

Official Responses to Vendor Questions
RFP No. 20260717 (Business Analysis, System Support & Project
Coordination)

Vendor Question No.1 received on 7/03/2026:

- **Question No. 1:** In reviewing the RFP Scope of Work and Instructions to Vendors, will CalHFA please clarify whether it will accept a qualified team of consultants to provide the required project and operational support services and associated deliverables?

Answer No. 1: The Agency intends to select a single, best-qualified consultant to perform all required project and operational support services and deliverables. Due to the interconnected and complex nature of CalHFA's multifamily programs and operations, all services must be delivered through one integrated consultant rather than a team of separate consulting firms.
