MEMORANDUM

To: Board of Directors **Date:** September 18, 2025

From: Steve Gallagher, Acting Director of Multifamily Programs

California Housing Finance Agency

Subject: Agenda Item 8 – Permanent Loan Increase for Shiloh Terrace,

Project No. 21020

Action: The CalHFA Senior Loan Committee has recommended that Chief Deputy Director Rebecca Franklin seek Board approval for a permanent loan increase for the Shiloh Terrace development by approving Resolution No. 25-25.

Development information:

- On November 16, 2021, the CalHFA Board of Directors approved a \$27,080,000 permanent tax-exempt loan and a \$3,900,000 Mixed-Income Program ("MIP") subsidy loan for Shiloh Terrace.
- Both the permanent loan (40-year amortization) and MIP subsidy loan (residual receipts) have terms for 17 years.
- Construction financing closed February 2022. Construction has been completed, and the development is undergoing its 90-day stabilization period.
- During construction, the development experienced cost increases, which have resulted in a financing gap that is being partially mitigated by the proposed permanent loan increase of \$6,420,000 (24% increase).
- Any permanent loan increase above 7% of the previously approved amount requires new approval by the CalHFA Board.

CalHFA Project #: 21020-A/X/N

Project Background

The Project is the new construction of a three-story and a four-story building, both elevator-served, that will contain 134 total units for families. The Project consists of 6 2-BR (721 SF) and 128 3-BR (955 SF) units. A 3-BR unit will be reserved as the manager's units. On November 16, 2021, the CalHFA Board of Directors ("Board") approved the final commitment under Resolution 21-20 for a \$27,080,000 permanent tax-exempt loan (1st lien, 40 year-partially amortizing due in year 17) ("Permanent Loan") and a \$3,900,000 CalHFA Mixed-Income Program ("MIP") (2nd lien residual receipts loan to finance the Project).

CalHFA secured a tax-exempt bond allocation for the construction financing of the Project in the amount of \$42,808,977 from the California Debt Limit Allocation Committee ("CDLAC") on August 11, 2021. The Project also received an award of \$38,380,840 of 4% Federal tax credits and \$9,807,392 of State tax credits on August 11, 2021, from the California Tax Credit Allocation Committee ("CTCAC"), and \$465,067 of solar tax credits.

The Final Commitment Letter ("FCL") was issued by the Agency on January 12, 2022, and was subsequently amended on December 30, 2024, to extend the Permanent Loan closing deadline from January 31, 2025, to May 1, 2025. On April 23, 2025, CalHFA amended the FCL a second time to extend the Permanent Loan closing deadline from May 1, 2025, to July 30, 2025. On July 29, 2025, CalHFA approved a third extension to the Permanent Loan closing deadline from July 30, 2025, to October 28, 2025. The interest rate on the Permanent Loan was locked at 4.00% on January 21, 2022.

Current Status and Request Summary

The construction financing closed on February 2, 2022. Construction of the buildings is completed with delayed offsite work set to begin in August. The temporary certificate of occupancy (TCO) was issued on December 19, 2024, and the City of Windsor will issue the final certificate of occupancy when the offsite work is completed. The Project is fully leased and is currently in its 90-day stabilization period. The Project is expected to convert to the permanent phase by October 2025.

During the construction period there were increases to the total development budget of approximately 7.4% over the original total development budget approved in the FCL. As a result, the Borrower is requesting a Permanent Loan increase of \$6,420,000 (23.7%) which requires Board approval.

CalHFA Permanent Loan Increase and new rate lock

The project experienced delays in construction completion caused by placement of electric utilities that blocked the proper placement of the storm drain. The utilities had to be removed to install the storm drain and the delay resulted in increased construction loan interest costs. This was further exacerbated by increases in the variable interest rate of the construction loan. The delay also resulted in negative adjusters on tax credit equity resulting in a 2.5% or \$1,025,001 reduction in tax credit equity. The variable interest rate on the JP Morgan Chase construction loan is tied to the 1-month Secured Overnight Financing Rate (SOFR). As the Federal Reserve increased the fed funds rate, the SOFR followed closely behind, which increased the expected interest carry significantly from construction close through expected permanent loan conversion. The Project was originally underwritten with a rate of 1.95% (for the T/E Construction loan) and 2.50% (for the Taxable construction loan) and the most current rate is 5.9% (for the T/E Construction loan) and 6.45% (for the Taxable Construction loan). As a result, construction period costs increased 180% or \$7,083,606. Other costs increased 24% or \$1,579,713 and the Borrower is requesting an increase in the Permanent Loan amount to help offset those increases.

