). Staff is recommending an exception to the per project Allocation Limit of \$8,000,000 given that the property meets the per unit maximums. Approval of this exception is further detailed in the "Underwriting Standards or Term Sheet Variations" below.

#### Tax Credit Type(s), Amount(s), Pricing(s), and per total units:

- 4% Federal Tax Credits: \$37,719,860 (\$213,106 per TCAC restricted unit).
- State Tax Credits: \$6,168,746 (\$34,852 per TCAC restricted unit).

**Rental Subsidies**: The Project will not be subsidized by project-based vouchers.

**Other State Subsidies:** The Project will not be funded by other state funds. **Other Locality Subsidies:** The Project will not be funded by locality funds.

**Cost Containment Strategy:** The developer is using its affiliated company, Hurley Construction, Inc., as its General Contractor. The developer had established cost containment strategies that include: 1) engaging the General Contractor to provide pre-construction services including: conceptual design review, estimating, value engineering, and a critical path schedule, 2) reviewing the GMP contract for any exclusions or exceptions to mitigate project cost increases, and 3) requiring that the General Contractor provide a minimum of 3 bids for each major trade and all other trades, if available.

High Cost Explanation: Not applicable.

**6.** Equity – Cash Out (estimate): Not applicable.

#### TRANSACTION OVERVIEW

#### 7. Proposal and Project Strengths

• The Project has received 4% federal and state tax credits which is projected to generate equity representing approximately 49% of total sources.

CalHFA Project Number: 22-016 A/X/N

Board Date: 09/22/2022

- The Project will serve low-income families ranging between 30% to 80% of AMI. On average, the rents are between 26% to 76% below market rents based on current appraisal.
- The Loan-to-Value will be 61%, which is well below and meets the Agency's maximum allowable LTV of 90%. This results in less risk to the Agency.

#### 8. Project Weaknesses with Mitigants:

- The developer/sponsor have limited experience with CalHFA (2 portfolio projects); however, they have extensive experience in developing similar affordable projects in this region. In addition, the locality is familiar with the developer and strongly supports the project.
- The exit analysis assumes 2% increase to the appraisal cap rate (resulting in 6.5%) and a 3% increase of the underwriting interest rate at loan maturity (resulting in 9.29%). Based on these assumptions, the Project will have the ability to fully repay the balance of Agency's permanent first lien loan and a portion of the supplemental MIP loan leaving an outstanding balance of approximately \$316,235. The Agency's original MIP subsidy loan and the remaining supplemental MIP loan in the estimated amount of \$11,916,235 (principal and accrued interest) is expected to be outstanding. This is expected by CalHFA given the requirement that the MIP loan be co-terminus with the permanent first mortgage. The primary source of repayment for both the first mortgage and the MIP subsidy loan is refinance of the project's first mortgage. To the extent such a refinance is insufficient to fully repay the MIP loan, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the final close out of partnership obligations to allow re-syndication.
- Phase I dated 2/9/2022 recommended that a lead-based paint (LBP) survey and asbestos-containing materials (ACM) survey be conducted based on the age of the existing structure on the site. The ACM and LBP reports are complete. The development budget includes an estimated amount of \$30,000, which is the anticipated costs associated with addressing these environmental issues. Remediation of all environmental findings is a part of the construction plan and budget. Evidence of environmental clearance will be required as a prerequisite to closing of the CalHFA permanent and MIP loans.
- The Project budget indicates a deficit of approximately \$2.17 million. The Borrower requested a \$2.17 million increase to the initially committed MIP subsidy loan to facilitate the progression of this shovel ready project to construction. However, the project is only eligible for an additional \$2.17 million of supplemental MIP funds. Refer to section 5 for detailed project gap analysis.

#### 9. Underwriting Standards or Term Sheet Variations

Pursuant to MIP loan term sheet, no project may receive more than the lesser of (i) \$8 million project cap, (ii) the aggregate MIP loan amount based on up to \$60k per MIP regulated unit for a project located within the high/highest resource area per TCAC/HCD opportunity map, or (iii) MIP loan not to exceed 50% of the CalHFA perm loan. This project is located in a high resource area. Per the term sheet and project economics, the applicable allocation limit is \$8 million project cap. However, the current proposal is to allow the Borrower to use the \$57,477 per unit maximum to increase the MIP loan allocation by \$2,173,471 for a total of \$10,173,471 which is beyond the allocation limit of \$8 million that is applicable to the project. This is an exception to MIP term sheet and is recommended by Multifamily Underwriting and Credit Staff for approval to facilitate the progression of a shovel ready project without delay; the project received tax credit and bond cap allocations from TCAC/CDLAC Bond on June 15, 2022 and is ready to proceed to construction loan closing by December 2022.

#### 10. Project Specific Conditions of Approval

Approval is conditioned upon:

- No site work or construction commenced prior to the issuance of a HUD Firm Approval Letter.
- CalHFA requires that MIP affordability covenants be recorded in senior position to all foreclosable debt.
- The Project's proposed operating expense does not meet TCAC minimums, therefore, Borrower must provide evidence that the proposed operating expense is sufficient to operate the project via supporting documentation acceptable to CalHFA. In addition, approvals of the proposed operating expense from the investor, all lenders, and TCAC are required.
- The CalHFA subsidy (including the supplemental MIP subsidy loan) will be, in the Agency's sole discretion, the lesser of 1) the principal amount as stated hereto or 2) an amount as determined by the Agency in the event the financial

assumptions change prior to construction loan closing and/or permanent loan closing.

- All MIP Loan principal and interest will due and payable at maturity. Outstanding Supplemental MIP loan funds will
  have first repayment priority whether the source of repayment is cash flow during the term of the loan or
  repayment via refinance, partner contribution, or other source at loan maturity.
- Any default as to any loan by the Agency for the Development shall constitute a default under any other loan by the Agency for the Development.
- The Borrower has requested that 100% of surplus cash be available for the repayment of the deferred developer's fee (DDF) until the earliest of year 15 of operations is complete or full repayment of the DDF has occurred. Thereafter, the surplus cash split shall be 50% to Borrower and 50% to CalHFA as the only Residual Receipt lender. As a condition of this approval, the Borrower must provide evidence that the DDF repayment structure is required pursuant to the Limited Partnership Agreement (LPA). In addition, the owner must provide evidence of investor and any residual receipt lender(s) approvals of the total deferred developer's fee structure and residual receipt split. Residual receipt lenders, if added subsequent to this approval, must also agree to defer the payments on their loans.
- Final environmental plan must be provided and approved by CalHFA prior to construction loan closing. In addition, evidence of environmental clearance must be provided and approved by CalHFA prior to permanent loan closing.
- The locality is requiring the Borrower to encumber the Property by recording an ordinance agreement. Prior to construction loan closing and closing of the CalHFA loan(s), the ordinance agreement is subject to CalHFA review and approval in accordance with agency underwriting standards.

#### 11. Staff Conclusion/Recommendation:

The Multifamily Lending Division supports approval of the described financing in the amount(s) requested, subject to the above proposed terms and conditions. As noted earlier, the supplemental MIP subsidy loan of \$2,173,471 was not part of the Initial Commitment approved by the SLC, and hence approval is being sought for this financing through the subject Final Commitment Approval.

#### **AFFORDABILITY**

#### 12. CalHFA Affordability (Occupancy and Rent) Restrictions

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum of 40% of the total units at or below 60% AMI; with 10% of the total units at 50% of AMI and 30% of the total units at 60% AMI for 55 year(s).

The CalHFA MIP Subsidy Regulatory Agreement requires 10% of the total units (18) be restricted at or below 30% of AMI, 20% of total units (36 units) be restricted at or below 50% of AMI, 10% of total units (18 units) between 60% and 80% of AMI be restricted with a minimum average of 70% of AMI for a term of 55 years. The rents for the 60% to 80% tranche will be determined by the minimum income limit of 70% of AMI, not to exceed 80% of AMI. The remaining 105 restricted units will be restricted at or below 120% AMI. For underwriting purposes, the initial rents at permanent loan closing must be no less than the underwriting rent levels outlined on the "Unit Mix and Rent Summary" enclosed as part of the project's staff report package. The CalHFA permanent loan agreement will require minimum underwriting rent levels as outlined in the Rent Limit Summary Table Below.

In addition, the Project will be restricted by the following jurisdictions as described below:

The City will restrict 18 units at or below 80% of AMI for a term of 55 years.

#### **APPRAISAL AND MARKET ANALYSIS**

#### 18. Appraisal Review Dated: April 19, 2022

- The Appraisal dated April 19, 2022, prepared by Pacific Real Estate Appraisal, values the land at \$14,930,000.
- The cap rate of 4.50% and projected \$1,998,375 of net operating income, which is slightly lower than the proposed Project's net operating income of \$2,140,048 (\$141,672 less), were used to determine the appraised value of the subject site, which leads to a more conservative LTV estimate.
- The proposed operating expense of \$1.155 million is approximately \$74k lower than the average operating expense for comparable projects per the appraisal report of \$1.229 million. A portion of the difference (\$26,850) is attributed by the fact that the appraisal report assumed a higher annual replacement reserve deposit of \$400 per unit, while the developer is budgeting an annual replacement reserve deposit of \$250 per unit (this is consistent with CalHFA's standard underwriting for new construction family projects). In addition, the developer has provided 2 comparable projects located in the bay area currently in their portfolio that are operating with slightly lower annual operating expense per unit. The management company has also provided a certification indicating that they will be able to manage the project per the proposed operating expense budget. Based on the appraisal and the supporting documents provided by the developer, the proposed operating expense is reasonable.
- The as-restricted stabilized value is \$44,410,000, which results in the Agency's permanent first lien loan to value (LTV) of 61%. The combined LTV, including MIP subsidy loan (original and supplemental), is 84%.
- The absorption rate is 22 Units/Month respectively. Stabilized occupancy is estimated within 8 months of completion. This is a more recent and conservative estimate compared to the market study that that was dated February 7, 2022.

Market Study: Laurin Associates Dated: February 7, 2022

#### **Regional Market Overview**

- The Primary Market Area are the cities of Fremont and Newark (population of 283,771) and the Secondary Market Area ("SMA") was deemed unnecessary due to the high demand for affordable units in the PMA.
- The general population in the PMA is anticipated to increase by 2.10% by 2024.
- Unemployment in the PMA is 3.4%, which evidences a strong employment area.
- Median home value in the PMA and SMA was not provided. There are currently 91,982 households in the PMA.

#### **Local Market Area Analysis**

- Supply:
  - There are currently 17 affordable family project(s) in the PMA, and they are 99.80% occupied with long wait lists.

SLC Final Staff Report for: Serra Apartments CalHFA Project Number: 22-016 A/X/N

SLC Date: 08/24/2022 Board Date: 09/22/2022

There are 2 affordable projects with a total of 131 units planned or under construction.

#### Demand/Absorption:

- o The project will need to capture 4.8% of the total demand for family units in the PMA. The affordable units are anticipated to lease up at a rate of 45 units per month and reach stabilized occupancy within 4 months of opening.
- o Penetration rate for the project will be 8.8% of the total units.
- Stabilized occupancy overall is estimated within 4 months of completion.

The California Housing Finance Agency ("CalHFA" or "Agency") Mixed-Income Program ("MIP") provides competitive, long-term, subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product. The MIP resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of extremely low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

#### Qualifications

#### APPLICATION:

Sponsors/developers must submit a complete application package which includes all items listed on the application, the application addendum and the checklist. Incomplete application packages will not be considered. The application and checklist can be found at <a href="https://www.calhfa.ca.gov/multifamily/mixedincome/index.htm">www.calhfa.ca.gov/multifamily/mixedincome/index.htm</a>. If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated.

#### **AVAILABILITY:**

Available to for-profit, nonprofit, and public agency sponsors. Development teams must meet CalHFA experience requirements, as defined in the CalHFA Development Team Qualifications section below.

#### **USES:**

MIP subsidy loans must be used in conjunction with CalHFA's Conduit Bond Issuance Program and a construction loan from a CalHFA Mixed-Income Qualified Construction Lender. MIP subsidy loans must also be used in conjunction with CalHFA's permanent first-lien mortgage financing. CalHFA Mixed-Income Qualified Construction Lender is defined in that section below.

#### FINANCING STRUCTURE:

Projects accessing the MIP subsidy loan funds must be structured as one of the following:

1. Tax-exempt bond and 4% tax credit project where at least 51% of the units in the project must be tax-credit-financed

OF

2. Qualified mixed-income project through income averaging pursuant to Internal Revenue Code Section 42 (g)(1)(C).

## **Qualifications** (continued)

#### **READINESS:**

Projects must have site control and be prepared to submit for a bond and tax credit allocation and will only receive funds if bonds are issued within the issuance timeframes specified in the California Debt Limit Allocation Committee's (CDLAC) Regulations Section 5100.

- 1. Site: The site must be ready for construction (all potential environmental issues have been identified, mitigation plan is in place, and costs associated with the mitigation plan have been incorporated in the development budget). Environmental issues may include, but not be limited to, receipt of clearances for CEQA, NEPA, and applicable tribal land environmental reviews. Pursuant to HUD-Risk Sharing requirements, sponsor is expected to start the NEPA process shortly after CalHFA verifies application completeness and determines that the project is ready to move forward with an initial commitment ("notification date"). The NEPA clearance and HUD's firm approval letter will be required prior to construction loan closing.
- 2. General Contractor and/or Third Party Construction Services Engagement: At the time of application, applicant must provide evidence that the applicant or developer has engaged a general contractor or third-party construction services company to provide construction services including, but not limited to, value engineering, bid/budget services, and constructability review of plans and designs. In addition, the proposed construction budget is based on the general contractor's or third-party construction services company's preliminary bid estimates pursuant to the current plans and designs.
- **3. Disposition and Development Agreement:** Applicant must provide a copy of the disposition and development agreement, if applicable.
- 4. Construction Start: All projects must commit to begin construction 180 days from the earlier of the date of the tax-exempt bond allocation or 4% federal/state tax credit reservation, unless an extension has been approved by California Tax Credit Allocation Committee (CTCAC), CDLAC, and CalHFA, as applicable. Within the 180-day period, the following items must be submitted to CalHFA in their final form:
  - A complete, updated application form along with a detailed explanation of any changes from the initial application,
  - b. An executed construction contract,
  - Recorded deeds of trust for all construction financing (unless a project's location on tribal trust land precludes this),
  - $\ d. \quad \ \ Binding \ commitments \ for \ any \ other \ financing \ required \ to \ complete \ project \ construction,$
  - e. Copy of a limited partnership agreement executed by the general partner/sponsor and the investor limited partner/equity provider,
  - f. Payment of all construction lender fees,
  - g. Copies of buildings permits (a grading permit does not suffice to meet this requirement, except if the city or county as a rule does not issue building permits prior to the completion of grading, then a grading permit shall suffice; if the project is a design build project in which the city or county does not issue building permits until designs are fully complete, the city or county shall have approved construction to begin) or the applicable tribal documents,
  - h. Copy of the notice to proceed delivered to the contractor,
  - i. If no construction lender is involved, evidence must be submitted within 180 days, as applicable, that the equity partner has been admitted to the ownership entity, and that an initial disbursement of funds has occurred.
  - j. Other documentation and information required by CalHFA to close construction financing.

## **Qualifications** (continued)

#### MIP ALLOCATION LIMITS:

(Exceptions may be considered by Agency in its sole discretion)

- 1. **Project Cap:** No project may receive more than the lesser of \$8 million, or the aggregate MIP loan amount calculated based on up to \$50,000 per MIP regulated units or up to \$60,000 per MIP regulated units for a Project located within the Highest or High Resource areas pursuant to CTCAC regulations designated on the CTCAC/HCD (California Department of Housing and Community Department) Opportunity Area Map.
- 2. **Sponsor Cap:** No sponsor (any individual, entity, affiliate and related entity) may receive more than 20% of total MIP allocation or funding of two projects, whichever is less, for the respective year.
- 3. County Cap: No one county may receive more than 25% of total MIP allocations for the respective year.
- 4. Age-Restricted Cap: No more than 25% of total MIP funds for the respective year may be received by age-restricted projects (units that are restricted to residents who are 62 years of age or older under the applicable provisions of California Civil Code Section 51.3 and the federal Fair Housing Act), unless a waiver of the minimum age requirement has been granted by U.S. Department of Housing and Urban Development ("HUD").

#### **EVIDENCE OF COST CONTAINMENT:**

A Cost Containment Certification must be provided at the time of Construction Loan Closing in a form acceptable to CalHFA in its sole discretion. The certification acceptable to CalHFA may be found at <a href="https://www.calhfa.ca.gov/multifamily/mixedincome/forms/closing-cost-containment-certification.pdf">www.calhfa.ca.gov/multifamily/mixedincome/forms/closing-cost-containment-certification.pdf</a>.

The developer/sponsor must certify that cost containment measures have been implemented to minimize construction costs. These measures should include, but may not be limited to, 1) competitively bidding out all major subcontractor and self-performing trades and 2) engaging a value engineer/consultant during the design process.

#### **EVIDENCE OF SUBSIDY EFFICIENCY:**

A Subsidy Efficiency Analysis will be completed as part of the application review. The analysis will be completed again prior to construction loan closing and closing of the MIP subordinate loan. The MIP loan amount may be reduced based on the final analysis. Parameters of the analysis may include, but are not limited to, the following:

- A maximum of 1.20 Debt Service Coverage Ratio ("DSCR") at year 1 ("Initial DSCR"). CalHFA may allow an
  initial DSCR higher than 1.20 on a case-by-case basis, if deemed necessary. The year 1 DSCR underwritten
  at the time of final loan approval and final commitment must be maintained through the term of the
  CalHFA permanent first lien loan,
- A project cash flow that supports the residential component of the project based on the required CalHFA
  permanent first lien annual debt service coverage ratio,
- A separate project cash flow that supports any commercial component of a mixed-use project,
- A cash flow after debt service shall be limited to the higher of 25% of the anticipated annual must pay debt service payment or 8% of gross income, during each of the first three years of project operation,
- Inflation factors and vacancy rates consistent with the Agency's Underwriting Standards,
- Developer Fee requirements matching those required under the 4% federal and/or state tax credit reservation,
- Capitalized reserves subject to approval by Agency for reasonableness consistent with the Agency's Underwriting Standards and the Investor Limited Partnership Agreement (ILPA),

## **Qualifications** (continued)

- Review of Excess Sources over final Uses as approved by CalHFA resulting from any of the following:
  - · An increase in tax credit equity,
  - An increase in permanent loan debt due to a combination of permanent loan rate reduction and/or reduction to operating expense assumptions;
- Construction Cost Savings as evidenced by final cost certification, funds shall be used to reduce the MIP
  loan prior to CalHFA MIP loan closing or if required by other subordinate lenders, funds may be split on a
  pro rata basis between CalHFA and other subordinate lenders,
- State tax credit request is expected to be within a range of \$50,000 to \$75,000 per unit. The projects that evidence the most efficient use of bond cap, state tax credits, and MIP per adjusted unit shall be prioritized for MIP funding considerations. The bond cap, state tax credits, and MIP per adjusted unit calculation shall be consistent with CDLAC Regulation Section 5231(g)(1) and 5231(g)(2). MIP final commitment shall be subject to evidence of project's receipt of CDLAC's preliminary tax-exempt bond allocations and CTCAC's tax credits reservations within the respective year,
- Acquisition cost shall be the lesser of 1) the purchase price pursuant to a current purchase and sales
  agreement between unrelated parties, 2) the purchase price of an arm's length transaction executed within
  the past 10 years plus reasonable carrying costs, or 3) the appraised "as-is" value based on an Appraisal
  acceptable to CalHFA in its sole discretion. The appraised value of the real estate may be considered if the
  arm's length transaction exceeds 10 years.

#### CalHFA Mixed-Income Qualified Construction Lender

A CalHFA Qualified Construction Lender is defined as a Construction Lender that has closed at least five construction loans using tax-exempt bonds and 4% federal and/or state tax credits in California within the last three years and satisfies the requirement set forth within the application.

# CalHFA Mixed-Income Development Team Qualifications

The **Developer/Co-Developer/General Partner** must be registered to do business and in good standing in the state of California. A CalHFA Qualified Developer/Co-Developer/General Partner must have developed at least three comparable projects within the past five years or meet the requirements to receive a minimum of 7 points under the CDLAC General Partner Experience category pursuant to CDLAC Regulations Section 5230(f).

The proposed **Project Manager** must have personally managed the development of at least two comparable projects within the past five years.

**Financial Consultants** hired to assist the Developer in meeting the minimum experience requirements must be able to provide details regarding at least three comparably financed projects over the last five years.

**Architects** new to CalHFA must provide information for three comparable projects they designed that were built and occupied within the past five years in California.

**General Contractor (GC)** must be licensed by the State of California. GCs new to CalHFA must provide information related to three comparable (in design) projects built in the past five years. Similar information will be required for the proposed on-site construction supervisor. The on-site construction supervisor must have overseen three comparable projects built in the past five years, and they must have overseen the projects from construction start to final completion.

Tax Credit Investors must have closed/executed at least five investor limited partnership agreements for a comparable deal structure using tax-exempt bonds and 4% federal and/or state tax credits in California within the last three years.

# CalHFA Mixed-Income Development Team Qualifications (Continued)

Management Company must have a local presence or a field office in Northern or Southern CA (depending on the location of the Project) and have experience managing at least 10 low- to moderate-income, rent-restricted comparable (size and tenant types) projects. Also required is a resume for the proposed on-site Property Manager, reflecting prior experience during the past five years managing onsite project operations and compliance with rent-restricted units or meet the requirements to receive a minimum of 3 points under the CDLAC Management Company Experience category pursuant to CDLAC Regulations Section 5230(f).

## Permanent First Lien Loan

Must be provided by CalHFA. The permanent loan must meet an initial minimum DSCR of at least 1.15 and must maintain the year 1 DSCR underwritten at the time of final loan approval and final commitment through the term of the CalHFA permanent first lien loan. The Initial DSCR must not exceed 1.20.

## **Construction First Lien Loan**

Must be provided by a CalHFA Mixed-Income Qualified Construction Lender. All parties shall permit the Agency to, in its sole and absolute discretion, recycle all or a portion of any bond volume cap related to a paydown of the bond-financed loans, at the conversion of the construction financing to permanent financing and payoff of the construction loan, pursuant to the authority provided in Section 146(i)(6) of the Internal Revenue Code of 1986 and CDLAC Regulation Section 5060 (the "Bond Recycling"). The bond documents, loan documents and any other documents related to the financing of the Development shall contain any necessary approvals and permit all actions necessary to accomplish a Bond Recycling.

#### Limitations

- 1. MIP cannot be combined with the CTCAC 9% program.
- 2. MIP cannot be combined with other state subordinate debt and/or subsidy programs (this does not include state tax credits) with the exception of the Infill Infrastructure Grant (IIG), Affordable Housing and Sustainable Communities (AHSC) and Transit Oriented Development (TOD) housing programs. Inclusion of these programs is contingent upon restrictions that are compatible with the MIP program requirements outlined herein. Inclusion of other subordinate debt and subsidy will be allowed at CalHFA's sole discretion so long as any restrictions of subordinate debt or subsidy are compatible with MIP program requirements outlined herein.
- 3. Projects that have a below market rate component resulting from an inclusionary obligation or are 100% below market as a result of an inclusionary obligation must demonstrate master developer commitment through a dollar-for-dollar match of CalHFA's subsidy resources. Match can be obtained through a monetary match or equivalent in-kind contributions (e.g., land donation, land use fee concessions.)
- 4. At the time of MIP application, a project must not have already received an allocation of 4% federal and/ or state tax credits from CTCAC or a tax-exempt bond allocation from CDLAC.
- 5. Projects will not be eligible for other subsidy resources from CalHFA in addition to MIP.

#### Mixed-Income Project Occupancy Requirements

#### BOND REGULATORY AGREEMENT REQUIREMENTS (ALL PROJECTS):

Must maintain either (a) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of AMI with adjustments for household size ("20% @ 50% AMI"), OR (b) 40% or more of the units must be both rent restricted and occupied by individuals whose incomes are 60% or less of AMI with adjustments for household size ("40% @ 60% AMI"): in the latter case, CDLAC requires a minimum of 10% of the unit types must be at 50% or less of AMI ("10% @ 50% AMI").

#### Mixed-Income Project Occupancy Requirements (Continued)

#### MIXED INCOME REGULATORY AGREEMENT REQUIREMENTS (ALL PROJECTS):

#### Affordability Requirements:

- 1. To qualify, a project must meet the following affordability restrictions, which are based on the HUD and locality (as applicable) income and rent limits which are current at the time of MIP application, for a term of 55 years:
  - a. 30% of total units at or below 50% of AMI. Of these, a minimum of 10% of total units must be at or below 30% of AMI,
  - b. 10% of total units between 60% and 80% of AMI with an average of 70% of AMI or greater, subject to the Maximum Allowable Rents outlined below, and
  - c. Remaining 60% of total units at or below 120% of AMI (with the exception of any non-restricted manager's unit(s)) OR at the affordability restrictions consistent with CTCAC requirements.
  - d. The minimum range between the lowest and highest occupancy target levels must be at least 40%.

    (Deviations from the above requirements will only be considered if Market Study supports such deviations.)
- 2. If applicable, tax credit transactions that are income-averaged must have a maximum average affordability up to 60% of AMI across all CTCAC restricted units.

#### Mixed-Income Project Occupancy Requirements (Continued)

#### **MAXIMUM ALLOWABLE RENTS:**

Rents for all restricted units must be at least 10% below market rents for the MIP affordability term as evidenced by a current market study or appraisal. This threshold will be analyzed at time of application and again at CalHFA's final commitment approval and may be monitored on an ongoing basis for the MIP affordability term. The report shall be current within 180 days of Agency's final commitment and may be subject to required updating if the report expires prior to construction loan closing. For underwriting purposes, CTCAC and locality maximum rents for the respective target income limits must be used. Any proposed rent adjustments above 5% of the approved rents subsequent to construction loan closing may be considered if supported by a recent or updated market study or appraisal that is dated within 180 days of MIP loan closing, at CalHFA's sole discretion.

Any units restricted by the Agency pursuant to this program, including those units restricted in addition to the minimum requirements set forth above, shall be rented at rents not to exceed 30% of the applicable income restriction required in the Agency's Regulatory Agreement.

#### Mixed-Income Subordinate Loan

- 1. Maximum loan amount for each project shall not exceed the lesser of \$8 million or the aggregate MIP loan amount calculated based on up to \$60,000 per MIP regulated units, unless an exception is approved by Agency in its sole discretion.
  - a. Maximum loan per restricted (tax credit or CalHFA) units between 30%-120% AMI shall be up to \$50,000.
  - Projects located within the Highest or High Resource areas pursuant to CTCAC regulations designated on the CTCAC/HCD Opportunity Area Map shall be eligible for an additional amount up to \$10,000 per MIP regulated unit. Opportunity Map Home Page: <a href="www.treasurer.ca.gov/ctcac/opportunity.asp">www.treasurer.ca.gov/ctcac/opportunity.asp</a>
- 2. Loan size based on project need but cannot be more than 50% of the permanent loan amount.

