CalHFA California Housing Finance Agency

Save Our Water

December 22, 2017

To the Board of Directors, Legislature and Residents of the State of California:

The California Housing Finance Agency ("CalHFA") is pleased to present this Comprehensive Annual Financial Report ("CAFR") of the California Housing Finance Fund ("Fund") for the fiscal years ending June 30, 2017 and 2016. This report gives a general overview of CalHFA's financial position, in addition to satisfying the annual reporting requirements of California Health and Safety Code Section 51005. It also shows our continuing commitment to prudent and responsible financial management, in addition to giving context and background about the environment in which we operate.

The Fund's management is responsible for establishing and maintaining internal controls designed to provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, transactions are executed in accordance with management's authorization, and transactions are recorded properly to permit the preparation of the financial statements in accordance with generally accepted accounting principles ("GAAP"). Internal control is also designed to reduce, to an acceptable level, the risk that errors or irregularities in amounts that would be material in relation to the financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Management believes the Fund's internal accounting and operational controls adequately meet the above criteria.

The CAFR is presented in three sections: Introductory, Financial and Statistical. The Introductory section includes this transmittal letter, a list of Board of Directors and CalHFA Senior Staff, and an organizational chart. The Financial section includes the basic financial statements as well as the unqualified opinion of CliftonLarsonAllen LLP. The independent auditor concluded, based upon the audit, the Fund's financial statements as of June 30, 2017 and 2016 are fairly presented in conformity with GAAP. The Statistical section contains selected financial, demographic and operating information, generally presented over a multi-year basis. GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statement in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of the independent auditor.

Mission and Organization of CalHFA

CalHFA's mission is to create and finance progressive housing solutions so more Californians have a place to call home. The Agency was established in 1975 by Governor Edmund G. Brown Jr.'s signature of the Zenovich-Moscone-Chacon Housing and Home Finance Act, with the purpose of working with the private sector to provide more affordable housing for California. CalHFA is governed by a Board of Directors, whose names and titles can be found in this report, and is a Department within the State's organizational structure. The Board oversees an Executive Director, who is an appointee of the Governor and directs the staff of the Agency.

Relevant Financial Policies

Accounting Systems

California Housing Finance Fund is a fund of a component unit of the State and accounted for as an enterprise fund. The fund uses the full accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Budgetary Controls

CalHFA is not subject to an appropriated budget by the State nor is it required to adopt a legally authorized, non-appropriated budget. However, for sound financial management and oversight purposes, an annual budget is presented to and approved by the Board of Directors. In addition, the Agency produces quarterly reports to managers and executive staff on the status of the budget and on any actions needed to ensure that the Agency operates within the adopted budget. Mid-year budget and mid-year business plan updates are provided to the Board of Directors in March of each year. Additionally, monthly financial budgetary reports comparing actual revenues and expenditures to budget are provided to the Agency's Senior Management team and division managers to assist them with timely information for managing their budget.

Internal Controls

The Fund's management is responsible for establishing and maintaining an internal control structure designed to ensure that the Agency's assets are protected from loss, theft or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefits likely to be derived, and that the valuation of costs and benefits requires estimates and judgments by management.

Financial Policy Oversight

The Agency has established the ongoing Audit Committee to assist the Board of Directors in fulfilling its oversight responsibilities in the area of financial reporting and accounting integrity. The Audit Committee is comprised of no fewer than three voting members of the Board, selected by the Chairman of the Board to serve on a rotational basis with staggered terms. The Committee meets at least twice per year to conduct meetings with the independent auditor, management and staff that serve as resources for their understanding of the Agency's financial reporting responsibilities and any significant issues related to financial reporting and accounting policies.

Cash Management

CalHFA's investment policy provides guidelines for the prudent investment of funds authorized to be deposited or invested by the Agency. The ultimate goal is to enhance the Agency's financial return consistent with the prudent protection of the Agency's investments while conforming to all applicable state statutes governing the investment of these funds.

Debt Management

A summary of the Agency's outstanding debt is provided under the MD&A following this report and also in Note 6 to the basic financial statements.

Employees

As of June 30, 2017, the California Housing Finance Agency had a total of 219 out of 266 authorized positions filled. CalHFA has two office locations, Sacramento and Culver City, with the majority of the staff located in the Sacramento office.

Major Initiatives

It was a landmark year for CalHFA. Starting off, one of the Agency's Single Family Lending programs, CalPLUS, had enormous success in FY 2017. We securitized 7,259 first mortgage loans to low and moderate income homebuyers, for a total of $1.8 billion. This represented our highest dollar volume by more than $100 million over our previous best in 2006. This exceeded our FY 2017 Single Family business plan goals by approximately $846 million or 80%.

Single Family Lending also made enormous strides in automation and efficiency. Most important was making our loan submission and closing process completely paperless. Suspension rates and turnaround times have been lowered drastically, leading to quicker processing times and more satisfied customers.

In addition, Single Family Lending expanded the reach of the Extra Credit Teacher Program to all employees of California public schools: substitute teachers, administrators in the district office, and other employees. Single Family outreach staff also traveled thousands of miles, trained hundreds of loan officers and staffed booths at dozens of events.

Multifamily entered into a partnership with the Federal Financing Bank, enabling us to fund the preservation of hundreds of affordable units across the state, housing families, veterans, the disabled and other under-housed groups.

Continuing their dedication to helping underserved groups, CalHFA made it an official policy to give underwriting and processing priority to CalHFA-financed multifamily developments that include affordable units restricted for veterans.

In total, Multifamily financed more than 1,900 units for low and moderate income individuals and families, with more than $357 million in financing.

Looking towards FY 2018 and beyond, the Agency will expand its commitment to provide safe, decent and affordable housing to low and moderate income renters and homebuyers and continue collaboration among housing organizations and our private sector partners in hopes of continuing to move forward in solving California's affordable housing crisis.

Economic Impact

Since the Agency is self-supporting, it does not draw upon the general taxing authority of the State. As the State of California's affordable housing lender, however, the Agency's operations can be directly impacted by several market/economic factors as follows:

- Trends in single family home prices – California home sale prices increased in FY 2015, FY 2016 and FY 2017. The upward trend in single family home prices has had a positive impact on the Agency's profitability, although if prices trend too high, first-time homebuyers may be unable to afford homes in high-cost areas.

- Trends in interest rates – The Agency has a significant interest-rate swap portfolio and fluctuations in interest rates impact the Agency's collateral posting requirements. In general, higher interest rates will reduce the collateral posting requirements and improve the Agency's liquidity profile; while lower interest rates will increase the collateral posting requirements and limit the Agency's liquidity profile.

- Trends in rental construction—California is currently experience very high rents in many areas, which has led to high demand for new rental housing. The Agency's ability to participate in the market depends on its ability to offer attractive rates and programs to developers and other partners. Continued funding from the FFB will be very important.

- Trends in the Agency's credit ratings—The Agency may be affected by its credit ratings, which are discussed in the MD&A.

Acknowledgments

This report gives a reliable, complete picture of CalHFA's financial operations for FY 2017. It also can be used as a basis for making informed management decisions, to determine compliance with legal statutes and to demonstrate the Board's responsible direction of CalHFA.

The preparation of this report has been accomplished through the dedicated team effort of CalHFA employees. I also would like to take this opportunity, on behalf of the staff and residents served by CalHFA, to acknowledge the members of the Board for their continued support and guidance.

Respectfully Submitted,

Tia Boatman Patterson

INDEPENDENT AUDITORS' REPORT

Board of Directors
California Housing Finance Fund
Sacramento, California

Report on the Financial Statements

We have audited the accompanying financial statements of the California Housing Finance Fund (the Fund), which is administered by the California Housing Finance Agency (the Agency), a component unit of the State of California which comprise the statements of net position as of June 30, 2017 and 2016, and the related statements of revenues, expenses and changes in net position, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

A member of Nexia International

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Fund as of June 30, 2017 and 2016, and the changes in financial position and cash flows for the period then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Fund and do not purport to, and do not, present fairly the financial position of the Agency as of June 30, 2017 and 2016, the changes in its financial position, or its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 16-26, Schedule of the Fund's Proportionate Share of the Net Pension Liability on page 69, and the Schedule of Fund Contributions on page 70 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Fund's basic financial statements. The combining program information is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The combining program information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining program information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Board of Directors
California Housing Finance Fund

The introductory section, statistical section and statutory requirements sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

CliftonLarsonAllen LLP

CliftonLarsonAllen LLP

Baltimore, Maryland
November 7, 2017

OVERVIEW OF THE FINANCIAL STATEMENTS

Management of the California Housing Finance Agency is pleased to offer readers of the Agency's financial statements this narrative overview and analysis of its basic financial statements for the fiscal years ended June 30, 2017, 2016, with comparative data from the year ended June 30, 2015. Because the intent of this management discussion and analysis ("MD&A") is to look at financial performance as a whole, we suggest that the readers should review the MD&A section in conjunction with the Letter of Transmittal, the Agency's financial statements and notes to the financial statements to further enhance their understanding of the Agency's financial performance. The basic financial statements of California Housing Finance Fund ("Fund") have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). GAAP requires the inclusion of three basic financial statements: the statement of net position (balance sheet); the statement of revenues, expenses and changes in net position (income statement); and the statement of cash flows. These required statements offer short-term and long-term financial information about the Fund.

The following MD&A applies only to the activities of the Fund. Operations of the Fund include the issuance of Agency bonds and notes to fund loans to qualified borrowers for single family houses and multifamily developments. The drastic meltdown of the U.S. housing market created an environment of historically low mortgage rates to such a degree that the Fund cannot produce a competitive mortgage rate through the traditional tax-exempt bond market. The Agency issues its own bonds and uses other available monies to provide the funding for loan programs but only if it is determined to be the most economically feasible choice. Recent bond issuances have only been executed for refunding purposes in which the Agency reissues new debt at a lower coupon rate to refund the older, higher-interest debt. Any interest paid to bondholders is generally exempt from both state and federal tax; however, the Agency also issues federally-taxable bonds. The Agency is entirely self-funded and does not draw upon the general taxing authority of the State.

The multifamily conduit issuances of the Agency are designed to facilitate both for-profit and non-profit developers in accessing tax-exempt and taxable bonds for the financing of family and senior affordable and mixed-income housing developments. The goals of the program are to increase and preserve the supply of affordable rental housing, maintain a quality living environment, leverage private sector funds to the greatest extent possible, and to cooperate with local jurisdictions to advance affordable housing goals. Conduit issuances are limited obligations of the Agency, payable solely from the revenues and other funds and money pledged and assigned under the applicable indenture, series indenture, master pledge and assignment, or funding loan agreement. Neither the Agency or the State, nor any political subdivision thereof is obligated in any manner for repayment of the debt. Accordingly, these bonds and notes are not reported as liabilities in the Agency's financial statements. See Note 6 – Long and Short-term Liabilities – Bonds, Notes and Loans Payable and Associated Interest Rate Swaps for more information.

The financial statements present the totals of the programs and accounts of the Fund. The supplemental combining information of the Fund is organized by the following major categories: Homeownership Programs, Multifamily Rental Housing Programs, and Other Programs and Accounts. This supplemental information and additional information for specific programs and accounts is reported after the notes to the financial statements.

Historically, the Homeownership Programs provided low cost mortgage capital through the issuance of home mortgage revenue bonds to a network of approved lenders from whom the Fund purchases previously funded and closed loans secured by single family homes purchased by individual borrowers. Homeownership Programs only include the bond activities of Home Mortgage Revenue Bonds and Residential Mortgage Revenue Bonds. More recently, however, Homeownership Programs has achieved enormous success by participating in the To Be Announced ("TBA") Market Rate Program which does not require the issuance of bonds to fund single family loans. Therefore, the TBA Market Rate Program activities are not recorded within Homeownership Programs but within the Other Programs and Accounts category.

The Multifamily Rental Housing Programs are typically used to directly fund loans to developers and housing sponsors for the construction or acquisition of multifamily rental housing developments. Within the Multifamily Rental Housing Programs, only the bond activities of the Mortgage Loan Purchase Bonds, Multifamily Housing Revenue Bonds III, Affordable Multifamily Housing Revenue Bonds, Multifamily Residential Mortgage Revenue Bonds, and Multifamily Special/Limited Obligation Bonds are recorded. Historically, the Multifamily Housing Revenue Bonds III indenture has participated in the FHA-HFA Multifamily Risk-Sharing Program with the U.S. Department of Housing and Urban Development ("HUD"). This year, the Agency entered into an agreement with the Federal Financing Bank ("FFB") to provide capital for the multifamily loans under the FHA-HFA Multifamily Risk-Sharing Program at a reduced rate without having to issue multifamily housing revenue bonds for the permanent loan. Therefore, this year's Multifamily Risk-Sharing Program activities with FFB are not recorded within Multifamily Programs but within the Other Programs and Accounts category.

The Other Programs and Accounts category includes all other non-bond related activities of the Fund. Within this category, the activities of Housing Assistance Trust ("HAT"), Contract Administration Programs ("CAP"), Federal Programs, Loan Servicing and other accounts are reported.

- HAT is a source of funding used to assist in the development of single and multifamily projects through various low-interest loan and technical assistance programs and support the Agency's business operations. Within HAT, the TBA Market Rate Program activities are being reported along with other remaining investments or loans from fully redeemed bond series or loans previously funded by HAT. The TBA Market Rate Program allows for the easy trade of eligible mortgage-backed securities ("MBS") while supporting well-priced, long-termed, fixed-rate mortgages with or without a subordinate loan. The TBA market allows for the sale of securities before they have been finalized or before the mortgages that back the securities have been identified. Because the loans can be sold to investors prior to being finalized, the TBA market allows lender to offer borrowers a predetermined interest rate or rate lock in advance of their loan closing. This protects the borrower from a rate increase while they finalize their loan. The TBA market ensures a steady supply of capital for long-term fixed rate mortgages because the program is viable for lenders, affordable to consumers and attractive for investors. Under the TBA Market Rate Program, there is no balance sheet risk as the Fund does not hold any whole loans mortgages under this program. Once the mortgages are pooled into an MBS, the Fund purchases the MBS pool, immediately sells them to investors that same day and records a gain on sale of securities for the transaction along with other revenues and expenses of the program. Additionally, the Agency uses a credit facility from the Federal Home Loan Bank of San Francisco to purchase a select portfolio of Fannie Mae and Ginnie Mae MBS composed of loans it has originated for low to moderate income homebuyers.

- Historically, CAP included various State-funded programs (Proposition 46 loan programs, Proposition 1C loan programs, Mental Health Services Act Housing Program ("MHSA"), Special Needs Housing Program ("SNHP") and HOME Tenant Based Rental Assistance ("HOME TBRA")), administered for the State or another State Department on a contract basis. Beginning July 1, 2016, only MHSA, SNHP and HOME TBRA remained under CAP. All other programs previously administered for the State were transferred out of the Fund to the State's Home Purchase Assistance Fund ("HPA") and are no longer reported by the Fund. The consolidation of multiple State loan programs into only one fund will help facilitate the operation of downpayment assistance programs in the future. The Agency will continue to perform the loan servicing on all loans transferred into HPA and continue as the administering agency for HPA.

- Federal Programs includes Section 8 Housing Assistance Program, Section 811 Supportive Housing for Person with Disabilities and National Foreclosure Mitigation Counseling Program, and HOME Tenant-Based Rental Assistance Program, a program administered in collaboration with the Department of Housing and Community Development.

- Other accounts maintained by the Agency provide security for the issuance of bonds, identify credit or loan agreements, emergency contingencies and report in-house loan servicing operations. Operating expenses of the Agency's loan and bond programs are paid from an Operating Account. The Agency's programs are operated to be self-supporting.

FINANCIAL HIGHLIGHTS

- Effective July 1, 2016, per Senate Bill 837, various housing finance assistance programs previously administered by the Fund and reported under Contract Administration Programs, are no longer included in the financial reporting of the Fund. The bill transferred all obligated amounts for the programs discontinued by the bill, and any loan receivables, interest, or other amount accruing to the Agency pursuant to those programs to HPA. The effect of this transfer is explained throughout the MD&A and Notes to the Financial Statements.

- The assets and deferred outflows of resources of the Fund exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by $1.4 billion (net position). The $190.8 million decrease in net position was primarily due to the transfer out of $374.4 million in assets and liabilities related to Senate Bill 837 offset by the changes in net position prior to the transfer which was $150.2 million. A decrease in net position can indicate that the financial status of the Fund is deteriorating. However, this decrease in net position was a result of a legislative change and not a result of the financial operations of the Fund.