CalHFA Financing issued a blended rate of 4.54% on 7/18/2025 for the increased loan amount of \$33,500,000. This rate is locked for permanent loan closing. If the loan amount changes or the Project fails to close by October 28, 2025, the rate lock will expire and the new rate, if issued, will be at the sole discretion of the Agency.

Multifamily has completed the updated underwriting for the requested Permanent Loan increase and determined that the Project can support a \$6,420,000 (23.7%) increase to the Permanent Loan amount previously approved by the Board. At current Project rental rates, operating expenses and the 4.54% permanent loan interest rate, the Project achieves an NOI of \$2,125,020 resulting in a DSCR of 1.17x for the permanent loan and a \$1,247,587 MIP loan balance at year 17. The appraised NOI is \$2,401,661 but the developer's conservative amount of \$2,125,020 was used for underwriting as this amount is based on actual operating numbers of the project. Per the updated Appraisal dated 6/4/2025, the LTV is expected to be 80% and CLTV of 90%.

Solar Tax Credits: \$522,600 assuming estimated pricing of \$0.89 (\$3,900 per total units).

Rental Subsidies: The Project will not be subsidized by project-based vouchers.

Other State Subsidies: The Project will not be funded by other state funds.

Other Locality Subsidies: The Project will not be funded by locality funds.

Cost Containment Strategy: All major subcontractor and self-performing trades will be bid out competitively, with a minimum of three bids for each individual trade. A value engineering consultant will also be engaged during the design stage to help control overall construction costs. The project team of Owners / Engineers / Contractors have been and will remain involved throughout the design stage, helping to control overall costs. The GC will be establishing a critical path (CMP) for the construction process to efficiently manage it in real time with the main purpose of mitigating potential delays. The project construction team has significant experience in affordable housing in general and working together in particular, and an established Request for Information ("RFI") system will also be employed on this project. The GC contract will be Guaranteed Maximum Price ("GMP") with minimal allowances for cost accuracy, and all potential savings shall be returned to owner.

High Cost Explanation: The total development cost is \$79,607,692 and the per unit is \$594,087, which is lower than CDLAC's maximum allocation calculation for the Project (\$85,211,000 or \$635,903 Per Unit). The following are a few contributing factors to the total development cost:

- o Development Costs- Due to its location in the North Bay Area and proximity to San Francisco, development costs in Windsor are expensive relative to other regions of California.
- o Impact Fees and Land Costs- Development impact fees of \$5,880,553 and land costs of \$4,050,000 are generally high in Windsor.
- Large Family Project- 95% of the units at Shiloh Terrace are large three-bedroom units with 100% of the units serviced by elevators.
- Offsite Improvements- \$2,000,000 of offsite improvements are required by the Town of Windsor entitlement conditions and include new lanes, parking, bike lanes, sidewalks, park strips, new traffic signalization and turn lanes on both Old Redwood Highway and Shiloh Road as part of the Windsor Community Plan and Design.

The estimated adjusted total development cost per unit, minus the contributing factors above, is approximately \$505,053.

TRANSACTION OVERVIEW

7. Proposal and Project Strengths

- The Project has received 4% tax credits which is projected to generate equity representing 52% of total financing sources.
- The Project will serve low-income families ranging between 30% to 70% of AMI.
- The projected portion of the developer's fee that will be collected at or prior to permanent loan conversion is \$2,795,142, which could be available to cover cost overruns and/or unforeseen issues during construction.
- The Project is receiving strong local support in the form of density bonuses and zoning waivers including reduced parking ratio, reduction in City required open space, and allowing an all-residential project in a mixed-use area

SLC Date: 1/1/2021 Board Date: 11/16/21

designated by the City's general plan.

8. Project Weaknesses with Mitigants:

- The exit analysis assumes 2% increase in the current cap rate and 3% increase of the underwriting interest rate at loan maturity. Based on these assumptions, the Project will have the ability to fully repay the balance of Agency's permanent first lien loan but may only have the ability to repay a portion of the Agency's subsidy MIP loan \$2,001,351 leaving an outstanding balance of \$3,068,649. This is as expected by CalHFA given the requirement that the MIP loan be co-terminus with the permanent first mortgage. The primary source of repayment for both the first mortgage and the MIP subsidy loan is refinance of the project first mortgage. To the extent such a refinance is insufficient to fully repay the MIP loan, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the final close out of partnership obligations to allow re-syndication.
- A Phase I report dated January 26, 2021 identified asbestos containing materials (ACM) and the potential for leadbased paint (LBP) in the 2 occupied single-family residences on the site that will be demolished during the construction period. Estimated remediation costs are included in the development budget. Evidence of environmental clearance will be required as a prerequisite to closing of the CalHFA permanent and MIP loans.
- The developer/sponsor does not have experience with CalHFA, however, they have extensive experience in developing similar affordable projects in this region. In addition, the locality is familiar with developer/sponsor and strongly supports the project.