#### Mixed-Income Subordinate Loan Rates & Terms

- 1. Interest Rate: Greater of 1% simple interest or the applicable federal rate (AFR) at time of MIP closing.
- 2. Loan Term: The MIP loan term shall be coterminous with the CalHFA permanent first lien loan.
- 3. Lien Position: Second lien position, after CalHFA permanent first lien loan.
- 4. Loan Payment: Residual receipt repayment based on cash flow analysis and split 50% to Owner and 50% to CalHFA and other residual receipt lenders. Residual receipt is defined as 50% of surplus cash which is determined as net operating income minus total debt service and other Agency approved payments. Payments shall be applied to the current and/or accrued interest and then principal of the MIP loan. Deviation from the net cash flow split may be granted 1) to meet equity investor's deferred developer's fee requirement as evidence by the limited partnership agreement, and 2) is subject to approval(s) by other residual receipt lender(s), as applicable.
- 5. Affordability Term: 55 years.
- 6. Prepayment: May be prepaid at any time without penalty.
- 7. Subordination: A subordination and/or extension of MIP maturity request in conjunction with a resyndication, refinance, or ownership transfer ("capitalization event(s)") will be considered. If MIP loan is outstanding at time of the capitalization event(s) and requires subordination at the time of such event, the surplus cash split between borrower and CalHFA and other residual receipt lenders may be altered to reflect an increased percentage of residual receipts to CalHFA out of Borrower's share until such time as the MIP loan is paid in full. The remaining residual receipts may be split between other residual receipt lenders.
- 8. Funded: Only at permanent loan conversion.

## TAX-EXEMPT PERMANENT LOAN PROGRAM

CalHFA's Tax-Exempt Permanent Loan Program ("Perm Loan") provides competitive tax-exempt long-term financing for affordable multifamily rental housing Projects. Eligible projects include newly constructed or acquisition/rehabilitation developments that provide affordable housing opportunities for individuals, families, seniors, veterans, and special needs tenants ("Project").

#### Qualifications

- Available to for-profit, non-profit, and public agency sponsors.
- Tax-exempt bond authority must be obtained from the California Debt Limit Allocation Committee (CDLAC) or through a 501(c)(3) exemption.
- The Tax-Exempt Permanent Loan may be used with or without 4% low income housing tax credits.
- If a lender other than CalHFA is providing short-term, first-lien debt, CalHFA shall be used as the bond issuer (for more information, review the Conduit Issuer Program Term Sheet).
- For Section 8 Projects, a final commitment is conditioned upon review and acceptance by CalHFA of the HAP or AHAP contract.
- The Perm Loan will be credit-enhanced through CalHFA's HUD/FHA Risk Sharing Program.
- For existing CalHFA portfolio loans, the current owner is required to pay off all outstanding CalHFA debt. Visit www.calhfa.ca.gov for the <u>CalHFA Portfolio Loan Prepayment Policy</u>.

#### **Loan Amount**

- Minimum Perm Loan amount of \$5,000,000.
- Minimum 1.15x for initial debt service coverage ratio (include any financing with amortizing debt). If a Project includes CalHFA's subsidy loan, the maximum DSCR at year 1 shall not exceed 1.20, unless CalHFA approves a higher DSCR at its own discretion. The year 1 DSCR underwritten at the time of final loan approval and final commitment must be maintained as the minimum DSCR through the term of the Perm Loan. CalHFA may require the initial DSCR to be higher than the minimum 1.15x, if deemed necessary to meet the Agency's underwriting requirements.
- Lesser of 90% of restricted value or 100% of development costs. For Projects with equity being cashed out, the Perm Loan amount will be restricted to no more than 80% of the restricted value.

### Fees (subject to change)

- Application Fee: \$10,000 non-refundable, due at time of application submittal, and is credited toward
  the CalHFA Legal Fee at Perm Loan closing. The applicant may be subject to a new Application Fee if the
  CalHFA commitment expires prior to construction loan closing.
- Perm Loan Fee: 1.00%, half due at final commitment, with balance due at Perm Loan closing.
- Credit Enhancement Fee: included in the interest rate.
- Annual Monitoring Fee: \$7,500 annually (not to be duplicated if used in conjunction with CalHFA's Conduit Program).
- Inspection fees should be estimated at \$500 per month for the term of the construction (reports and fees can be shared with other construction lenders)
- Legal Fee: \$35,000, half due at final commitment, with balance due at Perm Loan closing.
- Perm Loan Funding Fee: \$110,000 at Perm Loan closing.
- Administrative Fee: \$1,000 at Perm Loan closing.
- Letter of Interest Fee: \$5,000 at LOI request, and is credited toward the CalHFA Perm Loan Fee

See CalHFA standard Conduit Issuer Program Term Sheet for information on conduit issuance fees.

#### Rate & Terms (subject to change)

#### Interest Rate:

- 17-Year Balloon Loans: 15-Year "AAA" Municipal Market Data (MMD) plus CalHFA spread
- 30-Year Balloon and Fully Amortizing Loans: 30-Year "AAA" MMD plus CalHFA spread
- Estimated CalHFA Spread: 2.00% to 3.00%
- Rate may be locked up to 30 days prior to the construction loan closing. Rate may be locked for the term of the construction period, not to exceed 3 years.

#### Amortization/Term:

- Amortization: Up to 40 Year Amortization
- Term: Fully Amortizing, and 17- or 30-Year Balloons available1
- Perm Loan Reduction: up to 10% reduction at Perm Loan closing permitted at no cost.
- Up to two, three-month extension(s) permitted upon payment of a fee equal to 0.25% of the Perm Loan amount for each three-month extension.
- Breakage Fee (if applicable): due between construction loan closing and Perm Loan closing and calculated based on hedge termination cost.
- 1. Balloon loans subject to agency approved exit strategy.

#### **Loan Closing** Requirements

- 90% stabilized rental housing occupancy for 90 days as evidenced by rent rolls.
- 90% of tax credit investor equity shall have been paid into the Project.
- Project income is sufficient to pay operating expenses, required debt service, reserves and monitoring fees.
- For mixed-use Projects, 100% non-residential occupancy as evidenced by executed leases or guarantees.
- Deposit Account Control Agreement between CalHFA, the Borrower and lending institution is in form and substance acceptable to all parties and ready to be executed at Perm Loan closing.

#### **Prepayment**

The Perm Loan may be prepaid at par after 15 years of the Perm Loan period. However, the Perm Loan may be prepaid after 10 years of the Perm Loan period subject to a yield maintenance calculation of:

- 5% of the principal balance after the end of year 10
- 4% of the principal balance after the end of year 11
- 3% of the principal balance after the end of year 12
- 2% of the principal balance after the end of year 13
- 1% of the principal balance after the end of year 14

All prepayments require a prior written 120-day notice to CalHFA.

#### **Subordinate Financing**

Financing or grants are encouraged from local governments and third parties to achieve project feasibility. All financing, leases, development and regulatory agreements must be coterminous (or have a longer term than the combined terms of any CalHFA Acq/Rehab Loan and Perm Loan) and be subordinate to CalHFA financing. A Lien Priority/Position Estoppel in form and substance acceptable to CalHFA will be required prior to construction financing closing, if applicable.

#### **Occupancy** Requirements

Must maintain the greater of (A) existing affordability restrictions, or (B) either (i) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of the area (county) median gross income as determined by HUD ("AMI") with adjustments for household size ("20% @ 50% AMI"), or (ii) 40% or more of the units must be both rent restricted and occupied by individuals whose income is 60% or less of the AMI, with adjustments for household size ("40% @ 60% AMI"): however in the latter case, a minimum of 10% of the units must be at 50% or less of AMI (i.e., 30% @ 60% AMI; 10% @ 50% AMI).

#### Occupancy Requirements (continued)

Any units restricted by the Agency pursuant to this program, including those units restricted in addition to the minimum requirements set forth above, shall be rented at rents up to 30% of the applicable income restriction using the occupancy assumptions required in the Agency's Regulatory Agreement. Rents for all restricted units must be at least 10% below market rents as evidenced by current market study or an appraisal.

CalHFA's regulated units must represent a comparable share of the available unit sizes (by bedroom count and square feet) and be disbursed throughout the project.

#### **Due Diligence**

The following due diligence is required to be provided at the Owner/Borrower's expense (refer to the program's document checklist for a full list):

- Appraisal\* (a construction lender's appraisal may be acceptable).
- HUD-2530 previous participation clearance.
- Construction Costs Review for new construction loans (other construction lender's review is acceptable).
- Physical Needs Assessment\* ("PNA") for rehabilitation projects with a Replacement Reserve Needs Analysis
  ("RRNA") over time for the first 20-year term (other lender's PNA/RRNA may be acceptable). A RRNA for a
  longer time period may be required if the Perm Loan term is greater than 20 years.
- Phase I and Phase II (if applicable) Environmental Site Assessment\* including, but not limited to, impact
  reviews that meet federal environmental requirements (such as historic preservation and noise remediation).
   The Purpose section of Phase I must state "a purpose of the Phase I is to document compliance with HUD
  policy pursuant to 24 CFR §58.5(i)(2) or §50.3(i)".
- Market Study\* satisfactory to CalHFA.
- NEPA Review.
- Termite/Dry Rot reports\* by licensed company.
- Seismic review\* and other studies may be required at CalHFA's discretion.

\*Note: Third party reports shall be within 180 days prior to the CalHFA's final commitment approval and may be subject to a new or updated report if the report(s) was completed more than 180 days prior to construction loan closing, in CalHFA's sole discretion.

#### Required Impounds and Reserves

- Replacement Reserve: Initial cash deposit required for existing Projects with annual deposits between \$250 and \$500 per unit/per year depending on the Project type and PNA/RRNA findings.
- Operating Expense Reserve ("OER"): 3-6 months of operating expenses, reserves, debt service, and
  monitoring fees due at Perm Loan closing (letter of credit or cash) and held for the life of the CalHFA Perm
  Loan by CalHFA. In the event OER funds are drawn down during the term of CalHFA Perm Loan, it must be
  replenished over a period of 12 months to the original level.
- Impounds held by CalHFA: One year's prepaid earthquake, hazard and liability insurance premiums, and property tax assessments are collected at loan closing. An earthquake insurance waiver is available for Projects which have met CalHFA earthquake waiver standards during rehabilitation or construction.
- Transition Operating Reserve (TOR): required for Projects with state or locally administered rental subsidy contracts with contract terms that are less than 20 years or the CalHFA Perm Loan term.
- Other reserves as required (at CalHFA's discretion).

#### CONDUIT ISSUER PROGRAM

#### MULTIFAMILY HOUSING BONDS

Term sheet effective for applications submitted after March 1, 2022

The CalHFA Conduit Issuer Program is designed to facilitate access to tax-exempt and taxable bonds ("Bond") by developers that seek financing for eligible projects that provide affordable multifamily rental housing for individuals, families, seniors, veterans or special needs tenants ("Project"). The conduit Bonds may be used to finance the acquisition, rehabilitation, and/or development of an existing Project, or they can be used for the construction of a new Project.

#### Qualifications Available to for-profit, nonprofit or public agency sponsors. Nonprofit borrowers may be eligible for 501(c)(3) bonds. If bond proceeds are utilized to pay off an existing CalHFA portfolio loan visit www.calhfa.ca.gov for the CalHFA Portfolio Loan Prepayment Policy. **Bond Amount** Bond amount is determined by the loan amount of the selected construction lender. Application Fee: \$5,000 non-refundable, due at time of application submittal (covers the cost of the TEFRA **Fees** (subject to change) required for tax-exempt issuances) and is credited toward the CalHFA Issuer Fee. 1. The greater of \$15,000 or 18.75 basis points of the Bond amount if lesser than or equal to \$20 million. 2. If more than \$20 million: \$37.500 + 5 basis points for the amount above \$20 million. Annual Administrative Fee: 5 bps of the tax-exempt bond issuance amount due at construction loan closing and due annually thereafter until permanent loan conversion. After permanent loan conversion, billed annually in advance, 5 bps of unpaid principal balance amount of tax-exempt bond financed loan(s) until bonds are fully redeemed. Minimum Annual Administrative Fee shall be \$4,000 through both the Qualified Project Period and the CDLAC compliance period. For taxable only issuances, annual administrative fees above will be charged based on the taxable bond financed loan(s) for the term of the CalHFA affordability restrictions. If used in conjunction with a CalHFA permanent loan product, the annual administrative fee will not be duplicated. Please refer to the applicable permanent loan term sheet for the annual administrative fee. Public Sale: Additional fee of \$5,000 to \$10,000 applies when Bonds are sold to the public. CDLAC Allocation Fee: 0.035% of the Bond amount, \$1,200 of which is due at time of CDLAC application submittal with the remaining fee due at construction loan closing and payable to CDLAC. CDLAC Performance Deposit: 0.50% of the requested Bond amount, not to exceed \$100,000, due at time of CDLAC application submittal. Deposit to be refunded after the Bond closing, upon receipt of authorization letter from CDLAC. The Borrower shall be responsible for all other costs of Bond issuance including fees of the underwriter, trustee, rating agencies, lender, compliance administrator, all Bond counsel legal fees, and any other parties required to complete the transaction.

Kevin Brown, Housing Finance Officer 500 Capitol Mall, Suite 1400, MS-990 Sacramento, CA 95814 916.326.8808 kbrown@calhfa.ca.gov

#### Occupancy Requirements

- Either (A) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of the area median income as determined by HUD ("AMI") with adjustments for household size ("20% @ 50% AMI"), or (B) 40% or more of the units must be rent restricted and occupied by individuals whose income is 60% or less of AMI, with adjustments for household size ("40% @ 60% AMI"); however in the latter case, a minimum of 10% of the units must be at 50% or less of AMI.
- Any units restricted by the Agency pursuant to this program, including those units restricted in addition to
  the minimum requirements set forth above, shall be rented at rents up to 30% of the applicable income
  restriction using the occupancy assumptions required in the Agency's Regulatory Agreement. Rents for
  all restricted units must be at least 10% below market rents as evidenced by a current market study or an
  appraisal.
- Borrower will be required to enter into a Regulatory Agreement which will be recorded against the Project
  for the Qualified Project Period (as defined in the CalHFA Regulatory Agreement). This includes the later
  of the federally-required qualified project period, repayment of the Bond funded loan, redemption of the
  Bonds, the full term of the CDLAC Resolution requirements or 55 years.

Resolution No. 22-22 Page 2

WHEREAS, the Board wishes to grant the staff the authority to enter into a loan commitment to provide permanent financing for the development and taking out the Conduit Bonds upon Agency staff determining in its judgment that reasonable and prudent financing mechanisms can be achieved;

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors (the "Board") of the California Housing Finance Agency as follows:

1. The Executive Director, or in her absence, the Chief Deputy Director, is hereby authorized to execute and deliver a final commitment letter, in a form acceptable to the Agency, and subject to recommended terms and conditions set forth in the Staff Report and any terms and conditions as the Board has designated in the Minutes of the Board Meeting, in relation to the Development described above and as follows:

PROJECT <u>NUMBER</u>	DEVELOPMENT NAME/ LOCALITY	MORTGAGE AMOUNT	
22-016-A/X/N	SERRA APARTMENTS City of Fremont, County of Alameda California	\$27,179,522.00	Tax-Exempt Permanent 1st Lien Loan with HUD Risk Sharing
		\$10,173,471.00	Total MIP 2 <sup>nd</sup> Lien Subsidy Loan
		\ <u> </u>	00 MIP Allocation; 00 Supplemental ion)

The Board recognizes that in the event that staff cannot determine that reasonable and prudent financing mechanisms can be achieved, the staff will not enter into loan commitments to finance the Development. In addition, access to capital markets may require significant changes to the terms of loans submitted to the Board. Notwithstanding paragraph 2 below, the staff is authorized to make any needed modifications to the loan which in staff's judgment are directly or indirectly the result of the disruptions to the capital markets referred to above.

2. The Executive Director may modify the terms and conditions of the loan or loans as described in the Staff Report, provided that major modifications, as defined below, must be submitted to this Board for approval. "Major modifications" as used herein means modifications which either (i) increase the total aggregate amount of any loans made pursuant to the Resolution by more than 7%; or (ii) modifications which in the judgment of the Executive Director, or in her absence, the Chief Deputy Director of the Agency, adversely change the financial or public purpose aspects of the final commitment in a substantial way.

		Tax Credits and/or CDLAC Status: The project received an allocation of tax-exempt bond from CDLAC and an award of 4% federal tax credits from TCAC on 6/15/2022. The Project will be applying in September for a supplemental bond allocation which is expected to be awarded in 2022. The supplemental allocation is being requested to add a cushion to the project's 50% aggregate basis requirement (the "50% test") which is currently at approximately 50%. The supplemental allocation will increase this to approximately 51.99 which is necessary to accommodate a potential cost increase during construction.				2. construction loan closing and thereafter via residual receipts with 3% simple interest per annum. Residual receipt payments to the City's loan will be deferred until the Deferred Developer Fee (DDF) has been fully repaid. After repayment of DDF, the City's payments will be 50% of surplus cash; this will be achieved by a combination of the City's pro rata share of residual receipts and Borrower's portion of surplus cash.

**Project Amenities:** The Project includes a community room, swimming pool and jacuzzi, exercise room, picnic area, computer room, rooftop lounge, dog washing station, and central laundry facilities. Unit amenities will include central heating and air conditioning, dishwashers, and garbage disposals.

**Local Resources and Services:** For TCAC/CDLAC purposes, the Project is located within a Moderate resource area per TCAC/HCD's Opportunity Area Map. The Project is in close proximity to the following local amenities and services:

- Grocery stores 0.20 mile
- Schools 0.36 to 2.95 miles
- Public Library 0.10 mile
- Public transit 0.07 mile
- Retail 0.20 mile
- Park and recreation 0.36 mile
- Hospitals 1.21 miles

Non-displacement <u>and</u> No Net Loss: To the extent feasible, it is the Agency's priority to mitigate the overall effects upon affordable housing availability that may arise from multifamily developments that may result in permanent displacement of existing affordable housing residents and/or net loss of existing affordable housing units. The Project is a new construction project, with no related demolition of existing affordable housing, hence no existing affordable housing units will be lost nor will existing residential households be displaced as a result of this development.

**Commercial and/or Other (i.e. Parking) Space:** The Project does not include commercial space.

<sup>\*</sup>The estimated NOI During Construction is based on an 8-month lease-up period and 3 months of stabilized occupancy prior to conversion.

At the time of CalHFA's initial commitment (March of 2022), the developer estimated the total development cost (TDC) to be \$61,588,651 or \$418,970/unit. CalHFA issued an initial commitment based on these initial costs estimates for the developer to use to apply to CDLAC for tax exempt bond cap and to CTCAC for federal tax credits. On June 15, 2022 the Borrower received the related allocations from CDLAC and CTCAC.

<sup>\*\*</sup> CalHFA Supplemental MIP loan repayment will have priority over the Original MIP Loan in the repayment priority.

On the sources side, there were cost savings related predominantly to 1) increase in investor equity contribution of \$1,515,463, 2) increase in deferred developer's fee of \$621,306, 3) increase in NOI during construction of \$261,523, and (4) a reduction in other soft costs of \$1,000,843. On the Uses side, cost increases were related to; 1) increase in construction hard costs of \$2,284,755; 2) market related increases driving CalHFA's higher interest rate and spreads which resulted in a \$835,000 reduction to the permanent loan amount; 3)increases to interest rates from the Construction Lender which resulted in a \$3,048,438 increase to financing costs related to construction period debt service and loan fees. Overall, the deficit in the updated budget is \$3,201,000.

Hard Cost/Soft Cost changes: The developer is a vertically integrated organization and owns the general contractor entity, USA Construction Management, Inc. In an effort to mitigate market disruptions, the Borrower met with their design team and general contractor to evaluate the original construction hard cost budget. As a result, they were able to reduce site work costs by approximately \$188,919, however, there was an overall \$2,248,755 increase in construction costs attributed to inflation. In addition, the developer was able to negotiate a reduction of the loan origination fee from the construction lender.

Deferred Developer Fee: The current budget also reflects an increase of the total developer's fee by \$431,942, however, the current deferred developer's fee (DDF) is approximately \$621,306 higher than the original budget, which results in a net increase of DDF by \$189,364 (original developer fee \$6,705,869 with \$4,861,826 deferred and current developer fee \$7,137,811 with \$5,483,132 deferred). Through the project's final underwriting prior to construction and permanent loan conversion, efforts shall be made to mitigate a portion of the financing gap through restructuring of the Developer fee or direct equity contribution by the Developer.

Perm Loan Reduction & Equity Contribution Adjustment: The equity contribution adjustment is anticipated to be approximately \$1,515,463. During final underwriting, the CalHFA permanent loan of \$20,895,000 was reduced by \$835,000 to \$20,060,000. This was attributed to increases in perm loan financing costs related to macroeconomic

factors, such as inflation. The underwriting interest rate of 6.31% is inclusive of costs associated with the Agency offering extended rate lock period of 6+ months and interest rate hedging costs incurred by the Agency.

To mitigate the funding gap of \$3,201,000 CalHFA was able to increase the perm loan by allowing the removal of 25 bps underwriting cushion and rate locking at 6.31% fixed interest rate for loan closing (perm conversion at 36-month forward from construction loan closing). This resulted in a permanent loan increase of \$625,000 to \$20,685,000, which reduced the overall funding gap to \$2,576,000 as shown above.

The estimated funding gap after exhausting all resources available to the project totals approximately \$2,576,000. The Borrower has requested an increase to the MIP Subsidy Loan of \$2,576,000 to fund the remaining gap. Pursuant to the TCAC/CDLAC requirements this project must begin construction by December 2022. A \$2,576,000 increase in the MIP supplemental subsidy (\$17,644/unit) results in an overall MIP Regulated Unit amount of \$48,466 per restricted unit. The original MIP and Supplemental MIP total \$7,076,000.

**Subsidy Efficiency:** The Initial MIP commitment for this Project was \$4,500,000 (\$30,822 per MIP restricted units). The current proposed MIP commitment is \$7,076,000 (\$48,466 per MIP restricted units) including the requested Supplemental MIP funding.

#### Tax Credit Type(s), Amount(s), Pricing(s), and per total units:

• 4% Federal Tax Credits: \$28,638,680 (\$196,155 per TCAC restricted unit).

**Rental Subsidies**: The Project will not be subsidized by project-based vouchers.

**Other State Subsidies:** The Project will not be funded by other state funds.

Other Locality Subsidies: The Project will be funded with \$6,620,000 from the City of La Mesa (ground lease loan).

#### **Cost Containment Strategy:**

The general contractor is USA Construction Management, Inc. (USACM), a wholly owned and controlled subsidiary of the Developer. As a fully vertically integrated developer, all functional disciplines (Architecture, Development, Construction, Property Management) were engaged early in the design process with the architect and other design consultants to design the best project in the most cost-effective manner. USACM fully bids all construction trades and obtains at least three bids. USACM does not self-perform any trades. USACM develops a detailed critical path construction schedule to ensure the project is delivered on time and within budget and utilizes a Guaranteed Maximum Price (GMP) construction contract with a provision that cost savings go to the owner. The Developer and USACM complete a post construction audit to evaluate and identify further process improvements.

#### TRANSACTION OVERVIEW

#### 7. Proposal and Project Strengths

- The Project has been awarded 4% tax credits which are projected to generate equity representing approximately 37.7% of total financing sources.
- The developer/sponsor has extensive experience in developing similar affordable housing projects and has experience with CalHFA.
- The Project will serve low-income families ranging between 30% to 70% of AMI. On average, the rents are between 19% to 68% below market rents based on current appraisal.
- The Loan-to-Value will be 51%, which is well below the Agency's maximum requirements of 90%. This results in less risk to the Agency.
- The locality has invested in the success of the Project as demonstrated by a ground lease for at least 65 years and a

ground lease loan.

• The projected portion of the developer's fee that will be collected at or prior to permanent loan conversion is \$1,654,679 which could be available to cover cost overruns and/or unforeseen issues during construction.

#### 8. Project Weaknesses with Mitigants:

- The exit analysis assumes 2% increase to the appraisal cap rate (resulting in 5.75%) and a 3% increase of the underwriting interest rate at loan maturity (resulting in 9.31%). Based on these assumptions, the Project will have the ability to fully repay the balance of the Agency's permanent first lien loan and a portion of the Supplemental MIP loan in the estimated amount of \$1,855,686, leaving an outstanding balance of \$1,685,418 (principal and accrued interest plus the full amount of the original MIP loan in the estimated amount of \$6,525,000 (principal and accrued interest). Total combined estimated MIP balance at refinance is \$8,210,418. This is expected by CalHFA given the requirement that the MIP loan be co-terminus with the permanent first mortgage. The primary source of repayment for both the first mortgage and the MIP subsidy loan is refinance of the project's first mortgage. To the extent such a refinance is insufficient to fully repay the Supplemental MIP and original MIP loans, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the final close out of partnership obligations to allow re-syndication.
- The Project budget indicates a deficit of approximately \$2,576,000. The Borrower has requested a \$2,576,000 increase to the initially committed MIP subsidy loan to facilitate the progression of this shovel ready project to construction. Refer to section 5 for detailed project gap analysis.

#### 9. Underwriting Standards or Term Sheet Variations

None

#### 10. Project Specific Conditions of Approval

#### Approval is conditioned upon:

- The CalHFA loan(s) will be secured against the leasehold interest in the land and fee interest in the improvements.
   All subordinate loans are to be secured in the same manner. However, if any lender encumbers both fee and
   leasehold interests in the land, the CalHFA loan documents will also secure in the fee and leasehold interests in the
   land. The final ground lease document is subject to CalHFA approval. Lessor must provide approval of CalHFA
   ground lease rider.
- Defaults under any loans used to capitalize payments or ongoing residual receipt payments required by the ground lease must not constitute a default under the ground lease.
- No site work or construction commenced prior to the issuance of a HUD Firm Approval Letter.
- CalHFA will require that the local funding regulatory agreements to contain provisions allowing rent increases to the maximum TCAC rents in an event of default.
- CalHFA requires that MIP affordability covenants be recorded in senior position to all foreclosable debt.
- The CalHFA subsidy (including the supplemental MIP subsidy loan) will be, in the Agency's sole discretion, the lesser of 1) the principal amount as stated on hereto or 2) an amount as determined by the Agency in the event the financial assumptions change prior to construction loan closing and/or permanent loan closing.
- All MIP Loan principal and interest will be due and payable at maturity. Outstanding Supplemental MIP loan funds
  will have first repayment priority whether the source of repayment is cash flow during the term of the loan or
  repayment via refinance, partner contribution, or other source at loan maturity.
- The Project's proposed operating expense does not meet TCAC minimums, therefore, Borrower must provide
  evidence that the proposed operating expense is sufficient to operate the project via an appraisal report and/or
  other supporting documentation acceptable to CalHFA. Written approval by the investor and all lenders of the
  final proposed operating expense below the TCAC minimum must be provided prior to construction loan closing.
- Receipt of a Lien Priority/Position Estoppel in form and substance acceptable by CalHFA from all local (city and county) lenders.
- If required, receipt of LPA and investor written approval evidencing that any outstanding deferred developer fee remaining in Year 15 will be treated as a developer contribution. The owner must provide evidence of investor and City's approval of the developer's fee structure.