Financial Highlights (continued)

- Total assets decreased by $667.6 million to $4.07 billion. The decrease was primarily due to the transfers of $381 million in assets related to Senate Bill 837 and increased bond redemption activities. Total liabilities decreased by $489.3 million to $2.68 billion primarily as result of bond redemption activities offset by bond issuance activities.

- Operating income was $110.2 million for FY 2017 compared to $73.9 million for FY 2016, an increase of $36.3 million which is primarily due to the $54.2 million increase of realized gain on the sale of $1.86 billion in Single Family MBS related to the TBA Market Rate Program and $23.7 million decrease in program loans interest -net. See Condensed Schedule of Revenues, Expenses and Changes in Net Position for more information.

- The Fund's single family first loan portfolio was 10,842 loans as of June 30, 2017 compared to 12,423 loans as of June 30, 2016. Overall, the single family loan portfolio declined by 1,581 loans (or 12.7%). The overall delinquency ratio of the Fund's single family first loan portfolio improved and is 6.2% (670 delinquent loans) as of June 30, 2017. By comparison, the delinquency ratio for the Agency's single family portfolio was 6.6% (814 delinquent loans) as of June 30, 2016.

FINANCIAL ANALYSIS

Statement of Net Position

The Statement of Net Position can give readers a snapshot of the fiscal condition of the Fund as of a certain point in time as over time increases or decreases in the Fund's net position are one indicator of whether its financial status is improving, stable, or deteriorating. There are also other indicators that should be considered when reviewing the operational results of the Fund, such as changes in the interest rate environment, bond market, state and federal laws governing the Fund's programs, the tax code, and the real estate market in the State.

Statement of Net Position (continued)

Following is a comparison of the Fund's condensed Statement of Net Position as of June 30 (dollars in thousands):

Condensed Statement of Net Position

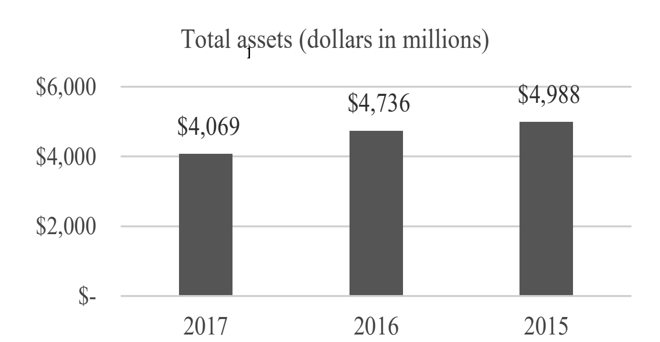
Assets



Total assets were $4.1 billion as of June 30, 2017 compared to $4.7 billion as of June 30, 2016 and $5 billion in as of June 30, 2015. This represents a decrease of $667.6 million (or 14.1%) from the prior year and decrease of $251.8 million (or 5.1%) from June 30, 2015 to June 30, 2016. The decrease in total assets is primarily due to the $381 million transfer in assets related to Senate Bill 837 and an increase in bond redemption activities from the prior year.

Of the Fund's assets, 98.6% was cash and investments and program loans receivable.

The composition of cash and investments as of June 30 and the changes from the prior year are shown in the table below (dollars in thousands):

Cash and Investments

	2017	2016	2015	$ Change 2017/2016	$ Change 2016/2015
Cash	$ 31,425	$ 53,978	$ 41,245	$ (22,553)	$ 12,733
Investment agreements	18,797	39,567	43,599	(20,770)	(4,032)
SMIF	1,025,428	1,192,972	1,077,656	(167,544)	115,316
Open Commercial Paper	13,471	17,819	18,163	(4,348)	(344)
Securities	277,722	247,183	288,083	30,539	(40,900)
Total Cash and Investments	$ 1,366,843	$ 1,551,519	$ 1,468,746	$ (184,676)	$ 82,773

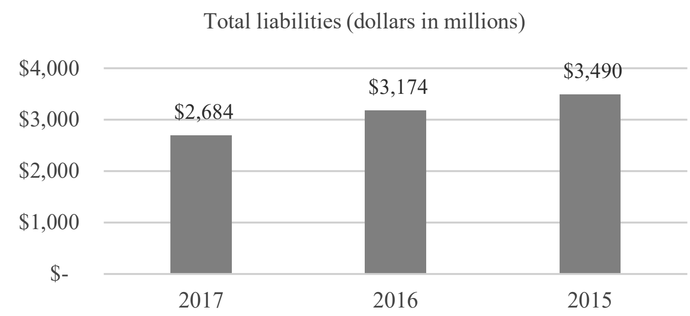
Total cash and investments were $1.37 billion as of June 30, 2017 compared to $1.55 billion as of June 30, 2016 and $1.47 billion as of June 30, 2015. This represents a decrease of $184.7 million (or 11.9%) from the prior year and increase of $82.8 million (or 5.6%) from June 30, 2015 to June 30, 2016.

Of the Fund's assets, 33.6% is in the form of cash and investments at June 30, 2017. Approximately $1.03 billion of the Fund's investments are held in the State's Surplus Money Investment Fund ("SMIF") and earn a variable rate of interest. The amount of funds invested in SMIF decreased by $167.5 million primarily as a result of bond redemption activities.

Deferred Outflows

Deferred outflows of Resources decreased by $12.9 million to $25.1 million primarily as a result of increase in the accumulated fair value of hedging derivatives.

Liabilities



Total liabilities were $2.7 billion as of June 30, 2017 compared to $3.2 billion as of June 30, 2016 and $3.5 billion as of June 30, 2015. This represents a decrease of $489.3 million (or 15.4%) from the prior year and a decrease of $316.7 million (or 9.1%) from June 30, 2015 to June 30, 2016.

Of the Fund's liabilities, 78.1% is in the form of bond indebtedness compared to 81.4% in the prior year. The Fund's net bonds payable at June 30, 2017 decreased by $488.1 million from the prior year mainly due to $713.7 million in bond redemptions, $50.3 million of scheduled principal maturities less $278.2 million of new bonds issued. As of June 30, 2017, there was a $79.6 million loans payable to FHLB which is related to the Single Family TBA Market Rate Program.

Other liabilities decreased by $79.2 million during fiscal year 2017. As of June 30, 2017 and June 30, 2016, the fair values of interest rate swaps included in other liabilities were in a negative position of $114.4 million and $177.1 million, respectively.

Shown below are the amounts of variable and fixed rate indebtedness, by tax status, as of June 30 and the changes from the prior year (dollars in thousands):

Bonds Payable

				$ Change	
	2017	2016	2015	2017/2016	2016/2015
Tax-Exempt Bonds					
*Variable Rate	$ 247,400	$ 539,770	$ 756,060	$ (292,370)	$ (216,290)
Fixed Rate	619,075	996,190	1,214,305	(377,115)	(218,115)
Total Tax-Exempt Bonds	866,475	1,535,960	1,970,365	(669,485)	(434,405)
Federally Taxable Bonds					
*Variable Rate	332,105	385,175	430,926	(53,070)	(45,751)
Fixed Rate	896,394	659,561	508,675	236,833	150,886
Total Federally Taxable Bonds	1,228,499	1,044,736	939,601	183,763	105,135
Total Bonds Outstanding	$ 2,094,974	$ 2,580,696	$ 2,909,966	$ (485,722)	$ (329,270)

* Certain variable rate bonds have been swapped to a fixed rate (see Note 6 – Long and Short-term Liabilities – Bonds, Notes and Loans Payable and Associated Interest Rate Swaps).

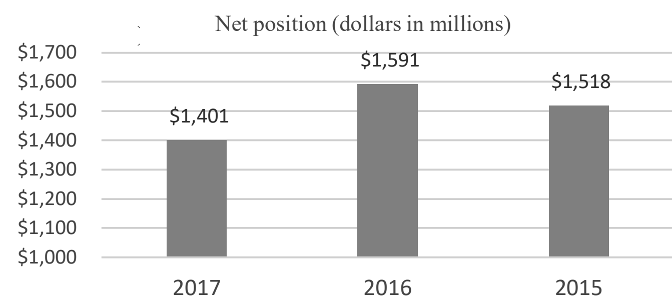
During FY 2017, the Agency issued long-term debt of $278.2 million in taxable fixed rate bonds. No tax-exempt fixed rate bonds or variable rate bonds were issued.

Federally taxable bonds outstanding increased by $183.8 million to $1.23 billion as of June 30, 2017 and represent 58.6% of all bonds outstanding, while tax-exempt bonds outstanding decreased by $669.5 million to $866.5 million and represent 41.4% of all bonds outstanding. In FY 2016, federally taxable bonds outstanding increased by $105.1 million and represented 40.5% of bonds outstanding, while tax-exempt bonds outstanding decreased by $434.4 million and represented 59.5% of all bonds outstanding.

Liabilities (continued)

Multifamily conduit bond issuances are not reported within the Fund. See Note 6 Long and Short-term Liabilities – Bonds, Notes and Loans Payable and Associated Interest Rate Swaps.

Net Position



The Fund's net position is either 1) restricted pursuant to trust agreements with bondholders and the Agency's enabling legislation or 2) classified as net investment in capital assets. As of June 30, 2017, the total net position of the Fund is $1.4 billion, a decrease of $190.8 million from FY 2016 compared to an increase $73.7 million from FY 2015. The $190.8 million decrease in net position was primarily due to the transfer out of $374.4 million in assets and liabilities related to Senate Bill 837 offset by the changes in net position prior to the transfer which was $150.2 million. A decrease in net position can indicate that the financial status of the Fund is deteriorating. However, this decrease in net position was a result of a legislative change and not a result of the financial operations of the Fund.

Of the $1.4 billion in total net position, the Fund's restricted net position is 99.95% of the total.

Capital Assets

Of the $1.4 billion in total net position, the Fund's capital assets is .05% of the total. The policy of capitalizing assets is described in Note 5 – Capital Assets to the financial statements. The table below shows the Agency's capital assets and accumulated depreciation as of June 30 and changes from the prior year.

				$ Change	
	2017	2016	2015	2017/2016	2016/2015
Data processing equipment	$ 560	$ 565	$ 585	$ (5)	$ (20)
Office furniture and equipment	726	684	961	42	(277)
Total capital assets	1,286	1,249	1,546	37	(297)
Less: Accumulated depreciation	(634)	(662)	(792)	28	130
Total capital assets, net	$ 652	$ 587	$ 754	$ 65	$ (167)

Net capital assets was $652 thousand as of June 30, 2017. The increase of $65 thousand from the prior year was primarily due to the addition of office furniture and equipment purchased during the year and accumulated depreciation of the remaining assets.

Statement of Revenues, Expenses, and Changes in Net Position

The statement of revenues, expenses, and changes in net position presents the revenues generated by the Fund, both operating and non-operating revenues, and the expenses incurred through operating and non-operating expenditures, and any other interfund transfers.

Following is a comparison of the Fund's condensed Statement of Revenues, Expenses, and Changes in Fund Net Position for the fiscal years ended June 30 (dollars in thousands):

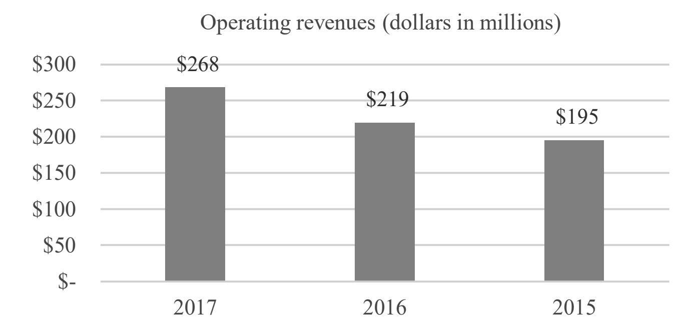
Operating Revenues



Total operating revenues of the Fund was $268.1 million for FY 2017 compared to $219.4 million for FY 2016, an increase of $48.7 million (or 22.2%) compared to an increase of $24.4 million (or 12.5%) from FY 2015 to FY 2016. The FY 2017 increase is primarily due to the reasons illustrated below:

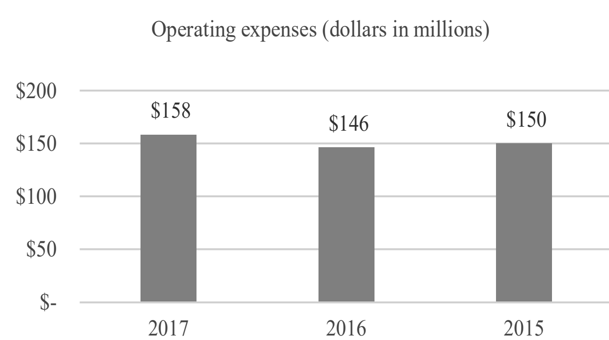
- Interest income on program loans - net decreased by $23.7 million (or 13.8%) as related program loans receivable decreased by $462 million or 14.9%. In FY 2016, interest income program loans receivable decreased by $23.7 million as related program receivables decreased by $315.3 million.

- Gain on sale of securities increased by $54.2 million to $93.8 million due to the gain on sale of mortgage-backed securities related to the TBA Market Rate Program. In FY 2016, the gain on sale of securities increased by $30 million to $39.5 million due to the TBA Market Rate Program.

- In FY 2017, other revenues increased by $22.4 million primarily due to the growth in TBA Market Rate Program fee revenue as loan volume in the program significantly increased. Additionally, rising interest rates in the marketplace resulted in a higher return on investment SWAP revenue and the reduction of the notional amount of the SWAPs.

- Other loan fees revenue decreased by $4.1 million primarily due to a decrease in late fees and re-reservation fees.

Operating Expenses



Total operating expenses of the Fund were $157.9 million for FY 2017 compared to $145.5 million for FY 2016, an increase of $12.4 million (or 8.5%) compared to decrease of $4.5 million from FY 2015 to FY 2016. The FY 2017 increase is primarily due to the reasons illustrated below:

Operating Expenses (continued)

- Expenses increased by $21.9 million primarily due to an increase in service release fees and hedging costs associated with the high volume of loans in the Single Family TBA Market Rate Program and increase in bad debt expenses associated with allowance for interest receivables.

- Total interest expense decreased by $8.2 million (or 11.3%) primarily due to the decrease in bond interest expense related to the decrease in bonds payable of $488.1 million (or 18.9%). Bond interest and swap expenses represent 40.1% of the Fund's total operating expenses. In FY 2016, bond interest expense decreased by $17.7 million (or 19.6%) due to the related decrease in bonds payable of $329.3 million (or 11.3%).

- Salaries and general expenses for FY 2017 was $39.8 million compared to $40.1 million for FY 2016.

Non-Operating revenues and expenses

Total non-operating revenues and expenses was $40.1 million for FY 2017, an increase of $36.6 million from FY 2016. The increase is primarily due to the increase in Investment SWAP revenue (fair value). The six-year taxable rate used in the fair market valuation process had a significant increase of approximately 1% in FY 2017.

Change in Net Position before Transfers

Operating income for fiscal year 2017 was $110.2 million compared to $73.9 million for fiscal year 2016. Change in net position before transfers was $150.2 million compared to $77.3 million for fiscal year 2016.

Economic Condition and Outlook

The Fund's housing programs are the primary source of income for the Fund. Various economic and regulatory factors such as prevailing economic conditions, mortgage interest rates, investment rates, the demand for housing, the cost of housing and of operating housing programs, the volume of mortgage lending activity in the State and other factors affecting the supply of housing in the State can create significant challenges for the Agency in single family and multifamily housing programs as well as its overall operations.

The Fund's total amount of outstanding indebtedness cannot exceed $13.1 billion at any time. Additionally, the Fund has an annual resolution approved by the Agency's governing board limiting the taxable bond issuance to $100 million for Single Family programs. The Multifamily programs limit is set at $150 million for 501(c)(3) and taxable issues. During the first ten years from the original single family bond issuances, the Fund has the option to use monies from certain repayments and prepayments of mortgage loans to be "recycled" for additional mortgage loans instead of issuing new debt. If the market interest rates on mortgages are lower than the corresponding bond rates, the Fund may redeem bonds in lieu of recycling.

