# A word from our Executive Director

December 2022

I am very pleased to present the California Housing Finance Agency's first Racial Equity Action Plan. As we complete objectives and move on to new frontiers, there will be many more to follow.

More than a dozen CalHFA employees spent hundreds of cumulative hours working with the Capital Collaborative on Racial Equity to build the foundation for this document. Their contribution to our commitment to racial equity can be seen in every single word.

I welcome comments, as the labor of racial equity is never finished, but always a work in progress.

Sincerely,

A handwritten signature in blue ink that reads "Tiena Johnson Hall". The signature is written in a cursive, flowing style.