2234481.2 11249.011 Multifamily Staff Report Version Date: April 2021 SLC Final Staff Report for: 8181 Allison

SLC Date: 09/7/2022

CalHFA Project Number: 22-018-A/X/S

Board Date: 09/22/2022

• The Borrower has requested that 100% of surplus cash be available for the repayment of the deferred developer's fee (DDF) until the earlier of year 15 of operations is complete or full repayment of the DDF. Thereafter, the surplus cash split shall be 50% to Borrower and 50% to Residual Receipt lender(s). As a condition of this approval, the Borrower must provide evidence that the DDF repayment structure is required pursuant to the Limited Partnership Agreement (LPA). In addition, the owner must provide evidence of investor and all residual receipt lender(s) approvals of the total deferred developer's fee structure and residual receipt split. Residual receipt lenders must also agree to defer the payments on their loans.

- Prior to construction closing, receipt of seismic report confirming Probable Maximum Loss (PML) below 20%.
- Any default as to any loan by the Agency for the Development shall constitute a default under any other loan by the Agency for the Development.
- In the event of cost savings at permanent loan conversion, 100% of cost savings will be used to reduce the supplemental portion of the MIP loan amount first (may be shared with other residual receipt lenders on a pro rata basis, if applicable). Once the supplemental portion of the MIP loan amount is fully reduced, the remaining cost savings will be split 50% between reducing the original MIP loan amount (or may be shared with other residual receipt lenders on a pro rata basis, if applicable) and reducing the Deferred Developer Fee.

#### 11. Staff Conclusion/Recommendation:

The Multifamily Lending Division supports approval of the described financing in the amount(s) requested, subject to the above proposed terms and conditions. As noted earlier, the supplemental MIP subsidy loan of \$2,576,000 was not part of the Initial Commitment approved by the SLC, and hence approval is being sought for this financing through the subject Final Commitment Approval.

#### **AFFORDABILITY**

#### 12. CalHFA Affordability (Occupancy and Rent) Restrictions

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum of 30% of the total units (45 units) at or below 60% of AMI and an additional 10% of the total units (15 units) restricted at or below 50% of AMI for 55 years.

\*The CalHFA MIP Subsidy Regulatory Agreement requires 10% of total units (15 units) be restricted at or below 30% of AMI, 20% of the total units (30 units) restricted at or below 50% of AMI, and 10% of total units (15 units) be restricted between 60% and 80% of AMI, with a minimum average of 70% of AMI for a term of 55 years. The rents for the 60% to 80% tranche will be determined by the minimum income limit of 70% of AMI, not to exceed 80% of AMI. The remaining 86 restricted units will be restricted at or below 120% of AMI. For underwriting purposes, the initial rents at permanent loan closing must be no less than the underwriting rent levels outlined on the "Unit Mix and Rent Summary" enclosed as part of the project's staff report package. The CalHFA permanent loan agreement will require minimum underwriting rent levels as outlined in the Rent Limit Summary Table Below.

In addition, the Project will be restricted by the following jurisdictions as described below:

The City will restrict 30 units at or below 30% of AMI and 30 units at or below 50% of AMI for a term of at least 65 years. The rents for these units are subject to Surplus Land Act requirements and the rents are based off of County of San Diego published rents.\*\*

The C	CalHFA loan(s) will be secured again	nst the Fee Interest	in the improvements and Leasehold Intere	est in the land.
17.	Balloon Exit Analysis	Applicable:	⊠ Yes □ No	

The exit analysis assumes 2% increase to the appraisal cap rate (resulting in 5.75%) and a 3% increase of the underwriting interest rate at loan maturity (resulting in 9.31%). Based on these assumptions, the Project will have the ability to fully repay the balance of Agency's permanent first lien loan and a portion of the Supplemental MIP loan in the estimated amount of \$1,855,686, leaving an outstanding balance of \$1,685,418 (principal and accrued interest) plus the full amount of the original MIP loan in the estimated amount of \$6,525,000 (principal and accrued interest). Total combined estimated MIP balance at refinance is \$8,210,418. This is expected by CalHFA given the requirement that the MIP loan be co-terminus with the permanent first mortgage. The primary source of repayment for both the first mortgage and the MIP subsidy loan is refinance of the project's first mortgage. To the extent such a refinance is insufficient to fully repay the Supplemental MIP and original MIP loans, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the final close out of partnership obligations to allow re-syndication.

#### **APPRAISAL AND MARKET ANALYSIS**

#### 18. Appraisal Review Dated: June 9, 2022

- The Appraisal dated 06/09/2022, prepared by Burger Valuation Consultants, values the land at \$6,620,000.
- The cap rate of 3.75% and a projected \$1.54 million of net operating income was used to determine the asrestricted stabilized value. The appraisal report's NOI is approximately \$87,000 lower than the project's proposed
  NOI projections. The difference is attributed to the Developer using payroll and management fees based on
  similar projects in their portfolio as well as building systems configurations including current energy code and
  water saving requirements for the City of La Mesa. Additionally, the property manager has certified that the
  project can be operated based on the proposed expenses. Based on the developer's explanation and supporting
  documents, staff has determined that the proposed operating expenses are reasonable.
- The as-restricted stabilized value is \$40,900,000, which results in the Agency's permanent first lien loan to value (LTV) of 51%. The combined LTV, including MIP subsidy loan is 68%.
- The absorption rate is 6 months and is consistent with the market study.

Market Study: Kinetic Valuation Group, Inc. Dated: 02/03/2022

#### **Regional Market Overview**

- The Primary Market Area ("PMA") is the central portion of the city of La Mesa (population of 233,739) and the Secondary Market Area ("SMA") is San Diego County (population of 3,287,244)
- The general population in the PMA is anticipated to increase by 1.2% at market entry.
- Unemployment in the PMA is 4.6%; this was a 4.8% decrease from the previous year and evidences a strong
  employment area. Per the appraisal, the unemployment rate in March 2022 was 3.9% in the San Diego- Carlsbad
  Metropolitan Statistical Area (MSA). The region has generally experienced a lower unemployment rate
  compared to the state average.

#### **Local Market Area Analysis**

- Supply:
  - There are currently 13 affordable family project(s) in the PMA and they are generally 100% occupied with long wait lists.
  - o There has been no preliminary reservation for new construction LIHTC affordable projects in the PMA within the past two years based on a review of TCAC, CDLAC and HUD development lists.
- Demand/Absorption:
  - The project will need to capture 3.3% of the total demand for one- and two-bedroom family units in the PMA. The affordable units are anticipated to lease up at a rate of 19-25 units per month and reach stabilized occupancy within 6-8 months of opening.

The California Housing Finance Agency ("CalHFA" or "Agency") Mixed-Income Program ("MIP") provides competitive, long-term, subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product. The MIP resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of extremely low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

#### Qualifications

#### APPLICATION:

Sponsors/developers must submit a complete application package which includes all items listed on the application, the application addendum and the checklist. Incomplete application packages will not be considered. The application and checklist can be found at <a href="https://www.calhfa.ca.gov/multifamily/mixedincome/index.htm">www.calhfa.ca.gov/multifamily/mixedincome/index.htm</a>. If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated.

#### **AVAILABILITY:**

Available to for-profit, nonprofit, and public agency sponsors. Development teams must meet CalHFA experience requirements, as defined in the CalHFA Development Team Qualifications section below.

#### **USES:**

MIP subsidy loans must be used in conjunction with CalHFA's Conduit Bond Issuance Program and a construction loan from a CalHFA Mixed-Income Qualified Construction Lender. MIP subsidy loans must also be used in conjunction with CalHFA's permanent first-lien mortgage financing. CalHFA Mixed-Income Qualified Construction Lender is defined in that section below.

#### FINANCING STRUCTURE:

Projects accessing the MIP subsidy loan funds must be structured as one of the following:

1. Tax-exempt bond and 4% tax credit project where at least 51% of the units in the project must be tax-credit-financed

OF

2. Qualified mixed-income project through income averaging pursuant to Internal Revenue Code Section 42 (g)(1)(C).

## **Qualifications** (continued)

#### **READINESS:**

Projects must have site control and be prepared to submit for a bond and tax credit allocation and will only receive funds if bonds are issued within the issuance timeframes specified in the California Debt Limit Allocation Committee's (CDLAC) Regulations Section 5100.

- 1. Site: The site must be ready for construction (all potential environmental issues have been identified, mitigation plan is in place, and costs associated with the mitigation plan have been incorporated in the development budget). Environmental issues may include, but not be limited to, receipt of clearances for CEQA, NEPA, and applicable tribal land environmental reviews. Pursuant to HUD-Risk Sharing requirements, sponsor is expected to start the NEPA process shortly after CalHFA verifies application completeness and determines that the project is ready to move forward with an initial commitment ("notification date"). The NEPA clearance and HUD's firm approval letter will be required prior to construction loan closing.
- 2. General Contractor and/or Third Party Construction Services Engagement: At the time of application, applicant must provide evidence that the applicant or developer has engaged a general contractor or third-party construction services company to provide construction services including, but not limited to, value engineering, bid/budget services, and constructability review of plans and designs. In addition, the proposed construction budget is based on the general contractor's or third-party construction services company's preliminary bid estimates pursuant to the current plans and designs.
- **3. Disposition and Development Agreement:** Applicant must provide a copy of the disposition and development agreement, if applicable.
- 4. Construction Start: All projects must commit to begin construction 180 days from the earlier of the date of the tax-exempt bond allocation or 4% federal/state tax credit reservation, unless an extension has been approved by California Tax Credit Allocation Committee (CTCAC), CDLAC, and CalHFA, as applicable. Within the 180-day period, the following items must be submitted to CalHFA in their final form:
  - A complete, updated application form along with a detailed explanation of any changes from the initial application,
  - b. An executed construction contract,
  - Recorded deeds of trust for all construction financing (unless a project's location on tribal trust land precludes this),
  - $\ d. \quad \ \ Binding \ commitments \ for \ any \ other \ financing \ required \ to \ complete \ project \ construction,$
  - e. Copy of a limited partnership agreement executed by the general partner/sponsor and the investor limited partner/equity provider,
  - f. Payment of all construction lender fees,
  - g. Copies of buildings permits (a grading permit does not suffice to meet this requirement, except if the city or county as a rule does not issue building permits prior to the completion of grading, then a grading permit shall suffice; if the project is a design build project in which the city or county does not issue building permits until designs are fully complete, the city or county shall have approved construction to begin) or the applicable tribal documents,
  - h. Copy of the notice to proceed delivered to the contractor,
  - If no construction lender is involved, evidence must be submitted within 180 days, as applicable, that the equity partner has been admitted to the ownership entity, and that an initial disbursement of funds has occurred,
  - j. Other documentation and information required by CalHFA to close construction financing.

## **Qualifications** (continued)

#### MIP ALLOCATION LIMITS:

(Exceptions may be considered by Agency in its sole discretion)

- 1. **Project Cap:** No project may receive more than the lesser of \$8 million, or the aggregate MIP loan amount calculated based on up to \$50,000 per MIP regulated units or up to \$60,000 per MIP regulated units for a Project located within the Highest or High Resource areas pursuant to CTCAC regulations designated on the CTCAC/HCD (California Department of Housing and Community Department) Opportunity Area Map.
- 2. **Sponsor Cap:** No sponsor (any individual, entity, affiliate and related entity) may receive more than 20% of total MIP allocation or funding of two projects, whichever is less, for the respective year.
- 3. County Cap: No one county may receive more than 25% of total MIP allocations for the respective year.
- 4. Age-Restricted Cap: No more than 25% of total MIP funds for the respective year may be received by age-restricted projects (units that are restricted to residents who are 62 years of age or older under the applicable provisions of California Civil Code Section 51.3 and the federal Fair Housing Act), unless a waiver of the minimum age requirement has been granted by U.S. Department of Housing and Urban Development ("HUD").

#### **EVIDENCE OF COST CONTAINMENT:**

A Cost Containment Certification must be provided at the time of Construction Loan Closing in a form acceptable to CalHFA in its sole discretion. The certification acceptable to CalHFA may be found at <a href="https://www.calhfa.ca.gov/multifamily/mixedincome/forms/closing-cost-containment-certification.pdf">www.calhfa.ca.gov/multifamily/mixedincome/forms/closing-cost-containment-certification.pdf</a>.

The developer/sponsor must certify that cost containment measures have been implemented to minimize construction costs. These measures should include, but may not be limited to, 1) competitively bidding out all major subcontractor and self-performing trades and 2) engaging a value engineer/consultant during the design process.

#### **EVIDENCE OF SUBSIDY EFFICIENCY:**

A Subsidy Efficiency Analysis will be completed as part of the application review. The analysis will be completed again prior to construction loan closing and closing of the MIP subordinate loan. The MIP loan amount may be reduced based on the final analysis. Parameters of the analysis may include, but are not limited to, the following:

- A maximum of 1.20 Debt Service Coverage Ratio ("DSCR") at year 1 ("Initial DSCR"). CalHFA may allow an
  initial DSCR higher than 1.20 on a case-by-case basis, if deemed necessary. The year 1 DSCR underwritten
  at the time of final loan approval and final commitment must be maintained through the term of the
  CalHFA permanent first lien loan,
- A project cash flow that supports the residential component of the project based on the required CalHFA
  permanent first lien annual debt service coverage ratio,
- A separate project cash flow that supports any commercial component of a mixed-use project,
- A cash flow after debt service shall be limited to the higher of 25% of the anticipated annual must pay debt service payment or 8% of gross income, during each of the first three years of project operation,
- Inflation factors and vacancy rates consistent with the Agency's Underwriting Standards,
- Developer Fee requirements matching those required under the 4% federal and/or state tax credit reservation,
- Capitalized reserves subject to approval by Agency for reasonableness consistent with the Agency's Underwriting Standards and the Investor Limited Partnership Agreement (ILPA),

## **Qualifications** (continued)

- Review of Excess Sources over final Uses as approved by CalHFA resulting from any of the following:
  - · An increase in tax credit equity,
  - An increase in permanent loan debt due to a combination of permanent loan rate reduction and/or reduction to operating expense assumptions;
- Construction Cost Savings as evidenced by final cost certification, funds shall be used to reduce the MIP loan prior to CalHFA MIP loan closing or if required by other subordinate lenders, funds may be split on a pro rata basis between CalHFA and other subordinate lenders,
- State tax credit request is expected to be within a range of \$50,000 to \$75,000 per unit. The projects that evidence the most efficient use of bond cap, state tax credits, and MIP per adjusted unit shall be prioritized for MIP funding considerations. The bond cap, state tax credits, and MIP per adjusted unit calculation shall be consistent with CDLAC Regulation Section 5231(g)(1) and 5231(g)(2). MIP final commitment shall be subject to evidence of project's receipt of CDLAC's preliminary tax-exempt bond allocations and CTCAC's tax credits reservations within the respective year,
- Acquisition cost shall be the lesser of 1) the purchase price pursuant to a current purchase and sales
  agreement between unrelated parties, 2) the purchase price of an arm's length transaction executed within
  the past 10 years plus reasonable carrying costs, or 3) the appraised "as-is" value based on an Appraisal
  acceptable to CalHFA in its sole discretion. The appraised value of the real estate may be considered if the
  arm's length transaction exceeds 10 years.

#### CalHFA Mixed-Income Qualified Construction Lender

A CalHFA Qualified Construction Lender is defined as a Construction Lender that has closed at least five construction loans using tax-exempt bonds and 4% federal and/or state tax credits in California within the last three years and satisfies the requirement set forth within the application.

# CalHFA Mixed-Income Development Team Qualifications

The **Developer/Co-Developer/General Partner** must be registered to do business and in good standing in the state of California. A CalHFA Qualified Developer/Co-Developer/General Partner must have developed at least three comparable projects within the past five years or meet the requirements to receive a minimum of 7 points under the CDLAC General Partner Experience category pursuant to CDLAC Regulations Section 5230(f).

The proposed **Project Manager** must have personally managed the development of at least two comparable projects within the past five years.

**Financial Consultants** hired to assist the Developer in meeting the minimum experience requirements must be able to provide details regarding at least three comparably financed projects over the last five years.

**Architects** new to CalHFA must provide information for three comparable projects they designed that were built and occupied within the past five years in California.

**General Contractor (GC)** must be licensed by the State of California. GCs new to CalHFA must provide information related to three comparable (in design) projects built in the past five years. Similar information will be required for the proposed on-site construction supervisor. The on-site construction supervisor must have overseen three comparable projects built in the past five years, and they must have overseen the projects from construction start to final completion.

Tax Credit Investors must have closed/executed at least five investor limited partnership agreements for a comparable deal structure using tax-exempt bonds and 4% federal and/or state tax credits in California within the last three years.

# CalHFA Mixed-Income Development Team Qualifications (Continued)

Management Company must have a local presence or a field office in Northern or Southern CA (depending on the location of the Project) and have experience managing at least 10 low- to moderate-income, rentrestricted comparable (size and tenant types) projects. Also required is a resume for the proposed on-site Property Manager, reflecting prior experience during the past five years managing onsite project operations and compliance with rent-restricted units or meet the requirements to receive a minimum of 3 points under the CDLAC Management Company Experience category pursuant to CDLAC Regulations Section 5230(f).

## Permanent First Lien Loan

Must be provided by CalHFA. The permanent loan must meet an initial minimum DSCR of at least 1.15 and must maintain the year 1 DSCR underwritten at the time of final loan approval and final commitment through the term of the CalHFA permanent first lien loan. The Initial DSCR must not exceed 1.20.

## **Construction First Lien Loan**

Must be provided by a CalHFA Mixed-Income Qualified Construction Lender. All parties shall permit the Agency to, in its sole and absolute discretion, recycle all or a portion of any bond volume cap related to a paydown of the bond-financed loans, at the conversion of the construction financing to permanent financing and payoff of the construction loan, pursuant to the authority provided in Section 146(i)(6) of the Internal Revenue Code of 1986 and CDLAC Regulation Section 5060 (the "Bond Recycling"). The bond documents, loan documents and any other documents related to the financing of the Development shall contain any necessary approvals and permit all actions necessary to accomplish a Bond Recycling.

#### Limitations

- 1. MIP cannot be combined with the CTCAC 9% program.
- 2. MIP cannot be combined with other state subordinate debt and/or subsidy programs (this does not include state tax credits) with the exception of the Infill Infrastructure Grant (IIG), Affordable Housing and Sustainable Communities (AHSC) and Transit Oriented Development (TOD) housing programs. Inclusion of these programs is contingent upon restrictions that are compatible with the MIP program requirements outlined herein. Inclusion of other subordinate debt and subsidy will be allowed at CalHFA's sole discretion so long as any restrictions of subordinate debt or subsidy are compatible with MIP program requirements outlined herein.
- 3. Projects that have a below market rate component resulting from an inclusionary obligation or are 100% below market as a result of an inclusionary obligation must demonstrate master developer commitment through a dollar-for-dollar match of CalHFA's subsidy resources. Match can be obtained through a monetary match or equivalent in-kind contributions (e.g., land donation, land use fee concessions.)
- 4. At the time of MIP application, a project must not have already received an allocation of 4% federal and/ or state tax credits from CTCAC or a tax-exempt bond allocation from CDLAC.
- 5. Projects will not be eligible for other subsidy resources from CalHFA in addition to MIP.

#### Mixed-Income Project Occupancy Requirements

#### BOND REGULATORY AGREEMENT REQUIREMENTS (ALL PROJECTS):

Must maintain either (a) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of AMI with adjustments for household size ("20% @ 50% AMI"), OR (b) 40% or more of the units must be both rent restricted and occupied by individuals whose incomes are 60% or less of AMI with adjustments for household size ("40% @ 60% AMI"): in the latter case, CDLAC requires a minimum of 10% of the unit types must be at 50% or less of AMI ("10% @ 50% AMI").

#### Mixed-Income Project Occupancy Requirements (Continued)

#### MIXED INCOME REGULATORY AGREEMENT REQUIREMENTS (ALL PROJECTS):

#### Affordability Requirements:

- 1. To qualify, a project must meet the following affordability restrictions, which are based on the HUD and locality (as applicable) income and rent limits which are current at the time of MIP application, for a term of 55 years:
  - a. 30% of total units at or below 50% of AMI. Of these, a minimum of 10% of total units must be at or below 30% of AMI,
  - b. 10% of total units between 60% and 80% of AMI with an average of 70% of AMI or greater, subject to the Maximum Allowable Rents outlined below, and
  - c. Remaining 60% of total units at or below 120% of AMI (with the exception of any non-restricted manager's unit(s)) OR at the affordability restrictions consistent with CTCAC requirements.
  - d. The minimum range between the lowest and highest occupancy target levels must be at least 40%.

    (Deviations from the above requirements will only be considered if Market Study supports such deviations.)
- 2. If applicable, tax credit transactions that are income-averaged must have a maximum average affordability up to 60% of AMI across all CTCAC restricted units.

#### Mixed-Income Project Occupancy Requirements (Continued)

#### MAXIMUM ALLOWABLE RENTS:

Rents for all restricted units must be at least 10% below market rents for the MIP affordability term as evidenced by a current market study or appraisal. This threshold will be analyzed at time of application and again at CalHFA's final commitment approval and may be monitored on an ongoing basis for the MIP affordability term. The report shall be current within 180 days of Agency's final commitment and may be subject to required updating if the report expires prior to construction loan closing. For underwriting purposes, CTCAC and locality maximum rents for the respective target income limits must be used. Any proposed rent adjustments above 5% of the approved rents subsequent to construction loan closing may be considered if supported by a recent or updated market study or appraisal that is dated within 180 days of MIP loan closing, at CalHFA's sole discretion.

Any units restricted by the Agency pursuant to this program, including those units restricted in addition to the minimum requirements set forth above, shall be rented at rents not to exceed 30% of the applicable income restriction required in the Agency's Regulatory Agreement.

#### Mixed-Income Subordinate Loan

- 1. Maximum loan amount for each project shall not exceed the lesser of \$8 million or the aggregate MIP loan amount calculated based on up to \$60,000 per MIP regulated units, unless an exception is approved by Agency in its sole discretion.
  - a. Maximum loan per restricted (tax credit or CalHFA) units between 30%-120% AMI shall be up to \$50,000.
  - Projects located within the Highest or High Resource areas pursuant to CTCAC regulations designated on the CTCAC/HCD Opportunity Area Map shall be eligible for an additional amount up to \$10,000 per MIP regulated unit. Opportunity Map Home Page: <a href="www.treasurer.ca.gov/ctcac/opportunity.asp">www.treasurer.ca.gov/ctcac/opportunity.asp</a>
- 2. Loan size based on project need but cannot be more than 50% of the permanent loan amount.

#### Mixed-Income Subordinate Loan Rates & Terms

- 1. Interest Rate: Greater of 1% simple interest or the applicable federal rate (AFR) at time of MIP closing.
- 2. Loan Term: The MIP loan term shall be coterminous with the CalHFA permanent first lien loan.
- 3. Lien Position: Second lien position, after CalHFA permanent first lien loan.
- 4. Loan Payment: Residual receipt repayment based on cash flow analysis and split 50% to Owner and 50% to CalHFA and other residual receipt lenders. Residual receipt is defined as 50% of surplus cash which is determined as net operating income minus total debt service and other Agency approved payments. Payments shall be applied to the current and/or accrued interest and then principal of the MIP loan. Deviation from the net cash flow split may be granted 1) to meet equity investor's deferred developer's fee requirement as evidence by the limited partnership agreement, and 2) is subject to approval(s) by other residual receipt lender(s), as applicable.
- 5. Affordability Term: 55 years.
- 6. Prepayment: May be prepaid at any time without penalty.
- 7. Subordination: A subordination and/or extension of MIP maturity request in conjunction with a resyndication, refinance, or ownership transfer ("capitalization event(s)") will be considered. If MIP loan is outstanding at time of the capitalization event(s) and requires subordination at the time of such event, the surplus cash split between borrower and CalHFA and other residual receipt lenders may be altered to reflect an increased percentage of residual receipts to CalHFA out of Borrower's share until such time as the MIP loan is paid in full. The remaining residual receipts may be split between other residual receipt lenders.
- 8. Funded: Only at permanent loan conversion.

## TAX-EXEMPT PERMANENT LOAN PROGRAM

CalHFA's Tax-Exempt Permanent Loan Program ("Perm Loan") provides competitive tax-exempt long-term financing for affordable multifamily rental housing Projects. Eligible projects include newly constructed or acquisition/rehabilitation developments that provide affordable housing opportunities for individuals, families, seniors, veterans, and special needs tenants ("Project").

#### Qualifications

- Available to for-profit, non-profit, and public agency sponsors.
- Tax-exempt bond authority must be obtained from the California Debt Limit Allocation Committee (CDLAC) or through a 501(c)(3) exemption.
- The Tax-Exempt Permanent Loan may be used with or without 4% low income housing tax credits.
- If a lender other than CalHFA is providing short-term, first-lien debt, CalHFA shall be used as the bond issuer (for more information, review the Conduit Issuer Program Term Sheet).
- For Section 8 Projects, a final commitment is conditioned upon review and acceptance by CalHFA of the HAP or AHAP contract.
- The Perm Loan will be credit-enhanced through CalHFA's HUD/FHA Risk Sharing Program.
- For existing CalHFA portfolio loans, the current owner is required to pay off all outstanding CalHFA debt. Visit www.calhfa.ca.gov for the <u>CalHFA Portfolio Loan Prepayment Policy</u>.

#### **Loan Amount**

- Minimum Perm Loan amount of \$5,000,000.
- Minimum 1.15x for initial debt service coverage ratio (include any financing with amortizing debt). If a Project includes CalHFA's subsidy loan, the maximum DSCR at year 1 shall not exceed 1.20, unless CalHFA approves a higher DSCR at its own discretion. The year 1 DSCR underwritten at the time of final loan approval and final commitment must be maintained as the minimum DSCR through the term of the Perm Loan. CalHFA may require the initial DSCR to be higher than the minimum 1.15x, if deemed necessary to meet the Agency's underwriting requirements.
- Lesser of 90% of restricted value or 100% of development costs. For Projects with equity being cashed out, the Perm Loan amount will be restricted to no more than 80% of the restricted value.

### Fees (subject to change)

- Application Fee: \$10,000 non-refundable, due at time of application submittal, and is credited toward
  the CalHFA Legal Fee at Perm Loan closing. The applicant may be subject to a new Application Fee if the
  CalHFA commitment expires prior to construction loan closing.
- Perm Loan Fee: 1.00%, half due at final commitment, with balance due at Perm Loan closing.
- Credit Enhancement Fee: included in the interest rate.
- Annual Monitoring Fee: \$7,500 annually (not to be duplicated if used in conjunction with CalHFA's Conduit Program).
- Inspection fees should be estimated at \$500 per month for the term of the construction (reports and fees can be shared with other construction lenders)
- Legal Fee: \$35,000, half due at final commitment, with balance due at Perm Loan closing.
- Perm Loan Funding Fee: \$110,000 at Perm Loan closing.
- Administrative Fee: \$1,000 at Perm Loan closing.
- Letter of Interest Fee: \$5,000 at LOI request, and is credited toward the CalHFA Perm Loan Fee

See CalHFA standard Conduit Issuer Program Term Sheet for information on conduit issuance fees.