Agency's lending activities have experienced excellent progress during the FY 2017. The revenues generated from the participation in the TBA market rate program accounted for nearly 35% of the agency's total operating revenues during FY 2017 and will continue to have a significant impact on the Agency's operations in FY 2018. The rapid growth is partially attributable to implementation of operational efficiencies, including the change of master servicer which eliminated a backlog of suspended loans that were purchased in the first half of the fiscal year. The volume of single family first mortgage purchases through the TBA market rate program reached over $1.8 billion and $133 million in subordinate lending for down payment assistance ("DPA") and/or closing costs. The multifamily lending activities fell short of projected lending activities due to the recent increases in the interest rate environment and the uncertainty of the tax credit markets. During FY 2018, the Agency's pipeline of multifamily loans is expected to surpass FY 2017 based on its composition of new permanent takeout loans that have longer duration and better yields. This is in contrast to FY 2017, when many of the multifamily transactions were portfolio recapitalizations in which yield maintenance concessions have partially offset revenues. Further, we are pleased to report the Fund's successful efforts to strengthen its financial position by expanding credit facilities for both Single Family and Multifamily programs and increasing return on equity by entering into partnerships with Federal Home Loan Bank of San Francisco and Federal Financing Bank.

The U.S. economy, particularly the housing market and low interest rates, have had a significant impact on the Fund's operations during the past several years. The continued increase in interest rates along with future predictions of increasing interest rates have improved the Fund's position, especially in regards to its derivative agreements. The Agency has a significant (although decreasing) interest-rate swap portfolio and fluctuations in interest rates can impact the Agency's collateral posting requirements. In general, higher interest rates will reduce the collateral posting requirements and improve the Agency's liquidity profile; while lower interest rates will increase the collateral posting requirements and limit the Agency's liquidity profile. However, because

Economic Condition and Outlook (continued)

of the significant decrease in the notional amount of the Agency's interest-rate swap portfolio since the housing crisis, the fluctuations in the collateral postings, if any, would be minimal.

In addition to modifying the Agency's lending activities to increase operational revenues, the Agency plans to continue to combat the challenges of the economy by actively reducing its debt costs through both refunding opportunities and early redemption of debt, especially with regards to its variable rate debt.

Another significant factor impacting the Agency's operations is the trend in California home sale prices which continued to increase in FY 2015, FY 2016 and FY 2017. The upward trend in single family home prices has had a positive impact on the Agency's profitability, although if prices trend too high, first-time homebuyers may be unable to afford homes in high-cost areas.

The Agency has primarily three credit ratings that impact its financial results:

- i) CalHFA's issuer credit rating (S&P "A positive outlook"/Moody's "A2 positive outlook")
  - During FY 2017, CalHFA's issuer credit rating with S&P remained "A positive outlook", and Moody's outlook improved from "A2 stable outlook" to "A2 positive outlook".
- ii) Home Mortgage Revenue Bonds (S&P "AA- positive outlook"/Moody's "A1 positive outlook")
  - During FY 2017, CalHFA's Home Mortgage Revenue Bonds S&P's underlying rating's outlook improved from "AA- stable outlook" to "AA- positive outlook" and Moody's underlying rating improved from "A2 stable outlook" to "A1 positive outlook".
- iii) Multifamily Housing Revenue Bonds III (S&P "AA+ stable outlook"/Moody's "A1 stable outlook")
  - During FY 2017, CalHFA's Multifamily Housing Revenue Bonds III rating remained unchanged.

As the Fund moves into fiscal year 2018 and on into the future, the Fund will also continue to search for new methods to expand its Single Family and Multifamily lending activities consistent with State housing needs, work collaboratively with other housing entities and stakeholders to deliver effective innovative housing solutions and prevent avoidable foreclosures by providing assistance to eligible homeowners who have financial hardship and /or significant negative equity.

SUPPLEMENTAL DISCLOSURE OF CASH FLOW INFORMATION		
Noncash transfer of program loan to REO	$ 1,324	$ 7,401

The accompanying notes are an intergral part of these financial statements.

(THIS PAGE INTENTIONALLY LEFT BLANK)

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Organization and Program Descriptions

The California Housing Finance Agency ("Agency") was created by the Zenovich-Moscone-Chacon Housing and Home Finance Act ("Act"), as amended, as a public instrumentality and political subdivision of the State of California ("State"), and administers the activities of the California Housing Finance Fund ("Fund") and the California Housing Loan Insurance Fund ("CaHLIF"). These funds allow the Agency to carry out its purpose of financing the housing needs of persons and families of low and moderate income within the State.

The Agency is authorized to issue its bonds, notes and other obligations to fund loans to qualified borrowers for single family houses and multifamily developments. The Agency has no taxing power and is exempt from federal income taxes and state franchise taxes.

Funding of loan programs on an on-going basis is derived from bond proceeds, credit facilities, interest earned on loans and investments and by participating in the To Be Announced ("TBA") Market Rate Program. As part of the TBA program, the Agency has agreed to sell on a mandatory delivery basis certain specified Agency mortgage pass-through securities, the repayment of which is guaranteed in full as to principal and interest by Federal National Mortgage Association ("Fannie Mae") or Government National Mortgage Association ("GNMA").

b) Financial Reporting Entity

In the State's Comprehensive Annual Financial Report ("CAFR"), CalHFA is designated as a component unit of the State. Component units are organizations that are legally separate from the State, but for which the State is financially accountable, or organizations whose relationship with the State is such that exclusion would cause the State's financial statements to be misleading. Of the three different types of component units of the State (blended, fiduciary, and discretely presented), CalHFA is considered a discretely presented component unit. Discretely presented component units are legally separate from the primary government (defined as funds, organizations, institutions, agencies, departments, and offices that are not legally separate from the State) and usually provide services to entities and individuals outside the primary government.

The Agency is governed by a Board of Directors which consists of 13 voting members and three non-voting members. Of the 13 voting members, seven are appointed by the Governor, four are ex-officio and two are appointed by the Legislature. The statutory role of the Board is to: 1) enact the annual financing resolutions that permit the issuance of bonds; 2) enact the Agency's operating budget and business plan; 3) authorize any sale of obligations or securities or other debt obligations and shall approve other major contractual agreements. Any other contractual agreements or debt obligations may be approved by the executive director pursuant to regulations of the Board. Subject to the supervision of the Board, the Agency's day-to-day operational authority statutorily resides with the Agency's Executive Director.

Effective July 1, 2013, the Agency shares budgetary appropriation reporting with the Department of Housing and Community Development (HCD). HCD does not have any administrative authority over the California Housing Finance Fund. Pursuant to Health and Safety Code section 51000, expenditures from the California Housing Finance Fund are administered by the Agency and are not subject to the supervision or approval of any other officer or division of state government. Further, pursuant to the Health and Safety Code section 51000.1, no officer or division of state government has the authority to transfer any sums of money from any fund or account of the Agency, except as authorized by the executive director of the Agency or designated trustee pursuant to authority contained in appropriate adopted resolutions pertaining to notes or bonds issued by the Agency.

The Agency may also provide administrative, consulting and technical services in connection with the financing of housing developments; act as a State representative in receiving and allocating federal housing subsidies; and make grants, under certain circumstances, to housing sponsors (providing that grants may not be made with proceeds from the sale of bonds or notes).

The Agency is the administrator of the Home Purchase Assistance Fund (HPA), established by Section 51341 of the Health and Safety Code *et seq*. which is a state general obligation bond program, the funds of which are neither generated nor held within the Fund, and therefore, not included in the accompanying financial statements.

The accompanying financial statements are the financial statements of the Fund and do not include the financial position or the results of operations of CaHLIF which insures loans owned by the Agency and others to finance the acquisition, new construction or rehabilitation of residential structures in California. As of December 31, 2016, the CaHLIF had total assets of $498 thousand and deficit net position of $50 million (not covered by this Independent Auditors' Report).

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accompanying financial statements are the financial statements of the Fund and do not include the financial position or the results of operations of CalHFA Mortgage Assistance Corporation ("CalHFA MAC") which is a nonprofit public benefit corporation and organized as an entity separate from CalHFA. As of September 30, 2016, CalHFA MAC had total assets of $257 million and a net position of $0 (not covered by this Independent Auditors' Report).

c) Programs and accounts

The Fund has the following program and accounts:

Homeownership Programs

***Home Mortgage Revenue Bonds*:** The Home Mortgage Revenue Bonds provided financing for the Agency's Home Mortgage Program which purchases eligible mortgage loans, secured by trust deeds on newly constructed or existing single family homes, condominiums, planned unit developments and manufactured housing permanently attached to the land and originated and serviced by qualified lending institutions. All mortgage loans purchased under this program are insured either by the Federal Housing Administration ("FHA"), CaHLIF, the Department of Veterans Affairs ("VA"), a private mortgage guaranty insurance policy, or a combination thereof, covering a loss of up to fifty percent (50%), one hundred percent (100%) in the case of a FHA insured loan, of the outstanding principal amount of the mortgage loans. As of June 30, 2017 there were no bonds outstanding under the program.

Residential Mortgage Revenue Bonds: The Residential Mortgage Revenue Bonds were issued by the Agency pursuant to a national initiative of the United States Treasury to assist state and local housing finance authorities by the Federal Program. The Bonds, issued as escrow bonds pursuant to the Indenture, were converted to long-term fixed-rate bonds. The Treasury agreed, through government-sponsored agencies, to purchase certain mortgage revenue bonds at rates lower than the prevailing market intended to reduce the costs of funds to issuers to the making or financing of mortgage loans.

Multifamily Rental Housing Programs

***Multifamily Loan Purchase Bonds*:** On July 26, 2000, the Agency purchased 278 Department of Housing and Urban Development ("HUD") Section 236 loans with an aggregate unpaid principal balance of approximately $269 million. The purpose of this transaction was to enhance the ability of the Agency to assist affordable housing sponsors to refinance their projects and extend the period during which the units are offered at affordable rents to very-low-income and lower-income tenants. The Agency expects to provide the financing for many of these transactions. As of June 30, 2017, there was no balance for this bonds.

***Multifamily Housing Revenue Bonds III*:** The Multifamily Housing Revenue Bonds III are fixed or variable rate bonds collateralized by GNMA mortgage-backed securities and/or FHA insured loans and/or uninsured loans. The bonds provide financing for multi-unit rental housing developments which are utilized for occupancy by persons and families of low and moderate income. The loans may provide acquisition, construction (both for new construction and rehabilitation), and permanent financing for developments.

Affordable Multifamily Housing Revenue Bonds: The Affordable Multifamily Housing Revenue Bonds were issued under the Indenture in connection with the New Issue Bond Program of the HFA Initiative pursuant to the Memorandum of Understanding dated October 19, 2009 among Treasury, the Federal Housing Finance Agency, Fannie Mae and Freddie Mac to facilitate financing for various state and local housing finance agencies to serve homebuyers and low and moderate income renters.

Multifamily Residential Mortgage Revenue Bonds: The Residential Mortgage Revenue Bonds were issued by the Agency pursuant to a national initiative of the United States Treasury to assist state and local housing finance authorities by the Federal Program. The Bonds, issued as escrow bonds pursuant to the Indenture, were converted to long-term fixed-rate bonds. The Treasury agreed, through government-sponsored agencies, to purchase certain mortgage revenue bonds at rates lower than the prevailing market intended to reduce the costs of funds to issuers to the making or financing of multifamily loans.

***Special Obligation Multifamily Housing Revenue Bonds and Multifamily Housing Revenue Bonds*:** The Special Obligation Multifamily Housing Revenue Bonds and Multifamily Housing Revenue Bonds are secured by FHA risk-share insured mortgage loans. The bonds provide financing for the acquisition and rehabilitation of multifamily affordable residential rental development.

Other Programs and Accounts

***Housing Assistance Trust*:** The Housing Assistance Trust ("HAT") is comprised of remaining investments in mortgage loans from fully redeemed bond indentures, and funds to assist in the development of single and multifamily projects through various low-interest loan and technical assistance programs. Also, included within HAT are the TBA Market Rate Program and funds held in trust representing Earned Surplus and Financial Adjustment Factor ("FAF") Savings from HUD Section 8 projects. Earned

Surplus is to be used in lowering the rents for persons and families of low or moderate income in accordance with state law. FAF Savings are to be used in providing decent, safe, and sanitary housing, which is available for very-low income families and persons qualifying in accordance with federal law.

Contract Administration Programs: The Agency administers loan and grant programs for the Mental Health Services Act Housing Program, Special Needs Housing Program and HOME Tenant-Based Rental Assistance. Funding of these programs was appropriated by the legislature or provided by voter authorized State bond programs to other departments and agencies within the State that have contracted with the Agency for this purpose. All monies transferred in accordance with the agreements and for the purposes of the program are considered assets of the Fund. The Fund had net cash transfers out of $341 million and $3.7 million for fiscal year 2017 and 2016, respectively. Information regarding detailed transfers is reported in Note 12 – Transfers to Other Funds/Government Agencies.

Supplementary Bond Security Account: This account was established exclusively to secure issuances of bonds. This security may be accomplished by creating supplementary reserve accounts to provide for payment of the principal, interest, redemption premiums or sinking fund payments on bonds, or by insuring mortgage loans made with the proceeds of bond issues.

Emergency Reserve Account: This account was recently updated in Resolution 17-12 and the purpose of the account is to fund unforeseen expenditures for previously Board authorized obligations, fund necessary administrative and operating expenses for which funds may not otherwise be available and/or to fund the payment of any obligations or commitments previously approved by the Board which are necessary to protect the credit ratings of the Agency and the security interest of holders of the Agency's bonds, notes or other debt instruments, including other financing instruments and obligations associated with the issuance of the Agency's bonds, notes or other debt instruments. To the extent funds are available as determined by the Director of Financing, the Emergency Reserve Account shall be computed and shall be established and funded no later than each June 30th at not less than one hundred percent (100%) of the approved operating budget for the upcoming fiscal year, rounded to the nearest million.

Loan Servicing: The Agency services nearly all multifamily program loans, approximately 53.3% of the Agency's homeownership program loans in first lien position (as of June 30, 2017), and all junior or subordinate lien homeownership program loans and certain other loans for the California State Teachers' Retirement System and Fannie Mae. Loan servicing agreements require that the Agency hold and maintain escrow and reserve accounts, on behalf of borrowers, that are reported under "Deposits and Other Liabilities."

Citigroup Global Markets: The Loan Agreements were made and entered into by and between the Agency and Citibank, N.A., as lender, under the Zenovich-Moscone-Chacon Housing and Home Finance Act. Pursuant to the Loan Agreements, the proceeds of the Agency Loans will be used to retire certain indebtedness of the Agency including to refund and redeem all or a portion of certain Multifamily Rental Housing Bonds of the Agency that were originally issued to finance the Projects, and for other valid purposes of the Agency under the Act. As of June 30, 2017, there were no outstanding loan agreements.

Federal Programs: The Agency administers loan and grant programs for HUD Section 8 Housing Assistance Payments, HUD Section 811 Supportive Housing for Persons with Disabilities and HUD National Foreclosure Mitigation Counseling.

Operating Account: The Operating Account was established for purposes of depositing funds available to the Agency for payment of operating and administrative expenses of the Agency and financing expenditures not associated with specific bond funds.

Federal Financing Bank: The Agency has entered into agreements with the U.S. Treasury and the Department of Housing and Urban Development in order to provide capital for multifamily loans at reduced rates otherwise unavailable in the current market. Under this program, the U.S. Treasury will use the Federal Financing Bank (FFB) to participate in multifamily loans insured under the Federal Housing Administration's HFA Risk-Sharing Program. This program provides permanent financing at very competitive interest rates which helps preserve and increase affordable housing.

Federal Home Loan Bank: The Agency was approved for $100 million in financing availability form the Federal Home Loan Bank of San Francisco (FHLB) in June 2016. The Agency has access to FHLB secured credit line to fund a select portfolio of Fannie Mae and Ginnie Mae mortgage-backed securities composed of single family loans it has originated for low to moderate income homebuyers. The Agency believes that access to FHLB's competitively priced funding will provide the Agency with flexibility in how the Agency raises capital for lending and will expand our lending capacity. It will help the Agency manage its liquidity and lower the costs of capital, which will ultimately help more Californians have a place to call home.

d) Basis of Presentation and Accounting

The Fund is accounted for as an enterprise fund. Accordingly, the accompanying financial statements have been prepared using the economic resources measurement focus and accrual basis of accounting as required by accounting principles generally accepted in the United States of America (hereinafter referred to as "Generally Accepted Accounting Principles", GAAP). Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied. Under accrual basis of accounting, revenues are recorded when earned, and expenses are recorded when liabilities are incurred.