9. Underwriting Standards or Term Sheet Variations

For purposes of MIP subsidy efficiency analysis, the underwriting of the permanent first lien loan is typically required to be sized based on the maximum TCAC income and rent limits. The developer is requesting an exception to this requirement and instead has requested that project rents for 43 of the units be limited to 34% below TCAC regulated maximum rents. This is a condition required by the investor to ensure that the income average of the property overall is approximately 55% of AMI (60% is the maximum), which mitigates the Project's risk of losing tax credits during the compliance period pursuant to income averaging requirements. The income for these 43 units average 47% below market rents for similar units vs. average of 18% below market rents if TCAC maximum rents are used. This request does not include the 10% of total units (14 units) restricted between 60% and 80% AMI as required by the MIP term sheet. To facilitate project feasibility, staff is recommending an exception to the MIP subsidy efficiency requirement to allow the project's permanent first lien loan underwriting to align with the investor's requirements.

10. Project Specific Conditions of Approval

Approval is conditioned upon:

- No site work or construction commenced prior to the issuance of a HUD Firm Approval Letter.
- Evidence of local approval from the Town of Windsor of final relocation plan and budget acceptable to Agency are required prior to construction loan closing.
- Receipt of LPA evidencing equity investor's requirements that the residual receipt split must be modified to 100% towards the earlier of repayment of deferred developer's fee or 15 years. In addition, the owner must provide evidence of investor approval of the total deferred developer's fee structure and residual receipt split.
- Evidence from JPMorgan Chase and investors that funding will be structured such that the JPMorgan Chase 80% loan to investment value ratio is satisfied.
- The City is requiring the Borrower to encumber the Property by recording a Density Bonus Agreement. Prior to construction loan closing and closing of the CalHFA loans, the Density Bonus Agreement is subject to CalHFA review and approval in accordance with Agency underwriting standards.
- CalHFA requires that MIP affordability covenants be recorded in first position senior to all foreclosable debt.
- Completion of NEPA review prior to construction loan closing.
- Per findings in Phase I Environmental Site Assessment, the developer will need to provide a detailed remediation plan for onsite contaminants prior to construction loan closing.
- Receipt of CUAC report that supports the proposed utility rates for the project.
- The total deferred developer's fee of \$6,645,059 will not be fully repaid by year 15 per project cashflow, therefore the owner must provide evidence of investor approval of the total deferred developer's fee structure. The

SLC Date: 1/1/2021 Board Date: 11/16/21

outstanding balance of approximately \$92,328 is anticipated to be contributed by to the developer to the Project. Funds from the CalHFA permanent loan and/or the subsidy loan shall not be used to fund or offset any portion of the offsite improvement costs not attributable to the Town of Windsor entitlement conditions and Community

- Receipt of a locality contribution letter stating the municipality's support for the project.
- The CalHFA subsidy will be, in the Agency's sole discretion, the lesser of 1) the principal amount as state on hereto or 2) an amount as determined by the Agency in the event the financial assumptions change prior to construction loan closing and/or permanent loan closing. For instance, if the permanent loan interest rate decreased, then the subsidy may be reduced due to additional debt generated by the lower interest rate. The debt service coverage ratio ("DSCR") shall be a maximum of 1.20. An increase of the subsidy loan will not be allowed and will be subject to Agency's approval.
- Subject to an updated Phase I report prior to construction loan closing.
- Funds from the CalHFA permanent loan and/or the subsidy loan shall not be used to fund or offset any portion of the offsite improvement costs required by the Town of Windsor entitlement conditions, except to the extent such costs are attributable to the improvements for the exclusive use by the tenants of the project.

Staff Conclusion/Recommendation:

The Multifamily Lending Division supports approval of the described financing in the amount(s) requested, subject to the above proposed terms and conditions.

AFFORDABILITY

CalHFA Affordability & Occupancy Restrictions

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum of 30% of the total units (41 units) at or below 60% AMI and 10% of the total units (14 units) at or below 50% AMI for 55 years.