#### Rate & Terms (subject to change)

#### Interest Rate:

- 17-Year Balloon Loans: 15-Year "AAA" Municipal Market Data (MMD) plus CalHFA spread
- 30-Year Balloon and Fully Amortizing Loans: 30-Year "AAA" MMD plus CalHFA spread
- Estimated CalHFA Spread: 2.00% to 3.00%
- Rate may be locked up to 30 days prior to the construction loan closing. Rate may be locked for the term of the construction period, not to exceed 3 years.

#### Amortization/Term:

- Amortization: Up to 40 Year Amortization
- Term: Fully Amortizing, and 17- or 30-Year Balloons available1
- Perm Loan Reduction: up to 10% reduction at Perm Loan closing permitted at no cost.
- Up to two, three-month extension(s) permitted upon payment of a fee equal to 0.25% of the Perm Loan amount for each three-month extension.
- Breakage Fee (if applicable): due between construction loan closing and Perm Loan closing and calculated based on hedge termination cost.
- 1. Balloon loans subject to agency approved exit strategy.

#### **Loan Closing** Requirements

- 90% stabilized rental housing occupancy for 90 days as evidenced by rent rolls.
- 90% of tax credit investor equity shall have been paid into the Project.
- Project income is sufficient to pay operating expenses, required debt service, reserves and monitoring fees.
- For mixed-use Projects, 100% non-residential occupancy as evidenced by executed leases or guarantees.
- Deposit Account Control Agreement between CalHFA, the Borrower and lending institution is in form and substance acceptable to all parties and ready to be executed at Perm Loan closing.

#### **Prepayment**

The Perm Loan may be prepaid at par after 15 years of the Perm Loan period. However, the Perm Loan may be prepaid after 10 years of the Perm Loan period subject to a yield maintenance calculation of:

- 5% of the principal balance after the end of year 10
- 4% of the principal balance after the end of year 11
- 3% of the principal balance after the end of year 12
- 2% of the principal balance after the end of year 13
- 1% of the principal balance after the end of year 14

All prepayments require a prior written 120-day notice to CalHFA.

#### **Subordinate Financing**

Financing or grants are encouraged from local governments and third parties to achieve project feasibility. All financing, leases, development and regulatory agreements must be coterminous (or have a longer term than the combined terms of any CalHFA Acq/Rehab Loan and Perm Loan) and be subordinate to CalHFA financing. A Lien Priority/Position Estoppel in form and substance acceptable to CalHFA will be required prior to construction financing closing, if applicable.

#### **Occupancy** Requirements

2022 CALIFORNIA HOUSING FINANCE AGENCY

Must maintain the greater of (A) existing affordability restrictions, or (B) either (i) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of the area (county) median gross income as determined by HUD ("AMI") with adjustments for household size ("20% @ 50% AMI"), or (ii) 40% or more of the units must be both rent restricted and occupied by individuals whose income is 60% or less of the AMI, with adjustments for household size ("40% @ 60% AMI"): however in the latter case, a minimum of 10% of the units must be at 50% or less of AMI (i.e., 30% @ 60% AMI; 10% @ 50% AMI).

#### Occupancy Requirements (continued)

Any units restricted by the Agency pursuant to this program, including those units restricted in addition to the minimum requirements set forth above, shall be rented at rents up to 30% of the applicable income restriction using the occupancy assumptions required in the Agency's Regulatory Agreement. Rents for all restricted units must be at least 10% below market rents as evidenced by current market study or an appraisal.

CalHFA's regulated units must represent a comparable share of the available unit sizes (by bedroom count and square feet) and be disbursed throughout the project.

#### **Due Diligence**

The following due diligence is required to be provided at the Owner/Borrower's expense (refer to the program's document checklist for a full list):

- Appraisal\* (a construction lender's appraisal may be acceptable).
- HUD-2530 previous participation clearance.
- Construction Costs Review for new construction loans (other construction lender's review is acceptable).
- Physical Needs Assessment\* ("PNA") for rehabilitation projects with a Replacement Reserve Needs Analysis
  ("RRNA") over time for the first 20-year term (other lender's PNA/RRNA may be acceptable). A RRNA for a
  longer time period may be required if the Perm Loan term is greater than 20 years.
- Phase I and Phase II (if applicable) Environmental Site Assessment\* including, but not limited to, impact
  reviews that meet federal environmental requirements (such as historic preservation and noise remediation).
   The Purpose section of Phase I must state "a purpose of the Phase I is to document compliance with HUD
  policy pursuant to 24 CFR §58.5(i)(2) or §50.3(i)".
- Market Study\* satisfactory to CalHFA.
- NEPA Review.
- Termite/Dry Rot reports\* by licensed company.
- Seismic review\* and other studies may be required at CalHFA's discretion.

\*Note: Third party reports shall be within 180 days prior to the CalHFA's final commitment approval and may be subject to a new or updated report if the report(s) was completed more than 180 days prior to construction loan closing, in CalHFA's sole discretion.

#### Required Impounds and Reserves

- Replacement Reserve: Initial cash deposit required for existing Projects with annual deposits between \$250 and \$500 per unit/per year depending on the Project type and PNA/RRNA findings.
- Operating Expense Reserve ("OER"): 3-6 months of operating expenses, reserves, debt service, and
  monitoring fees due at Perm Loan closing (letter of credit or cash) and held for the life of the CalHFA Perm
  Loan by CalHFA. In the event OER funds are drawn down during the term of CalHFA Perm Loan, it must be
  replenished over a period of 12 months to the original level.
- Impounds held by CalHFA: One year's prepaid earthquake, hazard and liability insurance premiums, and property tax assessments are collected at loan closing. An earthquake insurance waiver is available for Projects which have met CalHFA earthquake waiver standards during rehabilitation or construction.
- Transition Operating Reserve (TOR): required for Projects with state or locally administered rental subsidy contracts with contract terms that are less than 20 years or the CalHFA Perm Loan term.
- Other reserves as required (at CalHFA's discretion).

# Cal HFA California Housing Finance Agency

#### CONDUIT ISSUER PROGRAM

#### MULTIFAMILY HOUSING BONDS

Term sheet effective for applications submitted after March 1, 2022

The CalHFA Conduit Issuer Program is designed to facilitate access to tax-exempt and taxable bonds ("Bond") by developers that seek financing for eligible projects that provide affordable multifamily rental housing for individuals, families, seniors, veterans or special needs tenants ("Project"). The conduit Bonds may be used to finance the acquisition, rehabilitation, and/or development of an existing Project, or they can be used for the construction of a new Project.

#### Qualifications Available to for-profit, nonprofit or public agency sponsors. Nonprofit borrowers may be eligible for 501(c)(3) bonds. If bond proceeds are utilized to pay off an existing CalHFA portfolio loan visit www.calhfa.ca.gov for the CalHFA Portfolio Loan Prepayment Policy. **Bond Amount** Bond amount is determined by the loan amount of the selected construction lender. Application Fee: \$5,000 non-refundable, due at time of application submittal (covers the cost of the TEFRA **Fees** (subject to change) required for tax-exempt issuances) and is credited toward the CalHFA Issuer Fee. 1. The greater of \$15,000 or 18.75 basis points of the Bond amount if lesser than or equal to \$20 million. 2. If more than \$20 million: \$37.500 + 5 basis points for the amount above \$20 million. Annual Administrative Fee: 5 bps of the tax-exempt bond issuance amount due at construction loan closing and due annually thereafter until permanent loan conversion. After permanent loan conversion, billed annually in advance, 5 bps of unpaid principal balance amount of tax-exempt bond financed loan(s) until bonds are fully redeemed. Minimum Annual Administrative Fee shall be \$4,000 through both the Qualified Project Period and the CDLAC compliance period. For taxable only issuances, annual administrative fees above will be charged based on the taxable bond financed loan(s) for the term of the CalHFA affordability restrictions. If used in conjunction with a CalHFA permanent loan product, the annual administrative fee will not be duplicated. Please refer to the applicable permanent loan term sheet for the annual administrative fee. Public Sale: Additional fee of \$5,000 to \$10,000 applies when Bonds are sold to the public. CDLAC Allocation Fee: 0.035% of the Bond amount, \$1,200 of which is due at time of CDLAC application submittal with the remaining fee due at construction loan closing and payable to CDLAC. CDLAC Performance Deposit: 0.50% of the requested Bond amount, not to exceed \$100,000, due at time of CDLAC application submittal. Deposit to be refunded after the Bond closing, upon receipt of authorization letter from CDLAC. The Borrower shall be responsible for all other costs of Bond issuance including fees of the underwriter, trustee, rating agencies, lender, compliance administrator, all Bond counsel legal fees, and any other parties required to complete the transaction.

Kevin Brown, Housing Finance Officer 500 Capitol Mall, Suite 1400, MS-990 Sacramento, CA 95814 916.326.8808 kbrown@calhfa.ca.gov

#### Occupancy Requirements

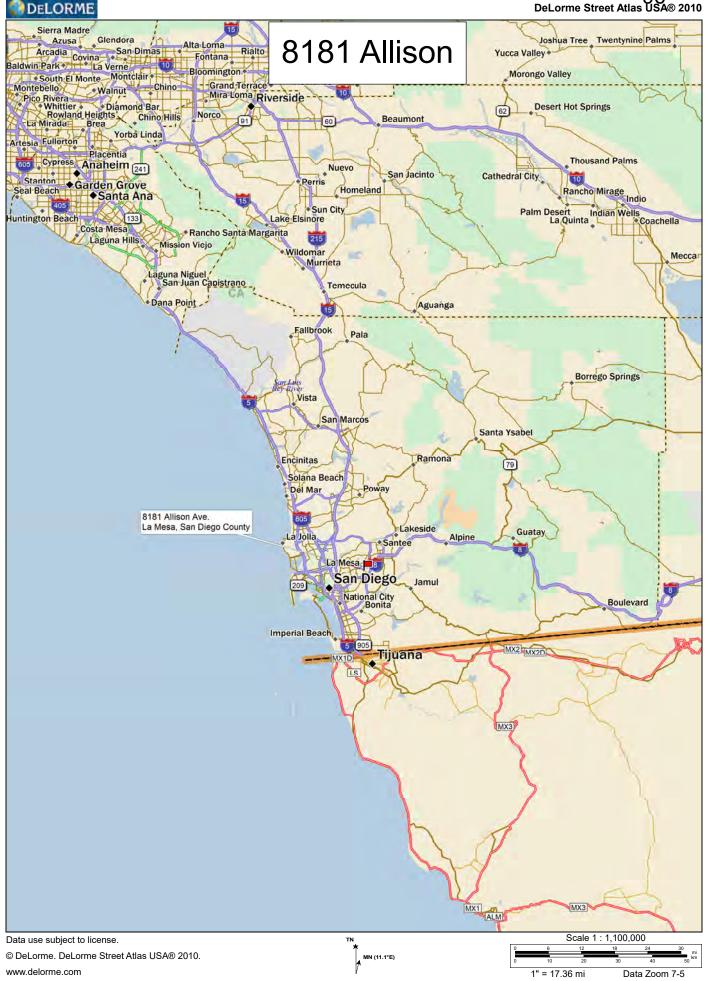

- Either (A) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of the area median income as determined by HUD ("AMI") with adjustments for household size ("20% @ 50% AMI"), or (B) 40% or more of the units must be rent restricted and occupied by individuals whose income is 60% or less of AMI, with adjustments for household size ("40% @ 60% AMI"); however in the latter case, a minimum of 10% of the units must be at 50% or less of AMI.
- Any units restricted by the Agency pursuant to this program, including those units restricted in addition to
  the minimum requirements set forth above, shall be rented at rents up to 30% of the applicable income
  restriction using the occupancy assumptions required in the Agency's Regulatory Agreement. Rents for
  all restricted units must be at least 10% below market rents as evidenced by a current market study or an
  appraisal.
- Borrower will be required to enter into a Regulatory Agreement which will be recorded against the Project
  for the Qualified Project Period (as defined in the CalHFA Regulatory Agreement). This includes the later
  of the federally-required qualified project period, repayment of the Bond funded loan, redemption of the
  Bonds, the full term of the CDLAC Resolution requirements or 55 years.

Resolution No. 22-24 Page 2

WHEREAS, the Board wishes to grant the staff the authority to enter into a loan commitment to provide permanent financing for the development and taking out the Conduit Bonds upon Agency staff determining in its judgment that reasonable and prudent financing mechanisms can be achieved;

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors (the "Board") of the California Housing Finance Agency as follows:

1. The Executive Director, or in her absence, the Chief Deputy Director, is hereby authorized to execute and deliver a final commitment letter, in a form acceptable to the Agency, and subject to recommended terms and conditions set forth in the Staff Report and any terms and conditions as the Board has designated in the Minutes of the Board Meeting, in relation to the Development described above and as follows:

The Board recognizes that in the event that staff cannot determine that reasonable and prudent financing mechanisms can be achieved, the staff will not enter into loan commitments to finance the Development. In addition, access to capital markets may require significant changes to the terms of loans submitted to the Board. Notwithstanding paragraph 2 below, the staff is authorized to make any needed modifications to the loan which in staff's judgment are directly or indirectly the result of the disruptions to the capital markets referred to above.

2. The Executive Director may modify the terms and conditions of the loan or loans as described in the Staff Report, provided that major modifications, as defined below, must be submitted to this Board for approval. "Major modifications" as used herein means modifications which either (i) increase the total aggregate amount of any loans made pursuant to the Resolution by more than 7%; or (ii) modifications which in the judgment of the Executive Director, or in her absence, the Chief Deputy Director of the Agency, adversely change the financial or public purpose aspects of the final commitment in a substantial way.

Financing Structure: The Project's financing structure includes financing from tax-exempt bonds, 4% Federal Tax Credit equity (4% Federal LIHTC allocation), State Housing Tax Credit equity, Agency's tax-exempt loan program, Mixed-Income Program (original and supplemental) and a loan from the Glendale Housing Authority. The project will be income averaged, pursuant to TCAC regulations.

Tax Credits and/or CDLAC Status: The developer received an allocation for 4% tax credits and bond cap from CDLAC on 06/15/2022. The Project will be applying in September for a supplemental bond allocation, which is expected to be awarded in 2022. The supplemental allocation is being requested to add a cushion to the project's 50% aggregate basis requirement (the "50% test") which is currently at approximately 48%. The supplemental allocation will increase this to approximately 52%, which is necessary to accommodate a potential cost increase during construction.

Ground Lease: The owner will enter into a ground lease agreement with the City of Glendale Housing Authority ("City") for a term of 55 years for an amount of \$12,400,000. The capitalized ground lease payment of \$12,400,00 will be funded by the City's Land loan of the same amount at construction loan closing. The City's loan will be for a term of 55 years with an initial annual payment of \$1 at construction loan closing and thereafter for an annual operating expense amount of \$1 as well as residual receipts with 3% simple interest per annum. The city has agreed to defer the residual receipt payments to the City's Land loan until the Deferred Developer Fee (DDF) has been fully repaid.

Project Amenities: The Project includes a courtyard, an outdoor roof terrace, a computer lab, community room, recreational room, security cameras + controlled access, and a central laundry facility in each building. Unit amenities will include air conditioning, electric heating, patio/balconies, dishwasher, microwave, and garbage disposal.

Local Resources and Services: For TCAC/CDLAC purposes, the Project is located within a Moderate Resource area per TCAC/HCD's Opportunity Area Map. The Project is in close proximity to the following local amenities and services:

- Grocery stores 0.8 mile
- Schools 0.2 mile
- Public Library 0.8 mile
- Public transit 0.1 mile
- Retail 0.1 mile
- Park and recreation 0.2 mile
- Hospitals 1.9 miles
- Senior center 4.7 miles

Non-displacement and No Net Loss: To the extent feasible, it is the Agency's priority to mitigate the overall effects upon affordable housing availability that may arise from multifamily developments that may result in permanent displacement of existing affordable housing residents and/or net loss of existing affordable housing units. The Project is a new

construction project, with no related demolition of existing affordable housing, hence no existing affordable housing units will be lost nor will existing residential households be displaced as a result of this development.
Commercial and/or Other (i.e. Parking) Space: The Project does not include commercial space.

#### **MISSION**

3.	CalHFA Mission/Goals

\*Gap Funding Explanation and request for supplemental MIP subsidy loan funding: The Sources of Funds chart shown above includes information related to each financing and/or equity sources and uses during the construction and permanent periods of development.

At the time of initial commitment (March of 2022), the developer for this project estimated total development cost (TDC) of \$149,480,811 (\$439,649/unit) which was lower than the current budget amounts reflected above. CalHFA issued an initial commitment based on these initial costs estimates for the developer to use to apply to CDLAC for tax exempt bond cap and to CTCAC for both federal and state tax credits. On June 15, 2022 the Borrower received the related allocations from CDLAC and CTCAC.

The chart below summarizes the changes in sources and uses between initial commitment (in March) vs. current proposed. On the sources side, the changes were predominantly due to 1) increase in investor equity contribution of \$7,836,645 for an estimated total equity contribution amount of \$85,181,244, 2) increase in deferred developer's fee of \$2,339,964, and 3) increase in the Glendale Housing Authority Development Loan of \$6,000,000. On the uses side, cost increases were related to: 1) increase to construction hard costs of approximately \$8,343,206,; 2) increases to interest rates from the Construction Lender resulting in a \$3,766,116 increase to costs related to construction period debt service and loan fees; 3) market related increases driving CalHFA's higher interest rate and spreads which resulted in a \$5,106,242 reduction to the permanent loan amount.

The Borrower has requested a \$5,203,625 increase to the MIP Subsidy Loan in an effort to offset cost increases and loan reductions outlined above and below. The summary of changes in sources and uses between initial commitment vs. current proposed are outlined below:

Hard Cost/Soft Cost changes: In an effort to mitigate market disruptions, the Borrower met with their design team and general contractor to evaluate the original construction hard cost budget. As a result, they were able to reduce construction off-site work costs by approximately \$858,751. As reflected on the above chart, the Project has seen a substantial increase in hard and soft costs, which include an increased estimate of a post construction loan interest reserves due between construction and permanent conversion.

Deferred Developer Fee: The current budget also reflects an increase of the total developer's fee by \$2,138,486, however, the current deferred developer's fee (DDF) is approximately \$2,339,964 higher and the developer equity contribution \$201,477 lower than the original budget, which results in a net increase of DDF and developer equity contribution by \$2,138,486 (original developer fee \$17,104,437 with \$4,725,095 deferred, compared to current developer fee \$19,242,923 with \$7,065,059 deferred).

Perm Loan Reduction & Equity Contribution Adjustment: The equity contribution adjustment is anticipated to be approximately \$7,836,645. During final underwriting, the CalHFA permanent loan of \$34,931,674 was reduced by \$5,106,242 to \$29,825,432. This was attributed to increases in perm loan financing costs related to macroeconomic factors, such as inflation. The underwriting interest rate of 6.23% is inclusive of costs associated with the Agency offering extended rate lock period of 6+ months and interest rate hedging costs incurred by the Agency.

To mitigate the funding gap of \$6,257,246, CalHFA was able to increase the perm loan by allowing the removal of 25 bps underwriting cushion and rate locking at 6.23% fixed interest rate for the closing (per conversion at 36-month forward from construction closing). This resulted in a permanent loan increase of \$1,053,621, which reduced the overall funding gap to \$5,203,625.

The estimated funding gap after exhausting all resources available to the project totals approximately \$5,203,625. The Borrower has requested an increase to the initially committed MIP subsidy of \$5,000,000. Pursuant to the TCAC/CDLAC requirements this project must begin construction by December 2022. A \$5,203,625 (\$15,441/restricted unit) increase in the MIP supplemental subsidy results in an overall MIP loan amount of \$10,203,625 (\$30,278/restricted unit).

Subsidy Efficiency: Initial MIP commitment was \$5,000,000 (\$14,837 per MIP restricted units). Current proposed: \$10,203,625 (\$30,278 per MIP restricted units). This exceeds the Mixed-Income Loan Program 2022 Term Sheet per project cap of \$8,000,000. Staff is recommending an exception to the per project Allocation Limit of \$8,000,000 given that the property meets the per unit maximums. Approval of this exception is further detailed in the "Underwriting Standards or Term Sheet Variations" section 9 below.

## Tax Credit Type(s), Amount(s), Pricing(s), and per total units:

4% Federal Tax Credits: \$76,715,120 (\$227,641 per TCAC restricted unit).

State Tax Credits: \$13,979,410 (\$41,482 per TCAC restricted unit).

**Rental Subsidies**: The Project will not be subsidized by project-based vouchers.

Other State Subsidies: The Project will not be funded by other state funds.

Other Locality Subsidies: The Project will be funded by locality funds; Glendale Housing Authority Land Loan at \$12,400,000 and Glendale Housing Authority Development Funds at \$16,000,000.

## **Cost Containment Strategy:**

National CORE's construction division is involved in the design process of all their projects from concept. The construction team has developed standardization of products to ensure the most cost-effective and efficient building design. They work closely with the design team to design the right systems for each building. Each project is conceived, designed, and constructed with energy efficiency in mind.

National CORE uses a combination of well insulated walls, energy efficient windows and glazing, high performance high efficiency ducted mini-split HVAC systems, and high efficiency water heating systems, achieving energy compliance margins that exceed California Energy Code requirements.

Additionally, the construction team works closely with the property management and facilities team to ensure that the building will be maintained and operated with the same high-performance goals and results. The owner's goals for hitting Title 24 energy and operational energy savings goals are incorporated into every design decision, starting with conceptual design. Energy analytics are baked into the process and the design team is given choices to how best to hit the targets prioritizing cost savings and weighing operational cost impacts. There is no value engineering in this environment. This is cost-contained high-performance.

National CORE works with its subcontractors to ensure that the building envelope is constructed in a manner that will minimize heat flow through the building envelope and to implement a standard of care known as "Quality Insulation Installation". In doing so, heat stress through the building envelope is reduced leading the heating and cooling systems in the units to work more efficiently. Tighter building envelopes with quality insulation makes it possible to use systems with smaller capacities that match the heating and cooling loads of each unit.

## TRANSACTION OVERVIEW

### 7. **Proposal and Project Strengths**

- The Project has received 4% tax credits which is projected to generate equity representing 51% of total financing sources.
- The co-developers have extensive experience in developing similar affordable housing projects and have experience with CalHFA.
- The Project will serve low-income families AND seniors ranging between 30% to 80% of AMI. On average, the rents are between 18% to 76% below market rents based on current appraisal.
- The Loan-to-Value will be 50%, which is well below the Agency's minimum requirements of 90%. This results in less risk to the Agency.
- The locality has invested in the success of the Project as demonstrated by a City of Glendale Housing Authority Land Loan for \$12,400,000 and a Development Loan for \$16,000,000.
- The projected portion of the developer's fee that will be collected at or prior to permanent loan conversion is \$7,299,899, which could be available to cover cost overruns and/or unforeseen issues during construction.

SLC Date: 09/07/2022 CalHFA Project Number: 22-014-A/X/S Board Date: 09/22/2022

The developer is contributing an amount of \$4,877,965 via GP contribution to the Project.

### 8. **Project Weaknesses with Mitigants:**

- The exit analysis assumes 2% increase to the appraisal cap rate (resulting in 6.0%) and a 3% increase of the underwriting interest rate at loan maturity (resulting in 9.23%). Based on these assumptions, the Project will have the ability to fully repay the balance of the Agency's permanent first lien loan and the full balance of the Supplemental MIP loan in the estimated amount of \$7,251,732. The project will only be able to repay a portion of the original MIP loan in the estimated amount of \$8,306,056 leaving an outstanding balance of \$893,944 (principal and accrued interest). This is expected by CalHFA given the requirement that the MIP loan be coterminus with the permanent first mortgage. The primary source of repayment for both the first mortgage and the MIP subsidy loan is refinance of the project's first mortgage. To the extent such a refinance is insufficient to fully repay the Supplemental MIP and original MIP loans, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the final close out of partnership obligations to allow resyndication.
- The current proposed initial construction loan term is 42 months plus one 6-month extension for a total of 48 months, which is the lender's expected term required to complete 340 units, lease-up, and stabilize prior to permanent loan closing/conversion. The developer is planning 42 months to complete and lease-up the project. Currently, the CalHFA maximum forward rate lock period is 36 months with a two 3-month extension option (fee of 25 bps each) for a total of 42 months. Further extensions of the CalHFA forward rate lock may be available, subject to an extension fee and in CalHFA's sole discretion. The Borrower estimated potential extension fees in the proposed budget that could be funded from soft contingency and/or deferred developer's fee.

## **Underwriting Standards or Term Sheet Variations**

- The MIP Term Sheet requires the MIP loan to be recorded in second lien position behind the first mortgage. However, because the Glendale Housing Authority loans in aggregate (\$28.4 million) are much larger than CalHFA's total MIP loan (\$10,203,625), the Glendale Housing Authority will require its deeds of trust be recorded superior to CalHFA's. This is an exception to policy and is recommended by Multifamily Underwriting and Credit Staff, which is necessary to meet the eligibility of the City's funding requirements and to facilitate the progression of this Project.
- Pursuant to the MIP loan term sheet, no project may receive more than the lesser of (i) \$8 million project cap, (ii) the aggregate MIP loan amount based on up to \$50k per MIP regulated unit for a project not located within the high/highest resource area per TCAC/HCD opportunity map, or (iii) MIP loan not to exceed 50% of the CalHFA perm loan. This project is located in a moderate resource area. Per the term sheet and project economics, the applicable allocation limit is an \$8 million project cap. However, the current proposal is to allow the Borrower to increase the MIP loan allocation by \$5,203,625 for a total of \$10,203,625 which is beyond the allocation limit of \$8 million that is applicable to the project. The Project's per unit MIP amount is \$30,278 which is below the maximum allowable per unit cap of \$50,000. This MIP loan amount is an exception to the MIP term sheet and is recommended by Multifamily Underwriting and Credit Staff for approval to facilitate the progression of a shovel ready project without delay; the project received tax credit and bond cap allocations from TCAC/CDLAC on June 15, 2022 and is ready to proceed to construction loan closing by December 2022.