The Agency follows the business-type accounting requirements of GASB Statement 34, which provides the following sections be included in the annual financial report:

- Management's discussion and analysis
- Basic financial statements including a statement of net position, statement of revenues, expenses and changes in net position, and a statement of cash flows.
- Notes to basic financial statements
- Required supplementary information including schedules related to pension and other postemployment benefits funding

e) Recently Adopted Accounting Pronouncements

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans,* effective for financial statements for fiscal years beginning after June 15, 2016. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pension (other postemployment benefits or OPEB). This Statement replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans,* and GASB No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans.* The Agency adopted GASB 74 for the fiscal year ended June 30, 2017.

In March 2016, GASB also issued Statement No. 82, *Pension Issues – An Amendment of GASB Statements No. 67, No. 68, and No. 73*, effective for reporting periods beginning after June 15, 2016. This statement address the issues regarding (1) the presentation of payroll-related measures, (2) the selection of assumptions and treatment of deviations, and (3) the classification of payments made by employers. The Agency adopted GASB 82 for the fiscal year ended June 30, 2017.

f) New Accounting Pronouncements to be adopted in the future

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions,* effective for fiscal years beginning after June 15, 2017. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pension (OPEB). The Agency plans to adopt GASB 75 for the periods beginning July 1, 2017.

In November 2016, GASB issued Statement No. 83, *Certain Asset Retirement Obligations*, effective for reporting periods beginning after June 15, 2018. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for asset retirement obligations (AROs). This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. The Agency plans to adopt GASB 83 for the periods beginning July 1, 2018.

In January 2017, GASB issued Statement 84, *Fiduciary Activities*, effective for reporting periods beginning after December 15, 2018. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purpose and how those activities should be reported. The Agency believes that GASB 84 will have no effect on the financial statement of the Fund.

In March 2017, GASB issued Statement 85, *Omnibus 2017*, effective for reporting period beginning after June 15, 2017. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits. The Agency plans to adopt GASB 85 for reporting periods beginning July 1, 2017.

In June 2017, GASB issued Statement 86, *Certain Debt Extinguishment Issues*, effective for periods beginning after June 15, 2017. The objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources are placed in an irrevocable trust for the sole purpose of extinguishing debt. The Agency believes that GASB 86 will have no effect on the financial statement of the Fund.

In June 2017, GASB also issued Statement 87, *Leases*, effective for reporting periods beginning after December 15, 2019. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contact. The Agency plans to adopt GASB 87 for the reporting periods beginning July 1, 2020.

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates are used in determining the fair values of the interest rate swaps. The fair values of the swaps are based on factors such as future interest rates and a discount rate. Actual results could differ materially from those estimates.

h) Cash and Cash Equivalents:

The Agency considers cash on hand, cash on deposit with financial institutions and cash held in money market funds to be cash and cash equivalents.

i) Investments:

Investment of funds is restricted by the California Code section 16430 – 16431, Agency's Investment Policy, and various bond resolutions and indentures of the Agency.

GASB No. 72, *Fair Value Measurement and Application* (Statement No. 72), revises and establishes new financial reporting requirements for governments related to fair value measurements. The Agency was already in compliance with the Statement's requirement that investments be measured at fair value.

Investment securities, other than certain non-participating fixed interest investment contracts, are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between two market participants at the measurement date. Purchase and sale transactions are recorded on the trade date.

Any monies determined to be in excess of the Funds' immediate needs are swept into the Surplus Money Investment Fund (SMIF), managed by the California State Treasurer for investment. All earnings derived from investments of SMIF are apportioned to the contributing funds as provided in the code. The value of each participating dollar equals the fair value divided by the amortized cost of the SMIF. The funds of the SMIF are invested by the Pooled Money Investment Board. The SMIF is not rated.

j) Income from Investments

Income from investments is recognized when earned and includes interest, dividends and other income.

k) Interest Rate Swap Agreements

The Agency enters into interest rate swap agreements with swap counterparties to manage variable interest rate risk exposure resulting from the issuance of variable rate bonds. The interest rate swap agreements provide synthetic fixed rates of interest on the underlying bonds and are accounted for as matched swaps in accordance with settlement accounting. An interest rate swap is considered to be a matched swap if it is linked through designation with an asset or liability that is on the statements of net position, provided that it has the opposite interest characteristics of such Statements of net position item. Under settlement accounting, periodic net cash settlements under the swap agreements are treated as an increase or decrease in interest expense of the related bond liability over the lives of the agreements. While these swap contracts hedge floating rate bonds issued within the HMRB indenture, hedging expenses are a general obligation of the Agency that is often reimbursed with excess revenue transfers from the HMRB indenture. The interest rate swap agreements allow the Agency to manage the interest rate risk associated with variable rate debt.

l) Program Loans Receivable, net

Loans receivable are carried at their outstanding principal balances, less an allowance for loan losses.

m) Allowance for Program Loan Losses

The Agency's policy is to charge expenses for estimated probable losses which are established as an allowance for loan losses. The allowance is an amount that management believes will be adequate to absorb losses inherent in existing loans based on evaluations of collectability and prior loss experience. Additional information regarding these calculations can be found in Note 4 to the financial statements. While management uses the best information available to evaluate the adequacy of its allowance, future adjustments to the allowance may be necessary if actual experience differs from the factors used in making the evaluations.

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

n) Capital Assets

The capital assets of the Agency includes data processing equipment and office furniture & equipment. Capital assets are depreciated using straight-line method. Depreciation is charged as an expense against the Housing Finance Fund. Information regarding capital assets and accumulated depreciation is reported in Note 5 – Capital Assets to the financial statements.

o) Other Real Estate Owned ("REO")

Property acquired by the Agency through foreclosure is recorded at the lower of estimated fair value less estimated selling costs (fair value) or the carrying value of the related loan at the date of foreclosure and is included in "Other Assets" on the accompanying financial statements. At the time the property is acquired, if the fair value is less than the loan amounts outstanding, any difference is charged against the allowance for loan losses. After acquisition, valuations are periodically performed and, if the carrying value of the property exceeds the current fair value, a valuation allowance is established by a charge to operations. Subsequent increases in the fair value may reduce or eliminate the allowance. Operating costs on foreclosed real estate are expensed as incurred. Costs incurred for physical improvements to foreclosed real estate are capitalized if the value is recoverable through future sale.

p) Bonds Payable, Notes Payable and Loans Payable, net

Bonds Payable are carried at their outstanding principal balances plus unamortized bond premiums and less unamortized bond discounts. Notes and Loans Payable are carried at their outstanding principal balances.

q) Bond Issuance Costs, Premiums and Discounts

The costs and related fees associated with issuing bonds are recognized in the current period in accordance with GASB No. 65 in the statements of revenues, expenses and changes in net position. Premium and discounts are amortized using straight line method. For debt refunding, the difference between the reacquisition price of the refunded bonds and the net carrying amount of the refunded bonds is deferred.

r) Compensated Absences

Agency employees accrue vacation or annual leave in varying amounts for each monthly period worked. Employees may accumulate leave time, subject to certain limitations, and upon retirement, termination, or death may be compensated for certain accumulated amounts at their then current rates of pay. The Agency records an expense for all accumulated leave that the Agency would be required to pay if all employees terminated their employment.

s) Unearned Revenue

Unearned revenue represents the receipt of certain loan fees from lenders and borrowers, which is generally recognized as revenue over the life of the associated loans.

t) Deferred Outflow and Deferred Inflow of Resources

Deferred outflow of resources is a consumption of net assets by the government that is applicable to a future reporting period, and deferred inflow of resources is an acquisition of net assets by the government that is applicable to future reporting period. The Fund's deferred outflow of resources include accumulated decrease in fair value of hedging derivatives, deferred loss on refunding, employer contribution difference for pensions, difference between expected and actual experience for pensions and net difference between projected and actual earnings on investments for pensions. Accumulated increase in fair value of hedging derivatives, deferred gain on refunding, net difference between projected and actual earnings on investments for pensions, and change in assumptions for pensions are reported under the Fund's deferred inflow of resources.

u) Net Position

Net Position is equal to assets plus deferred outflows of resources less the sum of liabilities plus deferred inflows of resources. Net position is classified as net investment in capital assets or restricted net position. Net investment in capital assets represents investments in office equipment and furniture net of depreciation. Restricted net position represents net position balances under the lien of bond indentures that are therefore pledged to bondholders. State statutes further restrict other net position of the Fund solely for purposes of the Agency and provide for a continuing appropriation of such assets for the benefit of bondholders.

v) Extinguishment of Debt

The Agency accounts for gains and losses associated with debt refundings by deferring such gains or losses and recognizing them as revenues or expenses over the shorter of the term of the bonds extinguished or the term of the refunding bonds. Gains or losses associated with debt redemptions and maturing principal, other than refundings, are recognized as income or expense at the date of the extinguishment.

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

w) Operating Revenues and Expenses

The Fund's operating revenues and expenses are activities classified as core business activities of the Fund. The Fund's primary operating revenue is derived from the TBA Market Rate Program fee revenue and gain on sale of the TBA Market Rate securities, investment of bond proceeds in the loan programs and investment in securities. The Fund's primary expense is interest expense on bonds outstanding. Net interest income is an important measure of performance for the Fund. "Interest income program loans" and "interest income investments-net" are shown as operating revenues in the statements of Revenue, Expenses and Changes in Net Position.

x) Non-Operating Revenues and Expenses

The Fund's non-operating revenues and expenses include the reporting of HUD's Section 8 Housing Assistance Program and Section 811 Project Rental Assistance Demonstration Program along with the Department of Treasury's National Foreclosure Mitigation Counseling Program within Other Programs and Accounts. Also included in this section are activities not classified as core business activities of the Fund.

y) Pension

As part of the State, the primary government, the Fund contributes to the Miscellaneous Plan (the "Plan") and it is administered by the California Public Employees' Retirement System ("CalPERS"). The Plan is included in the Public Employees' Retirement Fund A ("PERF A"). PERF is comprised of and reported as PERF A, PERF B, and PERF C for accounting purposes. PERF A is comprised of agent multiple-employer plans, which include State and most public agencies rate plans. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Please see Note 9 - Pension to the financial statements for detailed information regarding Pensions.

z) Reclassification

A reclassification was made to prior year comparative information to conform to current year presentation. The reclassification moved items previously reported as operating revenues and expenses to non-operating revenues and expenses. Please refer to Note 1 – Summary of Significant Accounting Policies paragraphs w) Operating Revenues and Expenses and x) Non-Operating Revenues and Expenses for more information. The reclassification did not affect the net position of changes therein.

Note 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS

a) Cash and Cash Equivalents

The Fund utilizes a cash and investment pool maintained by the State Treasurer's Office (STO). The Agency is allowed to withdraw funds from the investment pool, at any time, given that the Agency follows the standard claim schedule process. Each program and account's portion of this pool is included in investments on the statements of net position. In addition, other types of investments are separately held by most of the programs and accounts.

Cash and Cash Equivalents**:** At June 30, 2017 and 2016, all cash and cash equivalents, totaling $31.4 million and $54.0 million, respectively, were covered by federal depository insurance or by collateral held by the Agency's agent in the Agency's name.

b) Investments

Investments**:** Investment of funds is restricted by the Act and the various bond resolutions and indentures of the Agency, generally, to certain types of investment securities, including direct obligations of the U.S. Government and its agencies, the State Treasurer's Pooled Money Investment Account, long term investment agreements which are issued by institutions rated within the top two ratings of a nationally recognized rating service, and other financial instruments. Investments of funds are also made in accordance with the Agency's Investment Policy.

The Agency entered into an U.S. Bank National Association Daily Liquid (open-ended) Commercial Paper (Open CP) agreement with U.S. Bank in March, 2013. The Open CP agreements are unsecured promissory notes issued by U.S. Bank National Association. The Open CP is not insured by Federal Deposit Insurance Corporation ("FDIC") or guaranteed by any governmental agency or authority, or by U.S. Bank. As of June 30, 2017 and 2016 the par value and market value of Open CP agreements were $13.5 million and $17.8 million, respectively.

Note 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

The Agency's investment measured at amortized cost includes guaranteed investment contracts, investments in surplus money investment fund (SMIF) and Open CP, totaling $1.06 billion and $1.25 billion for the fiscal year ended June 30, 2017, and June 30, 2016, respectively.

The Agency is required to post collateral based on the Agency's current Long Term Debt Ratings assigned by either Standard and Poor's Rating Group or Moody's Investor Service, Inc., as set forth in each International Swap Dealers Association, Inc. ("ISDA") Master Agreement (see Note 6 - Long- and Short-term Liabilities – Bonds, Notes and Loans Payable and Associated Interest Rate Swaps). The total cash and fair market value of investment securities posted as collateral at June 30, 2017 and 2016 was $128.2 million and $32.8 million, respectively. As of June 30, 2017, the fair market value amount posted as collateral for Interest Rate SWAPS and FHLB was $35.7 million and $92.5 million, respectively.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Agency has the ability to access.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

Investments with Fair Value Measurement at June 30, 2017 and 2016 are as follows (dollars in thousands):

		Fair Value Measurements Using						
		6/30/17				6/30/16		
	6/30/17	Level 1	Level 2	Level 3	6/30/16	Level 1	Level 2	Level 3
Investment by fair value level								
U.S. Agency Securities --- GNMA's	$ 128,042	-	$ 128,042	-	$ 117,308	-	$ 117,308	-
Federal Agency Securities	149,680	-	149,680	-	129,875	-	129,875	-
Total Investments by fair value level	$ 277,722	-	$ 277,722	-	$ 247,183	-	$ 247,183	-

The Agency measures and records its investments using fair value measurement guidelines established by general accepted accounting principles. As of June 30, 2017, all the securities were using quoted price from similar asset in active markets through Interactive Data Corp (IDC) and are classified in Level 2.

There are many factors that can affect the value of investments. Some, such as credit risk, custodial credit risk, and concentration of credit risk and interest rate risk, may affect both equity and fixed income securities. Equity and debt securities respond to such factors as economic conditions, individual company earnings performance and market liquidity, while fixed income securities are particularly sensitive to credit risks and changes in interest rates. It is the investment policy of the Agency to invest substantially all of its funds in fixed income securities, which limits the Agency's exposure to most types of risk.

***Credit Risk*:** Fixed income securities are subject to credit risk, which is the chance that an issuer will fail to pay interest or principal in a timely manner, or that negative perceptions of the issuer's ability to make these payments will cause security prices to decline. Certain fixed income securities, including obligations of the U.S. government or those explicitly guaranteed by the U.S. government are not considered to have credit risk.

Note 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

The credit risk profile for fixed income securities including mortgage backed securities and rated investment agreements at June 30, 2017 and 2016 are as follows (dollars in thousands):

	2017 Totals	2016 Totals
Fixed income securities:		
U.S. government guaranteed	$ 277,722	$ 247,183
Guaranteed interest contracts:		
Rated Aa1/AA-	13,471	17,819
Rated Aa2/AA+	-	799
Rated Aa2/A+	696	2,486
Rated A1+/P1	-	-
Rated A1/AA+	-	-
Rated A1/AA-	3,560	16,519
Rated A2/A	14,541	19,763
Rated A3/NR	-	-
Total fixed income securities	$ 309,990	$ 304,569

Custodial Credit Risk**:** Custodial credit risk is the risk that in the event of the failure of the custodian, the investments may not be returned. At June 30, 2017, the Agency did not have any investments exposed to custodial credit. All investments are held by the State of California or by pledging financial institutions in the name of the Agency.

Concentration of Credit Risk**:** Concentration of credit risk is the risk associated with a lack of diversification, such as having substantial investments in a few individual issuers, thereby exposing the Agency to greater risks resulting from adverse economic, political, regulatory, geographic, or credit developments. Investments issued or guaranteed by the U.S. government and investments in external investment pools, such as the commingled funds managed by the Agency are not considered subject to concentration of credit risk. At June 30, 2017, no investments in any one issuer exceed 5% of the net position, except for securities issued by the U.S. government or its agencies.

Interest Rate Risk**:** Interest rate risk is the risk that the value of fixed income securities will decline due to decreasing interest rates. The terms of a debt investment may cause its fair value to be highly sensitive to interest rate changes. At June 30, 2016, the Agency does not have any debt investments that are highly sensitive to changes in interest rates.