The CalHFA MIP Subsidy Regulatory Agreement requires 10% of total units (14 units) at or below 50% of AMI and 10% of total units (14 units) between 60% and 80% of AMI with a minimum average of 70% of AMI and 79% of the total units (105 units) at or below 120% of AMI for a term of 55 years. The rents for the 60% to 80% tranche will be determined by the minimum income limit of 70% of AMI, not to exceed 80% of AMI. For underwriting purposes, the initial rents at permanent loan conversion must be no less than the underwriting rent levels outlined on the "Unit Mix and Rent Summary" enclosed.

In addition, the Town of Windsor Density Bonus Agreement will restrict a total of 21 units at or below 50% of AMI for a total of 55 years. The TCAC Regulatory Agreement will also restrict a total of 133 units between 30% and 70% AMI for a 55-years term.

APPRAISAL AND MARKET ANALYSIS

18. Appraisal Review Dated: 9/7/21

- The Appraisal dated September 7, 2021, prepared by Pacific Real Estate Appraisal values the land at \$4,450,000.
- The cap rate of 5% and projected net operating income, which is generally aligned with the proposed Project net operating income, were used to determine the appraised value of the subject site.
- The proposed operating expenses are consistent and reasonable based on the appraisal report.
- The as-restricted stabilized value is \$31,630,000, which results in the Agency's permanent first lien loan to value of 86%.
- The capture rate and absorption rate are 3.68% and 8 months (16 units per month), respectively. The capture rates and absorption rates differ from those of the market study due to the wider range of projects surveyed by the appraisal. The Project is expected to achieve 3-months of stabilization required to close the CalHFA permanent loan within the 36-month rate lock period.

Market Study: Prepared by Novogradac Consulting LLP Dated: 5/7/21

Regional Market Overview

- The Primary Market Area ("PMA") consists of the Town of Windsor and surrounding areas, including the communities of Mark West, Larkfield-Wikiup, and Fulton, and the northwestern portion of Santa Rosa (population of 87,421 and the Secondary Market Area ("SMA") is Santa Rosa Petaluma County MSA (population of 494,864).
- The general population in the PMA is anticipated to increase by 0.1% per year.
- Unemployment in the SMA is 5.5%, which evidences a strong employment area. The study did not include the unemployment rate for the PMA.
- Median home value in the PMA is \$687,353. The median home value in the SMA is \$664,600. Median home values in the PMA are about 3% higher than in the SMA.

Local Market Area Analysis

Supply:

- There are currently 27 family project(s) in the PMA, and all have occupancy percentages greater than 90% with long wait lists.
- There are eight affordable projects in the pipeline and one under construction which is anticipated to complete in 2021.

Demand/Absorption:

The project will need to capture 12.4% of the total demand for family units in the PMA. The affordable units are anticipated to lease up at a rate of 30 units per month and reach stabilized occupancy within 4 to 5 months of opening.

TAX-EXEMPT PERMANENT LOAN PROGRAM

CalHFA's Tax-Exempt Permanent Loan Program ("Perm Loan") provides competitive tax-exempt long-term financing for affordable multifamily rental housing Projects. Eligible projects include newly constructed or acquisition/rehabilitation developments that provide affordable housing opportunities for individuals, families, seniors, veterans, and special needs tenants ("Project").

Qualifications	 Available to for-profit, non-profit, and public agency sponsors. Tax-exempt bond authority must be obtained from the California Debt Limit Allocation Committee (CDLAC) or through a 501(c)(3) exemption. The Tax-Exempt Permanent Loan may be used with or without 4% low income housing tax credits. If a lender other than CalHFA is providing short-term, first-lien debt, CalHFA shall be used as the bond issuer (for more information, review the Conduit Issuer Program Term Sheet). For Section 8 Projects, a final commitment is conditioned upon review and acceptance by CalHFA of the HAP or AHAP contract. The Perm Loan will be credit-enhanced through CalHFA's HUD/FHA Risk Sharing Program. For existing CalHFA portfolio loans, the current owner is required to pay off all outstanding CalHFA debt. Visit www.calhfa.ca.gov for the CalHFA Portfolio Loan Prepayment Policy.
Loan Amount	 Minimum Perm Loan amount of \$5,000,000. Minimum 1.15x for initial debt service coverage ratio (include any financing with amortizing debt) and minimum of 1.05x for the term of the Perm Loan. Lesser of 90% of restricted value or 100% of development costs. For Projects with equity being cashed out, the Perm Loan amount will be restricted to no more than 80% of the restricted value.
Fees (subject to change)	 Application Fee: \$10,000 non-refundable, due at time of application submittal, and is credited toward the CalHFA Legal Fee at Perm Loan closing. Perm Loan Fee: 1.00%, half due at final commitment, with balance due at Perm Loan closing. Cost of Issuance Fee: \$110,000, half due at final commitment, with balance due at Perm Loan Closing. Credit Enhancement Fee: included in the interest rate. Annual Administrative Fee: \$7,500 annually (not to be duplicated if used in conjunction with CalHFA's Conduit Program). Inspection fees should be estimated at \$500 per month for the term of the construction (reports and fees can be shared with other construction lenders) Legal Fee: \$35,000, half due at final commitment, with balance due at Perm Loan closing. Administrative Fee: \$1,000 at Perm Loan closing. Letter of Interest Fee: \$5,000 at LOI request, and is credited toward the CalHFA Perm Loan Fee See CalHFA standard Conduit Issuer Program Term Sheet for information on conduit issuance fees.