### 10. **Project Specific Conditions of Approval**

Approval is conditioned upon:

- The CalHFA loan(s) will be secured against the leasehold interest in the land and fee interest in the improvements. All subordinate loans are to be secured in the same manner. However, if any lender encumbers both fee and leasehold interests in the land, the CalHFA loan documents will also secure in the fee and leasehold interests in the land. The final ground lease document is subject to CalHFA approval. Lessor must provide approval of CalHFA ground lease rider.
- Defaults under any loans used to capitalize payments or ongoing residual receipt payments required by the ground lease must not constitute a default under the ground lease. Likewise, defaults under the ground lease must not constitute a default under the loans.
- No site work or construction commenced prior to the issuance of a HUD Firm Approval Letter.
- CalHFA requires that MIP affordability covenants be recorded in senior position to all foreclosable debt.
- The CalHFA subsidy (including the supplemental MIP subsidy loan) will be, in the Agency's sole discretion, the lesser of 1) the principal amount as stated on hereto or 2) an amount as determined by the Agency in the event the financial assumptions change prior to construction loan closing and/or permanent loan closing.
- All MIP Loan principal and interest will due and payable at maturity. Outstanding Supplemental MIP loan funds will have first repayment priority whether the source of repayment is cash flow during the term of the loan or repayment via refinance, partner contribution, or other source at loan maturity.
- The locality is requiring the Borrower to encumber the Property by recording a Density Bonus Agreement. Prior to constructing loan closing and closing of the CalHFA loan(s), the Density Bonus Agreement is subject to CalHFA review and approval in accordance with agency underwriting standards.
- Receipt of a Lien Priority/Position Estoppel in form and substance acceptable by CalHFA from all local (city and county) lenders.
- Receipt of LPA and investor written approval evidencing that any outstanding deferred developer fee remaining in Year 15 will be treated as a developer contribution.
- The Borrower has requested that 100% of surplus cash be available for the repayment of the deferred developer's fee (DDF) until the earlier of year 15 of operations is complete or full repayment of the DDF. Thereafter, the surplus cash split shall be 50% to Borrower and 50% to Residual Receipt lenders. As a condition of this approval, the Borrower must provide evidence that the DDF repayment structure is required pursuant to the Limited Partnership Agreement (LPA). In addition, the owner must provide evidence of investor and all residual receipt lender(s) approvals of the total deferred developer's fee structure and residual receipt split. Residual receipt lenders must also agree to defer the payments on their loans.
- If applicable, funds from the CalHFA permanent loan and/or the subsidy loan shall not be used to fund or offset any portion of the offsite improvement costs.
- Receipt of seismic review report showing project has Probable Maximum Loss (PML) below 20%.
- Prior to construction loan closing, receipt of construction draw schedule showing a 42-month period that is acceptable to CalHFA.
- In the event of cost savings at permanent loan conversion, 100% of cost savings will be used to reduce the supplemental portion of the MIP loan amount first. Once the supplemental portion of the MIP loan amount is fully reduced, the remaining cost savings will be split 50% between reducing the original MIP loan amount and reducing the Deferred Developer Fee.

## **Staff Conclusion/Recommendation:**

The Multifamily Lending Division supports approval of the described financing in the amount(s) requested, subject to the above proposed terms and conditions. As noted earlier, the supplemental MIP subsidy loan of \$5,203,625 was not part of the Initial Commitment approved by the SLC and Board, and hence approval is being sought for this financing through the subject Final Commitment Approval.

## **AFFORDABILITY**

### 12. CalHFA Affordability (Occupancy and Rent) Restrictions

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum of 30% of the total units (102 units) at or below 60% AMI and an additional 10% of the total units (34 units) at 50% of AMI for 55 years.

\*The CalHFA MIP Subsidy Regulatory Agreement requires 10% of total units (34 units) be restricted at or below 30% of AMI, 20% of the total units (68 units) restricted at or below 50% of AMI, and 10% of total units (34 units) be restricted between 60% and 80% of AMI, with a minimum average of 70% of AMI for a term of 55 years. The rents for the 60% to 80% tranche will be determined by the minimum income limit of 70% of AMI, not to exceed 80% of AMI. The remaining 201 restricted units will be restricted at or below 120% of AMI. For underwriting purposes, the initial rents at permanent loan closing must be no less than the underwriting rent levels outlined on the "Unit Mix and Rent Summary" enclosed as part of the project's staff report package. The CalHFA permanent loan agreement will require minimum underwriting rent levels as outlined in the Rent Limit Summary Table Below.

In addition, the Project will be restricted by the following jurisdictions as described below:

The Glendale Housing Authority will restrict 34 units at or below 30% of AMI, 48 units at or below 40% of AMI, and 255 units at or below 80% of AMI for a term of 55 years (refer to below chart for further breakdown of the AMI and unit mix). Housing Authority requires 14 of the 34 units at 30% AMI be restricted by the Housing Community Development Extremely Low Income (HCD ELI) rent and income limits vs. the TCAC rent and income limits.

Pursuant to the USRM, CalHFA regulated unit sizes (by bedroom count) shall be distributed substantially on a pro rata basis across income ranges proportionate to their availability in the development as a whole. Deviations may be allowed based on demonstrable market data and community needs as evidenced in approved Housing Elements. The Borrower is requesting a waiver to meet the pro rata distribution of income ranges and bedroom sizes requirement. This is allowable given the strong market demand as evidenced by the appraisal report (capture rate ranges from 1% to 7% and absorption rate is 10 months) and the City's involvement in determining the proposed income and unit requirement distribution for the proposed project.

## APPRAISAL AND MARKET ANALYSIS

## 18. Appraisal Review Dated: June 19, 2022

- The Appraisal dated 06/19/22, prepared by Cressner and Associates, Inc., values the land at \$16,200,000.
- The cap rate of 4.00% and a projected \$2.46 million of net operating income was used to determine the asrestricted stabilized value. The appraisal report's NOI is approximately \$60,000 higher than the project's
  proposed NOI projections. The difference is attributed to the Appraiser utilizing a lower vacancy rate of 2% as
  opposed to the 5% vacancy rate used for CalHFA and Developer underwriting. Based on the developer's
  explanation and supporting documents, staff has determined that the proposed operating expenses are
  reasonable.
- The as-restricted stabilized value is \$61,510,000 which results in the Agency's permanent first lien loan to value (LTV) of 50%. The combined LTV, including MIP subsidy loan is 67%.
- The capture rate ranges from 1% to 7% and absorption rate is 10 months. Both rates are generally consistent with the market study.
- Appraisal analysis of senior units is based on a minimum age of 62 years, which is consistent with the proposed age restriction requirement for this Project.

Market Study: Novogradac Dated: August 24, 2021

## **Regional Market Overview**

- The Primary Market Area is the city of Glendale and a portion of the City of Burbank (population of 184,011) and the Secondary Market Area ("SMA") is Los Angeles-Long Beach-Anaheim MSA (population of 13,400,324)
- The general population in the PMA is anticipated to increase by 0.4% per year and the senior population will increase by 2.1% per year.
- Unemployment in the SMA was 9.5%. The SMA appears to be recovering from the economic effects of the ongoing COVID-19 pandemic indicated by increasing employment levels. Per the appraisal, the unemployment rate was 6.4% in June 2022 for Los Angeles County and is expected to drop to 5.1% in 2023 while the unemployment rate in the City of Glendale was 4.5%. This suggests that the area will return to a more normal level when the project is in lease-up.
- Median home value in the zip code is \$735,222.
- Market Study analysis of the senior units is based on a minimum age of 55 years.

## **Local Market Area Analysis Supply:**

- There are currently 14 family and 11 senior affordable projects in the PMA and they are 99.8% occupied with long wait lists at the majority of sites.
- o There are no affordable projects under construction and there are 2 affordable projects proposed, in addition to the subject property, in the City of Glendale.

## Demand/Absorption:

The project will need to capture 5.3% and 3.0% of family and senior units in the PMA, respectively. The
affordable units are anticipated to lease up at a rate of 35 units per month and reach stabilized
occupancy within 10 months of opening.

## 31. Developer/Sponsor

LINC Housing Corporation (LINC) was founded in 1984 and is a mission-based 501(c)(3) nonprofit developer of affordable housing. Located in Long Beach, LINC has a 36-year history of developing, operating, and providing resident services to over 80 cities and communities throughout California. LINC will also serve as the service provider for the subject Property. LINC currently has 3 projects (189 units) (Bartlett Hill Manor, Mosaic Gardens at Huntington Park, and The Village at Beechwood) in the CalHFA portfolio and they are all performing as expected. In addition, LINC has 6 projects (429 units) under construction, 72 projects (7,101 units) completed, and 12 projects (340 units) in the pipeline. None of LINC's pipeline or inconstruction projects, other than the subject Property, are in the CalHFA pipeline.

National Community Renaissance (National CORE) was founded in 1992 and is a mission-based 501(c)(3) nonprofit developer of affordable housing that is vertically integrated with in-house construction, property management and social programs/services departments. Located in Rancho Cucamonga, National CORE will also serve as the management agent for the subject Property. National CORE currently has 10 projects (1,558 units) (Monterey Village, Mountainside, Sycamore Springs, Crossings in Rialto, Mission Cove-MHSA, Northgate Village, Oakcrest Heights-MHSA, Paseo del Oro, Signature at Fairfield-MHSA, and Sunset Heights) in the CalHFA portfolio, and they are all performing as expected. In addition, National CORE has 11 projects (754 units) under construction, 103 projects (9,533 units) completed, and 20 projects (2,800 units) in the pipeline. Five projects (380 units) of National CORE's in-construction projects are in the CalHFA pipeline and includes SNHP Legacy Square, SNHP Mountain View, SNHP Orchard View Gardens, SNHP Santa Angelina Senior Community and SNHP Villa Serena Apts.

In their role as co-developers, LINC and National CORE have 2 projects completed, 1 project under construction, and 1 project in the pipeline (the subject Property).

The California Housing Finance Agency ("CalHFA" or "Agency") Mixed-Income Program ("MIP") provides competitive, long-term, subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product. The MIP resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of extremely low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

## Qualifications

## APPLICATION:

Sponsors/developers must submit a complete application package which includes all items listed on the application, the application addendum and the checklist. Incomplete application packages will not be considered. The application and checklist can be found at <a href="https://www.calhfa.ca.gov/multifamily/mixedincome/index.htm">www.calhfa.ca.gov/multifamily/mixedincome/index.htm</a>. If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated.

## **AVAILABILITY:**

Available to for-profit, nonprofit, and public agency sponsors. Development teams must meet CalHFA experience requirements, as defined in the CalHFA Development Team Qualifications section below.

## **USES:**

MIP subsidy loans must be used in conjunction with CalHFA's Conduit Bond Issuance Program and a construction loan from a CalHFA Mixed-Income Qualified Construction Lender. MIP subsidy loans must also be used in conjunction with CalHFA's permanent first-lien mortgage financing. CalHFA Mixed-Income Qualified Construction Lender is defined in that section below.

## FINANCING STRUCTURE:

Projects accessing the MIP subsidy loan funds must be structured as one of the following:

1. Tax-exempt bond and 4% tax credit project where at least 51% of the units in the project must be tax-credit-financed

OF

2. Qualified mixed-income project through income averaging pursuant to Internal Revenue Code Section 42 (g)(1)(C).

## **Qualifications** (continued)

### **READINESS:**

Projects must have site control and be prepared to submit for a bond and tax credit allocation and will only receive funds if bonds are issued within the issuance timeframes specified in the California Debt Limit Allocation Committee's (CDLAC) Regulations Section 5100.

- 1. Site: The site must be ready for construction (all potential environmental issues have been identified, mitigation plan is in place, and costs associated with the mitigation plan have been incorporated in the development budget). Environmental issues may include, but not be limited to, receipt of clearances for CEQA, NEPA, and applicable tribal land environmental reviews. Pursuant to HUD-Risk Sharing requirements, sponsor is expected to start the NEPA process shortly after CalHFA verifies application completeness and determines that the project is ready to move forward with an initial commitment ("notification date"). The NEPA clearance and HUD's firm approval letter will be required prior to construction loan closing.
- 2. General Contractor and/or Third Party Construction Services Engagement: At the time of application, applicant must provide evidence that the applicant or developer has engaged a general contractor or third-party construction services company to provide construction services including, but not limited to, value engineering, bid/budget services, and constructability review of plans and designs. In addition, the proposed construction budget is based on the general contractor's or third-party construction services company's preliminary bid estimates pursuant to the current plans and designs.
- **3. Disposition and Development Agreement:** Applicant must provide a copy of the disposition and development agreement, if applicable.
- 4. Construction Start: All projects must commit to begin construction 180 days from the earlier of the date of the tax-exempt bond allocation or 4% federal/state tax credit reservation, unless an extension has been approved by California Tax Credit Allocation Committee (CTCAC), CDLAC, and CalHFA, as applicable. Within the 180-day period, the following items must be submitted to CalHFA in their final form:
  - A complete, updated application form along with a detailed explanation of any changes from the initial application,
  - b. An executed construction contract,
  - Recorded deeds of trust for all construction financing (unless a project's location on tribal trust land precludes this),
  - $\ d. \quad \ \ Binding \ commitments \ for \ any \ other \ financing \ required \ to \ complete \ project \ construction,$
  - e. Copy of a limited partnership agreement executed by the general partner/sponsor and the investor limited partner/equity provider,
  - f. Payment of all construction lender fees,
  - g. Copies of buildings permits (a grading permit does not suffice to meet this requirement, except if the city or county as a rule does not issue building permits prior to the completion of grading, then a grading permit shall suffice; if the project is a design build project in which the city or county does not issue building permits until designs are fully complete, the city or county shall have approved construction to begin) or the applicable tribal documents,
  - h. Copy of the notice to proceed delivered to the contractor,
  - If no construction lender is involved, evidence must be submitted within 180 days, as applicable, that the equity partner has been admitted to the ownership entity, and that an initial disbursement of funds has occurred,
  - j. Other documentation and information required by CalHFA to close construction financing.

## **Qualifications** (continued)

### MIP ALLOCATION LIMITS:

(Exceptions may be considered by Agency in its sole discretion)

- 1. **Project Cap:** No project may receive more than the lesser of \$8 million, or the aggregate MIP loan amount calculated based on up to \$50,000 per MIP regulated units or up to \$60,000 per MIP regulated units for a Project located within the Highest or High Resource areas pursuant to CTCAC regulations designated on the CTCAC/HCD (California Department of Housing and Community Department) Opportunity Area Map.
- 2. **Sponsor Cap:** No sponsor (any individual, entity, affiliate and related entity) may receive more than 20% of total MIP allocation or funding of two projects, whichever is less, for the respective year.
- 3. County Cap: No one county may receive more than 25% of total MIP allocations for the respective year.
- 4. Age-Restricted Cap: No more than 25% of total MIP funds for the respective year may be received by age-restricted projects (units that are restricted to residents who are 62 years of age or older under the applicable provisions of California Civil Code Section 51.3 and the federal Fair Housing Act), unless a waiver of the minimum age requirement has been granted by U.S. Department of Housing and Urban Development ("HUD").

## **EVIDENCE OF COST CONTAINMENT:**

A Cost Containment Certification must be provided at the time of Construction Loan Closing in a form acceptable to CalHFA in its sole discretion. The certification acceptable to CalHFA may be found at <a href="https://www.calhfa.ca.gov/multifamily/mixedincome/forms/closing-cost-containment-certification.pdf">www.calhfa.ca.gov/multifamily/mixedincome/forms/closing-cost-containment-certification.pdf</a>.

The developer/sponsor must certify that cost containment measures have been implemented to minimize construction costs. These measures should include, but may not be limited to, 1) competitively bidding out all major subcontractor and self-performing trades and 2) engaging a value engineer/consultant during the design process.

## **EVIDENCE OF SUBSIDY EFFICIENCY:**

A Subsidy Efficiency Analysis will be completed as part of the application review. The analysis will be completed again prior to construction loan closing and closing of the MIP subordinate loan. The MIP loan amount may be reduced based on the final analysis. Parameters of the analysis may include, but are not limited to, the following:

- A maximum of 1.20 Debt Service Coverage Ratio ("DSCR") at year 1 ("Initial DSCR"). CalHFA may allow an
  initial DSCR higher than 1.20 on a case-by-case basis, if deemed necessary. The year 1 DSCR underwritten
  at the time of final loan approval and final commitment must be maintained through the term of the
  CalHFA permanent first lien loan,
- A project cash flow that supports the residential component of the project based on the required CalHFA
  permanent first lien annual debt service coverage ratio,
- A separate project cash flow that supports any commercial component of a mixed-use project,
- A cash flow after debt service shall be limited to the higher of 25% of the anticipated annual must pay debt service payment or 8% of gross income, during each of the first three years of project operation,
- Inflation factors and vacancy rates consistent with the Agency's Underwriting Standards,
- Developer Fee requirements matching those required under the 4% federal and/or state tax credit reservation,
- Capitalized reserves subject to approval by Agency for reasonableness consistent with the Agency's Underwriting Standards and the Investor Limited Partnership Agreement (ILPA),

## **Qualifications** (continued)

- Review of Excess Sources over final Uses as approved by CalHFA resulting from any of the following:
  - · An increase in tax credit equity,
  - · An increase in permanent loan debt due to a combination of permanent loan rate reduction and/or reduction to operating expense assumptions;
- Construction Cost Savings as evidenced by final cost certification, funds shall be used to reduce the MIP loan prior to CalHFA MIP loan closing or if required by other subordinate lenders, funds may be split on a pro rata basis between CalHFA and other subordinate lenders,
- State tax credit request is expected to be within a range of \$50,000 to \$75,000 per unit. The projects that evidence the most efficient use of bond cap, state tax credits, and MIP per adjusted unit shall be prioritized for MIP funding considerations. The bond cap, state tax credits, and MIP per adjusted unit calculation shall be consistent with CDLAC Regulation Section 5231(g)(1) and 5231(g)(2). MIP final commitment shall be subject to evidence of project's receipt of CDLAC's preliminary tax-exempt bond allocations and CTCAC's tax credits reservations within the respective year,
- Acquisition cost shall be the lesser of 1) the purchase price pursuant to a current purchase and sales
  agreement between unrelated parties, 2) the purchase price of an arm's length transaction executed within
  the past 10 years plus reasonable carrying costs, or 3) the appraised "as-is" value based on an Appraisal
  acceptable to CalHFA in its sole discretion. The appraised value of the real estate may be considered if the
  arm's length transaction exceeds 10 years.

## CalHFA Mixed-Income Qualified Construction Lender

A CalHFA Qualified Construction Lender is defined as a Construction Lender that has closed at least five construction loans using tax-exempt bonds and 4% federal and/or state tax credits in California within the last three years and satisfies the requirement set forth within the application.

# CalHFA Mixed-Income Development Team Qualifications

The **Developer/Co-Developer/General Partner** must be registered to do business and in good standing in the state of California. A CalHFA Qualified Developer/Co-Developer/General Partner must have developed at least three comparable projects within the past five years or meet the requirements to receive a minimum of 7 points under the CDLAC General Partner Experience category pursuant to CDLAC Regulations Section 5230(f).

The proposed **Project Manager** must have personally managed the development of at least two comparable projects within the past five years.

**Financial Consultants** hired to assist the Developer in meeting the minimum experience requirements must be able to provide details regarding at least three comparably financed projects over the last five years.

**Architects** new to CalHFA must provide information for three comparable projects they designed that were built and occupied within the past five years in California.

**General Contractor (GC)** must be licensed by the State of California. GCs new to CalHFA must provide information related to three comparable (in design) projects built in the past five years. Similar information will be required for the proposed on-site construction supervisor. The on-site construction supervisor must have overseen three comparable projects built in the past five years, and they must have overseen the projects from construction start to final completion.

Tax Credit Investors must have closed/executed at least five investor limited partnership agreements for a comparable deal structure using tax-exempt bonds and 4% federal and/or state tax credits in California within the last three years.

# CalHFA Mixed-Income Development Team Qualifications (Continued)

Management Company must have a local presence or a field office in Northern or Southern CA (depending on the location of the Project) and have experience managing at least 10 low- to moderate-income, rentrestricted comparable (size and tenant types) projects. Also required is a resume for the proposed on-site Property Manager, reflecting prior experience during the past five years managing onsite project operations and compliance with rent-restricted units or meet the requirements to receive a minimum of 3 points under the CDLAC Management Company Experience category pursuant to CDLAC Regulations Section 5230(f).

## Permanent First Lien Loan

Must be provided by CalHFA. The permanent loan must meet an initial minimum DSCR of at least 1.15 and must maintain the year 1 DSCR underwritten at the time of final loan approval and final commitment through the term of the CalHFA permanent first lien loan. The Initial DSCR must not exceed 1.20.

## Construction First Lien Loan

Must be provided by a CalHFA Mixed-Income Qualified Construction Lender. All parties shall permit the Agency to, in its sole and absolute discretion, recycle all or a portion of any bond volume cap related to a paydown of the bond-financed loans, at the conversion of the construction financing to permanent financing and payoff of the construction loan, pursuant to the authority provided in Section 146(i)(6) of the Internal Revenue Code of 1986 and CDLAC Regulation Section 5060 (the "Bond Recycling"). The bond documents, loan documents and any other documents related to the financing of the Development shall contain any necessary approvals and permit all actions necessary to accomplish a Bond Recycling.

## Limitations

- 1. MIP cannot be combined with the CTCAC 9% program.
- 2. MIP cannot be combined with other state subordinate debt and/or subsidy programs (this does not include state tax credits) with the exception of the Infill Infrastructure Grant (IIG), Affordable Housing and Sustainable Communities (AHSC) and Transit Oriented Development (TOD) housing programs. Inclusion of these programs is contingent upon restrictions that are compatible with the MIP program requirements outlined herein. Inclusion of other subordinate debt and subsidy will be allowed at CalHFA's sole discretion so long as any restrictions of subordinate debt or subsidy are compatible with MIP program requirements outlined herein.
- 3. Projects that have a below market rate component resulting from an inclusionary obligation or are 100% below market as a result of an inclusionary obligation must demonstrate master developer commitment through a dollar-for-dollar match of CalHFA's subsidy resources. Match can be obtained through a monetary match or equivalent in-kind contributions (e.g., land donation, land use fee concessions.)
- 4. At the time of MIP application, a project must not have already received an allocation of 4% federal and/ or state tax credits from CTCAC or a tax-exempt bond allocation from CDLAC.
- 5. Projects will not be eligible for other subsidy resources from CalHFA in addition to MIP.

## Mixed-Income Project Occupancy Requirements

## BOND REGULATORY AGREEMENT REQUIREMENTS (ALL PROJECTS):

Must maintain either (a) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of AMI with adjustments for household size ("20% @ 50% AMI"), OR (b) 40% or more of the units must be both rent restricted and occupied by individuals whose incomes are 60% or less of AMI with adjustments for household size ("40% @ 60% AMI"): in the latter case, CDLAC requires a minimum of 10% of the unit types must be at 50% or less of AMI ("10% @ 50% AMI").

## Mixed-Income Project Occupancy Requirements (Continued)

## MIXED INCOME REGULATORY AGREEMENT REQUIREMENTS (ALL PROJECTS):

## Affordability Requirements:

- To qualify, a project must meet the following affordability restrictions, which are based on the HUD and locality (as applicable) income and rent limits which are current at the time of MIP application, for a term of 55 years:
  - a. 30% of total units at or below 50% of AMI. Of these, a minimum of 10% of total units must be at or below 30% of AMI,
  - b. 10% of total units between 60% and 80% of AMI with an average of 70% of AMI or greater, subject to the Maximum Allowable Rents outlined below, and
  - c. Remaining 60% of total units at or below 120% of AMI (with the exception of any non-restricted manager's unit(s) ) OR at the affordability restrictions consistent with CTCAC requirements.
  - d. The minimum range between the lowest and highest occupancy target levels must be at least 40%.

    (Deviations from the above requirements will only be considered if Market Study supports such deviations.)
- 2. If applicable, tax credit transactions that are income-averaged must have a maximum average affordability up to 60% of AMI across all CTCAC restricted units.

## Mixed-Income Project Occupancy Requirements (Continued)

### MAXIMUM ALLOWABLE RENTS:

Rents for all restricted units must be at least 10% below market rents for the MIP affordability term as evidenced by a current market study or appraisal. This threshold will be analyzed at time of application and again at CalHFA's final commitment approval and may be monitored on an ongoing basis for the MIP affordability term. The report shall be current within 180 days of Agency's final commitment and may be subject to required updating if the report expires prior to construction loan closing. For underwriting purposes, CTCAC and locality maximum rents for the respective target income limits must be used. Any proposed rent adjustments above 5% of the approved rents subsequent to construction loan closing may be considered if supported by a recent or updated market study or appraisal that is dated within 180 days of MIP loan closing, at CalHFA's sole discretion.

Any units restricted by the Agency pursuant to this program, including those units restricted in addition to the minimum requirements set forth above, shall be rented at rents not to exceed 30% of the applicable income restriction required in the Agency's Regulatory Agreement.

## Mixed-Income Subordinate Loan

- 1. Maximum loan amount for each project shall not exceed the lesser of \$8 million or the aggregate MIP loan amount calculated based on up to \$60,000 per MIP regulated units, unless an exception is approved by Agency in its sole discretion.
  - a. Maximum loan per restricted (tax credit or CalHFA) units between 30%-120% AMI shall be up to \$50,000.
  - Projects located within the Highest or High Resource areas pursuant to CTCAC regulations designated on the CTCAC/HCD Opportunity Area Map shall be eligible for an additional amount up to \$10,000 per MIP regulated unit. Opportunity Map Home Page: <a href="www.treasurer.ca.gov/ctcac/opportunity.asp">www.treasurer.ca.gov/ctcac/opportunity.asp</a>
- 2. Loan size based on project need but cannot be more than 50% of the permanent loan amount.

## Mixed-Income Subordinate Loan Rates & Terms

- 1. Interest Rate: Greater of 1% simple interest or the applicable federal rate (AFR) at time of MIP closing.
- 2. Loan Term: The MIP loan term shall be coterminous with the CalHFA permanent first lien loan.
- 3. Lien Position: Second lien position, after CalHFA permanent first lien loan.
- 4. Loan Payment: Residual receipt repayment based on cash flow analysis and split 50% to Owner and 50% to CalHFA and other residual receipt lenders. Residual receipt is defined as 50% of surplus cash which is determined as net operating income minus total debt service and other Agency approved payments. Payments shall be applied to the current and/or accrued interest and then principal of the MIP loan. Deviation from the net cash flow split may be granted 1) to meet equity investor's deferred developer's fee requirement as evidence by the limited partnership agreement, and 2) is subject to approval(s) by other residual receipt lender(s), as applicable.
- 5. Affordability Term: 55 years.
- 6. Prepayment: May be prepaid at any time without penalty.
- 7. Subordination: A subordination and/or extension of MIP maturity request in conjunction with a resyndication, refinance, or ownership transfer ("capitalization event(s)") will be considered. If MIP loan is outstanding at time of the capitalization event(s) and requires subordination at the time of such event, the surplus cash split between borrower and CalHFA and other residual receipt lenders may be altered to reflect an increased percentage of residual receipts to CalHFA out of Borrower's share until such time as the MIP loan is paid in full. The remaining residual receipts may be split between other residual receipt lenders.
- 8. Funded: Only at permanent loan conversion.