Effective duration is the approximate change in price of a security resulting from a 100 basis points (1 percentage point) change in the level of interest rates. It is not a measure of time. The guaranteed interest contracts are valued at par and therefore not subject to interest rate risk. The effective duration for U.S. government guaranteed fixed income securities at June 30, 2017 and 2016 are as follows:

	2017	2016
Fixed income securities:		
U.S. government guaranteed	15.78	15.37

Note 3 – PROGRAM LOANS RECEIVABLE

Changes in program loans receivable for the years ended June 30, 2017 and 2016 are as follows (dollars in thousands):

	2017 Totals	2016 Totals
Beginning of year balance	$ 3,107,849	$ 3,423,104
Loans purchased/funded	140,254	175,121
Noncash transfers - REO	(1,324)	(7,401)
Amortized principal repayments	(129,523)	(154,839)
Prepayments	(271,257)	(344,078)
Principal Reduction Program	(1,218)	(3,431)
Chargeoffs	(23,824)	241
Unamortized Mortgage Discount	146	150
Transfer to REO- net of write-down	944	7,154
Allowance for loan loss	26,205	11,828
Transfer to HPA - SB 837	(202,405)	-
	$ 2,645,847	$ 3,107,849
Current portion	$ 145,639	$ 163,299
Noncurrent portion	2,500,208	2,944,550
Total	$ 2,645,847	$ 3,107,849

Program loans receivable decreased by $462 million during FY 2017. Decreases in program loans receivable were primarily due to the transfer of $202.4 million of program loan receivable to HPA as a result of SB 837, decreases in repayments and prepayments on program loans and $23.8 million in charge offs.

Loan prepayments decreased by $72.8 million to $271.3 million in FY 2017 compared to $344.1 million in FY 2016.

See Note 12 – Transfers to Other Funds/Government Agencies for detail information regarding SB 837.

Note 4 – ALLOWANCE FOR PROGRAM LOAN LOSSES

Single Family: The Agency's policy takes into consideration a variety of factors using regression and Marko chain analysis for probable losses which are established as an allowance for loan losses on Single Family loans. These evaluations take into consideration loan status, borrower's FICO score, current Loan-To-Value ratio (LTV), current FNMA 30/60 reservation rate, reinsurance percentage, housing price index (HPI), and California Seasonably Adjusted Unemployment Rate – as published by California Employment Development Department. As the California housing market and unemployment rates continued to improve in FY 2017, the Fund recorded a decrease of $8.9 million in allowance for loan loss reserve for Homeownership Programs in FY 2017.

Multi-Family: The Agency's policy in setting loan loss reserves on the Multi-Family Portfolio is determined on a loan level basis. Loan loss reserve calculations take into consideration lien priority, Section 8 Units, Tax credit status, Loan-To-Value ratio (LTV), Debt Service Coverage Ratio (DSCR), occupancy percentage, FHA insurance or FHA-Risk Share Coverage, and delinquency status.

Changes in the allowance for program loan losses for the year ended June 30, 2017 and 2016 are as follows (dollars in thousands):

	Homeownership Program	Multifamily Rental Housing Program	Other Program and Accounts	2017 Total	2016 Total
Beginning of year balance	$ 19,832	$ 1,601	$ 83,961	$ 105,394	$ 117,222
Provision for program loan losses	(7,816)	(169)	5,604	(2,381)	(12,069)
Charge-offs	(1,061)	-	(22,763)	(23,824)	241
End of year balance	$ 10,955	$ 1,432	$ 66,802	$ 79,189	$ 105,394

Total allowance for loan loss reserve decreased $26.2 million to $79.2 million in FY 2017. The decrease is primarily due to a transfer of $22.4 million of allowance for loan loss reserve related to SB 837.

Note 5 – CAPITAL ASSETS

The capital assets of the Agency, includes equipment and office furniture, are reported at historical cost. The Agency has established a policy of capitalizing assets with an acquisition cost or established value of $5,000 or greater. Depreciation on capital assets is computed using the straight-line method over estimated useful lives ranging from one to ten years. Depreciation used by the Agency is charged as an expense against the Agency's General Operating Fund. When assets are retired or otherwise disposed of, the costs and related accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in operations in the period of disposal.

GASB Statement 42, *Accounting and Financial Reporting for Impairment of Capital Assets and Insurance Recoveries*, establishes accounting and financial reporting standards for impairment of capital assets. A capital asset is considered impaired when its service utility has declined significantly and unexpectedly. CalHFA is required to evaluate prominent events or changes in circumstances. No such events or circumstances were encountered as of June 30, 2017.

The table below show the addition and deduction of the Agency's capital asset for the year ended June 30, 2017.

	2016	Additions	Deductions	2017
Capital assets being depreciated:				
Data processing equipment	$ 565	$ 206	$ 211	$ 560
Office furniture and equipment	684	51	9	726
Total capital assets being depreciated	1,249	257	220	1,286
Less: Accumulated depreciation				
Data processing equipment	332	97	211	218
Office furniture and equipment	330	95	9	416
Total accumulated depreciation	662	192	220	634
Capital assets, net of depreciation	$ 587	$ 65	$ -	$ 652

Note 6 – LONG- AND SHORT-TERM LIABILITIES – BONDS, NOTES AND LOANS PAYABLE AND ASSOCIATED INTEREST RATE SWAPS

The Act empowers the Agency, on behalf of the Fund, to issue both federally taxable and tax exempt bonds and notes. Bonds and notes issued by the Agency are not debts of the State but are special and general obligations of the Agency payable solely from and collateralized by the revenues and other assets pledged under the respective indentures. The Act provides the Agency with the authority to have outstanding bonds or notes, at any one time, in the aggregate principal amount of $13.15 billion excluding refunding issues and certain taxable securities.

The Agency, on behalf of the Fund, as part of its interest rate risk management program, has entered into interest rate swap agreements with various counterparties wherein the Agency has agreed to pay fixed or variable rates of interest and receive floating rate payments.

Bonds payable and the terms, interest rate reset terms, outstanding notional amounts and fair value of associated interest rate swaps as of June 30, 2017 are as follows (dollars in thousands):

		Bonds / Notes							
Bond Issue	**Type of Bond**	**Interest Rate Range**	**Variable Rate Type ***	**Reset Term**	**Final Maturity Date**	**Original Issuance Amount**	**Outstanding Fixed**	**Outstanding Variable**	**Total**

Note 6 – LONG- AND SHORT-TERM LIABILITIES – BONDS, NOTES AND LOANS PAYABLE AND ASSOCIATED INTEREST RATE SWAPS (continued)

***Notes Payable*:** The Agency entered into loan agreements with Citibank N.A. on March 1, 2010. The Agency received funds for special bond redemptions in exchange for total notes payable of $95.1 million. As of June 30, 2017, Citibank Notes were paid off.

Beginning this year, the Agency entered into an agreement with Federal Financing Bank to borrow capital specifically for multifamily loans to support its participation in FHA's HFA Risk-Sharing Program.

The balance and changes in notes payable for the years ended June 30, 2017 and 2016 are as follows (dollars in thousands):

	2017 Totals	2016 Total
Beginning of year balance	$ 34,987	$ 54,580
CitiBank Notes payable	(34,987)	-
FFB Notes payable	33,534	-
Principal payments	(177)	(19,593)
End of year balance	33,357	34,987
Current portion	320	1,371
Noncurrent portion	33,037	33,616
Total	$ 33,357	$ 34,987

The table below provides a summary of note payment requirements for the next five years and in five year increments thereafter (dollars in thousands).

Fiscal Year Ending June 30	Principal	Interest	Total
2018	$ 320	$ 941	$ 1,261
2019	334	932	1,266
2020	349	922	1,271
2021	365	912	1,277
2022	382	901	1,283

2048-2052	6,605	1,507	8,112
2053-2057	7,179	474	7,653
Total	$ 33,357	$ 23,804	$ 57,161

Note 6 – LONG- AND SHORT-TERM LIABILITIES – BONDS, NOTES AND LOANS PAYABLE AND ASSOCIATED INTEREST RATE SWAPS (continued)

***Loans Payable*:** Beginning this year, the Agency entered into an agreement with the Federal Home Loan Bank of San Francisco. The Agency has access to $100 million secured credit line to fund select portfolios of Fannie Mae and Ginnie Mae MBS composed of single family loans it has originated for low to moderate income homebuyers. The FHLB advances can have terms up to one year and terms can be renewed for up to one year at each maturity date.

The table below provides the outstanding Federal Home Loan Bank Advances as of June 30, 2017 (dollars in thousands).

Funding Date	Maturity Date	Current Par	Interest Rate (%)
1/20/2017	7/20/2017	$ 13,900	0.75
2/16/2017	8/9/2017	8,100	0.76
2/16/2017	8/16/2017	2,900	0.79

Totals		$ 79,595	

***Conduit Debt Obligations*:** Beginning in 2009, the Agency issued conduit housing revenue debt obligations to provide financial assistance for the acquisition, construction and development of multifamily rental housing. They are limited obligations of the Agency, payable solely from the revenues and other funds and money pledged and assigned under the applicable indenture, series indenture, master pledge and assignment, or funding loan agreement.

The Agency had 59 series of conduit debt obligations aggregating $700.1 million as of June 30, 2017 and 47 series of conduit debt obligations aggregating $591.6 million as of June 30, 2016. For the years ended June 30, 2017 and 2016, all the authorized conduit debt obligations were issued. For the years ended June 30, 2017 and 2016, the Agency initially issued $311.7 million and $192.8 million in conduit debt obligations, respectively. The aggregate balances as of June 30, 2017 and 2016 include draws from previously issued conduits offset by maturities and redemptions.

The Agency may collect amounts from borrowers for application processing, issuance fees, administration fees, special issuer fees, unearned revenue-prepaid administration fees and California Debt Limit Allocation Committee (CDLAC) performance fees. If the conduit debt obligations are issued, the CDLAC performance fees are returned. For the year ended June 30, 2017, the Agency collected $388 thousand in issuance fees and $2.4 million in administration fees. The cumulative balance of unearned revenue – prepaid administrative fees as of June 30, 2017 is $507 thousand. For the year ended June 30, 2016, the Agency collected $381 thousand in issuance fees, $2.3 million in administration fees, and $68 thousand in special issuer fees. The cumulative balance of unearned revenue – prepaid administrative fees as of June 30, 2016 was $469 thousand.

***Reconciliation of Bonds Payable*:** Changes in bonds payable for the years ended June 30, 2017 and 2016 are as follows (dollars in thousands):

	2017 Totals	2016 Totals
Beginning of year balance	$ 2,583,952	$ 2,914,626
New bonds issued	278,240	299,270
Scheduled maturities	(50,270)	(48,166)
Redemptions	(713,691)	(580,374)
Amortized discount	12	40
Amortized premium	(997)	(1,444)
Reclass of refunding premium to deferred gain	(1,372)	-
End of year balance	$ 2,095,874	$ 2,583,952
Current portion	$ 77,762	$ 54,592
Noncurrent portion	2,018,112	2,529,360
Total	$ 2,095,874	$ 2,583,952

Note 6 – LONG- AND SHORT-TERM LIABILITIES – BONDS, NOTES AND LOANS PAYABLE AND ASSOCIATED INTEREST RATE SWAPS (continued)

Variable Rate Debt and Debt Service Requirements: The Agency's variable rate debt is typically related to remarketed rates or common indices such as the Securities Industry and Financial Markets Association ("SIFMA") or the London Inter-Bank Offered Rate ("LIBOR") and resets periodically. The interest calculations shown in the table below are based on the variable rate in effect at June 30, 2016, and may not be indicative of the actual interest expense that will be incurred by the Fund. As rates vary, variable rate bond interest payments and net swap payments will vary. The table below provides a summary of debt service requirements and net swap payments for the next five years and in five year increments thereafter (dollars in thousands).

Fiscal Year	Fixed/Variable Unswapped		Variable Swapped		Interest Rate	
Ending June 30	Principal	Interest	Principal	Interest	Swaps, Net	Total
2018	$ 69,595	$ 57,052	$ 8,165	$ 1,334	$ 27,518	$ 163,664
2019	70,135	59,061	7,180	1,339	24,458	162,173
2020	69,910	57,074	7,425	1,255	22,030	157,694
2021	74,840	54,551	7,945	1,170	19,896	158,402
2022	72,960	52,384	7,985	1,080	17,933	152,342
2023-2027	463,560	216,353	27,305	4,336	68,119	779,673
2028-2032	658,095	121,149	35,660	3,070	42,713	860,687
2033-2037	265,600	42,528	40,985	868	15,352	365,333
2038-2042	145,809	22,464	2,775	28	1,144	172,220
2043-2047	34,320	7,055	-	-	6	41,381
2048-2052	10,380	3,962	-	-	-	14,342
2053-2057	1,140	2,507	-	-	-	3,647
2058-2058	13,205	-	-	-	-	13,205
Total	$ 1,949,549	$ 696,140	$ 145,425	$ 14,480	$ 239,169	$ 3,044,763

As of June 30, 2017, the difference between the gross bonds payable and the net bonds payable was $0.9 million. This represented the aggregate of the unamortized bond premium and bond discount.

Letter of Credit Agreements: The Temporary Credit and Liquidity Program expired December 2015. In order to replace the liquidity provided by this program, the Agency entered into letter of credit agreements in November 2014, May 2015 and July 2015. For the years ended June 30, 2017 and 2016, the Agency had immediately reimbursed the full amount of all the draws on the agreements.

Objective of the Interest Rate Swaps: In order to protect against rising rates, the Agency primarily entered into swaps to establish synthetic fixed rates for a like amount of the Agency's variable rate bond obligations. The majority of the Agency's interest rate swap transactions are structured for the Agency to pay a fixed interest rate while receiving a variable interest rate (fixed payer swaps) and exceptions are listed under Basis Risk Associated with Interest Rate Swaps. Synthetic fixed rates provide the Agency with a significantly lower fixed cost of funds compared to issuing fixed-rate bonds; however, the increased risks related to the synthetic fixed rates have the effect of increasing costs to the Agency.

Terms, Fair Value and Credit Risk: The terms and fair values of the outstanding fixed payer swaps as of June 30, 2017 are summarized in the table at the beginning of this note. The terms and fair values of the outstanding basis swaps are summarized in the table under Basis Risk.

The fair value of the swaps is reported as "Derivative swap asset" within "Other assets" or as "Derivative swap liability" within "Other liabilities" in the statements of net position. The accumulated decrease or increase in the fair value of the effective swaps is reported as "Accumulated decrease in fair value of hedging derivatives" within "Deferred outflow of resources" or "Accumulated increase in fair value of hedging derivatives" within "Deferred inflow of resources" in the statements of net position. Alternatively, the gain or loss on the fair value of the ineffective swaps is reported as "Investment swap revenue" within "Other revenues" in the statements of revenues, expenses and changes in net position.

The Agency did not pay or receive any cash when swap transactions were initiated except for in-substance assignments. For the years ended June 30, 2017 and 2016, no additional swaps were considered investment derivatives because they no longer met the criteria for effectiveness. The following table summarizes the swap fair value activity in the statements of net position as of June 30, 2017 and 2016 and the statements of revenues, expenses and changes in net position for the years ended June 30, 2017 and 2016 (dollars in thousands):

Note 6 – LONG- AND SHORT-TERM LIABILITIES – BONDS, NOTES AND LOANS PAYABLE AND ASSOCIATED INTEREST RATE SWAPS (continued)

Statements of Net Position	2017	2016
Derivative swap asset	$ 508	$ 241
Accumulated decrease in fair value of hedging derivatives	10,051	27,441
Derivative swap liability	114,353	177,054
Statements of Revenue, Expenses and Changes in Net position		
Investment swap revenue	45,579	(10,625)

Except as discussed under rollover risk, the Agency's swap agreements contain scheduled reductions to outstanding notional amounts that are expected to approximately follow scheduled or anticipated reductions in the associated "bonds payable" category.

As of June 30, 2017, the Agency has interest rate swap agreements with 10 swap counterparties. All of the Agency's interest rate swap agreements require the Agency to post collateral if its general obligation credit ratings, as issued by Moody's and Standard and Poor's fall below a certain level and if the fair value of the swaps breach a certain threshold. The collateral can be posted in several forms: cash, mortgage-backed securities, or treasury securities. If the Agency does not post collateral, the interest rate swap can be terminated by the counterparty. The cash collateral and securities collateral are reported as "Current assets: Other Assets" and "Noncurrent assets: Investments," respectively, in the statements of net position. As of June 30, 2017, the Agency posted cash and fair value of mortgage-backed securities as collateral with swap counterparties in the amounts of $630 thousand and $35.1 million, respectively. As of June 30, 2016, the Agency posted cash and fair value of mortgage-backed securities as collateral in the amounts of $18.0 million and $14.8 million, respectively.