MIXED-INCOME LOAN PROGRAM

The California Housing Finance Agency ("CalHFA" or "Agency") Mixed-Income Program ("MIP") provides competitive, long-term, subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product. The MIP resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of extremely low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

Qualifications

APPLICATION:

Sponsors/developers must submit a complete application package which includes all items listed on the application, the application addendum and the checklist. Incomplete application packages will not be considered. The application and checklist can be found at www.calhfa.ca.gov/multifamily/mixedincome/. If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated. If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated.

USES:

MIP Subsidy loans must be used in conjunction with CalHFA's Conduit Bond Issuance Program and a construction loan from a CalHFA Mixed-Income Qualified Construction Lender. MIP Subsidy loans must also be used in conjunction with CalHFA's permanent first-lien mortgage financing. CalHFA Mixed-Income Qualified Construction Lender is defined in the CalHFA Lender Qualifications section below.

FINANCING STRUCTURE:

Projects accessing the MIP Subsidy loan funds must be structured as one of the following:

- Tax-exempt Bond and 4% tax credit project where at least 51% of the units in the project must be tax credit financed, OR
- Qualified mixed-income project through income averaging pursuant to Internal Revenue Code Section 42 (g)(1)(C).

Pursuant to HUD-Risk Sharing requirements, sponsor is expected to start the NEPA process shortly after CalHFA verifies application completeness and determines that the project is ready to move forward with an initial commitment ("notification date"). - State tax credit request is expected to be within a range of \$50,000 to \$75,000 per unit. The projects that evidence the most efficient use of state tax credits and MIP per adjusted unit shall be prioritized for MIP funding considerations. The Board recognizes that in the event that staff cannot determine that reasonable and prudent financing mechanisms can be achieved, the staff will not modify the Commitment to finance the Development. In addition, access to capital markets may require significant changes to the terms of loans submitted to the Board. Notwithstanding paragraph 2 below, the staff is authorized to make any needed modifications to the loan which in staff's judgment are directly or indirectly the result of the disruptions to the capital markets referred to above.

2. The Executive Director may modify the terms and conditions of the loan or loans as described in the Staff Report, provided that major modifications, as defined below, must be submitted to this Board for approval. "Major modifications" as used herein means modifications which either (i) increase the total aggregate amount of any loans made pursuant to the Resolution by more than 7%; or (ii) modifications which in the judgment of the Executive Director, or in her absence, the Chief Deputy Director of the Agency, adversely change the financial or public purpose aspects of the final commitment in a substantial way.

Subject: Agenda Item 11B - Multifamily Quarterly Loan Production Report

CalHFA offers a variety of loan programs with competitive rates and long-term financing to advance the creation and preservation of affordable housing for people who truly need it. CalHFA's Taxable, Tax-Exempt, and/or CalHFA funded Permanent Loan programs provide competitive long-term financing for affordable multifamily rental housing projects. The CalHFA Mixed-Income Program provides competitive long-term subordinate financing for new construction multifamily housing projects restricting units between 30% and 120% of county Area Median Income. The CalHFA Conduit Issuer Program is designed to facilitate both for-profit and non-profit developers in accessing tax-exempt and taxable bonds for the financing of family and senior affordable and mixed-income housing developments. The goals of the programs are to increase and preserve the supply of affordable rental housing, maintain a quality living environment, leverage private sector funds to the greatest extent possible, and to cooperate with local jurisdictions to advance affordable housing goals.