## TAX-EXEMPT PERMANENT LOAN PROGRAM

CalHFA's Tax-Exempt Permanent Loan Program ("Perm Loan") provides competitive tax-exempt long-term financing for affordable multifamily rental housing Projects. Eligible projects include newly constructed or acquisition/rehabilitation developments that provide affordable housing opportunities for individuals, families, seniors, veterans, and special needs tenants ("Project").

## Qualifications

- Available to for-profit, non-profit, and public agency sponsors.
- Tax-exempt bond authority must be obtained from the California Debt Limit Allocation Committee (CDLAC) or through a 501(c)(3) exemption.
- The Tax-Exempt Permanent Loan may be used with or without 4% low income housing tax credits.
- If a lender other than CalHFA is providing short-term, first-lien debt, CalHFA shall be used as the bond issuer (for more information, review the Conduit Issuer Program Term Sheet).
- For Section 8 Projects, a final commitment is conditioned upon review and acceptance by CalHFA of the HAP or AHAP contract.
- The Perm Loan will be credit-enhanced through CalHFA's HUD/FHA Risk Sharing Program.
- For existing CalHFA portfolio loans, the current owner is required to pay off all outstanding CalHFA debt. Visit www.calhfa.ca.gov for the <u>CalHFA Portfolio Loan Prepayment Policy</u>.

## **Loan Amount**

- Minimum Perm Loan amount of \$5,000,000.
- Minimum 1.15x for initial debt service coverage ratio (include any financing with amortizing debt). If a Project includes CalHFA's subsidy loan, the maximum DSCR at year 1 shall not exceed 1.20, unless CalHFA approves a higher DSCR at its own discretion. The year 1 DSCR underwritten at the time of final loan approval and final commitment must be maintained as the minimum DSCR through the term of the Perm Loan. CalHFA may require the initial DSCR to be higher than the minimum 1.15x, if deemed necessary to meet the Agency's underwriting requirements.
- Lesser of 90% of restricted value or 100% of development costs. For Projects with equity being cashed out, the Perm Loan amount will be restricted to no more than 80% of the restricted value.

## Fees (subject to change)

- Application Fee: \$10,000 non-refundable, due at time of application submittal, and is credited toward
  the CalHFA Legal Fee at Perm Loan closing. The applicant may be subject to a new Application Fee if the
  CalHFA commitment expires prior to construction loan closing.
- Perm Loan Fee: 1.00%, half due at final commitment, with balance due at Perm Loan closing.
- Credit Enhancement Fee: included in the interest rate.
- Annual Monitoring Fee: \$7,500 annually (not to be duplicated if used in conjunction with CalHFA's Conduit Program).
- Inspection fees should be estimated at \$500 per month for the term of the construction (reports and fees can be shared with other construction lenders)
- Legal Fee: \$35,000, half due at final commitment, with balance due at Perm Loan closing.
- Perm Loan Funding Fee: \$110,000 at Perm Loan closing.
- Administrative Fee: \$1,000 at Perm Loan closing.
- Letter of Interest Fee: \$5,000 at LOI request, and is credited toward the CalHFA Perm Loan Fee

See CalHFA standard Conduit Issuer Program Term Sheet for information on conduit issuance fees.

## Rate & Terms (subject to change)

### Interest Rate:

- 17-Year Balloon Loans: 15-Year "AAA" Municipal Market Data (MMD) plus CalHFA spread
- 30-Year Balloon and Fully Amortizing Loans: 30-Year "AAA" MMD plus CalHFA spread
- Estimated CalHFA Spread: 2.00% to 3.00%
- Rate may be locked up to 30 days prior to the construction loan closing. Rate may be locked for the term of the construction period, not to exceed 3 years.

### Amortization/Term:

- Amortization: Up to 40 Year Amortization
- Term: Fully Amortizing, and 17- or 30-Year Balloons available1
- Perm Loan Reduction: up to 10% reduction at Perm Loan closing permitted at no cost.
- Up to two, three-month extension(s) permitted upon payment of a fee equal to 0.25% of the Perm Loan amount for each three-month extension.
- Breakage Fee (if applicable): due between construction loan closing and Perm Loan closing and calculated based on hedge termination cost.
- 1. Balloon loans subject to agency approved exit strategy.

## Loan Closing Requirements

- 90% stabilized rental housing occupancy for 90 days as evidenced by rent rolls.
- 90% of tax credit investor equity shall have been paid into the Project.
- Project income is sufficient to pay operating expenses, required debt service, reserves and monitoring fees.
- For mixed-use Projects, 100% non-residential occupancy as evidenced by executed leases or guarantees.
- Deposit Account Control Agreement between CalHFA, the Borrower and lending institution is in form and substance acceptable to all parties and ready to be executed at Perm Loan closing.

## **Prepayment**

The Perm Loan may be prepaid at par after 15 years of the Perm Loan period. However, the Perm Loan may be prepaid after 10 years of the Perm Loan period subject to a yield maintenance calculation of:

- 5% of the principal balance after the end of year 10
- 4% of the principal balance after the end of year 11
- 3% of the principal balance after the end of year 12
- 2% of the principal balance after the end of year 13
- 1% of the principal balance after the end of year 14

All prepayments require a prior written 120-day notice to CalHFA.

## Subordinate Financing

Financing or grants are encouraged from local governments and third parties to achieve project feasibility. All financing, leases, development and regulatory agreements must be coterminous (or have a longer term than the combined terms of any CalHFA Acq/Rehab Loan and Perm Loan) and be subordinate to CalHFA financing. A Lien Priority/Position Estoppel in form and substance acceptable to CalHFA will be required prior to construction financing closing, if applicable.

## Occupancy Requirements

Must maintain the greater of (A) existing affordability restrictions, or (B) either (i) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of the area (county) median gross income as determined by HUD ("AMI") with adjustments for household size ("20% @ 50% AMI"), or (ii) 40% or more of the units must be both rent restricted and occupied by individuals whose income is 60% or less of the AMI, with adjustments for household size ("40% @ 60% AMI"): however in the latter case, a minimum of 10% of the units must be at 50% or less of AMI (i.e., 30% @ 60% AMI; 10% @ 50% AMI).

## Occupancy Requirements (continued)

Any units restricted by the Agency pursuant to this program, including those units restricted in addition to the minimum requirements set forth above, shall be rented at rents up to 30% of the applicable income restriction using the occupancy assumptions required in the Agency's Regulatory Agreement. Rents for all restricted units must be at least 10% below market rents as evidenced by current market study or an appraisal.

CalHFA's regulated units must represent a comparable share of the available unit sizes (by bedroom count and square feet) and be disbursed throughout the project.

## **Due Diligence**

The following due diligence is required to be provided at the Owner/Borrower's expense (refer to the program's document checklist for a full list):

- Appraisal\* (a construction lender's appraisal may be acceptable).
- HUD-2530 previous participation clearance.
- Construction Costs Review for new construction loans (other construction lender's review is acceptable).
- Physical Needs Assessment\* ("PNA") for rehabilitation projects with a Replacement Reserve Needs Analysis
  ("RRNA") over time for the first 20-year term (other lender's PNA/RRNA may be acceptable). A RRNA for a
  longer time period may be required if the Perm Loan term is greater than 20 years.
- Phase I and Phase II (if applicable) Environmental Site Assessment\* including, but not limited to, impact
  reviews that meet federal environmental requirements (such as historic preservation and noise remediation).
   The Purpose section of Phase I must state "a purpose of the Phase I is to document compliance with HUD
  policy pursuant to 24 CFR §58.5(i)(2) or §50.3(i)".
- Market Study\* satisfactory to CalHFA.
- NEPA Review.
- Termite/Dry Rot reports\* by licensed company.
- Seismic review\* and other studies may be required at CalHFA's discretion.

\*Note: Third party reports shall be within 180 days prior to the CalHFA's final commitment approval and may be subject to a new or updated report if the report(s) was completed more than 180 days prior to construction loan closing, in CalHFA's sole discretion.

## Required Impounds and Reserves

- Replacement Reserve: Initial cash deposit required for existing Projects with annual deposits between \$250 and \$500 per unit/per year depending on the Project type and PNA/RRNA findings.
- Operating Expense Reserve ("OER"): 3-6 months of operating expenses, reserves, debt service, and
  monitoring fees due at Perm Loan closing (letter of credit or cash) and held for the life of the CalHFA Perm
  Loan by CalHFA. In the event OER funds are drawn down during the term of CalHFA Perm Loan, it must be
  replenished over a period of 12 months to the original level.
- Impounds held by CalHFA: One year's prepaid earthquake, hazard and liability insurance premiums, and property tax assessments are collected at loan closing. An earthquake insurance waiver is available for Projects which have met CalHFA earthquake waiver standards during rehabilitation or construction.
- Transition Operating Reserve (TOR): required for Projects with state or locally administered rental subsidy contracts with contract terms that are less than 20 years or the CalHFA Perm Loan term.
- Other reserves as required (at CalHFA's discretion).

## CONDUIT ISSUER PROGRAM

## MULTIFAMILY HOUSING BONDS

Term sheet effective for applications submitted after March 1, 2022

The CalHFA Conduit Issuer Program is designed to facilitate access to tax-exempt and taxable bonds ("Bond") by developers that seek financing for eligible projects that provide affordable multifamily rental housing for individuals, families, seniors, veterans or special needs tenants ("Project"). The conduit Bonds may be used to finance the acquisition, rehabilitation, and/or development of an existing Project, or they can be used for the construction of a new Project.

## Qualifications Available to for-profit, nonprofit or public agency sponsors. Nonprofit borrowers may be eligible for 501(c)(3) bonds. If bond proceeds are utilized to pay off an existing CalHFA portfolio loan visit www.calhfa.ca.gov for the CalHFA Portfolio Loan Prepayment Policy. **Bond Amount** Bond amount is determined by the loan amount of the selected construction lender. Application Fee: \$5,000 non-refundable, due at time of application submittal (covers the cost of the TEFRA **Fees** (subject to change) required for tax-exempt issuances) and is credited toward the CalHFA Issuer Fee. 1. The greater of \$15,000 or 18.75 basis points of the Bond amount if lesser than or equal to \$20 million. 2. If more than \$20 million: \$37.500 + 5 basis points for the amount above \$20 million. Annual Administrative Fee: 5 bps of the tax-exempt bond issuance amount due at construction loan closing and due annually thereafter until permanent loan conversion. After permanent loan conversion, billed annually in advance, 5 bps of unpaid principal balance amount of tax-exempt bond financed loan(s) until bonds are fully redeemed. Minimum Annual Administrative Fee shall be \$4,000 through both the Qualified Project Period and the CDLAC compliance period. For taxable only issuances, annual administrative fees above will be charged based on the taxable bond financed loan(s) for the term of the CalHFA affordability restrictions. If used in conjunction with a CalHFA permanent loan product, the annual administrative fee will not be duplicated. Please refer to the applicable permanent loan term sheet for the annual administrative fee. Public Sale: Additional fee of \$5,000 to \$10,000 applies when Bonds are sold to the public. CDLAC Allocation Fee: 0.035% of the Bond amount, \$1,200 of which is due at time of CDLAC application submittal with the remaining fee due at construction loan closing and payable to CDLAC. CDLAC Performance Deposit: 0.50% of the requested Bond amount, not to exceed \$100,000, due at time of CDLAC application submittal. Deposit to be refunded after the Bond closing, upon receipt of authorization letter from CDLAC. The Borrower shall be responsible for all other costs of Bond issuance including fees of the underwriter, trustee, rating agencies, lender, compliance administrator, all Bond counsel legal fees, and any other parties required to complete the transaction.

## Occupancy Requirements

- Either (A) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of the area median income as determined by HUD ("AMI") with adjustments for household size ("20% @ 50% AMI"), or (B) 40% or more of the units must be rent restricted and occupied by individuals whose income is 60% or less of AMI, with adjustments for household size ("40% @ 60% AMI"); however in the latter case, a minimum of 10% of the units must be at 50% or less of AMI.
- Any units restricted by the Agency pursuant to this program, including those units restricted in addition to
  the minimum requirements set forth above, shall be rented at rents up to 30% of the applicable income
  restriction using the occupancy assumptions required in the Agency's Regulatory Agreement. Rents for
  all restricted units must be at least 10% below market rents as evidenced by a current market study or an
  appraisal.
- Borrower will be required to enter into a Regulatory Agreement which will be recorded against the Project
  for the Qualified Project Period (as defined in the CalHFA Regulatory Agreement). This includes the later
  of the federally-required qualified project period, repayment of the Bond funded loan, redemption of the
  Bonds, the full term of the CDLAC Resolution requirements or 55 years.

Resolution No. 20-25 Page 2

WHEREAS, the Board wishes to grant the staff the authority to enter into a loan commitment to provide permanent financing for the development and taking out the Conduit Bonds upon Agency staff determining in its judgment that reasonable and prudent financing mechanisms can be achieved;

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors (the "Board") of the California Housing Finance Agency as follows:

1. The Executive Director, or in her absence, the Chief Deputy Director, is hereby authorized to execute and deliver a final commitment letter, in a form acceptable to the Agency, and subject to recommended terms and conditions set forth in the Staff Report and any terms and conditions as the Board has designated in the Minutes of the Board Meeting, in relation to the Development described above and as follows:

PROJECT NUMBER	DEVELOPMENT NAME/ LOCALITY	MORTGAGE AMOUNT	
22-014-A/X/S	515 PIONEER DRIVE City of Glendale, County of Los Angeles California	\$30,892,000.00	Tax-Exempt Permanent 1 <sup>st</sup> Lien Loan with HUD Risk Sharing
		\$10,203,625.00	Total MIP 2 <sup>nd</sup> Lien Subsidy Loan
		\ <u></u>	O MIP Allocation; O Supplemental on)

The Board recognizes that in the event that staff cannot determine that reasonable and prudent financing mechanisms can be achieved, the staff will not enter into loan commitments to finance the Development. In addition, access to capital markets may require significant changes to the terms of loans submitted to the Board. Notwithstanding paragraph 2 below, the staff is authorized to make any needed modifications to the loan which in staff's judgment are directly or indirectly the result of the disruptions to the capital markets referred to above.

2. The Executive Director may modify the terms and conditions of the loan or loans as described in the Staff Report, provided that major modifications, as defined below, must be submitted to this Board for approval. "Major modifications" as used herein means modifications which either (i) increase the total aggregate amount of any loans made pursuant to the Resolution by more than 7%; or (ii) modifications which in the judgment of the Executive Director, or in her absence, the Chief Deputy Director of the Agency, adversely change the financial or public purpose aspects of the final commitment in a substantial way.

# **PROJECT SUMMARY**

	PROJECT SUMMARY						
2.	Legislative Districts	Congress:	#7 Ami Bera	Assembly:	#9 Jim Cooper	State Senate:	#6 Richard Pan
	Brief Project Description	Anton Power Inn (the "Project") is a new construction, multifamily, mixed-income Project, consisting of eight residential buildings and one community building. The Project will be three story walk ups, type V, wood framed, garden style buildings with 318 surface parking spaces that will be reserved for residents and on-site staff. There will be 194 total units, 192 of which will be restricted between 30% and 70% of the Sacramento County Area Median Income (AMI). There will be 96 one-bedroom units (598 avg. s.f.), 48 two-bedroom units (820 avg. s.f.) and 50 three-bedroom units (1,057 avg. s.f.). Two three-bedroom units will serve as the onsite manager's units. The site is contiguous and is currently vacant.  Financing Structure: The Project's financing structure includes financing from tax-exempt bonds, 4% Federal Tax Credit equity (4% Federal LIHTC allocation), State Housing Tax Credit equity, Agency's permanent loan program, and Mixed-Income Program (original and supplemental). The project will be income averaged, pursuant to TCAC regulations.

**Local Resources and Services:** For TCAC/CDLAC purposes, the Project is located within a high segregation and poverty resource area per TCAC/HCD's Opportunity Area Map. The Project is in close proximity to the following local amenities and services:

- Grocery stores 0.82 mile
- Schools 0.36 mile
- Public Library 1.5 miles
- Public transit 0.25 mile
- Retail 0.25 mile
- Park and recreation 0.45 mile
- Hospitals 3.0 miles

Non-displacement <u>and</u> No Net Loss: To the extent feasible, it is the Agency's priority to mitigate the overall effects upon affordable housing availability that may arise from multifamily developments that may result in permanent displacement of existing affordable housing residents and/or net loss of existing affordable housing units. The Project is a new construction project on an existing vacant site, with no related demolition of existing affordable housing, hence no existing affordable housing units will be lost nor will existing residential households be displaced as a result of this development.

**Commercial and/or Other (i.e., Parking) Space:** The Project does not include commercial space.

<sup>\*</sup>The estimated net cash flow during lease up is based on 9 months leasing and 3 months of stabilized occupancy prior to permanent loan conversion.

At the time of CalHFA's initial commitment (March of 2022), the developer estimated total development cost (TDC) to be \$67,776,784 or \$349,365/unit. CalHFA issued an initial commitment based on these initial costs estimates for the developer to use to apply to CDLAC for tax exempt bond cap and to CTCAC for both federal and state tax credits. On June 15, 2022 the Borrower received the related allocations from CDLAC and CTCAC.

Generally, the project's total cost changed from March through July as cost increases related predominantly to rising interest rates and stresses on labor and materials that ultimately lead to cost increases to Hard Cost, construction loan costs, and other line items by a total of \$7,882,541. While the developer was successful in achieving a 5.75% increase to the Equity Investor Contribution for \$1,816,411 and a 2.87% increase to CalHFA permanent loan amount, unfortunately, these efforts were insufficient to off-set rising interest rates, labor, and material costs.

The Borrower has requested a \$4,154,205 increase to the MIP Subsidy Loan in an effort to offset cost increases and loan reductions outlined above and below. The summary of changes in sources and uses between initial commitment vs. current proposed are outlined below:

Summary of changes in Sources/Uses since the Initial Commitment approval

Hard Cost/Soft Cost changes: The developer is a vertically integrated organization and owns the general contractor entity, Anton Building Company. In an effort to mitigate market disruptions, the developer met with their design team and general contractor to evaluate the original construction hard cost budget. As a result, the developer increased the construction hard cost budget by approximately \$5.7 million (12%) to reflect a more accurate budget based on current market conditions. The current construction cost budget incorporates a reduction of the general contractor's overhead and profit of approximately \$307k (22%). As you can see on the above chart, after reviewing their budget in detail, they were able to reduce other soft cost budget line items by \$3.43 million, primarily due to decrease in permit and fee waivers.

Deferred Developer Fee: The current budget also reflects no changes to the total developer's fee budget of \$3.5 million and deferred developer's fee (DDF) of \$2.56 million (original developer fee \$3.5 million with \$2,557,797 deferred/current developer fee \$3.5 million with \$2,557,797 deferred).

Removal of Original Sponsor Loan: At the time of application, the Developer requested a CalHFA permanent loan in the amount of \$24.9 million with a 4.35% underwriting rate. During the initial approval underwriting period, the underwriting rate was increased to 5.06% based on current market conditions which left a funding gap of approximately \$2.18 million. The Developer provided a Sponsor Loan commitment in the amount of \$2,184,685 to initially fill this gap in order to obtain CalHFA initial approval and to submit the joint CDLAC and TCAC applications back in March 2022. On April 29, 2022, TCAC released the income and rent limits for 2022 which included a 5% increase for Sacramento County. This increase mitigated the higher underwriting rate at initial approval, eliminating the need for the Sponsor Loan. As a result, the developer has removed the Sponsor Loan from the Project's funding sources.

Perm Loan Reduction & Equity Contribution Adjustment: The equity contribution adjustment is anticipated to be approximately \$1.8 million. During final underwriting, the estimated permanent loan of \$22.55 million at initial commitment was increased by \$648k to \$23.20 million. This was attributed to a combination of 5% rent increase

for Sacramento County for 2022 and increases in perm loan financing costs related to macroeconomic factors, such as inflation. The developer is also projecting a slightly higher NOI (cash) during construction by approximately \$18k.

The estimated funding gap after exhausting all resources available for the project is approximately \$4,154,205. The Borrower has requested an increase to the MIP Subsidy Loan of \$4,154,205. Pursuant to the TCAC/CDLAC requirements, this project must begin construction by December 2022. A \$4,154,205 million increase in the MIP supplemental subsidy (\$21,637/unit) results in an overall MIP Regulated Unit amount of \$63,303 per restricted unit. The original MIP and Supplemental MIP total \$12,154,205.

# **Subsidy Efficiency:**

The Initial MIP commitment for this Project was \$8,000,000 (\$41,667 per MIP restricted units). The Current proposed MIP commitment is \$12,154,205 (\$63,303 per MIP restricted units). Staff is recommending exceptions to the per project Allocation Limit of \$8,000,000, per unit limit of \$50,000, and the 50% limit of the MIP loan to perm loan requirement. Approval of these exceptions are further detailed in the "Underwriting Standards or Term Sheet Variations" section 9 below.

# Tax Credit Type(s), Amount(s), Pricing(s), and per total units:

- 4% Federal Tax Credits: \$29,804,422 (\$155,231 per TCAC restricted unit).
- State Tax Credits: \$2,059,061 (\$10,724 per TCAC restricted unit).

**Rental Subsidies**: The Project will not be subsidized by project-based vouchers.

Other State Subsidies: The Project will not be funded by other state funds.

Other Locality Subsidies: The Project will not be funded by locality funds.

**Cost Containment Strategy:** The developer is using its affiliated company, Anton Building Company, as its General Contractor. The developer established cost containment strategies that include: 1) engaging the General Contractor to provide pre-construction services including: conceptual design review, estimating, value engineering, and a critical path schedule, 2) reviewing the GMP contract for any exclusions or exceptions to mitigate project cost increases, and 3) requiring that the General Contractor provide a minimum of 3 bids for each major trade and all other trades, if available.

**6.** Equity – Cash Out (estimate): Not Applicable

# TRANSACTION OVERVIEW

# 7. Proposal and Project Strengths

- The Project has received 4% federal and state tax credits allocations, which is projected to generate equity representing approximately 46% of total financing sources.
- The developer/sponsor has extensive experience in developing similar affordable housing projects.
- There is no evidence of existing, controlled, or historical recognized environmental conditions for the site.
- The Project is strongly supported by the City of Sacramento which is evidenced by a Density Bonus approval.
- The Project will serve low-income families ranging between 30% to 70% of AMI. On average, the rents are between 31% to 73% below market rents based on the current appraisal.
- The Loan-to-Value ("LTV") will be 71%, which is well below the Agency's maximum allowable LTV of 90%. This results in less risk to the Agency.
- The projected portion of the developer's fee that will be collected at or prior to permanent loan conversion is \$942,203 which could be available to cover cost overruns and/or unforeseen issues during construction.

Multifamily Staff Report Version Date: April 2021

# 8. Project Weaknesses with Mitigants:

The exit analysis assumes 2% increase to the appraisal cap rate (resulting in 7%) and a 3% increase of the underwriting interest rate at loan maturity (resulting in 9.14%). Based on these assumptions, the Project will have the ability to fully repay the balance of Agency's permanent first lien loan and a portion of the Supplemental MIP loan in the estimated amount of \$1,961,959, leaving an outstanding balance of \$1,454,280 (principal and accrued interest) plus the full amount of the original MIP loan in the estimated amount of \$11,600,000 (principal and accrued interest). Total combined estimated MIP balance at refinance is \$13,054,280. This is expected by CalHFA given the requirement that the MIP loan be co-terminus with the permanent first mortgage. The primary source of repayment for both the first mortgage and the MIP subsidy loan is refinance of the project's first mortgage. To the extent such a refinance is insufficient to fully repay the Supplemental MIP and original MIP loans, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the final close out of partnership obligations to allow re-syndication.

# 9. Underwriting Standards or Term Sheet Variations

- Pursuant to the USRM, CalHFA regulated unit sizes (by bedroom count) shall be distributed substantially on a pro rata basis across income ranges proportionate to their availability in the development as a whole. Deviations may be allowed based on demonstrable market data and community needs as evidenced in approved Housing Elements. The Borrower is requesting a waiver to meet the pro rata distribution of income ranges and bedroom sizes requirement. The Borrower's property management company advised that it would be in the best interest of the project to have more larger (two and three bedrooms) units that are restricted at 70% of AMI for lease up purposes, as this would result in a larger pool of households/families that would be income qualified for the units. In general, it is more challenging to lease up small units (1 bedroom) that are restricted at a higher AMI range. In addition, the City has approved the income and unit distribution for the proposed project. Therefore, staff is recommending the approval to waive the pro-rata distribution of income ranges and bedroom sizes requirement for the Project.
- Pursuant to MIP loan term sheet, no project may receive more than the lesser of (i) \$8 million project cap, (ii) the aggregate MIP loan amount based on up to \$60k per MIP regulated unit for a project located within the high/highest resource area per TCAC/HCD opportunity map, or (iii) MIP loan not to exceed 50% of the CalHFA permanent loan. This project is located in a high segregation and poverty resource area. Based on the project economics, the combined original and supplemental MIP is \$12,154,205 (\$63,303/restricted unit) (MIP loan percentage is approximately 52% of the CalHFA permanent loan), which exceeds all 3 thresholds. This is an exception to the MIP term sheet and is recommended by Multifamily Underwriting and Credit Staff for approval to facilitate the progression of a shovel ready project without delay; the project received tax credit and bond cap allocations from TCAC/CDLAC on June 15, 2022 and is ready to proceed to construction loan closing by December 2022.

# 10. Project Specific Conditions of Approval

Approval is conditioned upon:

- No site work or construction commenced prior to the issuance of a HUD Firm Approval Letter.
- The CalHFA subsidy loan (including the supplemental MIP subsidy loan) will be, in the Agency's sole discretion, the lesser of 1) the principal amount (not to exceed) as stated herein or 2) an amount as determined by the Agency in the event the financial assumptions change prior to construction loan closing and/or permanent loan closing.
- Any default as to any loan by the Agency for the Development shall constitute a default under all other loans by the Agency for the Development.
- The Borrower has requested that 100% of surplus cash be allowed towards the repayment of the deferred developer's fee (DDF) for up to 15 years or until DDF has been fully repaid, whichever is sooner. Thereafter, the surplus cash split shall be 50% to Borrower and 50% to Residual Receipt lender(s). As a condition of this approval, the Borrower must provide evidence that the DDF repayment structure is required pursuant to the Limited Partnership Agreement (LPA). In addition, the owner must provide evidence of investor and any residual receipt lender(s) approvals of the total deferred developer's fee structure and residual receipt split. Residual receipt lenders must also agree to defer the payments on their loans.

- The locality is requiring the Borrower to encumber the Property by recording a Density Bonus Agreement. Prior to construction loan closing and closing of the CalHFA loan(s), the Density Bonus Agreement is subject to CalHFA review and approval in accordance with agency underwriting standards, which may include the need for a Standstill Agreement concerning certain provisions of the Density Bonus Agreement.
- Receipt of documentation showing the Purchase and Sale Agreement is assigned to the borrowing entity prior to construction loan closing.
- All MIP Loan principal and interest will be due and payable at maturity. Outstanding Supplemental MIP loan funds will have first repayment priority whether the source of repayment is cash flow during the term of the loan or repayment via refinance, partner contribution, or other source at loan maturity.
- In the event of cost savings at permanent loan conversion, 100% of cost savings will be used to reduce the supplemental portion of the MIP loan amount first (may be shared with other residual receipt lenders on a pro rata basis, if applicable). Once the supplemental portion of the MIP loan amount is fully reduced, the remaining cost savings will be split 50% between reducing the original MIP loan amount (or may be shared with other residual receipt lenders on a pro rata basis, if applicable) and reducing the Deferred Developer Fee.