Because interest rates are generally lower than the rates in effect at inception of the swap agreements, the Agency's fixed payer swap agreements had an aggregate negative fair value of $114.4 million as of June 30, 2017 and $177.1 million as of June 30, 2016. Fair values are as reported by the Agency's dealer counterparties and are estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swaps. The swaps are classified in Level 2 of the fair value hierarchy. Level 2 is described in the Cash, Cash Equivalents and Investments note.

As of June 30, 2017, the Agency's swap portfolio had an aggregate asset position of $508 thousand. This represents the maximum loss that would be reported at the reporting date if all counterparties failed to perform as contracted. However, this maximum exposure is eliminated by the applicable counterparty swap liabilities included in the $114.4 million total. Therefore, the Agency has no net exposure to credit risk.

The following table shows the number of fixed payer swaps and outstanding notional amounts by the counterparties' respective credit ratings as of June 30, 2017 (dollars in thousands).

Moody's	Standard & Poors	Outstanding Notional Amount	Number of Swap Transactions
Aa2	AA-	$ 94,410	4
Aa3	A+	169,320	9
Aa3	AA	370,440	31
A1	A+	9,820	1
A1	A	24,625	1
Baa1	BBB+	65,290	6
Baa2	A-	87,300	7
Baa3	BBB	9,160	1
		$ 830,365	60

***Interest Rate Risk*:** The Agency is exposed to interest rate risk on its fixed payer swaps. As the LIBOR or the SIFMA swap index decreases, the Agency's net payments on the swaps increase.

***Basis Risk*:** All of the Agency's interest rate swaps contain an element of basis risk, the risk that the floating rate component of the swap will not match the floating rate of the underlying bonds. This risk arises because floating rates paid by swap counterparties are based on indices, which consist of market-wide averages, while interest paid on the Agency's variable rate bonds is specific to individual bond issues.

Note 6 – LONG- AND SHORT-TERM LIABILITIES – BONDS, NOTES AND LOANS PAYABLE AND ASSOCIATED INTEREST RATE SWAPS (continued)

Historically, the Agency's variable rate tax-exempt bonds trade at a slight discount to the SIFMA index. For those swaps associated with tax-exempt bonds for which the Agency receives a variable rate payment based on a percentage of LIBOR, the Agency is exposed to basis risk should the relationship between SIFMA and LIBOR converge.

Multiple swap formulas have been used by the Agency. As of June 30, 2017, the formulas for the swap portfolio utilized the SIFMA, the 1 month LIBOR and the 3 month LIBOR rates. As of June 30, 2017, rates for the SIFMA, the 1 month LIBOR and the 3 month LIBOR were 0.91%, 1.224% and 1.299%, respectively. The swap formulas will continue to be monitored for its effectiveness in case the Agency chooses to enter into any future interest rate swaps. In addition, the Agency holds 6 basis swaps as a means to change the variable rate formula received for 112 million of swap notional amount. These basis swaps changed the variable rate formula received from counterparties from 65% of LIBOR to those described in the following table as of June 30, 2017 (dollars in thousands):

Bond Issue	Variable Rate Paid By Agency	Floating Rate Received By Agency */**	Effective Date	Termination Date	Outstanding Notional/Applicable Amount	Fair Value
Home Mortgage Revenue Bonds:						
2000 Series J	LIBOR @ 65%	LIBOR @ 85%-0.019%	2/1/04	8/1/30	19,445	91
2000 Series X-2	LIBOR @ 65%	LIBOR @ 85%-0.019%	2/1/04	8/1/31	16,845	77
2001 Series N	LIBOR @ 65%	LIBOR @ 85%-0.019%	2/1/04	8/1/18	2,805	4
2002 Series B	LIBOR @ 65%	LIBOR @ 85%-0.019%	2/1/04	8/1/27	26,625	151
2002 Series F	LIBOR @ 65%	LIBOR @ 85%-0.019%	2/1/04	2/1/24	27,455	121
2002 Series M	LIBOR @ 65%	LIBOR @ 85%-0.019%	2/1/04	8/1/22	18,735	64
					$ 111,910	$ 508

* The notional amount and the amortization of these swaps mirror the initial 65% of LIBOR swaps, basically overlaying the swaps so that the effective rate received from the counterparties are the rates shown in the table above.

**The variable interest rate received by the counterparties is dependent on the LIBOR interest rate at the time of settlement. The rate shown in the table is the effective rate at June 30, 2017.

***Termination Risk*:** Counterparties to the Agency's interest rate swap agreements have ordinary termination rights that require settlement payments by the Agency or the counterparty based on the fair value of the swap at the date of termination.

***Rollover Risk*:** The Agency is exposed to rollover risk on interest rate swaps that are hedges of debt that mature or may be terminated prior to the maturity of the hedged debt. When these swaps terminate, the Agency will be re-exposed to the risks being hedged by the swaps. The fixed payer interest rate swaps' termination dates and associated debts' maturities are listed in the previous bonds payable and interest rate swap table.

Note 6 – LONG- AND SHORT-TERM LIABILITIES – BONDS, NOTES AND LOANS PAYABLE AND ASSOCIATED INTEREST RATE SWAPS (continued)

Over Hedged Bonds: All notional amounts (or "applicable amounts") of the fixed payer swaps match the principal amounts of the associated debt with the following exceptions as of June 30, 2017 (dollars in thousands):

Bond Issue	Bonds Outstanding	Swap Notional Amount	Unmatched Swap	Fair Value
Home Mortgage Revenue Bonds				
2000 Series J *		$ 17,765	$ 17,765	$ (2,082)

*Includes Basis Swap.

Note 7 – NONMORTGAGE INVESTMENT AND MORTGAGE YIELD

In accordance with Federal law, the Agency is required to rebate to the Internal Revenue Service (“IRS”) the excess of the amount actually earned on all nonmortgage investments (derived from investing the bond proceeds) over the amount that would have been earned had those investments borne a rate equal to the yield on the bond issue, plus any income attributable to such excess. As of June 30, 2017 and 2016, the Fund had liabilities to the IRS totaling $526.6 thousand and $441 thousand, respectively and reported in the statements of net position as “Due to IRS” within “Due to other government entities.” For the years ended June 30, 2017 and 2016, the net effects of changes in the liability have been recorded as a decrease and increase, respectively, in “Interest income: Investments” in the statements of revenues, expenses and changes in net position.

Additionally, the Agency has identified all the bond series that were issued as variable rate plans of finance and subject to review and monitoring of mortgage yield excess. As of June 30, 2017 and 2016, the Fund had liabilities to the IRS totaling $1.5 million and $5.6 million, respectively and reported in the statements of net position as “Due to IRS” within “Due to other government entities.” For the years ended June 30, 2017 and 2016, the net effects of changes in the liability have been recorded as increases in “Interest income: Program loans” in the statements of revenues, expenses and changes in net position. The Agency will continue to monitor the status of mortgage yield compliance to mitigate further liability.

Note 8 – EXTINGUISHMENT OF DEBT

For the year ended June 30, 2017, the Agency issued Home Mortgage Revenue Bonds 2017 Series A on June 30, 2017 and the proceeds were used to refund prior Home Mortgage Revenue Bonds series in a subsequent period as described in Note 18 – Subsequent Events. The refunding’s provided an estimated economic gain of $32.5 million.

Note 9 – PENSION PLAN

***Plan Description, Benefits Provided and Employees Covered*:** The Agency contributes to the Public Employees’ Retirement Fund (PERF) administered by the California Public Employees’ Retirement System (“CalPERS”), an agent multiple-employer public employee defined benefit pension plan. The State of California is considered the employer and the Agency is a component of the State. The Agency employees are enrolled in the State Miscellaneous Plan (the “Plan”). The Plan is included in the Public Employee’s Retirement Fund A (“PERF A”) PERF is comprised of and reported as PERF A, PERF B, and PERF C for accounting purposes. CalPERS acts as a common investment and administrative agent for participating public entities within the State and uses the accrual basis of accounting. Benefit provisions and all other requirements are established by state statute. All state agencies are considered collectively to be a single employer, and the actuarial present value of vested and non-vested accumulated plan benefits attribute to the Agency’s employees is determined as Agency’s percentage of the State as a single employer. Similarly, the net assets available for benefits of the Agency employees is determined as the Agency’s percentage of the State. A full description of the pension plan regarding number of employees covered, benefit provisions, assumptions, and membership information are listed in the June 30, 2015 Annual Actuarial Valuation Report. Details of the benefits provided can be obtained in Appendix B of the actuarial valuation report. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. CalPERS’ annual financial report and the Annual Actuarial Valuation Report may be obtained via the internet at www.calpers.ca.gov under Forms and Publications.

.

Note 9 – PENSION PLAN (continued)

***GASB 68 Accounting Valuation Reports*:** The State requested CalPERS GASB 68 Accounting Valuation Reports for the Plan. Copies of these reports may be obtained from the State Controller's Office, Division of Accounting and Reporting.

***Contributions*:** Generally, full time employees are eligible to participate as members of CalPERS and are eligible to retire at age 50 with at least five years of service or age 55 with at least ten years of service, depending on the plan selected by the employee. Employees hired after January 1, 2013, must be at least age 52 to retire. Annual retirement benefits are determined based on age at retirement, length of membership service, and the amount of earnings based on the highest or last 12 or 36 consecutive months' average. Health care and dental benefits may be provided to members depending on the date hired and the years of credited service of a member. If members are not fully vested, the health care and dental contributions are prorated based of the years of service.

The Agency's allocated contribution for the State's Benefits for Annuitants (Retired) was $1,860,126 and $1,868,239 for years ended June 30, 2017 and June 30, 2016. The Fund's Active Employee Pension Benefit contribution rates were 26.728% (Tier 1), 26.984% (Tier 2), and 25.150% (Tier 1), 25.278% (Tier 2) for the years ended June 30, 2017 and June 30, 2016. The number of Active employees covered by the benefit terms is 223 and 236 for the years ended in June 30, 2017 and June 30, 2016 respectively.

***Pension Liabilities, Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions*:** As of June 30, 2017 and 2016, the Fund reported a liability of $53.2 million and $47.1 million, respectively in the Due to other government entities section of the financial statement, for its proportionate share of the State's net pension liability. The net pension liabilities were measured as of June 30, 2016 and 2015 and were based on the Fund's pensionable compensation as a percentage of the State's total pensionable compensation. As of June 30, 2016 and 2015, the Fund's proportionate share was 0.161% and 0.167%, respectively.

For the years ended June 30, 2017 and 2016, the Fund recognized pension expense of negative $0.4 million and positive $2.9 million, respectively. As of June 30, 2017 and 2016, the Fund reported deferred outflows of resources and deferred inflows of resources related to pensions for the following sources (dollars in thousands):

	2017		2016	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between projected and actual experience	$ 542	$ 122	$ 861	$ -
Differences between projected and actual earnings on pension plan investments	9,647	3,774	4,855	5,884
Differences between Fund contributions and proportionate share of contributions	-	28	-	53
Changes in proportion	-	2,485	-	1,443
Changes of assumptions	-	1,174	-	1,784
Fund contributions subsequent to the measurement date	4,651	-	4,495	-
	$ 14,840	$ 7,583	$ 10,211	$ 9,164

As of June 30, 2017, the $4.7 million reported as deferred outflows of resources related to pensions resulting from Fund contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows (dollars in thousands):

Fiscal year ending June 30:	
2018	(595)
2019	(487)
2020	2,152
2021	1,536

Note 9 – PENSION PLAN (continued)

***Actuarial Assumptions*:** For the measurement period ended June 30, 2016, the total pension liability was determined by rolling forward the June 30, 2015 total pension liability. The June 30, 2016 total pension liability was based on the following actuarial assumptions:

Inflation	2.75%
Salary increases	Varies by entry age and service
Investment rate of return	7.65%
Post retirement benefit increase	Contract COLA up to 2.75% until purchasing power protection allowance floor on purchasing power applies, 2.75% thereafter

For the measurement period ended June 30, 2015, the total pension liability was determined by rolling forward the June 30, 2014 total pension liability. The June 30, 2015 total pension liabilities were based on the following actuarial assumptions:

Inflation	2.75%
Salary increases	Varies by entry age and service
Investment rate of return	7.65%, net of pension plan investment and administrative expenses; includes inflation
Post retirement benefit increase	Contract COLA up to 2.75% until purchasing power protection allowance floor on purchasing power applies, 2.75% thereafter

For the measurement periods ended June 30, 2016 and 2015, the mortality tables were based on CalPERS' specific data. The tables include 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2015 experience study that can be obtained via the internet at www.calpers.ca.gov under Forms and Publications.

All other actuarial assumptions used in the June 30, 2015 and 2014 valuations were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increases, mortality and retirement rates. The Experience Study report can be obtained via the internet at www.calpers.ca.gov under Forms and Publications.

The long term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all of the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

Note 9 – PENSION PLAN (continued)

For the measurement period ended June 30, 2016, the rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. The target allocations were adopted by CalPERS effective July 1, 2015. For the measurement period ended June 30, 2016, the following table reflects long-term expected real rate of returns by asset class:

Asset Class	Target Allocation	Real Return Years 1-10[1]	Real Return Years 11+[2]
Global Equity	51%	5.25%	5.71%
Global Fixed Income	20	0.99	2.43
Private Equity	10	6.83	6.95
Real Estate	10	4.50	5.13
Inflation Sensitive	6	0.45	3.36
Infrastructure and Forestland	2	4.50	5.09
Liquidity	1	(0.55)	(1.05)
	100%		

[1]An expected inflation of 2.5% used for this period
[2]An expected inflation of 3.0% used for this period

For the measurement period ended June 30, 2015, the rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. The geometric rates of return are net of administrative expenses. For the measurement period ended June 30, 2015, the following table reflects long-term expected real rate of returns by asset class:

Asset Class	Target Allocation	Real Return Years 1-10[1]	Real Return Years 11+[2]
Global Equity	51%	5.25%	5.71%
Global Fixed Income	19	0.99	2.43
Private Equity	10	6.83	6.95
Real Estate	10	4.50	5.13
Inflation Sensitive	6	0.45	3.36
Infrastructure and Forestland	2	4.50	5.09
Liquidity	2	(0.55)	(1.05)
	100%		

[1]An expected inflation of 2.5% used for this period
[2]An expected inflation of 3.0% used for this period

Discount Rate: The discount rate used to measure the total pension liability for the measurement periods ended June 30, 2016 and 2015 was 7.65%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the discount rates used for the current and previous measurement periods were adequate and the use of the municipal bond rate calculation was not necessary. The current and previous long term expected discount rates used in the current and previous measurement periods were applied to all plans in the Public Employees' Retirement Fund. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained via the internet at www.calpers.ca.gov under the GASB 68 section.

***Sensitivity of the Fund's Proportionate Share of the Net Pension Liability to Changes in Discount Rate*:** The following presents the Fund's proportionate share of the net pension liability as of the June 30, 2016 measurement date, calculated using the discount rate of 7.65%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.65%) or 1 percentage-point higher (8.65%) than the current rate (dollars in thousands):

	Discount Rate – 1% (6.65%)	Current Discount Rate (7.65%)	Discount Rate + 1% (8.65%)
Fund's net pension liability	$ 72,371	$ 53,160	$ 37,032

The following presents the Fund's proportionate share of the net pension liability as of the June 30, 2015 measurement date, calculated using the discount rate of 7.65%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.65%) or 1 percentage-point higher (8.65%) than the current rate (dollars in thousands):

	Discount Rate – 1% (6.65%)	Current Discount Rate (7.65%)	Discount Rate + 1% (8.65%)
Fund's net pension liability	$ 66,557	$ 47,125	$ 30,821

***Pension Plan Fiduciary Net Position*:** As of June 30, 2016 and 2015, the Plan's fiduciary net position was $66.7 billion and $68.1 billion, respectively. Detailed information about PERF A's fiduciary net position is available via the internet at www.calpers.ca.gov under Forms and Publications.

***Payable to the Pension Plan*:** As of June 30, 2017 and 2016, the Fund did not report any payables related to pension contributions.