# 11. Staff Conclusion/Recommendation:

The Multifamily Lending Division supports approval of the described financing in the amount(s) requested, subject to the above proposed terms and conditions. As noted earlier, the supplemental MIP subsidy loan of \$4,154,205 was not part of the Initial Commitment approved by the SLC, and hence approval is being sought for this financing through the subject Final Commitment Approval.

# **AFFORDABILITY**

# 12. CalHFA Affordability (Occupancy and Rent) Restrictions

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum of 30% of the total units (59 units) at or below 60% of AMI and an additional 10% of these units (20 units) at or below 50% of AMI for 55 year(s).

\*The CalHFA MIP Subsidy Regulatory Agreement requires 10% of total units (20 units) be restricted at or below 30% of AMI, 20% of the total units (39 units) be restricted at or below 50% of AMI, and 10% of total units (20 units) be restricted between 60% and 80% of AMI with a minimum average of 70% of AMI, and the remaining 113 restricted units will be restricted at or below 120% of AMI for a term of 55 years. The rents for the 60% to 80% tranche will be determined by the minimum income limit of 70% of AMI, not to exceed 80% of AMI. For underwriting purposes, the initial rents at permanent loan conversion must be no less than the underwriting rent levels outlined on the "Unit Mix and Rent Summary" enclosed as part of the project's staff report package. The CalHFA permanent loan agreement will require minimum underwriting rent levels as outlined in the Rent Limit Summary Table Below.

The TCAC Regulatory Agreement will restrict a total of 192 units between 30% and 70% of AMI for a term of 55-years.

The City is providing a Density Bonus Agreement that will restrict a total of 192 units between 30% and 70% AMI for a term of 55-years.

	Replacement Reserves (RR):	N/A
		\$639,777*  OER amount is sized based on 3 months operating expenses, debt service, and annual replacement reserves deposits. CalHFA will hold this reserve for the term of the CalHFA permanent loan and in the event the OER is drawn down during the term of the loan, the OER must be replenished over a 12-month period to the original level.  A minimum of 3 to 6 months operating expense, reserves, and debt service ("OER") is required to be held for the life of the CalHFA permanent loan. The OER may be based on 3 months of total operating expenses, reserves, and debt service if the developer provides evidence, within the last 2 years, that they have received allocations from TCAC or provided a certification from a third party accountant that they met TCAC's general partner and management experience pursuant to CTCAC regulations. The developer has submitted supporting documentation that they've met this requirement.

partner contribution as part of the final close out of partnership obligations to allow re-syndication.

- The Appraisal dated June 6, 2022 prepared by Watts Cohn and Partners, Inc. values the land at \$1,240,000.
- The cap rate of 5% and projected \$1,720,912 of net operating income (NOI) which is used in determining the appraised value of the subject site is approximately \$88,000 less than Developer's proposed NOI projections which include lower operating expenses based on nearby comparable projects and actual NOI provided by the Developer. Additionally, the property manager has certified that the project can be operated based on the proposed expenses. Based on the developer's explanation and supporting documents, staff has determined that the proposed annual operating expense budget is reasonable.
- The as-restricted stabilized value is \$27,030,000, which results in the Agency's permanent first lien LTV of 71% and combined LTV, including MIP subsidy loan (original and supplemental) of 108%.
- The absorption rate is 23 units per month, which is slightly higher than the market study report, however, both the appraisal and the market study anticipates that the project will reach full stabilization within 8 months following construction completion. The appraisal's absorption rate conforms with the anticipated construction and lease-up schedule in the underwriting and market study.

# **Regional Market Overview**

- The Primary Market Area ("PMA") is the area that includes parts of Southern Sacramento, Florin, and Northern Elk Grove (population of 249,975) and the Secondary Market Area ("SMA") is the County of Sacramento (population of 1,564,478).
- The general population in the PMA is anticipated to increase by 0.7% per year through 2026.
- Unemployment in the PMA is 4.4%, which evidences a strong employment area. Unemployment data for the SMA was not available.
- Median home value in the PMA is \$425,000.

• As of 2021, the median income in the PMA was below the surrounding SMA, and between 2000 and 2020 the median household income growth in the PMA has generally trailed the SMA.

# **Local Market Area Analysis**

# Supply:

- There are currently five affordable project(s) in the PMA, and they are 100% occupied with long wait lists.
- o There are currently no affordable project(s) being planned or developed in the PMA.

# Demand/Absorption:

The project will need to capture 2.5% of the total demand for family units in the PMA. The affordable units are anticipated to lease up at a rate of 15-20 units per month and reach stabilized occupancy within 7-9 months of opening. This assumes that the management company will start pre-leasing the units at receipt of temporary certification of occupancy.

The California Housing Finance Agency ("CalHFA" or "Agency") Mixed-Income Program ("MIP") provides competitive, long-term, subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product. The MIP resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of extremely low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

# Qualifications

### APPLICATION:

Sponsors/developers must submit a complete application package which includes all items listed on the application, the application addendum and the checklist. Incomplete application packages will not be considered. The application and checklist can be found at <a href="https://www.calhfa.ca.gov/multifamily/mixedincome/index.htm">www.calhfa.ca.gov/multifamily/mixedincome/index.htm</a>. If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated.

### **AVAILABILITY:**

Available to for-profit, nonprofit, and public agency sponsors. Development teams must meet CalHFA experience requirements, as defined in the CalHFA Development Team Qualifications section below.

### **USES:**

MIP subsidy loans must be used in conjunction with CalHFA's Conduit Bond Issuance Program and a construction loan from a CalHFA Mixed-Income Qualified Construction Lender. MIP subsidy loans must also be used in conjunction with CalHFA's permanent first-lien mortgage financing. CalHFA Mixed-Income Qualified Construction Lender is defined in that section below.

# FINANCING STRUCTURE:

Projects accessing the MIP subsidy loan funds must be structured as one of the following:

1. Tax-exempt bond and 4% tax credit project where at least 51% of the units in the project must be tax-credit-financed

OF

2. Qualified mixed-income project through income averaging pursuant to Internal Revenue Code Section 42 (g)(1)(C).

# **Qualifications** (continued)

#### **READINESS:**

Projects must have site control and be prepared to submit for a bond and tax credit allocation and will only receive funds if bonds are issued within the issuance timeframes specified in the California Debt Limit Allocation Committee's (CDLAC) Regulations Section 5100.

- 1. Site: The site must be ready for construction (all potential environmental issues have been identified, mitigation plan is in place, and costs associated with the mitigation plan have been incorporated in the development budget). Environmental issues may include, but not be limited to, receipt of clearances for CEQA, NEPA, and applicable tribal land environmental reviews. Pursuant to HUD-Risk Sharing requirements, sponsor is expected to start the NEPA process shortly after CalHFA verifies application completeness and determines that the project is ready to move forward with an initial commitment ("notification date"). The NEPA clearance and HUD's firm approval letter will be required prior to construction loan closing.
- 2. General Contractor and/or Third Party Construction Services Engagement: At the time of application, applicant must provide evidence that the applicant or developer has engaged a general contractor or third-party construction services company to provide construction services including, but not limited to, value engineering, bid/budget services, and constructability review of plans and designs. In addition, the proposed construction budget is based on the general contractor's or third-party construction services company's preliminary bid estimates pursuant to the current plans and designs.
- **3. Disposition and Development Agreement:** Applicant must provide a copy of the disposition and development agreement, if applicable.
- 4. Construction Start: All projects must commit to begin construction 180 days from the earlier of the date of the tax-exempt bond allocation or 4% federal/state tax credit reservation, unless an extension has been approved by California Tax Credit Allocation Committee (CTCAC), CDLAC, and CalHFA, as applicable. Within the 180-day period, the following items must be submitted to CalHFA in their final form:
  - A complete, updated application form along with a detailed explanation of any changes from the initial application,
  - b. An executed construction contract,
  - Recorded deeds of trust for all construction financing (unless a project's location on tribal trust land precludes this),
  - d. Binding commitments for any other financing required to complete project construction,
  - e. Copy of a limited partnership agreement executed by the general partner/sponsor and the investor limited partner/equity provider,
  - f. Payment of all construction lender fees,
  - g. Copies of buildings permits (a grading permit does not suffice to meet this requirement, except if the city or county as a rule does not issue building permits prior to the completion of grading, then a grading permit shall suffice; if the project is a design build project in which the city or county does not issue building permits until designs are fully complete, the city or county shall have approved construction to begin) or the applicable tribal documents,
  - h. Copy of the notice to proceed delivered to the contractor,
  - If no construction lender is involved, evidence must be submitted within 180 days, as applicable, that the equity partner has been admitted to the ownership entity, and that an initial disbursement of funds has occurred,
  - j. Other documentation and information required by CalHFA to close construction financing.

# **Qualifications** (continued)

### MIP ALLOCATION LIMITS:

(Exceptions may be considered by Agency in its sole discretion)

- 1. **Project Cap:** No project may receive more than the lesser of \$8 million, or the aggregate MIP loan amount calculated based on up to \$50,000 per MIP regulated units or up to \$60,000 per MIP regulated units for a Project located within the Highest or High Resource areas pursuant to CTCAC regulations designated on the CTCAC/HCD (California Department of Housing and Community Department) Opportunity Area Map.
- 2. **Sponsor Cap:** No sponsor (any individual, entity, affiliate and related entity) may receive more than 20% of total MIP allocation or funding of two projects, whichever is less, for the respective year.
- 3. County Cap: No one county may receive more than 25% of total MIP allocations for the respective year.
- 4. Age-Restricted Cap: No more than 25% of total MIP funds for the respective year may be received by age-restricted projects (units that are restricted to residents who are 62 years of age or older under the applicable provisions of California Civil Code Section 51.3 and the federal Fair Housing Act), unless a waiver of the minimum age requirement has been granted by U.S. Department of Housing and Urban Development ("HUD").

# **EVIDENCE OF COST CONTAINMENT:**

A Cost Containment Certification must be provided at the time of Construction Loan Closing in a form acceptable to CalHFA in its sole discretion. The certification acceptable to CalHFA may be found at <a href="https://www.calhfa.ca.gov/multifamily/mixedincome/forms/closing-cost-containment-certification.pdf">www.calhfa.ca.gov/multifamily/mixedincome/forms/closing-cost-containment-certification.pdf</a>.

The developer/sponsor must certify that cost containment measures have been implemented to minimize construction costs. These measures should include, but may not be limited to, 1) competitively bidding out all major subcontractor and self-performing trades and 2) engaging a value engineer/consultant during the design process.

# **EVIDENCE OF SUBSIDY EFFICIENCY:**

A Subsidy Efficiency Analysis will be completed as part of the application review. The analysis will be completed again prior to construction loan closing and closing of the MIP subordinate loan. The MIP loan amount may be reduced based on the final analysis. Parameters of the analysis may include, but are not limited to, the following:

- A maximum of 1.20 Debt Service Coverage Ratio ("DSCR") at year 1 ("Initial DSCR"). CalHFA may allow an
  initial DSCR higher than 1.20 on a case-by-case basis, if deemed necessary. The year 1 DSCR underwritten
  at the time of final loan approval and final commitment must be maintained through the term of the
  CalHFA permanent first lien loan,
- A project cash flow that supports the residential component of the project based on the required CalHFA
  permanent first lien annual debt service coverage ratio,
- A separate project cash flow that supports any commercial component of a mixed-use project,
- A cash flow after debt service shall be limited to the higher of 25% of the anticipated annual must pay debt service payment or 8% of gross income, during each of the first three years of project operation,
- Inflation factors and vacancy rates consistent with the Agency's Underwriting Standards,
- Developer Fee requirements matching those required under the 4% federal and/or state tax credit reservation,
- Capitalized reserves subject to approval by Agency for reasonableness consistent with the Agency's Underwriting Standards and the Investor Limited Partnership Agreement (ILPA),

# **Qualifications** (continued)

- Review of Excess Sources over final Uses as approved by CalHFA resulting from any of the following:
  - · An increase in tax credit equity,
  - An increase in permanent loan debt due to a combination of permanent loan rate reduction and/or reduction to operating expense assumptions;
- Construction Cost Savings as evidenced by final cost certification, funds shall be used to reduce the MIP loan prior to CalHFA MIP loan closing or if required by other subordinate lenders, funds may be split on a pro rata basis between CalHFA and other subordinate lenders,
- State tax credit request is expected to be within a range of \$50,000 to \$75,000 per unit. The projects that evidence the most efficient use of bond cap, state tax credits, and MIP per adjusted unit shall be prioritized for MIP funding considerations. The bond cap, state tax credits, and MIP per adjusted unit calculation shall be consistent with CDLAC Regulation Section 5231(g)(1) and 5231(g)(2). MIP final commitment shall be subject to evidence of project's receipt of CDLAC's preliminary tax-exempt bond allocations and CTCAC's tax credits reservations within the respective year,
- Acquisition cost shall be the lesser of 1) the purchase price pursuant to a current purchase and sales
  agreement between unrelated parties, 2) the purchase price of an arm's length transaction executed within
  the past 10 years plus reasonable carrying costs, or 3) the appraised "as-is" value based on an Appraisal
  acceptable to CalHFA in its sole discretion. The appraised value of the real estate may be considered if the
  arm's length transaction exceeds 10 years.

# CalHFA Mixed-Income Qualified Construction Lender

A CalHFA Qualified Construction Lender is defined as a Construction Lender that has closed at least five construction loans using tax-exempt bonds and 4% federal and/or state tax credits in California within the last three years and satisfies the requirement set forth within the application.

# CalHFA Mixed-Income Development Team Qualifications

The **Developer/Co-Developer/General Partner** must be registered to do business and in good standing in the state of California. A CalHFA Qualified Developer/Co-Developer/General Partner must have developed at least three comparable projects within the past five years or meet the requirements to receive a minimum of 7 points under the CDLAC General Partner Experience category pursuant to CDLAC Regulations Section 5230(f).

The proposed **Project Manager** must have personally managed the development of at least two comparable projects within the past five years.

**Financial Consultants** hired to assist the Developer in meeting the minimum experience requirements must be able to provide details regarding at least three comparably financed projects over the last five years.

**Architects** new to CalHFA must provide information for three comparable projects they designed that were built and occupied within the past five years in California.

**General Contractor (GC)** must be licensed by the State of California. GCs new to CalHFA must provide information related to three comparable (in design) projects built in the past five years. Similar information will be required for the proposed on-site construction supervisor. The on-site construction supervisor must have overseen three comparable projects built in the past five years, and they must have overseen the projects from construction start to final completion.

Tax Credit Investors must have closed/executed at least five investor limited partnership agreements for a comparable deal structure using tax-exempt bonds and 4% federal and/or state tax credits in California within the last three years.

# CalHFA Mixed-Income Development Team Qualifications (Continued)

Management Company must have a local presence or a field office in Northern or Southern CA (depending on the location of the Project) and have experience managing at least 10 low- to moderate-income, rentrestricted comparable (size and tenant types) projects. Also required is a resume for the proposed on-site Property Manager, reflecting prior experience during the past five years managing onsite project operations and compliance with rent-restricted units or meet the requirements to receive a minimum of 3 points under the CDLAC Management Company Experience category pursuant to CDLAC Regulations Section 5230(f).

# Permanent First Lien Loan

Must be provided by CalHFA. The permanent loan must meet an initial minimum DSCR of at least 1.15 and must maintain the year 1 DSCR underwritten at the time of final loan approval and final commitment through the term of the CalHFA permanent first lien loan. The Initial DSCR must not exceed 1.20.

# Construction First Lien Loan

Must be provided by a CalHFA Mixed-Income Qualified Construction Lender. All parties shall permit the Agency to, in its sole and absolute discretion, recycle all or a portion of any bond volume cap related to a paydown of the bond-financed loans, at the conversion of the construction financing to permanent financing and payoff of the construction loan, pursuant to the authority provided in Section 146(i)(6) of the Internal Revenue Code of 1986 and CDLAC Regulation Section 5060 (the "Bond Recycling"). The bond documents, loan documents and any other documents related to the financing of the Development shall contain any necessary approvals and permit all actions necessary to accomplish a Bond Recycling.

# Limitations

- 1. MIP cannot be combined with the CTCAC 9% program.
- 2. MIP cannot be combined with other state subordinate debt and/or subsidy programs (this does not include state tax credits) with the exception of the Infill Infrastructure Grant (IIG), Affordable Housing and Sustainable Communities (AHSC) and Transit Oriented Development (TOD) housing programs. Inclusion of these programs is contingent upon restrictions that are compatible with the MIP program requirements outlined herein. Inclusion of other subordinate debt and subsidy will be allowed at CalHFA's sole discretion so long as any restrictions of subordinate debt or subsidy are compatible with MIP program requirements outlined herein.
- 3. Projects that have a below market rate component resulting from an inclusionary obligation or are 100% below market as a result of an inclusionary obligation must demonstrate master developer commitment through a dollar-for-dollar match of CalHFA's subsidy resources. Match can be obtained through a monetary match or equivalent in-kind contributions (e.g., land donation, land use fee concessions.)
- 4. At the time of MIP application, a project must not have already received an allocation of 4% federal and/ or state tax credits from CTCAC or a tax-exempt bond allocation from CDLAC.
- 5. Projects will not be eligible for other subsidy resources from CalHFA in addition to MIP.

# Mixed-Income Project Occupancy Requirements

# BOND REGULATORY AGREEMENT REQUIREMENTS (ALL PROJECTS):

Must maintain either (a) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of AMI with adjustments for household size ("20% @ 50% AMI"), OR (b) 40% or more of the units must be both rent restricted and occupied by individuals whose incomes are 60% or less of AMI with adjustments for household size ("40% @ 60% AMI"): in the latter case, CDLAC requires a minimum of 10% of the unit types must be at 50% or less of AMI ("10% @ 50% AMI").

# Mixed-Income Project Occupancy Requirements (Continued)

# MIXED INCOME REGULATORY AGREEMENT REQUIREMENTS (ALL PROJECTS):

### Affordability Requirements:

- To qualify, a project must meet the following affordability restrictions, which are based on the HUD and locality (as applicable) income and rent limits which are current at the time of MIP application, for a term of 55 years:
  - a. 30% of total units at or below 50% of AMI. Of these, a minimum of 10% of total units must be at or below 30% of AMI,
  - b. 10% of total units between 60% and 80% of AMI with an average of 70% of AMI or greater, subject to the Maximum Allowable Rents outlined below, and
  - c. Remaining 60% of total units at or below 120% of AMI (with the exception of any non-restricted manager's unit(s)) OR at the affordability restrictions consistent with CTCAC requirements.
  - d. The minimum range between the lowest and highest occupancy target levels must be at least 40%.

    (Deviations from the above requirements will only be considered if Market Study supports such deviations.)
- 2. If applicable, tax credit transactions that are income-averaged must have a maximum average affordability up to 60% of AMI across all CTCAC restricted units.

# Mixed-Income Project Occupancy Requirements (Continued)

#### MAXIMUM ALLOWABLE RENTS:

Rents for all restricted units must be at least 10% below market rents for the MIP affordability term as evidenced by a current market study or appraisal. This threshold will be analyzed at time of application and again at CalHFA's final commitment approval and may be monitored on an ongoing basis for the MIP affordability term. The report shall be current within 180 days of Agency's final commitment and may be subject to required updating if the report expires prior to construction loan closing. For underwriting purposes, CTCAC and locality maximum rents for the respective target income limits must be used. Any proposed rent adjustments above 5% of the approved rents subsequent to construction loan closing may be considered if supported by a recent or updated market study or appraisal that is dated within 180 days of MIP loan closing, at CalHFA's sole discretion.

Any units restricted by the Agency pursuant to this program, including those units restricted in addition to the minimum requirements set forth above, shall be rented at rents not to exceed 30% of the applicable income restriction required in the Agency's Regulatory Agreement.

# Mixed-Income Subordinate Loan

- 1. Maximum loan amount for each project shall not exceed the lesser of \$8 million or the aggregate MIP loan amount calculated based on up to \$60,000 per MIP regulated units, unless an exception is approved by Agency in its sole discretion.
  - a. Maximum loan per restricted (tax credit or CalHFA) units between 30%-120% AMI shall be up to \$50,000.
  - b. Projects located within the Highest or High Resource areas pursuant to CTCAC regulations designated on the CTCAC/HCD Opportunity Area Map shall be eligible for an additional amount up to \$10,000 per MIP regulated unit. Opportunity Map Home Page: <a href="https://www.treasurer.ca.gov/ctcac/opportunity.asp">www.treasurer.ca.gov/ctcac/opportunity.asp</a>
- 2. Loan size based on project need but cannot be more than 50% of the permanent loan amount.

# Mixed-Income Subordinate Loan Rates & Terms

- 1. Interest Rate: Greater of 1% simple interest or the applicable federal rate (AFR) at time of MIP closing.
- 2. Loan Term: The MIP loan term shall be coterminous with the CalHFA permanent first lien loan.
- 3. Lien Position: Second lien position, after CalHFA permanent first lien loan.
- 4. Loan Payment: Residual receipt repayment based on cash flow analysis and split 50% to Owner and 50% to CalHFA and other residual receipt lenders. Residual receipt is defined as 50% of surplus cash which is determined as net operating income minus total debt service and other Agency approved payments. Payments shall be applied to the current and/or accrued interest and then principal of the MIP loan. Deviation from the net cash flow split may be granted 1) to meet equity investor's deferred developer's fee requirement as evidence by the limited partnership agreement, and 2) is subject to approval(s) by other residual receipt lender(s), as applicable.
- 5. Affordability Term: 55 years.
- 6. Prepayment: May be prepaid at any time without penalty.
- 7. Subordination: A subordination and/or extension of MIP maturity request in conjunction with a resyndication, refinance, or ownership transfer ("capitalization event(s)") will be considered. If MIP loan is outstanding at time of the capitalization event(s) and requires subordination at the time of such event, the surplus cash split between borrower and CalHFA and other residual receipt lenders may be altered to reflect an increased percentage of residual receipts to CalHFA out of Borrower's share until such time as the MIP loan is paid in full. The remaining residual receipts may be split between other residual receipt lenders.
- 8. Funded: Only at permanent loan conversion.

# TAX-EXEMPT PERMANENT LOAN PROGRAM

CalHFA's Tax-Exempt Permanent Loan Program ("Perm Loan") provides competitive tax-exempt long-term financing for affordable multifamily rental housing Projects. Eligible projects include newly constructed or acquisition/rehabilitation developments that provide affordable housing opportunities for individuals, families, seniors, veterans, and special needs tenants ("Project").

# Qualifications

- Available to for-profit, non-profit, and public agency sponsors.
- Tax-exempt bond authority must be obtained from the California Debt Limit Allocation Committee (CDLAC) or through a 501(c)(3) exemption.
- The Tax-Exempt Permanent Loan may be used with or without 4% low income housing tax credits.
- If a lender other than CalHFA is providing short-term, first-lien debt, CalHFA shall be used as the bond issuer (for more information, review the Conduit Issuer Program Term Sheet).
- For Section 8 Projects, a final commitment is conditioned upon review and acceptance by CalHFA of the HAP or AHAP contract.
- The Perm Loan will be credit-enhanced through CalHFA's HUD/FHA Risk Sharing Program.
- For existing CalHFA portfolio loans, the current owner is required to pay off all outstanding CalHFA debt. Visit www.calhfa.ca.gov for the <u>CalHFA Portfolio Loan Prepayment Policy</u>.

### **Loan Amount**

- Minimum Perm Loan amount of \$5,000,000.
- Minimum 1.15x for initial debt service coverage ratio (include any financing with amortizing debt). If a Project includes CalHFA's subsidy loan, the maximum DSCR at year 1 shall not exceed 1.20, unless CalHFA approves a higher DSCR at its own discretion. The year 1 DSCR underwritten at the time of final loan approval and final commitment must be maintained as the minimum DSCR through the term of the Perm Loan. CalHFA may require the initial DSCR to be higher than the minimum 1.15x, if deemed necessary to meet the Agency's underwriting requirements.
- Lesser of 90% of restricted value or 100% of development costs. For Projects with equity being cashed out, the Perm Loan amount will be restricted to no more than 80% of the restricted value.

# Fees (subject to change)

- Application Fee: \$10,000 non-refundable, due at time of application submittal, and is credited toward
  the CalHFA Legal Fee at Perm Loan closing. The applicant may be subject to a new Application Fee if the
  CalHFA commitment expires prior to construction loan closing.
- Perm Loan Fee: 1.00%, half due at final commitment, with balance due at Perm Loan closing.
- Credit Enhancement Fee: included in the interest rate.
- Annual Monitoring Fee: \$7,500 annually (not to be duplicated if used in conjunction with CalHFA's Conduit Program).
- Inspection fees should be estimated at \$500 per month for the term of the construction (reports and fees can be shared with other construction lenders)
- Legal Fee: \$35,000, half due at final commitment, with balance due at Perm Loan closing.
- Perm Loan Funding Fee: \$110,000 at Perm Loan closing.
- Administrative Fee: \$1,000 at Perm Loan closing.
- Letter of Interest Fee: \$5,000 at LOI request, and is credited toward the CalHFA Perm Loan Fee

See CalHFA standard Conduit Issuer Program Term Sheet for information on conduit issuance fees.

# Rate & Terms (subject to change)

#### Interest Rate:

- 17-Year Balloon Loans: 15-Year "AAA" Municipal Market Data (MMD) plus CalHFA spread
- 30-Year Balloon and Fully Amortizing Loans: 30-Year "AAA" MMD plus CalHFA spread
- Estimated CalHFA Spread: 2.00% to 3.00%
- Rate may be locked up to 30 days prior to the construction loan closing. Rate may be locked for the term of the construction period, not to exceed 3 years.

### Amortization/Term:

- Amortization: Up to 40 Year Amortization
- Term: Fully Amortizing, and 17- or 30-Year Balloons available1
- Perm Loan Reduction: up to 10% reduction at Perm Loan closing permitted at no cost.
- Up to two, three-month extension(s) permitted upon payment of a fee equal to 0.25% of the Perm Loan amount for each three-month extension.
- Breakage Fee (if applicable): due between construction loan closing and Perm Loan closing and calculated based on hedge termination cost.
- 1. Balloon loans subject to agency approved exit strategy.

# **Loan Closing** Requirements

- 90% stabilized rental housing occupancy for 90 days as evidenced by rent rolls.
- 90% of tax credit investor equity shall have been paid into the Project.
- Project income is sufficient to pay operating expenses, required debt service, reserves and monitoring fees.
- For mixed-use Projects, 100% non-residential occupancy as evidenced by executed leases or guarantees.
- Deposit Account Control Agreement between CalHFA, the Borrower and lending institution is in form and substance acceptable to all parties and ready to be executed at Perm Loan closing.