Note 10 – OTHER POSTEMPLOYMENT BENEFITS

Post-retirement health care benefits are also provided to CalHFA employees through the programs sponsored by the State as administered by CalPERS and the California Department of Human Resources (CalHR). State Controller's Office sets the employer contribution rate based on the annual required contribution ("ARC") of the employers, an amount actuarially determined in accordance with GAAP. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The Agency's estimated Net OPEB Obligation (NOO) was $33.3 million and $28.7 million for the years ended June 30, 2017 and June 30, 2016, respectively, and was included in the Due To Other Government Entities section of the financial statement. The allocated contribution of OPEB from the Fund was $2.1 million each for both years ended June 30, 2017 and June 30, 2016. CalPERS issues a publicly available Comprehensive Annual Financial Report ("CAFR") that includes financial statements and required supplementary information for the OPEB.

As the post-retirement health care plan is sponsored by the state it is considered a single-employer plan. CalHFA is considered a department of the State. Health care and dental benefits may be provided to the members depending on the date hired and the member's years of credited service. Post-retirement health benefits include medical, prescription drug, and dental benefits, and are currently funded on a pay-as-you-go basis. Employer contributions for health premiums during the 2016-17 fiscal year maintained the 100/90 percent contribution formula established by Government Code. Under this formula, the State uses 100 percent of weighted average premiums of the four largest health benefit plans in order to calculate the maximum amount the State will contribute towards the retiree's health benefits. The State also contributes 90 percent of this average for the health benefits of each of the retiree's dependents. The retiree is responsible for paying all health benefit plan costs that exceed the average of the four largest benefit plans. The monthly estimated contribution is $559 for a single enrollee, $1,125 for an enrollee and one dependent, and $1,462 for an enrollee and two or more dependents. Dental care premiums vary by plan and number of dependents. The contribution formulas are subject to approval and amendment by the State Legislature. If members are not fully vested, the health care and dental contributions are prorated based on the years of service.

Note 10 – OTHER POSTEMPLOYMENT BENEFITS (continued)

The following table shows the components of the Fund's allocated annual OPEB cost, the amount actually contributed to the plan and the net OPEB obligation as of and for the year ended June 30, 2017, and the previous two fiscal years (dollars in thousands):

Net OPEB obligation (NOO), June 30, 2014		$ 21,485
Allocated annual OPEB cost (AOC)	$ 5,479	
Fund Allocated contributions	$ (2,069)	
Net OPEB obligation (NOO), June 30, 2015		$ 24,895
Allocated annual OPEB cost (AOC)	$ 5,894	
Fund Allocated contributions	$ (2,078)	
Net OPEB obligation (NOO), June 30, 2016		$ 28,711
Allocated annual OPEB cost (AOC)	$ 5,788	
* Transfer In – SB 837	900	
Fund Allocated contributions	$ (2,064)	
Net OPEB obligation (NOO), June 30, 2017		$ 33,335

*Beginning July 1, 2016, SB 837 repealed provisions related to the Director of Insurance for CaHLIF. Since the Agency can no longer have staff positions within CaHLIF, the Agency budgets all liabilities for staff positions within the Fund.

Note 11 – COMMITMENTS

As of June 30, 2017, the Agency had no outstanding commitments to fund Homeownership Program loans or Multifamily Program loans. As of June 30, 2017, the Agency had no proceeds available from bonds issued to Homeownership Program loans and no proceeds available from bonds issued for Multifamily Program loans.

Note 12 – TRANSFERS TO OTHER FUNDS/GOVERNMENT AGENCIES

On June 27, 2016, the Governor approved Senate Bill 837 which discontinued various housing down payment financial assistance programs and authorized the Agency to transfer any obligated amounts from such programs to State general obligation bond program, HPA. The large increase in the Agency's transfer in/out activity is a result of the above described transaction.

The following transfers were recognized by the Fund for the period ended June 30, 2017 and 2016.

Transfer in/out:	2017	2016
Transfer in - MHSA Counties	$ 71,908	-
Transfer in - CaHLIF - SB 837	(1,054)	-
Transfer out - HPA - SB 837	(374,438)	-
Transfer out - HAT	-	(496)
Transfer out - HES	-	(888)
Transfer out - MHSA Counties	(37,431)	(2,281)
Total transfer in (out)	$ (341,015)	(3,665)

Note 13 – LEASES

The Agency leases two office locations in California and entered into two separate lease agreements for office space. These leases expire in various years through July 31, 2023. The operating leases have a provision for early termination. The Agency may request an extension, cancellation, termination, surrender, amendment or modification of the lease under pre-agreed terms.

The Base Rent Schedules are as follows (dollar in thousands):

Fiscal years ended June 30	500 Capitol Mall Tower, LLC (Sacramento Office) Lease ends 7/31/23	Slauson Investors, LLC (Culver City Office Lease ends 2/28/19	Total
2018	$ 2,468	$ 257	$ 2,725
2019	2,517	154	2,671
2020	2,567	-	2,567
2021	2,619	-	2,619
2022-2023	5,623	-	5,623
Total	$ 15,794	$ 411	$ 16,205

Note 14 – ARRANGEMENTS WITH CAHLIF

All operating and administrative expenses of the Agency are initially paid from the Fund including certain operating and administrative expenses in support of mortgage guarantee insurance programs which are reported in CaHLIF. Monthly, the Fund charges CaHLIF for these expenses and is reimbursed from premiums of policies still in force and the remaining amount is used to pay outstanding claims of the CaHLIF.

Effective March 1, 2003, CaHLIF entered into a reinsurance treaty and administrative services agreement with Genworth Mortgage Insurance Corporation (“Genworth”). This agreement cedes to Genworth a 75% quota share of the insurance risk for most loans insured by CaHLIF and provides for certain administrative services to be performed by Genworth. Prior to February 2011, Genworth was paying the full amount of the loss (100%) to the insured and was billing the CaHLIF for its portion of the loss (25%) each month. Effective February 1, 2011, Genworth is paying for their portion of the loss (75%) directly to the insured and the CaHLIF is paying for its portion of the loss (25%) directly to the insured. As of June 30, 2017, there was no cash or investments remaining in CaHLIF to pay outstanding claims. The California Housing Finance Fund has written off foreclosed loans insured by CaHLIF. As of June 30, 2017, the allowance for loan loss reserve amount established under the Homeownership Programs indenture was $11.0 million.

Note 15 – RISK MANAGEMENT

Through its business operations, the Fund is exposed to various risks of loss related to potential loan losses on program mortgages, fire, liability, and employee wrongdoing. To reduce risk of loss on program mortgages, the Fund has various types of mortgage insurance. At June 30, 2017, 50.76% of the Fund’s Single Family Bond Program loans were VA, USDA Rural Development, or FHA guaranteed. Another 3.15% of these loans carry private mortgage insurance. Approximately 47.3% of the multifamily loan portfolio are either federally insured or guaranteed and/or are subject to HUD section 8 rental assistance subsidies.

The Fund is a defendant in various legal proceedings arising in the normal course of business. In the opinion of management and its legal counsel, the ultimate resolution of these proceedings will not have a material adverse effect on the Fund’s financial position. Agency participates in the pool for worker’s compensation insurance through the State of California Compensation Insurance Fund and is bonded against theft in the aggregate amount of $3.3 million through a private insurance company. The Fund also pays an annual premium for E&O coverage and has a general liability and umbrella policy. There have been no significant settlements in excess of insurance coverage during the past three calendar years.

Note 16 – LITIGATION

Certain lawsuits and claims arising in the ordinary course of business have been filed or are pending against the Agency. Based upon information available to the Agency, its review of such lawsuits and claims and consultation with counsel, the Agency believes the liability relating to these actions, if any, would not have a material adverse effect on the Fund’s financial statements.

Note 17 – RELATED PARTY TRANSACTIONS

CalHFA MAC entered into an administrative agreement with CalHFA for support services, which include an allocation of CalHFA staff to provide program oversight, administrative and legal support and direct reimbursement for goods and services of outside vendors. Due to its status as a state governmental agency, CalHFA enjoys the benefit of discounts for goods and services with strategic business partners. The administrative agreement enables CalHFA MAC to leverage these discounts by providing for CalHFA to purchase goods and services during program implementation and ongoing operations. CalHFA MAC reimburses CalHFA for these items at the actual cost expended. CalHFA MAC had liabilities to CalHFA of $112 thousand and $124 thousand for the fiscal year ended June 30, 2017 and June 30, 2016, respectively. These amounts were comprised of accounts payable and accrued expenses resulting from unbilled vendor invoices for materials and services. Additionally, actual cash reimbursements paid to CalHFA totaled were $687 thousand and $689 thousand for fiscal years ended June 30, 2017 and June 30, 2016, respectively.

CalHFA MAC also leases office space from the CalHFA under an operating lease with a term of four years and five months that expires December 31, 2017.

Note 18 – SUBSEQUENT EVENTS

On August 1, 2017 the Agency used $278.24 million of the Home Mortgage Revenue Bonds 2017 Series a refunding bond proceeds to refund a like amount of prior Home Mortgage Revenue Bonds. The debt refundings resulted in a $519.7 thousand deferred gain. The refundings will decrease the debt service cash flow for the Homeownership Programs by an estimated $40.9 million. In addition, the refundings provided an estimated economic gain of $32.5 million.

In September 2017, the Board of Directors approved Resolution 17-21 which increased the secured credit line with Federal Home Loan Bank of San Francisco from $100 million to $200 million.

On November 1, 2017 the Agency will be transferring approximately 5,600 first mortgage loans previously serviced by the Agency's Loan Servicing Division to a sub-servicer, Dovenmuehle Mortgage. The transfer will reduce risk, maximize revenues, and improve staffing efficiencies in the Single Family and Loan Servicing Divisions. As a result, the changes will require the realignment of staffing in the Agency.

CalHFA

COMPREHENSIVE ANNUAL FINANCIAL REPORT

FOR THE YEARS ENDED JUNE 30, 2017 AND JUNE 30, 2016

This page intentionally left blank.

Statistical Section

STATISTICAL SUMMARY

This part of the California Housing Finance Agency's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements and note disclosures says about CalHFA's overall financial health.

FINANCIAL TRENDS/REVENUE CAPACITY

These schedules contain trend information to help the reader understand how the Fund's financial performance and well-being have changed over time and how to assess the most significant revenue sources for Single Family and Multifamily Lending. Historical Net Positions show CalHFA's financial health over a ten-year period.

DEBT CAPACITY INFORMATION

These schedules contain trend information to help the reader understand the Fund's outstanding debt, the capacity to repay that debt, and the ability to issue additional debt in the future.

DEMOGRAPHIC AND ECONOMIC INFORMATION

These charts show demographic and economic indicators to help the reader understand the environment within which the Fund's financial activities take place.

* Special Obligation Indenture
The debt service requirements information was obtained from Agency's debt service management system.
(1) Coverage Ratio fluctuate significantly due to differences for collecting the revenue in earlier periods compared to the actual debt service payments.
(2) Fiscal Years 2009 to 2012 may show greater than usual fluctuations and shortfalls due significant challenges brought on by global and California economic conditions as well as Agency's past financial decisions to enter into interest rate swap agreements and heavy use of variable rate bonds.
(3) Sources of Revenue Include: Mortgage Loan Repayment, Mortgage Loan Interest Earnings, Mortgage Back Security Payments, and Investment Interest Earnings

Qualified mortgage revenue bonds are structured in such a way that both mortgage loan repayments and gross revenues are used for bond repayment. Accordingly, to achieve adequate debt service coverage, mortgage loan repayments must be considered. Due to the nature of qualified mortgage revenue bonds, the Fund's bond resolutions and indentures do not have required bond coverage percentages. The above information is provided for general information purposes only. Net position is netted with deferred inflows in the above information.

Debt Service Coverage Ratio	102.46%	98.35%	106.97%	100.05%	103.50%

* General Obligation of the Agency
The debt service requirements information was obtained from Agency's debt service management system.
(1) Coverage Ratio fluctuate significantly due to differences for collecting the revenue in earlier periods compared to the actual debt service payments.
(2) Fiscal Years 2009 to 2012 may show greater than usual fluctuations and shortfalls due significant challenges brought on by global and California economic conditions as well as Agency's past financial decisions to enter into interest rate swap agreements and heavy use of variable rate bonds.
(3) Sources of Revenue Include: Mortgage Loan Repayment, Mortgage Loan Interest Earnings, Mortgage Back Security Payments, and Investment Interest Earnings

Qualified mortgage revenue bonds are structured in such a way that both mortgage loan repayments and gross revenues are used for bond repayment. Accordingly, to achieve adequate debt service coverage, mortgage loan repayments must be considered. Due to the nature of qualified mortgage revenue bonds, the Fund's bond resolutions and indentures do not have required bond coverage percentages. The above information is provided for general information purposes only. Net position is netted with deferred inflows in the above information.

Statutory Requirements

STATISTICAL NARRATIVE

Section 51005 of the Health and Safety Code requires that the Agency provide certain information under the fifteen categories specified in Section 51005(b) as part of the Annual Report due under Section 51005(a).

Section 51005(a): the report shall ... include a statement of accomplishment during the previous year with respect to the agency's progress, priorities, and affirmative action efforts. The agency shall specifically include in its report on affirmative action goals, statistical data on the numbers and percentages of minority sponsors, developers, contractors, subcontractors, suppliers, architects, engineers, attorneys, mortgage bankers or other lenders, insurance agents, and managing agents.

Pursuant to Proposition 209 (also referenced as Article 1, Section 31 of the California Constitution), the California Housing Finance Agency (CalHFA) does not give preferences in awarding contracts based upon race or gender.

Pursuant to federal and state law, the Agency requires affirmative marketing for all housing developments to assure that housing opportunities generated by CalHFA provide attractive housing options in diverse locations for low income, disabled and senior households, and are open to all regardless of race, sex, sexual orientation, marital status, religion, national origin, ancestry, familial status or disability.

The following information is submitted in narrative form as it relates to the requirement of the referenced code sections [paragraph numbers correspond to the subparagraphs of Section 51005(b)]:

(1) The primary purpose of the agency in meeting the housing needs of persons and families of low and moderate income pursuant to Section 50950.

The Agency meets the housing needs of persons and families of low to moderate income to the extent that it satisfies its specific objectives as outlined in Section 50952:

(a) Acquisition of the maximum amount of funds available for subsidies for the benefit of persons and families of low to moderate income occupying units financed pursuant to the statute.

Multifamily – CalHFA has sought to acquire the maximum amount of funds available to it under the federal rental housing subsidy (Section 8) contract authority. CalHFA also encourages the sponsors to request and accept renewals on all rental housing subsidy contracts that are part of the approved financing on any given multifamily development. In addition, the Agency has combined its financing with participation and contributions from governmental entities utilizing federal, state, county and local resources including but not limited to FHA insurance, Low Income Housing Tax Credits (LIHTC), federally tax-exempt bonds, tax increment and agency funds, and State Department of Housing and Community Development funds.

Single Family Lending – Utilizing tax exempt authority available from the California Debt Limit Allocation Committee, the Agency created a Mortgage Credit Certificate (MCC) program in 2013. The program is offered in areas of the State not covered by locality MCC programs, or if the locality depleted their authority.

Further assisting low to moderate homebuyers, CalHFA offers a variety of FHA, Conventional and down payment loan products that provide both first-time and non-first-time California homebuyers the opportunity to purchase a house with an affordable mortgage.

(b) Housing developments providing a socially harmonious environment by meeting the housing needs of both very low income households and other persons and families of low to moderate income and by avoidance of concentration of very low income households that may lead to deterioration of a development.

Multifamily – The present multifamily rental programs of the Agency integrate very low and low income housing opportunities with market rate rentals whenever possible. All of CalHFA's housing developments are planned and designed to visually and physically integrate all elements of a housing complex into a socially harmonious environment. There are no visual or physical differences between units to be occupied by the very low income, low income or market rate tenants. The Agency requires that asset management personnel ensure that developments maintain high quality rental units. Housing developments are required to distribute low or very low income units throughout the development.

Single Family Lending – The Agency's loan programs are designed to provide funding models as market conditions permit, to meet housing needs throughout the state. The programs are designed to provide financing to low and moderate income homebuyers purchasing homes in all counties. Through the Agency's single family loan reservation system, lenders can reserve a loan without the loan being pre-approved. This encourages widespread utilization of funds.

(c) Emphasis on housing developments of superior design, appropriate scale and amenities, and on sites convenient to areas of employment, shopping, and public facilities.