# **Prepayment**

The Perm Loan may be prepaid at par after 15 years of the Perm Loan period. However, the Perm Loan may be prepaid after 10 years of the Perm Loan period subject to a yield maintenance calculation of:

- 5% of the principal balance after the end of year 10
- 4% of the principal balance after the end of year 11
- 3% of the principal balance after the end of year 12
- 2% of the principal balance after the end of year 13
- 1% of the principal balance after the end of year 14

All prepayments require a prior written 120-day notice to CalHFA.

# **Subordinate Financing**

Financing or grants are encouraged from local governments and third parties to achieve project feasibility. All financing, leases, development and regulatory agreements must be coterminous (or have a longer term than the combined terms of any CalHFA Acq/Rehab Loan and Perm Loan) and be subordinate to CalHFA financing. A Lien Priority/Position Estoppel in form and substance acceptable to CalHFA will be required prior to construction financing closing, if applicable.

# **Occupancy** Requirements

2022 CALIFORNIA HOUSING FINANCE AGENCY

Must maintain the greater of (A) existing affordability restrictions, or (B) either (i) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of the area (county) median gross income as determined by HUD ("AMI") with adjustments for household size ("20% @ 50% AMI"), or (ii) 40% or more of the units must be both rent restricted and occupied by individuals whose income is 60% or less of the AMI, with adjustments for household size ("40% @ 60% AMI"): however in the latter case, a minimum of 10% of the units must be at 50% or less of AMI (i.e., 30% @ 60% AMI; 10% @ 50% AMI).

# Occupancy Requirements (continued)

Any units restricted by the Agency pursuant to this program, including those units restricted in addition to the minimum requirements set forth above, shall be rented at rents up to 30% of the applicable income restriction using the occupancy assumptions required in the Agency's Regulatory Agreement. Rents for all restricted units must be at least 10% below market rents as evidenced by current market study or an appraisal.

CalHFA's regulated units must represent a comparable share of the available unit sizes (by bedroom count and square feet) and be disbursed throughout the project.

# **Due Diligence**

The following due diligence is required to be provided at the Owner/Borrower's expense (refer to the program's document checklist for a full list):

- Appraisal\* (a construction lender's appraisal may be acceptable).
- HUD-2530 previous participation clearance.
- Construction Costs Review for new construction loans (other construction lender's review is acceptable).
- Physical Needs Assessment\* ("PNA") for rehabilitation projects with a Replacement Reserve Needs Analysis
  ("RRNA") over time for the first 20-year term (other lender's PNA/RRNA may be acceptable). A RRNA for a
  longer time period may be required if the Perm Loan term is greater than 20 years.
- Phase I and Phase II (if applicable) Environmental Site Assessment\* including, but not limited to, impact
  reviews that meet federal environmental requirements (such as historic preservation and noise remediation).
   The Purpose section of Phase I must state "a purpose of the Phase I is to document compliance with HUD
  policy pursuant to 24 CFR §58.5(i)(2) or §50.3(i)".
- Market Study\* satisfactory to CalHFA.
- NEPA Review.
- Termite/Dry Rot reports\* by licensed company.
- Seismic review\* and other studies may be required at CalHFA's discretion.

\*Note: Third party reports shall be within 180 days prior to the CalHFA's final commitment approval and may be subject to a new or updated report if the report(s) was completed more than 180 days prior to construction loan closing, in CalHFA's sole discretion.

# Required Impounds and Reserves

- Replacement Reserve: Initial cash deposit required for existing Projects with annual deposits between \$250 and \$500 per unit/per year depending on the Project type and PNA/RRNA findings.
- Operating Expense Reserve ("OER"): 3-6 months of operating expenses, reserves, debt service, and
  monitoring fees due at Perm Loan closing (letter of credit or cash) and held for the life of the CalHFA Perm
  Loan by CalHFA. In the event OER funds are drawn down during the term of CalHFA Perm Loan, it must be
  replenished over a period of 12 months to the original level.
- Impounds held by CalHFA: One year's prepaid earthquake, hazard and liability insurance premiums, and property tax assessments are collected at loan closing. An earthquake insurance waiver is available for Projects which have met CalHFA earthquake waiver standards during rehabilitation or construction.
- Transition Operating Reserve (TOR): required for Projects with state or locally administered rental subsidy contracts with contract terms that are less than 20 years or the CalHFA Perm Loan term.
- Other reserves as required (at CalHFA's discretion).

# California Housing Finance Agency

# CONDUIT ISSUER PROGRAM

# MULTIFAMILY HOUSING BONDS

Term sheet effective for applications submitted after March 1, 2022

The CalHFA Conduit Issuer Program is designed to facilitate access to tax-exempt and taxable bonds ("Bond") by developers that seek financing for eligible projects that provide affordable multifamily rental housing for individuals, families, seniors, veterans or special needs tenants ("Project"). The conduit Bonds may be used to finance the acquisition, rehabilitation, and/or development of an existing Project, or they can be used for the construction of a new Project.

# Qualifications Available to for-profit, nonprofit or public agency sponsors. Nonprofit borrowers may be eligible for 501(c)(3) bonds. If bond proceeds are utilized to pay off an existing CalHFA portfolio loan visit www.calhfa.ca.gov for the CalHFA Portfolio Loan Prepayment Policy. **Bond Amount** Bond amount is determined by the loan amount of the selected construction lender. Application Fee: \$5,000 non-refundable, due at time of application submittal (covers the cost of the TEFRA **Fees** (subject to change) required for tax-exempt issuances) and is credited toward the CalHFA Issuer Fee. 1. The greater of \$15,000 or 18.75 basis points of the Bond amount if lesser than or equal to \$20 million. 2. If more than \$20 million: \$37.500 + 5 basis points for the amount above \$20 million. Annual Administrative Fee: 5 bps of the tax-exempt bond issuance amount due at construction loan closing and due annually thereafter until permanent loan conversion. After permanent loan conversion, billed annually in advance, 5 bps of unpaid principal balance amount of tax-exempt bond financed loan(s) until bonds are fully redeemed. Minimum Annual Administrative Fee shall be \$4,000 through both the Qualified Project Period and the CDLAC compliance period. For taxable only issuances, annual administrative fees above will be charged based on the taxable bond financed loan(s) for the term of the CalHFA affordability restrictions. If used in conjunction with a CalHFA permanent loan product, the annual administrative fee will not be duplicated. Please refer to the applicable permanent loan term sheet for the annual administrative fee. Public Sale: Additional fee of \$5,000 to \$10,000 applies when Bonds are sold to the public. CDLAC Allocation Fee: 0.035% of the Bond amount, \$1,200 of which is due at time of CDLAC application submittal with the remaining fee due at construction loan closing and payable to CDLAC. CDLAC Performance Deposit: 0.50% of the requested Bond amount, not to exceed \$100,000, due at time of CDLAC application submittal. Deposit to be refunded after the Bond closing, upon receipt of authorization letter from CDLAC. The Borrower shall be responsible for all other costs of Bond issuance including fees of the underwriter, trustee, rating agencies, lender, compliance administrator, all Bond counsel legal fees, and any other parties required to complete the transaction.

# Occupancy Requirements

- Either (A) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of the area median income as determined by HUD ("AMI") with adjustments for household size ("20% @ 50% AMI"), or (B) 40% or more of the units must be rent restricted and occupied by individuals whose income is 60% or less of AMI, with adjustments for household size ("40% @ 60% AMI"); however in the latter case, a minimum of 10% of the units must be at 50% or less of AMI.
- Any units restricted by the Agency pursuant to this program, including those units restricted in addition to
  the minimum requirements set forth above, shall be rented at rents up to 30% of the applicable income
  restriction using the occupancy assumptions required in the Agency's Regulatory Agreement. Rents for
  all restricted units must be at least 10% below market rents as evidenced by a current market study or an
  appraisal.
- Borrower will be required to enter into a Regulatory Agreement which will be recorded against the Project
  for the Qualified Project Period (as defined in the CalHFA Regulatory Agreement). This includes the later
  of the federally-required qualified project period, repayment of the Bond funded loan, redemption of the
  Bonds, the full term of the CDLAC Resolution requirements or 55 years.

Resolution No. 22-26 Page 2

WHEREAS, the Board wishes to grant the staff the authority to enter into a loan commitment to provide permanent financing for the development and taking out the Conduit Bonds upon Agency staff determining in its judgment that reasonable and prudent financing mechanisms can be achieved;

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors (the "Board") of the California Housing Finance Agency as follows:

1. The Executive Director, or in her absence, the Chief Deputy Director, is hereby authorized to execute and deliver a final commitment letter, in a form acceptable to the Agency, and subject to recommended terms and conditions set forth in the Staff Report and any terms and conditions as the Board has designated in the Minutes of the Board Meeting, in relation to the Development described above and as follows:

PROJECT <u>NUMBER</u>	DEVELOPMENT NAME/ LOCALITY	MORTGAGE <u>AMOUNT</u>	
21-002-A/X/N	ANTON POWER INN Sacramento, Sacramento County California	\$23,201,000.00	Tax-Exempt Permanent 1st Lien Loan with HUD Risk Sharing
		\$12,154,205.00	Lien Subsidy Loan
		(	<u>00 </u> MIP Allocation 00 Supplemental

 (\$8,000,000.00 MIP Allocation; \$4,154,205.00 Supplemental MIP Allocation)

The Board recognizes that in the event that staff cannot determine that reasonable and prudent financing mechanisms can be achieved, the staff will not enter into loan commitments to finance the Development. In addition, access to capital markets may require significant changes to the terms of loans submitted to the Board. Notwithstanding paragraph 2 below, the staff is authorized to make any needed modifications to the loan which in staff's judgment are directly or indirectly the result of the disruptions to the capital markets referred to above.

2. The Executive Director may modify the terms and conditions of the loan or loans as described in the Staff Report, provided that major modifications, as defined below, must be submitted to this Board for approval. "Major modifications" as used herein means modifications which either (i) increase the total aggregate amount of any loans made pursuant to the Resolution by more than 7%; or (ii) modifications which in the judgment of the Executive Director, or in her absence, the Chief Deputy Director of the Agency, adversely change the financial or public purpose aspects of the final commitment in a substantial way.

Kate Ferguson, Director of Multifamily

From: CALIFORNIA HOUSING FINANCE AGENCY

Subject: UPDATE ON MULTIFAMILY LOAN PRODUCTION

CalHFA offers a variety of loan programs with competitive rates and long-term financing to advance the creation and preservation of affordable housing for people who truly need it. CalHFA's Taxable, Tax-Exempt, and/or CalHFA funded Permanent Loan programs provide competitive long-term financing for affordable multifamily rental housing projects. The CalHFA Mixed-Income Program provides competitive long-term subordinate financing for new construction multifamily housing projects restricting units between 30% and 120% of county Area Median Income. The CalHFA Conduit Issuer Program is designed to facilitate both for-profit and non-profit developers in accessing tax-exempt and taxable bonds for the financing of family and senior affordable and mixed-income housing developments. The goals of the programs are to increase and preserve the supply of affordable rental housing, maintain a quality living environment, leverage private sector funds to the greatest extent possible, and to cooperate with local jurisdictions to advance affordable housing goals.

#### **State of California**

#### MEMORANDUM

To: Board of Directors Date: August 24, 2022

Erwin Tam, Director of Financing

From: CALIFORNIA HOUSING FINANCE AGENCY

Subject: AGENCY BONDS, INTEREST RATE SWAPS AND FINANCING RISK FACTORS REPORT

#### **EXECUTIVE SUMMARY:**

Since our last report, CalHFA's bonds outstanding have decreased by \$68 million from \$137 million to \$69 million, all of which are fixed rate. Additionally, the Agency's swap notional amount outstanding increased by \$245 million, from \$458 to \$703 million.

- 1) We currently have \$337mn long-term swap notional currently held in our two primary indentures, HMRB and MHRBIII. This is due to our successful strategy of aggressively de-leveraging the balance sheet by redeeming variable rate bonds.
- 2) Our collateral posting risk has been contained to around the \$20 million range—at its height, it was \$132 million.
- 3) We are actively seeking to reduce the Agency's swap exposure through opportunistic termination of Pre-2014 swaps in the current market.
- 4) We are also entering new swaps to hedge interest rate risk on new forward multifamily commitments not adequately covered by our current swap portfolio. The Agency will cash-settle these swaps at the financing of the permanent loans. We currently have \$366mn in swap notional hedging these commitments.

The following report describes our bond and interest rate swap positions as well as the related risks associated with our financing strategies. The report is divided into sections as follows:

- 1) Outstanding Bonds
- 2) Interest Rate Swaps
- 3) Financing Risk Factors
  - a) Termination Risk/Guarantor Risk
  - b) Collateral Posting Risk

This report is organized programmatically by indenture as follows: HMRB (Home Mortgage Revenue Bonds—CalHFA's single family indenture), MHRB (Multifamily Housing Revenue Bonds III—CalHFA's largest multifamily indenture), and Stand Alone (four Multifamily deals funded with limited/special obligation bonds).

#### 1) BONDS OUTSTANDING

Below is the Agency's outstanding debt position. This table does not include any pass-thru or conduit financings which make up an additional \$4.54 billion. For the purposes of this report, this conduit/pass-thru amount will not be included in the tables or calculations.

#### BONDS OUTSTANDING As of August 1, 2022 (\$ in millions)

Indenture	Amount Outstanding			
HMRB (SF)	23			
MHRB (MF)	0			
Stand Alone (MF)	45			
Total	68			

#### 2) Interest Rate Swaps

Prior to the redemption of all CalHFA's variable rate bonds, our fixed-payer swaps were intended to establish synthetic fixed rate debt by converting our variable rate payment obligations to fixed rates. The Agency no longer has variable rate bonds outstanding, but we still have obligations to make payments under the remaining swap agreements.

Currently, we have a total of 62 "fixed-payer" swaps with 13 different counterparties and 12 different guarantors for a combined notional amount of \$703 million. For fixed-payer swaps, we receive floating rate payments in exchange for a fixed-rate obligation. The Agency makes net payments to the counterparties. In certain cases, the counterparties have guarantors, which would provide payments should the counterparty be unable to fulfill their obligations.

CalHFA's current hedging strategy includes new interest rate swaps to hedge multifamily loan commitments. To date, CalHFA has 22 interest rate swaps under this strategy. The table below provides a summary of our swap notional amounts.

SWAPS (\$ in millions)

Source	Current Notional			
MF Loan Commitments	366			
MHRB (MF)	266			
HMRB (SF)	71			
Total	703			

In the current interest rate environment, CalHFA pays a net amount to each of its counterparties. For example, on August 1, 2022, the Agency made a total of \$6 million of net payments to our counterparties. Swaps that were entered into after 2003 had swap termination options which allowed CalHFA to terminate all or portions

#### 3) FINANCING RISK FACTORS

#### A) TERMINATION/GUARANTOR RISK

Termination risk is the risk that, for some reason, our interest rate swaps must be terminated prior to their scheduled maturity. Our swaps have a market value that is determined based on current interest rates. When current fixed rates are lower than the fixed rate of the swap, our swaps have a negative mark-to-market, and termination would result in a payment from us to our counterparty. Conversely, when current fixed rates are higher than the fixed rate of the swap, our swaps have a positive value to us, and termination would result in a payment from the provider of the swap to us.

It should be noted that, in a termination event, the market determines the amount of the termination payment and who owes it to whom. Depending on the market, it may be that the party who has caused the termination is owed the termination payment.

August 24, 2022

On a historical basis, the highest negative mark-to-market value of CalHFA's swaps was \$380 million in January 2012. Below is the current termination value of our swaps. The table has been updated from last report to include the new swaps hedging our multifamily commitments.

TERMINATION VALUE

Date	Termination Value \$ in millions
12/30/2020	(104.1)
03/30/2021	(89.4)
06/30/2021	(83.5)
09/30/2021	(74.9)
12/30/2021	(73.3)
03/30/2022	(60.0)
06/30/2022	(22.4)

Additionally, the following table provides information on how much we would owe each counterparty in the event of a swap termination.

Guarantor risk is a type of termination risk where the Agency's swap guarantor defaults or has a significant decline in its credit rating that would cause the termination of the swap. This is in part mitigated by having a diversified group of swap guarantors

The following table shows the diversification of our fixed payer swaps among the 12 firms acting as our swap guarantors.

#### **B) COLLATERAL POSTING RISK**

Some swap agreements have collateral posting requirements. Collateral posting requirements are a function of the mark-to-market, ratings, threshold amounts, independent amounts and any collateral already posted. Our swaps are valued weekly, and our collateral position is adjusted weekly based on those valuations. Failure to post the required collateral can result in a termination event. At its peak, CalHFA was required to post \$132 million of collateral at the end of January 2012. Between February 1, 2022 and August 1, 2022, the Agency's collateral posting requirements have ranged between \$17 million and \$22 million.

The table below shows collateral amounts we are currently required to post to swap counterparties.

<sup>\*\* 1</sup> Swap counterparty's rating has triggered Additional Termination Event (ATE); Agency has right to terminate the associated swaps; additionally, the rating agencies no longer consider these swaps to be effective hedges see 'Termination Risk' section of report

#### MEMORANDUM

To: Board of Directors Date: August 31, 2022

Erwin Tam, Director of Financing

From: CALIFORNIA HOUSING FINANCE AGENCY

**Subject:** ANNUAL INVESTMENT REPORT

In 2022, the Board adopted an amended and restated Investment and Debt Management Policy (the "Policy"). Section XXIII of the Policy requires an annual report prepared by the Financing Division to the Board of Directors on the Agency's investments.

Due to delays in receipt of certain financial information on the Agency's allocated CalPERS and OPEB liability, CalHFA completed its audit for the fiscal year ending June 30, 2021, on July 22, 2022.

Attached for your information is an investment report as of June 30, 2021, the end date for the most recent fiscal year audit. 81% of the Agency's funds are invested in the Surplus Money Investment Fund, held in the Pooled Money Investment Account administered by the State Treasurer. 16% of the Agency's funds are invested in Mortgage-backed securities insured by either the Federal National Mortgage Association (FNMA) or the Government National Mortgage Association (GNMA). The remaining 3% of the funds are invested in commercial paper, money market funds, or in a collateralized account. These investments are eligible investments in the Policy (Sections XI and XII). This report and its supporting tables detail how CalHFA moneys continue to be invested in accordance with the Policy.

## ANNUAL INVESTMENT REPORT JUNE 30, 2021

#### **SUMMARY**

Invested accounts include restricted or encumbered funds, such as CalHFA's operating reserve fund, CalHFA's hedge reserve account, mortgage impound accounts, assets pledged to secure bondholders through CalHFA's bond indentures, and funds administered by CalHFA for state mandated programs. As of June 30, 2021, CalHFA had \$1.5 billion of cash, cash equivalents and investments (together "investments"), see Table 1 on page 4.

In total, CalHFA's investments are heavily concentrated in the State Investment Pool (81% of the total).

#### STATE INVESTMENT POOL (SURPLUS MONEY INVESTMENT FUND "SMIF")

As shown in the Table 1 on page 4, we have \$1.25 billion invested in the State Investment Pool, also referred to as Surplus Money Investment Fund ("SMIF"), which, over time, has given us security, a relatively competitive return (relative to similar investment vehicles such as Money Market Funds), complete liquidity, and administrative simplicity.

As stated in the Policy, we invest most of the non-bond indenture moneys (funds invested under our Housing Assistance Trust, Contract Administration Programs, money received from HUD for the Section 8 projects, servicing impound account moneys, funds held in the Agency's operating account and general reserves of the Agency), in SMIF (Table 1).

The State's treasury operations are managed in compliance with the California government code and according to a statement of investment policy which sets forth permitted investment vehicles, liquidity parameters and maximum maturity of investments. The Pooled Money Investment Account (PMIA) operates with the oversight of the Pooled Money Investment Board (consisting of the State Treasurer, the State Controller and Director of Finance).

The State Investment Pool's yield for the fiscal year ending June 30, 2021, was 0.500%.

#### **SECURITIES**

Tables 2-4 provide additional information about the \$255.1 million (fair market value) of securities held by the Agency, which are Fannie Mae and Ginnie Mae securities backed by loans originated for our single family and multifamily programs.

#### U.S. BANK N.A. COMMERCIAL PAPER

The Agency invests funds under the Residential Mortgage Revenue Bond and the Affordable Multifamily Housing Revenue Bond indentures in U.S. Bank Open Commercial Paper (CP). On these transactions, U.S. Bank also serves as the bond trustee. The Open CP agreements are unsecured promissory notes issued by U.S. Bank National Association and are not insured by Federal Deposit Insurance Corporation ("FDIC") or guaranteed by any governmental agency or

Board of Directors - 2 - August 31, 2022

authority, or by U.S. Bank N.A. The Open CP has a short-term rating of A1+/P1 and a long-term rating of AA-. On June 30, 2021, the amount deposited in CP was \$0.1 million (Table 1).

#### MONEY MARKET AND BANK DEPOSITS

Occasionally the Agency will have on deposit, with our bond trustee, bond (indenture) funds which the bond trustee sweeps, nightly, into a U.S. Treasury money market fund. On June 30, 2021, the amount deposited in the MMF was \$6.2 million (Table 1).

#### State of California

#### MEMORANDUM

**To:** Board of Directors Date: September 22, 2022

From: Kate Ferguson, Director of Multifamily Programs

CALIFORNIA HOUSING FINANCE AGENCY

Subject: ASSET MANAGEMENT QUARTERLY PORTFOLIO REPORT

The CalHFA Asset Management Portfolio is comprised of 728 projects with a balance of \$1.234 billion in financing as of June 30, 2022. The CalHFA portfolio consists of 16,486 affordable home units throughout the State of California.

The portfolio is broken down by type of program as follows:

- 10 Section 8 (Contract Administrator)
- 96 CalHFA Permanent (Risk Share)
- 204 CalHFA Permanent (Non-Risk Share)
- 196 Mental Health Services Act/Special Needs Housing Program
- 70 Conduit
- 37 Section 811 (Contract Administrator)
- 115 School Facility Fee Reimbursement Program
- 728 Total

The portfolio has a low delinquency rate of 0.08%, which is only one project. There is one project on the Watch List for various issues such as untimely submission of annual financial reports, lack of compliance with the regulatory agreement, or pending completion of physical improvements recommended at time of inspection.

#### Preservation Strategy

There are 42 Loans on 41 projects (one project has two CalHFA loans) scheduled to mature within the next five years. The Multifamily Program has initiated a preservation strategy of the existing portfolio in an effort to extend affordability of the CalHFA financed projects.

The goals of the Multifamily Asset Management Program are to increase and preserve the supply of affordable housing, assure the maintenance of a quality living environment, assure the projects are financially sound and sustainable, and to cooperate with local jurisdictions to advance affordable housing throughout the State.

#### MEMORANDUM

**To:** CalHFA Board of Directors **Date:** September 7, 2022

Francesc Martí, Director of Strategy, Policy and Legislative Affairs

From: CALIFORNIA HOUSING FINANCE AGENCY

**Subject:** STATE LEGISLATIVE UPDATE

The State legislative Session ended on August 31<sup>st</sup> and the Governor has until the end of September to sign or veto bills that have been sent to his desk. Only a handful of bills directly affect CalHFA:

- AB 2006, which calls for an MOU across state housing entities to streamline compliance monitoring regimes. CalHFA has engaged the author and sponsors of this bill and secured amendments that ensure this process will not interfere with its existing obligations.
- AB 157 has Trailer Bill language which requires CalHFA to convene a working group of stakeholders tasked with examining the ADU space and making program recommendations.
- AB 179 has Budget Bill language which clarifies that ADU funds can also be used for factory built ADU products, in partnerships with local agencies and qualified non-profit entities and in matching funds for loans.

A number of other prominent housing bills have been enacted this session, including AB 2011 (Wicks) and SB 6 (Caballero), which will make it easier to build residential housing on commercially zoned land; SB 679 (Kamlager), which creates a regional HFA in Los Angeles, AB 2097 (Friedman), which curbs parking requirements, and AB 2334 (Wicks), which enhances Density Bonuses for low vehicle miles traveled (VMT) projects.

Below is a non-exhaustive list of bills that have either passed or are currently enrolled.

#### AB 157 (Committee on Budget) State government

Current Status: 8/31/22 Senate amendments concurred in. To Engrossing and Enrolling.

Enrolled and presented to the Governor at 9:30 p.m. **Current Location**: 8/31/22 A-ENROLLMENT

an

Subject: FY 2021-22 YEAR-END BUDGET REPORT

In May 2021, the Board approved the FY 2021-22 Operating Budget in conjunction with the adoption of the FY 2021-22 Business Plan. The approved operating budget included a resource budget of \$89 million and expenditure budget of \$39 million.

Subsequently, in March of 2022 we presented to the Board our revised projections for fiscal year 2021-22. The revised projections included a resource budget of \$70 million and expenditure budget of \$35 million. These budget adjustments were necessary to adapt and align to market fluctuations in interest rates, investor activities and real estate trends.

#### **RESOURCES:**

CalHFA's year-end Resources were \$63 million or 90% of the \$70 million mid-year revised projections.

Lending volume and revenues for our Single Family program are slightly lower than the revised projection due primarily to rising interest rates and the general lack of housing supply which has cut its way through the entire homeownership market and has been especially tough on the first-time homebuyer market. At year-end, the Single Family Lending program securitized \$2 billion in first mortgage loan volume representing 5,661 first-time homebuyers and 97% of the revised fiscal year lending goal of \$2.1 billion. The Single Family fee income for year-end was \$26 million which was short of the \$29.1 million, or 88%, of the

revised projections and was due to excessive market volatility in the secondary market

The Multifamily program continued to produce strong results in large part due to the continued oversubscription of the Mixed-Income Program (MIP) and the growth of the Conduit Issuance program. Additionally, there is growing interest is CalHFA's Bond Recycling program which has deployed over \$178 million in recycled bonds on preservation and new constructions projects at the mid-year mark. As a result, revenues are stable and growing. At year-end, Multifamily programs financed \$1.5 billion in lending activity representing 3,576 affordable housing units and 87% of the revised lending goal for the year. The fee income for year-end was \$5.3 million which was short of the \$7 million, or 77%, of the revised projections. The reduced volume and fee income was largely a result of 13 projects which were delayed until FY 22/23 due to COVID supply and labor disruptions, as well as local permitting issues.

#### **OPERATING BUDGET:**

CalHFA's Operating Expenses finished the year at \$37 million or 104% of the \$35 million mid-year revised projection but was well within the Board adopted operating budget of \$39 million. The added expenses to close out the year were attributable to one-time investments in technology and increased benefit costs incurred due to the Agency's shared obligation for the repayment of a CalPERS supplemental loan, as laid out in SB 84.

Salary and benefit costs made up 69% of the operating budget for both permanent and temporary positions. The fiscal year 2021-22 budget authorized 223.2 full time equivalent (FTE) positions (221 regular positions and 2.6 temporary positions). At year-end the Agency had 183 full time equivalent (FTE) positions (173 regular positions and 10 temporary positions).