Multifamily – CalHFA developments and amenities are visually (architecturally) reflective of comparable market projects within a locale, being indistinguishable as a low income project. In addition, local participation typically includes architectural design requirements that keep the design comparable to other apartment buildings in the neighborhood. Whenever market conditions allow, CalHFA has encouraged the development of larger units to accommodate larger low income and other families. Within a development, a proportionate share of all unit types is reserved for low income families.

Single Family Lending – The Single Family Lending Division provides mortgage products to low and moderate income borrowers throughout the State. This division continually provides additional funds to assist in financing the purchase of new and existing homes. It also ensures that affordable financing is available to assist low and moderate /income households to enjoy the amenities and benefits of homeownership in developments that meet their family need. All properties must be in good condition and satisfy lender requirements.

(d) Increasing the range of housing choices for minorities in lower income households and other lower income households, rather than maintaining or increasing the impaction of low income areas, and cooperation in implementation of local and area wide housing allocation plans adopted by cities, counties, and joint powers entities made up of counties and cities.

Multifamily – In compliance with applicable laws, the Agency requires affirmative marketing and adequate placement for all projects to assure that housing opportunities assisted by CalHFA and other financing mechanisms provide attractive housing options in diverse locations for low income families, disabled, and senior households.

(e) Reducing the cost of mortgage financing for rental and cooperative housing to provide lower rent for persons and families of low or moderate income.

Multifamily – Through the sale of tax exempt bonds, voter initiatives and other financing mechanisms, the Agency delivers low-cost mortgages to developers who then pass along this benefit to lower income tenants through reduced rents. The Agency also uses available subsidy funds to lower the cost of preserving affordable rental developments. CalHFA has also entered into a partnership with HUD/FHA and the Federal Finance Bank under the Risk Share program to provide low cost 40 year fixed rate financing for affordable housing developments.

(f) Reducing the cost of mortgage financing for home purchase, in order to make homeownership feasible for persons and families of low or moderate income.

Single Family Lending – The Agency provides first time homebuyers down payment and/or closing cost assistance through various programs such as the Zero Interest Program (ZIP) and the MyHome Assistance Program. The result is a financing structure well suited for low to moderate homebuyers.

These programs complement first mortgage lending programs offered by CalHFA-approved lenders throughout the State.

(g) Identification of areas of low vacancy rates where construction is needed, of areas of substandard housing where rehabilitation is needed, and of areas of credit shortage where financing is needed for transfer of existing housing, so as to maximize the impact of financing activities on employment, reduction of housing costs, and maintenance of local economic activity.

Multifamily – Within every multifamily development the Agency ensures there are benefits derived from building the project, i.e., construction and related employment, etc. As part of its underwriting considerations, the Agency examines critical factors including vacancy rates, market demand and cost feasibility.

Single Family Lending – The Agency has identified federally designated targeted areas in need of mortgage credit, new housing construction or rehabilitation and community revitalization. Under federal tax laws, CalHFA is required to commit 20% of any tax-exempt bond issue to federally-designated targeted areas for 12 months.

(h) A balance between urban metropolitan, non-metropolitan, and rural metropolitan housing developments, and between family housing and housing for the elderly and handicapped, in general proportion to the needs identified in the California Statewide Housing Plan.

Multifamily – The Agency is required by statute to use the Statewide Housing Plan for the allocation of Agency funds. A new draft Statewide Housing Plan 2015-2025 was issued by HCD in January 2017. CalHFA is reviewing the document and will use the data it includes to inform its program development. The Agency will align its goals with current, relevant data and policy.

Single Family Lending – It is CalHFA's goal to meet the housing needs of low to moderate income homebuyers on a continuous basis by making financing available for the purchase of newly constructed and existing homes in every county of the state. Through the Homeownership Program, CalHFA develops loan programs and strategies to promote the equitable distribution of funds throughout California.

(i) Minimization of fees and profit allowances of housing sponsors so far as consistent with acceptable performance, in order to maximize the benefit to persons and families of low to moderate income occupying units financed by the Agency.

Multifamily – The Agency reviews development fees and verifies that the fees charged comply with the limitations of other state funding sources.

Single Family Lending – CalHFA limits the lender fees and points charged under our lending programs. In addition, Dodd-Frank also places detailed limits on any lender fees.

(j) Full utilization of federal subsidy assistance for the benefit of persons and families of low or moderate income.

Multifamily – See (a) on page 1 of this statistical section.

(k) Full cooperation and coordination with the local public entities of the State in meeting the housing needs of cities, counties, and Indian reservations and rancherias on a level of government that is as close as possible to the people it serves.

Multifamily and Single Family Lending – The Agency markets its programs in a manner which seeks out development projects and individual loan commitments that provide funds for the purchase of homes sponsored by local public entities and nonprofit or for profit developers working with cities and/or counties. The Agency has provided incentives for these developments. In addition, the Agency also works with local governmental entities, State agencies and non-profits that provide other sources of subsidy or financing to help make affordable housing available to low income families. CalHFA outreaches directly to cities and counties in an effort to acquaint relevant officials with programs offered by the Agency. The draft Statewide Housing Plan includes a separate study of Native American community housing needs and challenges and CalHFA will review the study as part of the overall plan review.

(l) Promoting the recovery and growth of economically depressed business located in areas of minority concentration and in mortgage deficient areas.

Multifamily – CalHFA works in cooperation with local public entities, such as housing authorities, to coordinate financing to meet local housing needs and promote the revitalization of urban areas.

Single Family Lending – The homeownership programs promote the growth and recovery of business activity by assisting permanent mortgage financing in all areas of the State and in particular to federally designated targeted areas. CalHFA attempts to distribute all mortgage products on an equitable basis throughout the State, creating marketing plans to increase lending activity in under served areas.

(m) Revitalization of deteriorating and deteriorated urban areas by attracting a full range of income groups to central city areas to provide economic integration with persons and families of low or moderate income in those areas.

Multifamily – Development of CalHFA projects in central city areas has resulted in the replacement and our rehabilitation of substandard housing while increasing or preserving of the supply of housing units available. CalHFA projects have assisted with the revitalization of urban areas by providing visual activity of constructive neighborhood improvement, resulting in a wider range of housing opportunities and choices within depressed areas of the city and discouraging migration outside the inner city neighborhoods. This development has increased the quality of housing units available, provided the type of mixed income and market rate projects that have attracted a diversity of groups for a more dynamic economic integration and transformed vacant and/or blighted lots into useful housing infrastructure.

Single Family Lending – The Agency distributes to CalHFA lenders throughout the State the special Federal income and sales price limits established for federally designated targeted areas in order to encourage a range of income groups to buy homes. Competitive interest rates and the availability of CalHFA down payment assistance programs improve affordability for low to moderate income buyers in these areas. All of the above help to contribute to the revitalization of these targeted areas.

(n) Implementation of the goals, policies, and objectives of the California Statewide Housing Plan.

Multifamily and **Single Family Lending –** The above-referenced programs, through program design and marketing, are designed to meet the goals of the Plan.

(o) Location of housing in public transit corridors with high levels of service.

Multifamily – CalHFA works in partnership with local public agencies, many of which promote Transit Oriented development. Low Income Housing Tax Credits also provide incentives for development near transit. CalHFA multifamily lending products are compatible with Transit Oriented development.

Single Family Lending – The amount of down payment assistance offered under the MyHome Assistance Program is 5% of the purchase price or the appraised value (whichever is less) for borrowers purchasing a newly constructed home in specific Transit Village Development Districts, Transit Oriented Development Plan Area or Infill Opportunity Zone, (eligible areas).

(p) Reducing the cost of mortgage financing for rental housing development in order to attract private and pension fund investment in such developments.

The Agency's low interest rate mortgage financing for rental housing developments attracts private equity investment, especially in those circumstances where the federal low income housing tax credit is available. Pension funds have not yet been equity investors in any Agency financed rental housing developments.

(q) Reducing the cost of mortgage financing for second unit rental housing, as defined by Section 65852.2 of the Government Code, in order to make rental housing more affordable for elderly persons and persons and families of low or moderate income.

As outlined in the Agency's June 23, 1993 Report to the Legislature, the Agency does not have a loan program for second units. Prior attempts to market such a program were not successful.

(2) <u>The occupancy requirements for very low income households established pursuant to Sections 50951 and 51226.</u>

Sections 50951, 51226 and 51226.5 contain various priority requirements for housing development financing. If adequate subsidies are available, certain percentages (which vary depending upon the type of financing and type of developments, and whether they are federally insured) of the total units financed must be made available to very low income households

This information is provided in Tables IV-2 and IV-3 on pages 167 and 168 of the statutory section.

(3) <u>The elderly and orthopedic disability occupancy requirements established pursuant to Section 51230.</u>

<u>Section 51230.</u> Percentage of units allocated for occupancy by elderly persons.

This information is provided in Table II-5 on page 161 of the statutory section.

Subsequent to Section 51230's enactment, the number of laws governing handicapped accessibility for multifamily rental housing have greatly increased. The Agency requires that the design of all newly constructed units comply with the applicable accessibility requirements.

(4) <u>The use of surplus moneys pursuant to Section 51007.</u>

<u>Section 51007.</u> Subject to any agreements with holders of particular bonds, all moneys available for carrying out the purposes of this part and declared by the agency to be surplus moneys which are not required to service or retire bonds issued on behalf of the agency, pay

administrative expenses of the agency, accumulate necessary operating or loss reserves, or repay loans to the agency from the General Fund shall be used by the agency, with respect to existing housing developments, to provide special interest reduction programs, financial assistance for housing developments or subsidies for occupants or owners thereof, or counseling programs, as authorized by this division.

As of June 30, 2017, there were no funds derived from the issuance of bonds by the Agency, which can be declared surplus moneys. All moneys available to the Agency are, subject to agreement with the bondholders, required to service or retire bonds issued on behalf of the Agency, repay loans, pay administrative expenses of the Agency, and accumulate necessary operating reserves (including swap collateral posting and loan warehousing) or loan loss reserves.

(5) The metropolitan, non-metropolitan, and rural goals established pursuant to subdivision (h) of Section 50952.

This information is provided in Table I-1 on page 152, and the Tables I-2,3,4 on pages 153-155 and paragraph (h) on page 146 of the statutory section.

(6) The California Statewide Housing Plan, as provided by Section 50154.

See paragraph (h) on page 146. In general, CalHFA programs seek to implement the goals, policies and objectives of the Plan and attempt to meet the housing needs outlined in the Plan.

(7) The statistical and other information developed and maintained pursuant to Section 51610.

The California Housing Loan Insurance Fund (Fund) insures loans made by the Agency and other lenders which finance the acquisition of residential units in California. The Fund has requested to withdraw its ratings from both Standard and Poor's and Moody's rating agencies.

For 2016-2017, the Fund insured no new mortgages. At fiscal year-end, there were 1,576 active mortgage certificates for $417.1 million.

During this fiscal year, 66 claims were received, totaling $4.6 million. Claims are paid through a risk share reinsurance arrangement with Genworth Mortgage Insurance Inc. The Fund schedules its share of claim payments from premium funds as they are received.

At fiscal year-end, there were 77 insured loans reported delinquent 120+ days totaling $18.5 million.

(8) The number of manufactured housing units assisted by the agency.

Within the Home Mortgage Purchase program, the Agency has provided financing for 1,052 manufactured housing units since 1983. While the Agency periodically explores new innovations in the area of manufactured housing, seeking to apply this product type to CalHFA programs, the Agency purchased no loans for manufactured housing properties in Fiscal Year 2016-17.

(9) Information with respect to the proceeds derived from the issuance of bonds or securities and any interest or other increment derived from the investment of bonds or securities, and the uses for which those proceeds or increments are being made as provided for in Section 51365, including the amount by which each fund balance exceeds indenture requirements.

All proceeds from the issuance of the Agency's bonds have been applied to the housing programs identified in the Agency’s Business Plan and its Annual Report, to service the bonds and swaps and to pay administrative expenses, to establish required reserves and to repay Agency loans. Over the past two fiscal years all available reserves derived from the proceeds of bonds are being used for loan losses and additional costs related to bonds and swaps. There are no excess fund balances that exceed indenture requirements.

The Agency’s financial statements are prepared in accordance with Generally Accepted Accounting Principles (GAAP) and follow the Standards of Governmental Accounting and Financial reporting as promulgated by the Governmental Accounting Standards Board (GASB). All net position of the Housing Finance Fund, whether or not currently held under the liens of bond indentures, are properly reported as “restricted” in accordance with GASB Statement No. 34 and State statutes.

The Agency's bond issues are structured to comply with bondholder agreements and the requirements of credit rating agencies, bond insurers and other financial institutions providing credit enhancement or security in support of the issuance of the Agency's bonds. In addition, some of the Agency’s financings and all of the swap agreements are guaranteed by the pledge of the Agency’s general obligation, which is rated A2 by Moody’s Investors Service and A by Standard & Poor’s. Under State statutes, all assets of the Housing Finance Fund, whether or not held under the liens of bond indentures, are continuously appropriated in support of the Agency’s financial obligations. One of the basis for the Agency’s general obligation rating is predicated on the continuous appropriation. As of June 30, 2017, the Agency’s general obligation was pledged to $296 million of its bonds and to its entire $830 million of interest rate swaps.

The Agency has used a significant amount of reserves accumulated over many years during this economic cycle and real estate market downturn.

The Agency’s interest rate swap portfolio is comprised of 60 swaps with 10 different financial institutions acting as counterparties. The estimated net market value (excluding accrued interest) of these swaps as of June 30, 2017 was a negative $114 million. The swap portfolio has a negative value because of interest rate changes since the date the swaps were obtained. This negative value represents the payments the Agency would owe to its counterparties in the event the swaps had to be terminated. One event that would cause a mandatory termination and an immediate obligation of the Agency to pay the termination value of its swaps would be a loss or severe reduction of the Agency’s general obligation credit ratings.

(10) Any recommendations described in subdivision (d).

Section 51005(d). The agency shall assess any obstacles or problems that it has encountered in meeting its mandate to serve non-metropolitan and rural metropolitan areas, and… include…a quantification and evaluation of its progress in meeting the housing needs of communities of various sizes in rural areas.

The MyHome Assistance Program provides down payment assistance and is available in rural areas throughout California.

Additional information is provided in Table I-1 on page 152, and the Tables I-2, 3, 4 on pages 153-155 of the statutory section.

(11) Section 51227. At the close of each fiscal year, the agency must ascertain that not less than 25 percent of the total units financed by mortgage loans during the preceding 12 months were made available to very low income households. In addition, at the close of each fiscal year the agency must ascertain that not less than 25 percent of all units financed by mortgage loans are occupied or available to very low income households.

Tables IV-2 and IV-3 on pages 167 and 168 of the statutory section.

(12) The revenue bonding authority plan adopted pursuant to Section 51004.5.

This information is provided in Table III-1 on page 165 of the statutory section.

(13) The statistical and other information required to be provided pursuant to Section 50156.

The California Housing Finance Agency shall provide to the Legislature and the Legislative Analyst, in each annual report required by Section 51005, information concerning all units produced, assisted, or insured using agency funds. This information shall include, but shall not be limited to, the sales prices of these units, the number of units within various price ranges or price classifications, the rents being charged for the units, the number of rental units within each price range, the number of households by income level purchasing the units, and the number by household income occupying the rental units.

This information is provided in the Tables in pages 156-164 of the statutory section.

(14) An analysis of the agency's compliance with the targeting requirements of subsection (d) of Section 142 of the Internal Revenue Code of 1986 (26 U.S.C. Sec. 142) with respect to any issue of bonds subject to those requirements under Section 103 of the Internal Revenue Code of 1986 (26 U.S.C. Sec. 103), including the numbers of rental units subject to this reporting requirement by categories based on the number of bedrooms per unit.

This information is provided in Table II-1 on page 156 of the statutory section.

(15) The statistical and other information relating to congregate housing for the elderly pursuant to Section 51218.

At the close of each fiscal year, commencing with the fiscal year ending June 30, 1988, the agency shall, as part of its annual report required to be prepared pursuant to Section 51005, report on its progress in implementing this article. The report shall contain a discussion of the affirmative steps the agency has taken to ensure that congregate housing for the elderly is developed. The report also shall contain recommendations for legislation or other action that would assist the agency in implementing this article.

Although the Agency continues to finance rental properties for seniors under other authority, no bonds or projects have been financed specifically as a result of Article 5.7. CalHFA continues to evaluate the financial viability of affordable assisted living projects.
